YANKEE NETWORK FOR SALE?

ABC in 800G Promotion Spree As All Webs Prep for Fall Teeoff

The networks, now in the hottest competitive battle of their lives, are going in for an intensive ballyhoo binge within the next few months in an attempt to sew up audiences. ABC will spend upwards of \$800,000 to promote its shows. NBC plans to lay out \$500,000 and CBS is expected to match the figure. Besides using radio, the webs will invest heavily in newspapers, magazines and allied media in the largest and cost-liest mass saturation compaigns in industry history.

Reason for the tub-thumping spree reverts directly to the talent raids staged against rival webs last year by CBS board chairman Wiliam S. Paley. Since many of its top shows during the coming season were op competing nets last year. CBS is forced to spend heavily to inform viewers of the switch. NEC, by the same token, must exploit the programs it has left, in addition to the many new packages it built to replace its quondam stars. And ABC, to which all this has come as bad onews, plans to spend more than the other two to protect its program investments and remain close to its rivals.

ABC will concentrate most of its time and money on block promotion for Thursday and Sunday mights, its two hottest, plugging the entire program lineups instead of individual shows. Friday night ballyhoo will be keyed to the average workers' theme of "Aren't You Glad It's Friday," with the tagline, of course, being that the audience can hear the ABC shows then. Sunday night pitch is pegged on an "ABC Is All Dressed Up in Its Sunday night pitch is pegged on an "ABC Is All Dressed Up in Its Sunday Best' theme.

Both campaigns will run a 'full six weeks, and be followed through during the entire year. Web will launch its Friday night ballyhoo with a full-page Life ad Oct. 3 and its Sunday night campaign with a full-page Satevepost ad the following week. Both ads will be repeated later in Look. According to ABC ad-publicity veepee Ivor Kenway and promotion chief Ted Oberfelder, the block promotion idea makes it possible for the web, its clients and local stations to tie in. PROVOST TO BALTO.; GANNON SUCCEEDS

llarvey J. Gannon, former traffic and service supervisor of WNBC, key N. Y. flagship station of the NBC web, was named this week to succeed D. L. Provost as program manager. At the same time, station manager Tom Mc-Fadden appointed Clay B. Daniel to the newly-created position of production manager.

Fadden appointed Clay B. Danier to the newly-created position of production manager.

Provost who has held the NBC job since 1942, resigned, effective Sept. 6. to take over as business manager of WBAL and WBAL-TV. Hearst Radio outlets in Baltimore.

Provost, in his new job, will supervise day-to-day operations of both Balto stations, thus freeing Harold Burke for development and planning projects. Burke is now working out a new expansion program for the TV station. Provost, who helped develop many NBC programs and stars, entered radio in 1931 with his own package outfit and was at one time sales manager of Empire Broadcasting, transcription organization.

Mutual Comes Up With New Slant On Juve Shows

Mutual's block system of programming, which has paid off in its Sunday afternoon strip of mystery shows, will be extended to a group of weekday juve airers starting next month. Step is being made in conjunction with another move to jettison the cliff-banger type of radio fodder for the kids in favor of complete half-hour action shows set up in a one-hour across-the-board block from 5 to 6 p.m.

the kids in favor of complete half-hour action shows set up in a one-hour across-the-board block from 5 to 6 p.m.

Drastic overhauling of the juve program approach was made by Mutual execs in consultation with clients in an effort to boost slipping ratings. It has been established that kids, after missing one or two chapters of the serial-type shows, tended to lose interest in the continuing story. Switch to the complete actioners, featuring a familiar roster of heroes, will permit more irregular listening without destroying the kid's loyalty to his favorite character.

One-hour block of kid shows will also be formatted into an integrated pattern of entertainment. Bankrollers of the various shows have entered into a cooperative system of laying out future programs and may yet agree to a cross-plugging tactic to bolster to Mutual block as a whole. Group of Mutual execs who put over the idea with the clients and agencies include William Fineshriber, Jr., v.p. over programming; Robert Schmid, veepee over promotion and planning, and Jess Barnes, sales chief.

Lineup of juve shows alternating in the one-hour block will be "Capitain Midnight," for Ovaltine; "Straight Arrow," for National Biscuit Co.: and "B-Bar-B Ranch" and "Adventures of Ted Drake," both sustaining. Block will tee off the week of Sept. 20.

Canada's Sinclair Savs

Canada's Sinclair Says Aloud He Doesn't Like England, Stirs a Tempest

Trailing his noon news broadcast with the off-hand ad lib that "I don't like England either," Gordon Sinclair, ex-Variety mugg, just back from his fifth round-the-world reportorial chore for The Toronto Daily Star, Canada's biggest daily, swamped the CFRB. Toronto, switchboard with yowls of protest.

Sinclair's concluding news item dealt with the statement of Shirley May France, young American swimmer about to attempt a crossing of the English Channel, that "she did not like England." Sinclair's kicker was, "I don't like England either." Sponsored by Alka-Seltzer, he refused to make an apology over the air, told those concerned: "I don't like the cimate or the people; if I don't like a country, why shouldn't I say so if I want to."

DICKERING IN TALKING STAGE

Washington, Aug. 16. Washington, Aug. 16.
Yankee network, largest indie
radio chain in New England, has
been put on the auction block by
its owners, the O'Neil family,
which controls the General Tire & Rubber Co.

to a point where an agreement can be reached. It is understood that queries have been made by a syndicate comprising New York and Hollywood investors, which are being followed up. Price has not been divulged.

Spokesmen for Yankee emphasized that conversations are only in the talking stage and that no definite offer has been made. They deelared the web is not for sale and is not seeking a buyer, but admitted they have been approached by interested buyers in the past and said an "attractive offer" would be entertained.

It is also understood that any deal would not include Yankee's television station in Boston, WNACTV. This has given rise to speculation that the network's owners want to get out of sound broad-casting only. Other sources have indicated, however, that the owners are willing to give up the TV outlet also to concentrate solely on their tire business.

Any transaction, it is believed, would include sale of the six AM stations owned by Yankee, along with General Tire's approximate 19% interest in Mutual. Stations include WNAC. Boston; WEAN, Providence; WICC. Bridgeport; WONS, Hartford: WMTW, Portland, Me., and WAAB, Worcester. Sale of the last two to Radio Enterprises is now awaiting FCC approval.

In addition to the six owned-and-operated outlets, Yankee also has affiliates in Waterbury, Holyoke, Lowell and Fall River in Massachusettis; Bangor, Me.; Manchester, N. H., Pittsfield, Mass.; New London, Conn.; Laconia, N. H.; Augusta, Me.; Springfield and Fitchburg, Mass.: Rutland, Vt., Portsmouth, N. H.; Waterbury, Vt.; Concord, N. H., and Claremont, N. H. Yankee has also applied for television grants in Bridgeport and Springfield but has not decided on whether to pursue those bids in view of the proposed rew channel allocations, which provide the cities only with ultra-high frequency channels.

FCC Reaffirms Its Rules **Barring Transferring Of** Time Reservation Pacts

Time Reservation Pacts

Washington, Aug. 16.

Regulations adopted last January barring transfer of time reservation contracts upon sale of a station were reaffirmed last week by the FCC. The rules were designed to insure maintenance of licensee responsibility for the selection of radio programs and to prevent rights granted by a licensee continuing for an unreasonably long period of time.

An order reaffirming policy was issued on the basis of petitions from Berachali Church, Inc., and the Rev. J. Frank Norris, contesting the rules. Berachah Church once owned WRAX (predecessor station to WPEN) in Philadelphia, in which it sold stock with a reserve time clause. It filed suit last year to enforce the agreement. Rev. Norris took over several lime contracts held by the First Baptist Church in predecessor stations of KFJZ. Fort Worth, Tex. He entered into a time reserve contract with the station in 1946. The Commission said that while it behieves its rules have the effect of rendering existing time contracts impossible of performance, it recognizes that the possibility of the parties, in the light of the new rules, presents questions of State law which the regulations, are not intended to prejudge.

For example, Faye Emerson's "Silent Partner" show must go off to make way for a commercial commitment. NBC regards Miss Emerson as a potentially click radio personality and rather than let her slip out of their hands, the network wants to keep her under contract. This would put NBC much in the same position as film companies with a permanent star contract list, which it could parcel out as it pleased, either commercially

Thus the network could parlay her services and use her over a number of shows, such as "Who Said That?" "Leave it to the Girls," etc., and even start recording her next summer series in advance.

NBC has similar plans in mind for "Four Star Playhouse" (Fred MacMurray, Rosalind Russell, et al.), which also bows out to make way for commercial commitment. NBC would like to put the stars involved under a five-year contract, making them available for a certain number of shows each week, either for guest shots or for a series.

NBC will go through with its plans for a split-time experiment in programming, utilizing the 11 to midnight Sunday night hour in which to bracket three 20 - minute shows. With NBC now in the packshows. With NBC now in the package business in a big way (summer schedule includes 26 "house" sustainers and commercial features), the web's in a dither, since most of them must be dispossessed when the winter commercials return. By experimenting with 20-minute segments and patterning the shows into the new formula, NBC hopes to salvage some of the worthier properties. properties.

NBC regards as three of its most prized summer possessions the Arlene Francis-John Conte "My Good Wife," "Dragnet" (with a 7.5 rating) and Diek Powell (7.2). Since all three are scheduled for displacement, the network may parlay them into the 20-minute experimental idea for a Sunday night year-round showcase.

Martin and Lewis and Henry Morgan also present a problem to the network. Latter, doing summer duty to Bristol-Myers, must take a powder Sept. 28. It's regarded as a certainty that both shows will be retained, probably going into the Friday night 8 to 9 open hour, thus parlaying them with Pabst's "Life of Riley."

The James and Pamela Mason show is set to depart Sept. 15 in favor of "Duffy's Tavern," while the Billie Burke-Harry von Zell "Chieken Every Sunday" gets the heave Aug. 31 for Biow's "Hogan's Daughter." Janc Pickens departs in favor of Cities Service moving into its now Monday night time Aug. 29.

Dept. of Commerce Appraises TV, Sees It As Leading Sales Medium

Washington, Aug. 16.
Although its audience doesn't yet ompare with radio's, television's SEALTEST TO SHARE compare with radio's, television's superior qualities as an advertising tool has been sufficiently demonstrated to indicate its future as the leading selling medium, the Department of Commerce reported the comparison of the comp over the weekend.

In a comprehensive analysis of
the medium's advertising impact,
prepared under the direction of
Charles P. Redick, chief of the
General Products Division, the De-General Products Division, the Department forecast that video will stimulate larger ad budgets in which the printed media will beneomes a more specialized medium." will participate "in proportion to its more restricted use."

The Department's long run appraisal was based on these premises:

1. A continued upward trend in the ratio of leisure hours to work

ours. 2. Probable acceptance of video s an addition rather than a re-lacement in the communications

placement in the communities.

3. Creation by television of new desires and needs which, together with other advertising media, "will help industry move a far greater volume of goods than ever before," resulting in increased budgets all along the line.

showing a decline of 20 to 30% in reading by families owning TV sets and nearly 50% reduction in radio listening.

It also expected that the new FCC allocation plan would have an adverse effect for a while on set purchases, causing many prospective buyers to hold off until new receivers for UHF stations are on the market and the overall television picture becomes clearer.

But in areas where stations are operating, the increased availability and sales of sets provide the basis for rosy forecasts of the part television will play in the national economy. Consumer demand for sets, said the report, "has exceeded even the most optimistic prediction of the industry," with an estimated 1,860,000 receivers installed as of July, 1949, and with prices moving to levels within reach of a greater mass of consumers.

Already, because of its greater per capita sales impact, the Department reported, television is comparable to radio as an advertising medium in many markets, despite the fact the TV audience is only a fraction of the radio audience and the potentialities of the medium are not fully utilized. Pointing to a survey by WOR, in New York, it added that in many evening time periods the television audience in Metropolitan New (Continued on page 40)

Chi Trib Tripped In All-Star TV Nix

Chicago, Aug. 16.
Chi Tribune's All-Star football game, held Fri. (12) has caused considerable intramural moaning on the part of WGN-TV, the telebranch of Col. Robert McCormick's communications empire, as result of promoter Arch Ward refusing a last-minute plea to have the game televised.

Most of the gripes were being sounded on behalf of the WGN-TV promotion staffers, who, from now on, will have to do some tall explaining to sports promoters why they should have their own events televised despite Ward's point-blank balk at okaying a telecast of his annual grid event.

NBC television will give its Sunday night program lineap several reshuffles within the next several weeks in an attempt to buck CBS-TV's "Toast of the Town" for top rating honors. First move will be the extension of "Broadway Spotight," half-hour vaudeo show packaged by indie producer Martin Jones, from its present half-hour format into a full hour, from 7:30 to 8:30 p.m., starting Ang. 28.

Fashion Houses Scram TV, Claim Medium De-Glamorizes Product

Video's bright hopes last year of becoming a natural fashion show-casing medium for clothlers and department stores have gone a-glimmering. This source of sponglimmering. This source of spon-sored programming coin has now completely dried up and there is little prospect in the immediate future for it to start flowing again. Despite the approach of the peak advertising season for fall styles, none of the major TV, outlets in New York have any fashion shows, either sponsored or sustaining on their schedules.

Fadeout of the fashion programs due to the disappointing results during their brief heyday several months back has brought along a rash of recriminations months back has brought along a rash of recriminations between clients and ad agencies, on one side, and TV program directors, on the other. While the bankrollers are finding the cause of the failure in the limitations of the medium, the TV-minded faction contends they were never given a chance to develop the right type of show.

Chief rap against TV, according to the clothiers, is that it de-glamorizes their product. The smallness of the TV viewing screen. smallness of the TV viewing screen, the poor quality of the images and lack of depth perspective made it difficult, if not impossible, to sock across the classy stylistic details. And then there was lacking the important ingredient of color, according to the style houses. Latter, with an average ad budget of about \$80,000, are now shifting into more traditional media.

Countering the complaints, TV programmers contend that the fashion show bankrollers tried to crowd their whole line into a single show and thereby wore out the viewers. In order to make them stick, the style angles should have been injected more subtly as part of an entertainment format along the lines of motion pictures. Costing an es-timated \$17,800,000, the circuits will bring six additional cities into the video network and provide ad-ditional channels for sending pro-grams between major cities. The new circuits, to be built by American Telephone & Telegraph Co. and Wisconsin Telephone Co., will extend network television to Des Moines Minneapolls Syracuse.

Co. and Wisconsin Telephone Co., will extend network television to Des Moines, Minneapolis, Syracuse, Schenectady, Utica and Norfolk. In addition, a link will be constructed to carry programs from Madison. Wis., to Milwaukee. It is expected the overall program will be completed in less than two years.

Largest of the circuits will parallel the present coaxial cable between Pittsburgh and Chicago, providing another four video relays between the two cities. This link is part of the New York-Chicago system.

A second microwave link will provide three channels from Chi-cago to Des Moines and one the other way. With coaxial now avail-able between Des Moines and Min-

A circuit to be constructed between Albany and Syracuse will make possible extension of network television to Schenectady and Utica which are now being linked with Albany. According to one network talent chief, clearing property rights to a story or play had been the biggest stickler heretofore in staging a dramatic show. "Now," he said, "we spend our time trying to salisfy our top brass that the actors have never been on the left side of the fence. If one of them has even had his picture taken with a known Communist, even if it was several years ago, he's a dead duck as far as we're concerned."

When the situation broke originally in the industry, the agencies attempted to place the clearance burden on the webs. They claimed the networks, through selling them air time, were responsible for keeping the air clear of Reds. After considerable bickering back and forth, however, the webs have unloaded the clearance problem back on the agencies. They claim the ad meh and not they are responsible to clients. WGN, WBKB In **Chi TV Monopoly On Grid Airings**

Chicago, Aug. 16.

WGN-TV and WBKB, after some nifty backfield deception, have rammed a power play through the Chi TV opposition that gives then a monopoly of local college football games this fall. Shut out were WENR-TV and WNBQ, who'll have no Saturday games to televise. First line thrust was the signing by both stations for five Notre-Dame games, which will be carried over the DuMont network, but will be split in Chi on an alternate basis, except for the Southern California tilt which will be shared. Next, dealing mainly through WGN and the Chi Trib, which has a working arrangement with North-western U. (Medill School of Journalism is a lusty offspring there, WGN-TV and WBKB lined up exclusives with the Evanston school for its five home contests, which they'll also split on alternate weeks. By that time, the only games worth telecasting in the Chi area were home games of the U. of Illinois at Champaign. WENR-TV and WNBQ, feeling slightly punchy, figured the cost of relaying the games to the local audience would outweigh their value, and decided to several Illinois games between

So WGN-TV and WBKB picked up several Illinois games between them to pad out their schedules, and blanket the fall Saturday contests. The two losing stations, left with nothing but their uniforms, would like to get the names and addresses of the referees.

staft will produce and direct, with CBS collaborating with Wiman on the package.

Half-hour program will follow closely the format of the legiters, last of which was staged on Broadway in 1932. Six or seven principals will constitute the permanent cast, in addition to a sixgirl line. One top-name guest will appear each week. Original music and lyrics are to he penned for each show by various songwiters, with each program in addition to feature one sketch from the stage productions. Lee Sherman will handle the choreography.

CBS plans to test the show via a closed-circuit audition within the next few weeks and then seek a sponsor. It may be slotted biweekly as an alternate to Arthur Schwartz's "Inside U.S.A. with Chevrolet," pending the final decision of Jack Benny on whether he will agree to kinescoping a show for that time period.

Arthur Schwartz, producer and co-author of the forthcoming "Inside USA with Chevrolet" show for that automotive sponsor (Campbell-Ewald), thinks he will establish a new standard when his 30-nimute telerevue kicks off Sept. 29. He just signed Peter Lind Hayes to star. Latter's wife, Mary Healy, will probably work into the video series but, at the moment, she will be concerned with moving their effects to New York as Schwartz wants to do the entire 26 weeks east.

Apart from such innovations as Jay Blackton, a foremost Broadway musicopody maestro, probably batoning the show—the first time a name of his stature has been regularly engaged for TV—he will have 23 men as against the standard 13 or 14 musicians that the Milton Berle and Admiral utilized.

There will be a studio audience for comedy reflexes and applause but it will never be shown. Sketches from a long line of past Broadway legit musicals, by Howard Dietz, Corey Ford, Newman Levy, Moss Hart, J. P. McEvoy and others have already been cleared by Schwartz. Dietz will be the regular songsmith for fresh tunes with Schwartz. Sam Taylor will write the regular continuity. A director is now being negotiated. Half-hour package is probably television's costliest to date, figuring \$20,000 weekly for talent and production, sans time. It starts off as an alternate half-hour but goes every week commencing Jan. 1 at which time "Inside USA" shifts from its Thursday at 8:30 stot to 9 p.m. In the meantime Ed Wynn holds down the Thursday at 9 slot, but he will do it vla kinescope from Hollywood. TV broadcasters had looked on the Charles-Lesnevich fight as a test. If the fight failed to draw, they said, then it would be proved that TV, which had been banned, was not the culprit. But the fight promoters evidently figured otherwise. Bout grossed only \$75.832, considered extremely weak. Gen. Kilpatrick attributed the thin gate to "weather and other factors" and not to video, but the ban on TV in next week's bout still holds.

CBS, meanwhile, drew the assignment to carry the Robinson-Belloise bout on radio, marking the first time in years that it has covered a boxing match on AM. Coverage is part of its recently-signed pact with IBC and the Garden, under which it splits the outdoor championship fights with NBC. Ballantine's will sponsor the pick-up, along with regular Wednesday might bouts to be carried by CBS on both AM and TV. Gillette will sponsor its share of the outdoor fights on NBC-AM and the Friday night bouts on both NBC-AM and TV.

TELEVISION REVIEWS

(Kastor, Farrell, Chesley, Clifford) Here's a new and novel television show with enough of an original format to make it a promising future contender. On the

original format to make it a promising future contender. On the preem broadcast (12), though, the cast and crew got mired in what was probably the biggest melange of stunts yet attempted on TV. Result was 55 minutes of sporadic entertainment that was okay when it was working according to schedule but downright embarrassing at other times. Show could also be trimmed profitably to a half-hour.

Format basically is one of viewer participation, but with a number of new twists. Joe Rosenfield, alinight disk jockey on WOR-AM (N.Y.) and Joe Bushkin, jazz pianist, are the couple of Joes in question. With the help of vocalist Joan Barton, announcer Tom Shirley, and a soulful-eyed hound used for "atmosphere," they offer the usual run of prizes for stunts and correct questions. Initial show teed off with a modified scavenger hunt in which viewers were asked to bring in such articles as a burned-out light bulb or an 8-ball, and followed with contests such as having viewers try to stump the cast by plonning in songs. If none of the performers could sing or having viewers try to stump the cast by phoning in songs. If none of the performers could sing or play the tune, the viewer got a

of the performers could sing or play the tune, the viewer got a prize.

First guy to bring In one of the scavenger items got a polite brushoff before the cameras and was escorted to a seat to await his prize. Phone call idea was okay except that the songs, to be acceptable, must have been named in a recent list published by a trade magazine. Since many of those requested were not on the list, Rosenfeld would not even name them, which must have riled many viewers. Then, when Rosenfield attempted to phone a viewer on the outside to spring a "Joe-Pot" question, the lines were all tled up with the incoming calls. Seems nobody had thought to provide another phone extension. Interspersed with it all were some okay tunes by Bushkin and Miss Barton.

Rosenfield's personality projected well on TV but several times he started to throw radio cres to his director. And, while it was not his fault that the show failed to come off as planned, he was too obviously embarrassed with the snafus. Bushkin played and sang amilably and Miss Barton, while thrushing okay, showed a tendency towards over-mugging. Shirley, on tap to toss in the Blatz commercials, also took part in answering the phone calls. Hound, whimistically hamed J. P. Morgan, wanged his tail at the right times. Program, when it could, showed signs of TV intimacy. With its novel stunts and in view of the current give away fad, it could work out into a good package. It's obviously going to need considerable polishing, though.

And to portray the story, the station called upon the Karamu House's Gilpin Players, an outstanding group of actors, who did a job worthy of network note. This was the first call made upon the Gilpin group and if Monday's presentation should call on them steadily. Peggy Davenport, as Lucy, carried her role of the conscientious, hard-working wife, well; Lloyd Gentry, as Madison, the dreaming husband, handled his portrawal with a fine touch. William Collins as the son, Booker, did much os parken the first scene. Notan Bell, as Uncle William, rounded out the cast. Makeup could have been lunproved, and there were instances of over-acting. "Mary Kay and Johnny," popular video domestic comedy, switched back from its quarter-

lar video domestic comedy, switched back from its quarter-hour setup to the original half-hour session it held last winter. In so doing, however, it has stretched its comedy a little thin, if Thursday's (11) opener is an indication. Whole airer was rather strained and obvious, to come off as vapid entertainment.

Session concerned an uncle of Mary and Johnny's, who was coming to New York to engage in a prizefight, and was going to use their apartment as headquarters because the "Y" was full up. Uncle Leland (played by Jack Davis) was a slightly overpowering gent, who insisted that Johnny live the austere life he did, sans smokes and drink, and even got Johnny and Mary to do road work with him in getting into condition. On paper this may have read like funny business; on video it was weak. Johnny's objection to Uncle's regimen occasioned one of the few good gags of the session, as when Johnny sald: "I'm run down and tired— and I want to stay that way."

But otherwise, It was pallid stuff, although Mary's (Mrs. Johnny Stearns) breathless manner and Johnny's offhand approach gave the lines the most they could get.

(Ketchum, MacLeod & Grove)

WNBK makes its first regular mid-afternoon introduction with a well-turned-out 30-minutes of home economics under the guidance of Louise Winslow, formerly of New York. The entire demonstration is from a specially-built studio at the East Ohio Gas Co. and then brought to the station by means of a coaxial cable, a half-block long. Construction and preparation of the studio were reported to cost around \$100,000.

Miss Winslow's debut (9) marked a show that will attract attention. Opening performance was a neat stint, with Miss Winslow handling the commercials (gas company, stove and fixtures), as part of the overall 30-minutes, of programming. She tells her audience in advance that she's already prepared much of the basic work in ler program to be; the baking of a cake and preparation of ham-rolled asparagus. Her audience can write in for recipes.

Camera-work was excellent; two cameras bringing entire picture into play and showing fine bit of preparation. Stage sets, built under direction of WNBK's Jerry Gentile, is attractive. Arrangement of fixtures and lighting is a credit to Gas Co.'s enginers.

This is a folksy series designed to appeal to pct owners and animal lovers. Theme is a pet shop complete with live specimens of fish, flesh and fowl, wherein proprietor Gail Compton shows how to take care of ailing pets; entertains a stream of visitors with pets; and picks an animal each week for a "heroism award."

Only other regular cast member is is eight-year-old daughter, Gay, who answers phone calls and performs stooge jobs around the shop. But neither Compton is a TV match for the animals appearing on the program. Such scene-stealers as wistful puppies, bored dogs and greedy monkeys dominate the entertainment angle of "Pet Shop."
There's not much continuity to the show, but it doesn't need much. Camera work is the most important part as the lens catches the weary expression of a dog being muzzled and bandaged; a monkey warily snatching a tidbit from Compton: a flock of cazed finches Indignant over being disturbed and a trio of cute puppies with that "take me loome, mister" look.

Burr Tillstrom, with Fran Allison, brought his collection of puppet characters back from vacation for their new stint for RCA Victor, this time screening over NBC-TV from WNBQ instead of their old stamping grounds, WBKB. The vacation did Kukla, Oille and their pals a lot of good, because the new series is sharper and funier than before.

KFO should retain its large audience of children and adults. In fact, judging from the first week, of programs, the show is more than ever an adult eye-catcher. Gags and situations are wholesome fun, and delivered with spontaneity, plus enough good sense to tickle an elder's funnybone.

Camera work on show is still at a high level, and catches the antics of Kukla, Ollie, Beulah Witch, Madame Ooglepuss, Fletcher Rabbit and Cecil Bill to good advantage. It's still the same KFO show, funnier than ever. Mart.

The brainchild of NBC staff producer Tom Ward, this show emerged as a fine public service effort despite its lack of any of the accepted entertainment factors. In face of the current policepidemic and the resultant hysteria on the part of many parents, the program delved honestly into the symptoms and cure of the dread disease, holding interest if only because of its subject.

With the format consisting merely of a roundtable discussion among three medico directors of the National Foundation for Infantile Paralysis, it could have been presented just as effectively on AM. But Ward figured, and rightly so, that many televiewers might miss a radio discussion and thus the TV program was a necessity. New program rates praise for ingenuity, but the format appears too ambitious or involved for a smooth 30-minute local telecast. It covers musical identifications—sung or played by live local artists—propounded to both studio contestants and home viewers, and the solution, by on-the-sceners, of a dramatic puzzler acted out. With plentitude of commercials, time segment is hardly sufficient. One mishap throws the running out of gcar—as happened at start of last stanza seen. Longer rehearsals are possibly the answer.

Murder mystery, neither a bad nor a brilliant piece of writing and acting, lost some punch when police inspector—played by David Kroman. of WGY—lacked time to explain where woman contestant coming closest to correct solution missed. Interview with 13-year-old youngster, here only a fortnight from Ifaly, was clipped after personable youngster did a plano accordeon solo, for studio tabbing, Final bit, featuring an except from "Samson and Delilah" by Dolores Harvey, 18-year-old Albany Negro with a promising voice, came off well. Audrey Ellis, who won a singing contest at WPTR, guested previous week.

Ennece Bill Mulvey, good-look—time inspectation and easy, reeled off a solid if overlong midway commercial. Louise Woodruff didn't have too much opportunity to show. Closeups were moderately cancer at least once.

Hurley's crack at one point, calling on Stone to "go back to Jerusalem." was considered not only off-base but entirely uncalled for. What precipitated the Hurley remark was his inference that Stone had called him a crook.

The videocast, highlighted by a discussion of the recently-released White Paper on China, was punctuated throughout by rancor and bitterness, with Hurley lashing into Stone as a follower of the Red line and working for a Leftist sheet.

Things started humming in earnest when, at one point, Stone asked Hurley if he knew of any place where there were bigger crooks than in China.

Hurley: "You asked me if I ever saw any bigger crooks?" Stone: "That's what I asked you. Even in the oil fields of Texas or Oklahoma."

Stone: "That's what I asked you. Even in the oil fields of Texas or Oklahoma."
Hurley: "Okay, kld. Yesslr. . . You go back to Jerusalem; I'll go back to the oil fields. But If you don't want to fight, don't start it."

Tele Follow-Up Comment

Columnist Ed Sullivan returned as emcee on CBS-TV's "Toast of the Town" Sunday night (14) after a three-week vacation, headining a sporadic talent layout. During the last few months before he left, Sullivan had been gradually improving in his video work but, while he tried to break through with some comedy Sunday night, it failed to come off.

Talent lineup was marked by the fine work of Joe Laurel, a British pantomime comic, and the dull stint of film actor Sonny Tufts. Laurel, one of the freshest vaudeo acts this year, started moderately with an eccentrle dance but then socked across pantomimic impersonations of Chaplin and Laurel & Hardy. Tufts, brought up from the studio audience for an obviously-prepared skit, was practically tongue-tied. Despite his snafu of the act, the cameras were glued to him and Sullivan, while mestro Ray Bloch, only one of the three to elicit any laughs, was out of range. Hazel Scott displayed her piano virtuosity with a couple of numbers but her "Warsaw Concerto" played slightly overlong for TV. Hamilton Dancers, comprising two girls and a man, were good in some impressionistic terping and Grace Drysdale put her puppets capably through some standard routines. George DeWitt showed a pleasant comedy person ality in some standard for sullivand during the first woek of the latter's vacation, looked well when brought up from the audience for Sullivan's somewhat fulsome gratitude.

Interesting attempt to answer Variety's contention that TV is the static part of the story of the sullivan's somewhat fulsome gratitude.

the audience for Sullivan's somewhat fulsome gratitude.

Interesting attempt to answer VARIETY'S contention that TV is starved for cheesecake failed to pan out Saturday night (13) on "Four Star Showcase," hour-long vaudeo presentation on the N. Y. Daily News' WPIX. Answer was to have been given in a leg contest, in which model Lola Montez and announcer John Tillman measured the gams of a group of gals. But camera closeups of a single leg with the skirt hiked to the thigh made them look like an unexciting piece of beef, no matter how nice the leg actually was. It might have been cheesecake but it was certainly not presented palatably.

Cheesecake theme was carried throughout the show by WPIX program chief Warren Wade, who produced. VARIETY'S Page One, which carried the story last week, was blown up for a backdrop and all the femme acts were introduced as cheesecake specialists, although the way they were presented would not have scared even a Lindy's busboy. Best of the acts was Rusty Arden, who scored with some neat impersonations of w.k. gal singers. Gail Meredith sang a couple of tunes acceptably and Dorothy Wenzel and the Albertas handled the dancing chores okay. Norman Jensen, who has the regularly-scheduled "Mr. Magic" show on the station, impressed with his legerdemain and the Jerry Jerome orch backed the acts well. News' upcoming Harvest Moon Ball was plugged through appearances of three groups of contestants. Wade's production and direction by Clay Yurdin were good.

"Colgate Theatre" maintained its level of competence in staging "The Key in the Lock" Monday night (15). Play, written by Harold Goldman and adapted by Jack Bentkover, had a straightforward plot with a last-minute twist giving it a windup sock. Yarn involved a murder in which the lingenious assassin traps himself by a slight sellp of memory. Thesping was okay in in Europe.

Settings were neatly airanged.

Elliott Roosevelt is following in the latter day family tradition with his show business assignment as replacement for the vacationing Dick Kollmar. His father, the late president, was probably the No. 1 draw on radio for many years and his mother and sister constitute an important discussion team on ABC, In conjunction with his wife, actress Faye Emerson, Elliott Roosevelt does a passable job as co-conferencier. There are times when he kills the point of a story with a fluff, but generally he is acceptable.

At this early point in his show business career, Roosevelt has learned the show biz maxim "the show must go on." Earlier in the afternoon, he was bitten on the face by a spider. He was one of three casualties. Joey Faye had a swollen arm because of a penecillin allergy, and Eric Thorsen sang despite an infection in his vocal chords. Two medicos westanding by in the wings.

Despite these mishaps, show played comparatively well. Producer Martin Jones shifted the Faye's spot in the domestic skit to Jack Gilford, because of his inability to move around. Thorsen couldn't put his full power into his rendition, but came off well, although somewhat over-ballyed.

Major guest was Jackie Robinson, of the Brooklyn Dodgers, who was Intervlewed by a Negro ventrolloquist dummy. Candy Montgomery had a passable voice, dressed up with excellent lighting, and Margo Wade did well in her tap stint.

Conrad Thibaut, now permanent emece on Jacques Fray's "Music Room," provides considerable dressing to this show. The essential charm of this layout has been retained while drive has been increased. "Music Room" has under

on her 70th birthday was an impressive broadcast, chiefly because the sentiment was generally kept within bounds. Perhaps only a Barrymore could have brought so many celebrated names to the roster. At any rate, only a few top stars and personalities were missing—undoubtedly because they could not be reached in time. Several things were notable about the 25-minute ceremony. As always, the professionals were more effective than the prominent nonpros. One of the most moving parts of varied lineup was when a seemingly endless array of stars spoke their names as "signers" of a "birthday card" to the actress. This device, first used so adroitly in the FDR election-eve broadcasts, was more moving than the somewhat emotional, longer statements of the participants.

The clincher to the whole affair, of course, was the personal, rather private exchange of greetings between the members of the Barrymore family—three generations of them. Besides brother Lionel, there were sons Samuel Colt, John Barrymore Colt, Maughter Ethel Barrymore Colt Miglietta and grandson John Drew Miglietta.

Miss Barrymore, understandably touched, directly addressed her

grandson and the President, then said, "I'm afraid there is not time enough left in my life for me to thank you enough for this overwhelming tribute. It's far more than I deserve, but, believe me, it's not more than I can take to my heart."

The tape-recorded program, which was still being put together up to air time, was made wherever the participating names could be located. Somerset Maugham, for instance, recorded his two spots in southern France, while others were made and sent from New York, Washington and various parts of the U.S. and England. Besides those listed in the credits above, there were several dozen top great and near-great "signers" of the "birth-day card." As president of the Academy of Motion Picture Arts and Sciences, which presented the tribute, Charles Brackett presided.

From a trade news viewpoint, this interview with a trio of German broadcasters contained several items of interest. From a listener viewpoint, however, this show missed an opportunity to probe into modern Germany and lacked general appeal. Participating on the show were Hanns-Peter Herz. news editor of RIAS (Radio In American Sector); Erich Oder, RIAS production manager, and Heinrich Wederman of Radio Stuttgart.

The number of radio stations on the air in Germany and the number of hours each is on the air seemed to be of more importance than the type and content of German programming in this interview. On the basis of this interview. On the basis of this interview, who how would have known that Germany came through the experience of nazism and defeat. In a "call to arms" issued to FM broadcasters to awaken interest of manufacturers to produce sets, Edward L. cuss coning commercial radio programs in South Africa was held in Johannesburg yesterday (8), and was attended by "C" program managers from Johannesburg, Cape Town and Durban, under chairmanship of Gideon Roos, director general of South Africa Broadcasting Corp.

Date of commencement of the commercials hasn't yet been fixed. Roos reported, as this was dependent on the arrival of necessary equipment which had been ordered last year. A big obstacle was the staff shortage, and the obtaining of additional personnel for all departments was being attended to.

Roos pointed out that the commercial network wouldn't be a separate organization, but an integral part of the whole SABC. Its staff would pool their activities with the staff at present working on the "A" and "B" programs.

Two video shows this past week focused audience attention on the lead story in the Wednesday (10) issue of Variety. Yarn, citing the shortage of cheesecake on TV, was the Impetus for Robert Q. Lewis giving television viewers a gander at his gams. Substituting for Arthur Godfrey on the "Arthur Godfrey and Friends" show over CBS-TV last Wednesday (10), Lewis had the cameras spotlight the Page One story, while he rolied up his paints to provide the audience with some leg art. "Four Star Showcase," for its broadcast over WPIX Saturday (13), used the front page yarn as the backdrop for its entire show. Program followed a varlety format, but interjected additional glamour via a leg contest, which brought into view a galaxy of undraped stems. Further response to the story was evidenced by Dwight Deere Wiman's proposal to use a line of six lookers in his 'tele adaptation of the "Little Show" revues, set for CBS-TV this fall. Topper, however, was Eagie Lion's foilowup of the yarn. Company, unable to resist the tie-in possibilities, sent Variety an edible cheesecake from Lindy's. An attached photo of EL starlet, Barbara Payton, also in the cheesecake groove, accompanied the delicacy.

R&H Beer has come up with one of the most unusual commercials on television in its bankrolling of the Monday night boxing matches from Coney Island's Velodrome via the N. Y. Daily News' WPIX. Brewery for some time has used one of ad Impresario Douglas Leight bilimps to fly over the netropolitan N. Y. area advertising its product. On Monday nights the bilmp hovers over the Velodrome. Whenever a plug is to be inserted into the tele show, the camera, equipped with a telephoto lens, has only to pan up to the bilmp to pick up the beer's ad message on a moving electric tape, while announcer Jack McCarthy talks about the product. One of the best factors of the plug is that it costs the sponsor no additional money—not even a silde has to be prepared. Message can be seen clearly on video screens.

Brandt theatre circuit in N. Y. has tied in with the Scheck-Dahlman package agency for a new series of television shows titled "Telefinds," which preems Sept. 5 on WCBS-TV (N. Y.) in the 11 to 11:30 p.m. period. Winners of amateur contests staged in various Brandt nabe houses are to be spotlighted on the program before talent agents and bookers and will thus have a chance to sign with them. Series, which is to be aired initially in N. Y. only, will be sponsored by Winston Television on a 26-week deal. Albert Black is to be associated with the package outfit in the production. Agency for Winston is Sternfeid-Godley.

Talent costs on Frank Veloz' weekly television program over KNBH on the Coast are being handled by the dancer. Veloz hands out personal checks each week to a six-piece orch plus any guests he may spot on show. KNBH, meanwhile, supplies only the production know-how, technicians, backdrops and schedule time for beamer. Setup is simple. KNBH wanted the Veloz type program for summer scheduling but couldn't afford the tab. Hence an arrangement was worked out whereby station would open up the time and Veloz would handle all talent costs pending sale of show by NBC outlet.

Glett has brought motion picture lighting to the Don Lee outlet making the station the second in the country to do away with flat lighting. KLAC-TV has been using motion picture technique since it went on the air 11 months ago. Outlet is also putting into use "live" sets, utilizing real tree and grass in place of painted backdrops. Ultimate result will be the realization of depth in the video image in place of the flatness obtained from painted backdrops and overhead light banks.

Arg. Radio Still In Gov't Grip

Montevideo, Aug. 9. Although the Assn. of Argentine Broadcasters has officially denied that any censorship trouble has arisen in Buenos Aires over broadcasts to the U. S. by North Amerieasts to the U. The Broadcasters Assn., however,

The Broadcasters Assn., however, also made a statement to the effect that the networks in Argentina are run by free commercial enterprise and are not under state control. This statement has caused considerable eyebrow-raising in Latin-America, as it is only too well known that the entire Argentine network system is controlled, if not owned, by people very close to the government.

Anyone tuning in on the Argen-

owner, by perceived as perceived as being government.

Anyone tuning in on the Argentine state radio outlet, LRA, which is the only one officially recognized as being government-owned, can get a load of the form censorship takes in Argentina. Throughout the past fortnight the airer has been broadcasting every 20 minutes charges against the biggest of Argentina's daily newspapers, La Prensa, accusing the paper's owners of being in foreign pay and tied to the "capitalists of Wall Street."

La Prensa and La Nacion are practically the two only independent La Prensa and La Nacion are practically the two only independent dallies left in Buenos Aires and do not hesitate to say in what way they are in disagreement with government policies. If these two papers have been allowed to continue in existence, it is only because their prestige throughout the world is so great that their disappearance would cause too much of a stir among United Nations circles.

Advertisers Bullied

Advertisers Bullied
Currently at this time of the year large-scale advertisers in Buenos Aires start settling up their budgets for the next year and booking time for their programs on the major networks. Some of these advertisers are now discovering that the only way in which they will be able to get time is to switch their accounts—for all advertising purposes—to a recently formed local agency, which has an inside track at Government House and is therefore believed to be part-owned by members of the various Secretariats. If any advertiser refused to hire the ayency in question, it could lead to some unpleasant developments when exchange permits are needed for imports of raw materials, or other similar contacts with burpeurexy. rials, or other similar contacts with

rials, or other similar contacts with bureaucracy.

That there is good coin to be made in the publishing and advertising biz in Argentina in these inflationary times is shown by the fact that the Editorial Haynes group, which changed hands in November of last year, and is now owned by a company of which Senora de Peron is a member, had a turnover during the past financial year of nearly \$2,000,000 (U.S.), almost double that of last year. The Haynes getup included Argentina's major commercial network, Radio Mundo.

180% Hike In Billings

Noting continued growth in TV sponsored programs, the report estimated total time expenditures for 1949 will approximate \$28,000,000 or 180% over the 1948 estimate of \$10,000,000. "It is anticipated," it declared, that time purchase "will continue its remarkable growth during 1950."

The report found that in many cases television commercials failed to utilize the potentialities of the medium. "Both the advertisers and the agencies share in the responsibility for this shortcoming," it said. It blamed the situation to thinking in terms of the printed or spoken word or of the still picture. It predicted continued growth of live product commercials as all parties became better acquainted with the medium. Advertising agencies are making progress in this direction although television is not yet a very profitable field for them. The average TV appropriation is small as compared with other media, yet demands as much or more time.

Bell said its TV network comprised about 3,500 channel miles and was available to stations in 13 cities at the end of 1948. By the end of 1949, it estimated, the mileage will have grown two and a half times and by the end of 1950 it will have expanded to 15,000 miles serving 43 cities.

The company said its plans for extension of the system beyond Omaha are in the stage where sites for radio relay stations are

Replying to a question as to why its facilities do not utilize the full 4.5mc bandwidth of TV broadcast transmission, Bell explained that its coaxial, which provides 2.7mc bandwidth, was developed before the war primarily for telephone and that it has made these facilities available to meet the rapid needs of video.

Besides fearing that any prospective sponsors would steer clear of a program on which a suspected Communist had worked, they are also wary of stirring up any industry-wide trouble with so-called spynunters. They realize such a possibility may be remote at this time, but also remember the black eye given the film industry by the House un-American Activities Committee's probe.

Agency and network staffers an indie package producers, in the meantime, believe the entire situation may blow up in the industry's face. They claim such tactics will only serve to draw attention of the witch-hunters and are pressing instead for a more modified system. They are also afraid that the situation may lead to mass hysteria, in which innocent bystanders may be permanently injured.

public need for FM receivers, but the great majority appear to be serving interest alien to the public."

Sellers cited a new FM-AM coverage study by Caldwell-Clement, new York publishers, as revealing that over three-fourths of the U. S. population is within the primary range of one or more FM stations day and night and that in 22 states FM is providing better reception and coverage than AM. These states include New York, Pennsylvania, California, Ohio, Michigan, Wisconsin, Urighia, West Virginia, Tennessee, North Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Arkansas, Nevada, Maine, Vermont and New Hamshire.

In addition, the study showed FM giving equal coverage to AM in Ilinois, Indiana, New Jersey, Massachusetts, Delaware, Rhode Island and Connecticut.

Thus, within the short space of four postwar years, said Sellers, FM is covering as much of the country as AM after 30 years, And, he added, "FM is doing the job with 740 stations, whereas AM has more than 2,000 outlets."

Sellers carried an appeal to FM broadcasters to aggressively sponsor the slogan, "Don't Buy Half a Radio. Be Sure Your Next Set, Whether It be TV or AM, has FM."

More Pix for Video, Too
Just back from Hollywood, where he closed the Hayes deal with agent Lou Irwin (the comedian is said to be getting around \$1,750), Schwartz found something else new had been added to the Coast thinking on television. It was in relation to film names not balking at TV guest shots, for three reasons: the improvement in kinescoping, the improvement in money, and the realization that television is no longer a baby but an "arrived" medium. On top of that there are more Hollywood names than ever freelancing, hence not tied by studio restrictions against TV. More and more players also now have TV rights reserved as they did with radio and other income potentials.

FCC Target on 'Unfreeze' as Lack Of Facilities Hampers Networks

vision networks—notably NBC and CBS—is facilities, rather than programming, with the FCC the target of considerable industry criticism because of the "deep freeze" holding up new station construction.

ing up new station construction.

Some of the top brass within TV ranks, irked over inability of their networks to clear stations, which has already resulted in the loss of several lucrative accounts, contend that the FCC has put them in a tough spot; that the Government agency, far from inviting wholesome competition, has been fostering monopoly because of the protracted freeze.

It's estimated that on the basic

It's estimated that, on the basis of the timetable on which the FCC is functioning, it will probably take until next April 1 for the FCC to declare the unfreeze. The Commission, they argue, has been caught in its own vise, "at least a year behind schedule," as one top exec put it, in calling off the freeze.

It's recognized that the hearings will run through October and November. That will give the FCC the month of December to get off the hook on the Richards case and other important items on the calendar. At least two additional months, it's estimated, will be required to com-

plete the report based on the hearings and allowing for other details and other essential matters on the docket, it will be April 1 before the lid is off the freeze.

CBS in particular has taken the rap in recent weeks on wrapping up program sales because of inadequate facilities, not being able to clear time grabbed by other webs. NBC has also run into the same trouble.

Thus, one program tested had a title that included the heroine's name. Naturally, listeners were interested in the story to the extent that it directly concerned this title character. The first crude evidence was that serial listeners who were not followers of the show wiked episodes where the heroine was on scene a high percentage of the time better than ones in which she was not. This made no difference to followers of the program, who had the same liking score whether the main character was on scene a fourth of the time or two thirds of the time; but it made a difference of 15 liking points among other serial listeners, the group from whom new listeners would have to be drawn.

of finding how to make a serial more effective.

For a serial drama already on the air, Schwerin closely examines the reactions of two key groups: followers of the show, and other serial listeners. Some episodes tested have appealed to neither group; others, to one group but not the other; still others have had a strong appeal to both groups. Study of the last type, of course, has led to Schwerin's most useful suggestions for attracting new listeners without alienating a program's present fans.

In the Mood

Schwerin's principle of Mood is fundamentally important to serials, which depend first of all upon creating satisfactory mental images in the listener's mind. One big application of this principle has been the rule that in a soundly constructed serial there should be one focus of interest (either a character or locale) with which the connection of the other characters and events in the drama must be clearly established.

Thus, one program tested had a title that included the heroine's serios. Attentive the contents of the contents of the contents of the province of two key groups: a serily as possible. stress was put upon the set of characters identified with the title-setting, interest declined.

Characters in Key?

Proper selection of secondary characters can sometimes make or characters can sometimes make or break a serial. Schwerin warns. The essential factor in chôosing the rest of the cast is their rela-tionship to the main character. A serial may be weakened either by (a) lack of a character fulfilling some necessary function, or (b) presence of a character whose re-lationship with the heroine is out

As an instance of the absence of a necessary character, a number of editions of one serial were tested, revealing a clear picture of the kind of characters who did and didn't interest the listeners. Among these was a character who appeared briefly in only one episode, an older women who helped the heroine. Interest in her was especially high, yet she did not appear again, nor was there any other character with this relationship to the heroine. Plainly, this orner character with this relationship to the heroine. Plainly, this serial was in need of a major character of this sort, an older woman on whom the younger heroine could "lean."

A graphic example of a support-g character with a faulty rela-onship to the heroine can be ing character with a faulty relationship to the heroine can be drawn from another serial, auditioned by the Schwerin System. Most of one episode was devoted to dialog between father and daughter, with the mother occasionally taking part. The show was pooriy received. Why? Three-fourths of the listeners agreed with comments that "the father sounded too affectionate toward the daughter" and that "the father sounded like the future husband." Further, two-thirds of the audience complained that "the mother had too small a part." Both in the way the scene was written and in selection of voice, this character relationship was obviously off key.

Intrusive Announcer? tionship

Intrusive Announcer?
One common fault in serials that are auditioned and don't make the grade is topheavy use of narration by the announcer. Having him return to set each scene of an episode can easily violate the show's

by the announcer. Having him return to set each scene of an episode can easily violate the show's mood, as can too-long recaps at the outset or trick alternations between announcer and dialog.

No serial tested by Schwerin, where one-sixth or more of the story time was devoted to narration, has yet scored at a liking range that indicated 'it would succeed on the air. When this much narration is used, at least three-fifths of the listeners customarily agree that "the announcer took up too much time in narration."

As to the best opening method for serials, Sciwerin has found there is no set rule for all serials, but that each does have one method which is generally to be preferred. One program extensively tested was seen to succeed best with the standard technique of an announcer's scene-setting leading into a scene of dialog; when it departed from this method, there was confusion among women who weren't followers of the show. But another serial did better with a short opening scene followed by the announcer's scene-setting.

In short, a mass of testing has proved that the only safe generalization is that nothing is infallibly true for all programs at all times. For all shows of a type, a rule may work most of the time. For a par-

ticular program, it may work all the time. It is primarily the dis-covery of rules like the latter that underline the importance of test-ing each program rather than re-lying entirely on the experience of the past.

Ruled the deadlock-breaking arbiter, the intent clearly was for live broadcasting inasmuch as there was no legal verbiage that could be interpreted otherwise. Earlier and before it was agreed to arbitrate, Hope had won a victory-of-sorts when Luckman made a concession—he could tape 19 of his 39 shows next season. This was agreeable to Hope but there was a catch to it—Luckman reserved the right to dictate the date of taping. Hope wanted more leeway than that and the peace offering went out the window. He was sure he could do better than that away from Luckman and accepted arbitration. from Luckman and accepted arbitration

from Luckman and accepted arbitration.

Luckman's holdout against tape is said to have stemmed from a bad show he caught last season on ribbon. He ruled forthwith there would be no Lever shows taped but made an exception of "Junior Miss," which would have to air live from Hollywood in the early ayem hours before the actors could get warmed up.

No-tape ruling won't curtail Hope's peregrinations materially and he'il continue to bat around the country and keep pouring gold into his bulging coffers. There'll be five more years of it uniess Luckman has change of heart. However, it'll take more than the startling evidence that 23 network programs used tape last season.

NAME BANDS' SURVIVAL FIGHT

Dailey's Meadowbrook Scraps Name **Bands for Low-Cost Combos, Acts**

Top name bands are a thing of the past in so far as Frank Dalley's Meadowbrook, Cedar Grove, N. J., is concerned. Once one of the nation's best known name band location dates, along with Gleen Island Casino, New Rochelle, N. Y., Sherman hotel, Chicago, and Palladium Ballroom, Hollywood, Dailey doesn't intend to even try to book a top b.o. combination for the fall and winter season. He's lining up low-cost dance music, to be bolstered by name record-

ning apt to be bolstered by name recording acts.

Dailey will reopen Meadowbrook Aug. 30 with Eddie Farley's orchestra for 10 days because orparties booked during that period. He'll go into regular operation Sept. 9 with a bill consisting of Frankie Laine, disk name, and an as yet innselected dance band of light calibre. Following Laine, Dailey is negotiating for Red Ingle for the following weekend, to work as an act only in conjunction with dance band—he buys with Laine. That policy will prevail through the season. It was used last year by Dailey at his Sherbrook, a much smaller spot not far from Meadowbrook, and was very successful.

Decca 2d Qtr. Dip Of 34% Expected

Decca Records turned out a second quarter royalty statement to publishers late last week that followed a more or less expected line. It was approximately 34% lower than the total coin dispersed for the first quarter, a period during which Decca went through an unprecedented string of hits despite the fact that business at that time was falling off.

Actually, however. Decca maintained a good pace in comparison to the second quarter of '48. Its '49 second quarter was less than 5% below last year's payoff. In coin, Decca was slightly behind RCA-Victor's second quarter statement and about eyen with Columbia's.

IN '49-50 SEASON

The fall and winter season is expected to be the most crucial period the name band industry has had to face since the mid-30's, when it began its ascent into one when it began its ascent into one of the most profitable phases of the entertainment business. Since the end of the war, name band value at the b.o. has steadily declined for various reasons to the point where only a handful of the most outstanding ones mean anything—in theatres, on location, one-nighters, or on records, a field they once dominated completely.

It's generally agreed that contain

It's generally agreed that certain phases which contributed to the slide couldn't be helped by leaders

since couldn't be helped by leaders themselves. High salary demands by the best musicians, rising scales by the American Federation of Musicians, and generally bigher costs in all other directions, forced asking prices to the point where buyers couldn't break even. But, in addition, many top name bandleaders, doting on so-called musical progress, which led them into extremes unacceptable to the majority of fans, added to the depth of their own graves. As a result, the band business is at a point, in comparison to what it was prewar, where it will have to make a new start.

At the moment no such start is in sight. Nothing is being built. Agencies are simply accepting current conditions instead of at least making a concentrated try toward revival. Price quotations are still too high. AFM scales are still too high. AFM scales are still too high. Buyers who take on top names can't make enough profit to underwrite dates with lesser names, who might in turn get work enough to build a reputation. Such are conditions that even many top names are an economic risk at any given time, and lesser names who ask over-scale prices are being bypassed for local unknowns at flat scale, because they do as much business.

The band business' one hope for a real revival is the clearing out of colleges of the ex-GI familyman student and the influx of unfettered youngsters who might single out a band to idolize, as they once did Benny Goodman, Tommy Dorsey, Glenn Miller, Harry James, and make of it a hot item. Even that's a tough job since (1) there are few band recordings being issued that are different, most leaders preferring to try for pop tunes on which their singers compete with the Crosbys, Comos, Sinatras and the top femme soloists, and (2) there are few of the pre-war building spots remaining (see story on Frank Dailey dropping name bands from his Meadowbrook) where a bandleader can sit down for a long run and hammer at broadcasts with enough consistency—if he had sufficient coin backing.

That the reaction to good bounce-band

bounce-band music is still smoldering was made evident last winter by Les Brown's "I've Got My Love To Keep Me Warm' bit recording for Columbia. It's not being taken advantage of and, ganged by the indifference of the public to name bands during the past summer, except in isolated instances involving such names as Vaughn Monroe, who's a singing personality rather than a bandleader, and a few others, the band business figures to start back toward prominence to start back toward prominence this winter or sink deep into limbo

Concert has been rebooked by Paul Spor for the amphitheatre Aug. 24

Philadelphia, Aug. 16.
RCA-Victor will in all likelihood launch its fall campaign to drive home its 45 rpm records and changers by revising its price list for the machines themselves. Victor has had several neetings on the problem of where to peg the cost to consumer of the compact machines, and has not decided the point they will be levelled. However, it's likely that the machine designed to be jacked into bigger amplifying systems will go for about \$10 to buyers, as against the current \$29.95 and the set that carries its own speaker, now selling for \$39.95 will be marketed for \$15 or thereabouts.

Victor has been multing several

Victor has been multing several other plans, too, under which deal-ers would be able to give sets away with a minimum number of records

with a minimum number of records purchased. Company's execs had a meeting Monday (15) afternoon at its Camden, N. J., headquarters to finalize its course.

Victor intends tossing a goodly sum of coin into the promotion and merchandising of the 45 system through the fall and winter and the method of getting the new changers into consumer hands is a vital one, naturally. Heretofore, it has been unable to reduce prices on the machines because it could not been to wreck the orice structure of other manufacturers also not been to wreck the price struc-ture of other manufacturers also outling them together for market. Victor feels that sufficient time has closed dince the introduction of 45's for it to feel free to make its own merchandising moves.

49c Labels May Spark Revival Of Merchandising

Many record company executives are between the devil and the deep hlue sea regarding the recent advant of so many cheaper-priced labels by major record companies. They'd rather preserve the higher-priced pop sides because the per unit profit is much higher than the comparative fractions to be earned by the 49e platters.

But, it's feit that if the 49e'ers gain a foothold with the buying public, they themselves, distributors and dealers, will be forced into burning midnight oil developing merchandising methods that will maintain the dollar volume provided by the 79e platters. And, in that event, the record business would be healthier. It's felt that since the war's boom sales times, merchandising is a lost art. And the 49'ers could force a revival.

Jocks, Jukes and Disks

By BERNIE WOODS

Vaughn Monroe "That Lucky Old Sun"-"Make Believe" (Victor). "Sun," a new tune with a western flavor, at least as Monroe does it, presents the deep-volced singer with another hit possibility to follow his "Riders" and "Someday" disks. It's an unusual tune that Monroe performs commercially, backed by a male vocal chorus and his name power could make it hit. Flipover is a tune being revived. Working with the Moon Maids. Monroe imparts a b.o. push to this disk, too.

Frankle Laine "That Lucky Old

Monroe imparts a b.b. push to this disk, too.

Frankie Laine "That Lucky Old Sun"-"I Get Sentlmental 'Over Nothing" (Mercury). Laine's cut of "Sun" surpasses Monroe's in many ways. It fits his style-shouting like a glove, but his name power isn't what Monroe's is and Mercury's distribution isn't what Victor's is. Nevertheless, the face should do a swell job with jocks and jukes. It's strong. So is the backing, a good lyric into which Laine pours a great deal of warm effort. He's nicely backed by Harry Geller's orchestra.

Gordon MacRae "Wodding of the property of the

Gordon MacRae "Wedding of Lilli Marlene". "24 Hours of Sunshine" (Capitol). "Wedding" is the best side MacRae had yet sliced of the tune hits, and it appears to be on its way, MacRae will be in the forefront of jock and iuke spins. He's backed by the Starlighters and Paul Weston's orchestra and the trio ties the tune (England's No. 1 seller) into a neat package. Fipover brings up an unexpected melody from a guy like MacRae. A corn air, he and the Starlighters do well with it. It'll be played.

unexpected melody from a guy like MacRae. A corn air, he and the Starlighters do well with it. It'll be played.

Buddy Clark "Nothing Less Than Beautiful"-"Me An' My Bundie" (Columbia). Whether or not "Beautiful" becomes a hit. Clark's waxing of it is woorthwhile. A solid melody and lyric. Clark's plose slide over it smoothly and saleably, smarlly backed by a choir and - Hasry Zimmerman's band. Companion side carries one of the lesser-known tunes from "Miss Liherty." Clark does it well.

Sammy Kave "Everything They Sid Came True". "Dime a Dozen" ivictor!. Kaye's outfit riding on the crest of "Four Winds-Seven Seas," hits the trough with this bairing, "Everything." a new ballad, is fair under a boy-girl duet, backed by band chorusing. "Dime a Dozen." a hilbilly tune getting a long string of recordings, harmonized by Don Cornell and one of Kaye's gals, is a fair face.

Je Stafford "The Last Mile" and missual stafford's "Last Mile". "And the stafford's "Last Mile" and Missual stafford's "Last Mile". "And the stafford's "Last Mile" and Missual stafford's "Last Mile". "And the stafford's "Last Mile". "And the stafford's "Last Mile" and Missual stafford's "Last Mile" and Missual stafford's "Last Mile". "And the stafford's "Last Mile" and Missual stafford's "Last

can't be said for the reverse a listless ballad vocalled by Bob Carroll.

Marearet Whiting "Dime a Decen" "Whirlwind" (Capitol). Cap, bunching in odd directions for a hit thence Gordon MacRae's "24 Hours." Jo Stafford's "Ragtime Cowboy" landed "Dozen" to Miss Whiting. She does it similar to Kyser's balter, but doesn't get as much life into a tune that isn't worth the time of such a wax name. For a classic compilation of nothing, however, one must fill to "Whirlwind." It's by Stan Jones, writer of "Riders in the Sky."

Tony Martin "Give Me Your Treed, Your Poor"." If We Hadn't Broken Up on Wednesday Night Thursday Would Have Been a Year' (Victor). Few have tackled the first tune, from Irving Berlin's Miss Liberty." Martin's excellent vocal, backed by a choir, treats the dramatic melody excellently and is worthwhile wax. It's not pop hit material, but fine for programming. Flinover tune is distinguished only by its lengthy title.

Red Intel "A You're a Doney Gal'." Hot As a Two-Dollar Pistol' (Capitol). Ingle's parodied approach to the recent pop hit. "A You're Adorable" is full of laughs and could spin its way into something. Regardless of whether it hits itseif, however, it carries value for locks as a cemic followur to their spinning of the original. Reverse is good, too, a crazy piece

that moves brightly. Karen Ted-der splits the vocals with Ingle. Platter Pointers

DISTRIB COVERAGE

Coral Records, Decca subsidiary, is going after 100% distributor coverage over the country beginning next month. Currently, Coral lists 27 independently - operated dispersal points, which, It's estimated, cover 80% of the buying area of the U. S.

Decca Records itself channels its product into dealer hands through owned and operated distributing points.

Main object of the trip is to renew contacts with U. S. publishing houses.

RCA-Victor does not intend to cling exclusively to the recording of established hits for its reborn Bluebird label, being sold at 49c (including tax). While the Harmony label, issued by Columbia Records, and the Vocalion sides being issued by Decca Records at

the same price, carry only known hits and reissues to the public, Bluebird will be operated on a much more flexible basis.

Originally, it was intended to groove the revived Bluebird label into the same hit category as its rival platters. That policy has been revised to call for the lower-priced Victor sides to operate independently material-wise. Hits made by Victor's 79c platters or rival labels will be channeled into Bluebird grooves, but only when it's practical to get them out fast enough to take advantage of sales. Otherwise, Bluebird will carry new and untried tunes, and reissues in the same manner as any high-priced label.

RCA's a & r division heads feel that the Bluebird line, as well as making a cheap Victor label avaliable to record buyers, can be valuable in building future names. And unless the artists taken on by Bluebird get a crack at material that hasn't already been made a hit by Victor's own 79c artists, or by a rival company's top names, the opportunity to build will be non-

Victor's own 79c artists, or by a rival company's top names, the opportunity to build will be non-existent. All new material submitted to Victor will be measured as to its Victor-value against the interpretive ability of artists on both the 79c and 49c platters and placed where it will fit best. Of course in the majority of cases new tunes will demand top name performance.

will demand top name performance.
Publishers, naturally, are not expected to fall in love with Victor's ideas, but the company's exces are of the opinion that the current practice of assigning tunes is a vicious cycle that must be agreed with by them in most cases, but blocks out new talent. Pubs want the best names for new tunes and the best names want those new the best names for new tunes and the best names want those new tunes. That practice continues around and around and a new art-ist doesn't get a crack at well re-garded material unless he or she accidentally comes up with a hit and gets a start toward a rep. Vic-tor hopes to help gather new reps.

Inside Orchestras—Music

Recording companies constantly comb their brains for ideas that will justify packaging single records and reissuing them as albums, a phase of the business that forms a lot of gravy since it often gets rid of single disks loading on shelves. Tommy Dorsey, for example, has a number of albums on the market under various catch-titles. His latest, compiled by RCA-Victor, is called "And the Band Sings, Too." It's made up of six sides on which T. D.'s musicians were called upon to supply choral backgrounds similar to his "Marie." his first hit. Tunes will include "East of the Sun"-"I'll See You in My Dreams"; "Sweet Suc"-"Yearning"; "Blue Moon"-"How Am I to Know."

Bob Harvey, Scattle composer and bandleader, has a chance at the jackpot with his tune, "Wouldn't it Be Wonderful," which Art Mooney recorded for MGM and Connie Haines for Coral. Bourne, Inc., is publishing the tune, and Harvey has had good response already from disk jockeys on his own recording of it for Linden Records here. Harvey used the tune as a sign-off number for his orchestra for some time. Eddie Wolfstone, another local boy, wrote the lyrics for the number.

Though Freddy Martin's orchestra, now at the Starlight Roof, Waldorf hotel, New York, does not carry a girl singer, he still performs the pop, "Baby, It's Cold Outside" and invariably stops all dance traffic with his arrangement. Instead of a girl-boy combo on the tune, he uses two male musicians, one doing a takeoff on a dame.

ball, the French papers were filled with nothing else but the Petits Lits Blancs. The list of the artists to participate grew and grew. The price was set at 20,000 francs (800 which was to include dinner, champagne, and entertainment. As the date approached, the publicity increased in growing fury as less and by the committee, headed by Leon Bailby, organizer of the affairs, to lower the price. Those who eavlier had paid \$80 were amazed and furious to learn that tickets could be bought the day of the dance for 15,000 francs (\$471, and for anything from 5,000-10,000 francs (\$15-\$30) for tickets without dinner. At the very last moment, the Carlton hotel and other selling agents reportedly were exchanging tickets for whatever the traffic would bear.

The setting for the ball was the terraces of the Casino, where 200 tables were set amidst the natural glamor of the moonlit Mediterranean. Two orchestras played for the dincrs, while Paris manner quins paraded in the latest fashions.

Damone's 'Heart' Click Cues RCA Campaign On 'Mattinata' Reissue

RCA-Victor is priming a campalgn to push the reissuing of Jan Peerce's Red Seal recording of 'Mattinata," the Italian classic which is the basis of the current pop hit, "You're Breaking My Heart." As Is usual in such cases, the pop adaptation, launched into hitdom by Vic Damone's recording, is causing a demand for the orig-inal melody. Peerce's disk is done in Italian.

Such a situation as the one above caused an unusual tangle over royalties a few years ago. When Frank Stnatra's "I Have But One Heart," based on the Italian "Marinara," Sinatra's "I Have But One Heart," based on the Italian "Marinara, became a pop hit, Musicraft Records cut the original melody with Phil Brito. However, because Musicraft called attention to the disk in advertising by referring to it as the basis for "I Have But One Heart," Barton Music, which published the latter, insisted on a royalty being paid anyway. It claimed that though Brito's disk did not use the pop lyric, and the melody was public domain, the record was being sold on the strength of the copyrighted pop lyric in advertiscopyrighted pop lyric in advertis-

Continued growth of theatre television may get its primary impetus now from independent circuits and theatre operators, as result of the Government's divorcement decree. With 20th-Fox, Warners and Metro forced to give up their domeste theatre holdings and the accompanying exhibition profits, it is believed those interested in theatre TV may think twice before investing the several millions of dollars necessary to put large-scale video on a mass basis.

Immediately affected, of course,

America, have asked a good many of the bands they book to cut down in size and operating expense. In fact, many small spots in midwest territory are using local musicians at scale if the agencies can't dig up a band for them to play for scale. This situation hasn't made hookers happy, for amount of units to book is on the increase, while spots or locations for them, seem to be diminishing.

Orchs formerly pulling down playing spots in midwest for \$750, while territory bands that took away \$600 to \$750 for one-night stand, are working for around \$400, operators are also mixing new bands in their spots, at above-scale prices, on grounds that if a name outfit can't bring 'em in, certainly new ones don't stand a chance. As a result, midwest agencies and bookers are bringing in very few Eastern or Coast outfits, unless they've established themse'ves at certain spots in this territory.

By the same token, the filmites will argue, the anticipated growth of large-screen video to theatres throughout the country will increase competition and thus bring about technical advances in video. Because the film industry has shown it can absorb such technological changes in the past, it may be able to hasten development of a suitable color TV system or crack some other video problem for theatres and, subsequently, for homes.

Hollywood, Aug. 16. The restricted release date situation, which exploded a fortnight Spivak Signs With MCA ago in New York over Decca's early release of Bing Crosby's "Last Mile Home," and later egged on by Columbia's pre-scheduling of Frank Sinatra's "Let 'Er Go," took another stumble last week, involving Columbia and Capitol. But the latest affair was directly traceable latest anair was directly traceable to the early issuance of Crosby's "Mile" side and gives a clear ex-ample of the chain reaction result of one company's evasion of re-

of one Company's Custon Servictions.

"Land of Love," written by Ed Abbez, writer of "Nature Boy," was given to King Cole exclusively. Later, Ahbez also gave a copy of the tune to Columbia, who assigned it to Doris Day. Capitol beefed about it and Columbia agreed, it's said, to withhold Miss Day's disk until Cap put Cole's on the market. However, along came Decand released Crosby's "Mile" side and the apple-cart was upset.

and released Crosby's "Mile" side and the apple-cart was upset. Here's the result: Miss Day's recording of "Land of Love" is coupled to her disking of "Last Mile." When Decca issued Crosby's disking of "Mile." Columbia rushed to get out Miss Day's, and of course her "Last Mile" had to ge along to market, too. Columbia sent pressings only to disk lockeys however, figuring on getting plays on the "Mile" side only, aware that Robbins Music, which is publishing "Love" had placed restrictions on the latter tune until Sept. 1, until Cole's Capitol disk was out. Apparently, one or two jocks have played the "Love" side and Capitol screamed. Cole's is being rushed out as a result.

Last week, Decca's Dave Kapp asserted, as a result of the dispute with Leeds Music, publisher of "Last Mile," that henceforth he didn't want to see restricted tunes until close to release date time. Victor was and is mulling disregarding all release dates, or rejecting tunes that are so stamped; Cogarding all release dates, of rejecting times that are so stamped; Columbia's Manie Sacks has said he's going to operate his biz as he sees fit, without regard to release dates. involved in both the tele and consent decree problems.

Meeting was the first attended by ASCAP's full tele committee in three months. When this group failed to achieve a deal with the National Assn. of Broadcasters video committee, the Society's executives took over and conducted negotiations with representatives of the five tele networks and the ends that have so far been accomplished had not been detailed to the full committee.

As it stands now, it isn't likely that a deal between ASCAP and video will be completed before the Sept. 1 deadline, to which ASCAP had for the unipteenth time extended free rights to its music to video. Several weeks back, some of the Society's board members said that they were unlikely to agree to another extension. LINCOLN MUSIC'S SUIT VS. DOROTHY DOUGLAS

VS. DOROTHY DOUGLAS

Lincoln Music Corp. has instituted injunction proceedings in N. Y. municipal court against songstress Dorothy Douglas to halt her alleged "desecration" of the publisher's "How Did He Look?" She reportedly altered the tune's lyrics in recent appearances on the borscht circuit.

Miss Douglas, according to Lincoln owner Abner Silver, took the "dramatic quality" of the original lyrics away from the number by substituting a "suggestive" parody version. Silver is also composer of "Look." Attorney Samuel J. Siegel reps Lincoln in the action.

nome territory.

It's a colorful instrumentation. Involving piano, electric gultar, accordion, tenor sax, string bass and drum. Orchestrations play up the keyboard, other Instruments centering around Vera. Group is well graced with vocalists, however, as Vera has Jimmy Markey to double voice from the guitar, Bud Balzer from the tenor sax, and Frank Mason from bass.

Principally the crew is concerned with Latin rhythms, a big favorite in this room. Vera's own work, however, brings in most anything suitable on the twories, and the room gets variety enough to please most everyone. Vera makes his sels entirely requests. It's a new idea here, but apparently draws extra attention from pattons to the band.

Vera's crew will be out of the Bellerive for the early winter season, but are due back for the preholiday stretch.

A SONG FOR CINDERELLA
With Leon Lewis
45 Mins.
Participating
Mon. to Fri., 3:35 p.m.
WOKO, Albany
This program is probably the
first commercial regularly handled
by a Negro disk jockey in the Albany area. Lewis, originally heard
on a late-evening poetry show via
WABY, Is not publicized as to race.
Title for feature stems from music
he plays for an unnamed "Cinderella." Throughout the 45 minutes,
Lewis addressed her by that name
or by "you." Idea apparently is to
create emotional impact.
Platterman works with an alert
eagerness, if not always a solidly
professional touch. New to the
business, he displays rough spots
which probably will polish off.
Lewis often talks too much and his
script, if he follows one, is not
tight. However, his knowledge of
music and choice of selections rate
recognition. Introduction to a
Gershwin number, on one shot
heard, was graceful.
Lewis employs an Informal, intimate style with the store-service
commercials. He weaves a minor
philosophical thread, adding a neat
signoff. Show is cut half-way for
a 19-minute news and sports roundup.

This two-man record session
shapes up as an entertaining show.
Pair alternate and/or combine on
introductions, claatter and conmercials to put over a disk show
that's out of the ordinary. Emphasis is on straight selling of
tunes. Voices have good contrast,
with Knighton (Sandy) on the
deep, mellow side; Tunstall (Bill)
on the sharp.
Introductions mix knowing claitmedical contractions and talent to good
effect, with even some verse tossed

same easy style but good impact,
and each week there's a mystery

It was clearly apparent that vaudeville was on the downgrade. Continuous vaudeville was virtually all that was left of the 40-year-old giant, and trade papers laid the blame on theatre owners who bought their entertainment by the can, and on vaudeville itself, which had failed to take cognizance of changing times.

Schine Circuit Will Resume Vaude Policy With 100 Dates in 33 Houses

The Schine circuit is preparing or resume vaudeville Sept. 18 or swith a route comprising 32 theorems with a route comprising 32 theorem 100 and 110 days. The schines haven't yet decided which houses will get the stageshows, but it's definite that operations will be onsiderably larger than last year. Indications are that most towns will average three days weekly as against two of last year. Number of houses will be upped during the vaude season since it's been the Schine policy to increase the mount of playing time if test situations are profitable.

The circuit, in addition to split week, with Syracuse on a spot basis. It's likely that bookings will be arranged so that there will never be more than one show in that town simultaneously. Loew and RKO are also shuttling vauders into that city.

Most of the playing time will be

are also shuttling vauders into that city.

Most of the playing time will be in New York state. There will be two weeks in Ohio, and various dates in Kentucky and Delaware. The Schines are currently in the process of divesting some of their theatre properties in compliance with terms of a Government decree. Although they have three years in which to relinquish some houses, much of the intervening raudeville's pulling power in the houses they'll retain. Consequently, it's certain there will be some switches made during the season.

RKO'S 6 VAUDERS, **MOST ON SPOT BASIS**

For the first time since the lush Keith-Albee days, the RKO circuit has six weeks of vaudeville going has six weeks of vaudeville going imultaneously. Chain currently has shows in New York. Boston, Syracuse, Cincinnati, Cleveland and Kansas City. Only New York and Boston play shows weekly. Others are on a spot basis.

Chain currently has two Palace units on the road and is expected to start casting a third show shortly.

Hearst Promoters Pay For 'Free' Entertainment

American Guild of Variety Artists took \$2,859 from the Los Angeles Herald-Express and the Examiner, Hearst sheets, last week as pay for Milton. Berle and Tony Martin for staging free entertainment between halves of a professional football game promoted by the newspapers. the newspapers.

the newspapers.

Eddie Rio, Coast chief of the union, moved in on the papers after Vince Flaherty, sports editor of the Examiner, had cornered Berle in a restaurant and put the muscle on him to appear gratis. Rio at first tried to have Dave Brandman, promotion director for the papers, clear the game, a charity affair, with Theatre Authority and pay TA 15% off the top of the net, but Brandman preferred to pay for talent instead.

Martin & Lewis Protest

Hollywood, Aug. 16.

Art Lewis and Dick Martin, vaude and nitery comedy team, have been forced to change their billing to Richards and Martin. Switch was made at a split-week stand at vaudfilmer Strand, in Long Beach, last week, due to demands of Martin and Lewis, nitery act.

Art Lewis and Dick Martin have trouped under that billing for seven years, prior to the time Dean Martin and Jerry Lewis joined

Vaude to Be Forced **On Mex Cinemas**

Mexico City, Aug. 16.

Looks like vaude will be enforced pronto for all cinemas in Mexico that have stages. Plans for that, are being made by the national cinematographic industry workers union (STIC), pioneer pic labor organization, which controls the cinemas as all their unionized help, the majority, belong to it. Idea is more jobs for members, though STIC is lining up talented amateurs, among the m prize-fighters, traffic cops and manicurists, for vaude.

Cinemas dropped vaude just before the war when pix began to bring biz big enough to make the houses exclusively film. But with generally decreased trade, some exhibitors have regarded kindly the idea of variety to hypo boxoffice. But the fact that STIC is taking on ams for this vaude is seen as indicating that flesh shows won't be for pic players (STPC), practically all of whom belong to STIC's rival union, the picture production workers, organized six years ago by six locals, dominated by players, botting STIC.

Understood that this vaude will be exclusively Mexican because of the weak peso, 8.65 per dollar, precluding top-drawer foreign entertainers because they insist upon pay in dollars. However, it is considered that some U. S. and other alien vauders liking a working vacation down here might consent to pay in pesos. Understood STIC has no objection to imported acts, though it doesn't like STPC folk.

The three local vaude-revue theatres, Follies, Tivoli and Lirico, profess not to be worried by this plan, contending that they are sufficiently strong in their field. Follies and Tivoli use a fair number of foreign entertainers, many of whom double in niteries.

Heat Wave, Transients, Hypo Biz in Atlantic City

Atlantic City, Aug. 16.
City officials here, including Mayor Joseph Altman, believe that the past two weeks have set new attendance records.
Scurrying from the city to escape the sweltering mid-summer heat, excursionists, in addition to vacationists, have given the resort its biggest crowd in years. The ocean has afforded them relief and the beaches have been packed. All amusements, restaurants aniteries have been enjoying boff niteries have been enjoying boff

niteries have been enjoying bon-biz.

Clear weekends have also helped. The resort has not had a rainy weekend this season. The past one looked bad, but rain clouds disappeared in mid-morning and a cool breeze from the north-west made the weather ideal, cool and clear.

Hollywood, Aug. 16.
Golden Hotel, Reno's largest nitery operation, has been placed out of bounds by Eddie Rio, American Guild of Variety Artists' Coast rep, because the hotel will not sign a minimum basic agreement with the vaude union. Rio has notified all local talent managers, agents and bookers that acts cannot be spotted into the Reno hostelry.

Rio says an act will be permitted

Rio says an act will be permitted to work in Reno seven nights weekly if its salary is over \$200. All lesser-priced turns can work only six nights unless given extra

Sexy Shows Bumped From Mpls. Fair, But OK'd on State Display

Minneapolis, Aug. 16.
County fairs throughout the state are, in most instances, putting thumbs down on Midway girl shows as a result of the "heat" they've caused the past few years. The Brown county fair at New Ulm, Minn., for example, had the fair board itself and the farm bureau put their advance stamp of approval on the Midway shows which they inspected at Cresco, Ia. There were no girl shows.

Only thing to top the recent heat cheering to the present AGVA setwave is the torrid tension among up, since it's long been an open the top echelon of American Guild secret that Price is far from being of Venicus Artists of Variety Artists anent the results of its annual election, now under way, and with ballots due in for counting by the Honest Ballot Assn. Sept. 9. Main concern centers around the presidency, merely a formality in last year's race since Gus Van made it without opposition. However, it's a three-way tussle this year, with Georgie Price and Jackie Bright opposing Van. reputedly drafted after declining the nomination at the Chicago convention last spring. It was Van's decision then more than anything else that prompted Price to accept the nomination at the instigation of rank-and-file members, and delegates to the convention. Later Variety Artists anent the results gates to the convention. Later Bright was chosen by another group, reputedly consisting of a dissident element that has made the summer much warmer for the current administration.

current administration.
Fearing that Price would stand upon his experience and would take things in stride rather than engaging in any sort of vigorous campaign, Bright's backers launched a nationwide campaign in behalf of their candidate. Van was subsequently called in by the present AGVA administration, Dewey Barto, Henry Dunn, et al, and reportedly pressured into becoming an 11th hour candidate to succeed himself.

With the turn of events, Price With the turn of events, Price was for withdrawing from the race, but after being assured by a major element of the union that he should not withdraw "in the best interests of AGVA," he is now determined to make the run. While Price is not flooding the membership with campaign literature, as are the Bright supporters, his backers are quietly electioneering in his behalf. Van is doing little, if anything, to solidify his position in the race. Thereis doing little, it anything, to solidi-ty his position in the race. There-fore it looks like the real contest narrows down to Price and Bright. Price adherents are sanguine he'll nose out Bright in the final count. This would be far from

Bright hasn't always seen eye to eye with the toppers either, but from grape-vine reports emanating from the toppers either, but from grape-vine reports emanating from AGVA's inner sanctum, they are less fearful of Bright's chances than Price's. It's figured that any votes cast for Van would come mostly from members previously pledged to Bright but making the switch to Van when latter decided to run. Price is figured to get his great majority from those who didn't bother to vote in last year's election, but plan to do so this year in hopes of bringing about reforms in the administration that Price has sought even before be-Price has sought even before becoming a candidate. It is deemed certain he will clean house if elected.

Pittsburgh, Aug. 16.

Troubles which have piled up over the years for Don D'Carlo, Pittsburgh booker, hit a new high last week when a promotion he has been working on for two years was taken out of his hands.

In past, D'Carlo has been in plenty of front-page hot water; the guy seems to have a penchant for being on the wrong end. He got a lot of unfavorable publicity in connection with his management of Joan Barry, following the Charlie Chaplin fuss; his handling of the Pittsburgh franchise for the Miss America contest, and only last year over the Mrs. America eliminations here, which resulted lin the spot where it was held

Cleve's Swank Mounds Club Plans Court Action to Pry Padlocking

Columbus, O., Aug. 16.

While the Mounds Club was planning legal action and spending over \$30,000 on repairs in an effort to overcome state closing order because of alleged fire hazards, the Jungle Inn in Trumbull County, near Warren, over the weekend became the second target of Governor Frank J. Lausche's attack on the swank night clubs of the state where gambling is the alleged chief attraction.

State liquor agents, Saturday (13) carted away about \$35,000 worth of gaming equipment from the Jungle Inn, and also guarded \$30,000 in cash seized in a surpriseraid that routed 1,000 patrons and brought arrest of 20 persons said to be employed by the club. All 20 were released in bail. Fire Marshal Harry J. Callan last week (11) rejected an appeal of the Mounds Club from his order, issued July 16 on the grounds that the club building was unsafe and constituted a fire hazard, and said the padlock order would remain in force until the Ohio Department of Industrial Relations building inspection division would approve the plans for correction. However, State Director Albert A. Woldman said that he would not approve the club for reopening even if repairs meet state building requirements. "We will make them go into court and prove they are operating a legitimate business," Woldman declared.

Warners Mull Divers Policies For N.Y. Strand

Warners' Strand theatre, N. in returning to stage shows start-ing Sept. 2 provides further proof that circuits as well as indie operators must become showmen instead of merely exhibitors. Waring Sept. 2 provides further proof that circuits as well as indie operators must become showmen instead of merely exhibitors. Warners learned their lesson in the case of the Strand in a remarkably short time. Theatre dropped live presentations July 8 and with failure of the straight picture policy, has decided to return to various forms of stage shows.

Opening presentation will be the Xavier Cugat band and will most likely be followed by "Salute. Gershwin," which originated at the Sherman hotel, Chicago, and has since been doing well in other spots.

the Sherman hotel, Chicago, and has since been doing well in other spots.

Strand's idea is to fluctuate the type of shows in order not to be tied down to any specific format. They're starting off with a band show in order to pick up the type customer that formerly patronized the house. The Gershwin show will seek another type patron and it's likely that new ideas will be tried from time to time to provide a greater amount of variety than offered in most theatres.

Strand will also change its price policy. Opening will be at 55c with next price change at 90c and a \$1.20 top. Current maximums are \$1.50 and \$1.80.

The Strand's switch is regarded as proof that the Warner hierarchy has a new respect for live talent. Chain, once a leader in vaudeville presentation, has dispensed with all but a few situations. In the case of the Strand, Earle, Philadelphia; and Earle, Washington, grosses dipped terrifically when it went off the stageshow policy.

Return of stageshow policy.

Return of stageshows to many houses throughout the country is regarded as being a factor that will hypo showmanship of exhibitors and house managers. While stageshows have a terrific draw on their own. It's regarded that the same amout of selling must go into the effort of selling the combo bills. RKO and Interstate are currently selling the "Palace type" shows with an intensive publicity campaign. Low circuit stresses names. In all cases, a top gross is the result of a good selling job. Without exploitation and showmanship, the new vaude revival, it's felt, may fade out.

Kalcheim Sees British Comics in Script Snag; Vauders Lead Easy Life

British comedians are handicapped by lack of writers, according to Harry Kalcheim, of the William Morris Agency video dept., who returned last week on the Nieuw Amsterdam from a tour of the Centinent. According to Kalcheim, British comedy scripters cannot be developed as rapidly as in the U. S. because of the fact that there aren't as many radio and film outlets for their writings as in this country.

Despite material, British comedians are doing an outstanding job. Many would be sock in the United States were it not for the fact that they wouldn't be understood in this country because of dialect. The Laneashire and Yorkshire zanies are extremely funny but couldn't easily be followed by American audiences.

American show biz vets continue to be surprised at British entertainments. It's a leisurely life for a performer as compared with the American pacing. Entertainers give two shows daily and none on Sundays. There's still a wealth of playing time in Britain and an American act getting a tour of the provinces and a pantomime can stay there for a year.

Kalcheim declared that the Benny Goodman stand at the Palladium, which ended last week, was reminiscent of the Parameur; the

Kalcheim declared that the Benay Goodman stand at the Palladium, which ended last week, was reminiscent of the Paramount theatre circa 1936, which he booked at that time. Versailles, N. Y.
Ezio Pinza's en gagement in
"South Pacific" has apparently
started a vogue for mature singers.
Romolo De Spirito, of the concert stage, is a singer in the classical tradition who's eschewing the
longhair field temporarily in favor
of an excursion into the pop reaim.
After one concession to the traditional type tune, he, like Pinza,
delivers a pair of tunes from
"South Pacific" after which he
stays with operetta tunes. The effect is pieasing vocally although
De Spirito is a tenor, pitched on the
sweet side, as against Pinza's robust basso. He has technical perfection, a meiodic delivery, a good
concert stage presence, and pipes
that carry sans mike.

De Spirito, however, has yet to
develop a nitery personality. He
plays it straight throughout. He
needs some slight touches of humor
to provide a closer bond between
him and the audience. A tune with
sty lines might do the trick.

him and the audience. A tune with sly lines migit do the trick.

As is generally the case with singers of this type, a click in the classic reaim enhances the wine trade. Nick Prounis and Arnold Rossfield, both possessing boxoffice acumen, have been attempting to make this class restaurant a rendezvous with a type entertainment not available in competing east-sideries. Their long-term Gallic invasion with such singers as Edith Plaf, Suzy Solidor and others resulted in a cosmopolitan clientele but it's necessary to introduce an occasional change of pace with some fresh faces. Thus singers from the concert field serve an important purpose in the Versailles scheme of things.

De Spirito serves this function admirably and once he acquires more cafe floor presence, can make the class nitery rounds.

King's current development is reminiscent of several other comics who got their start at Leon & Eddies's as stand-in for Eddie Davis when the boniface went on vacation. Jackie Miles and Joey Adams got long stays in that spot and afterwards came out as headliners. Whether King will attain the same stature at the end of his stand here still depends.

warm, well-placed voice in a contrailo register. Tone control is good

Latest addition to husband-wife
song and patter duos, coupie's debut was hindered by this L-shaped,
low-ceiling room and faulty musical backing. Their vocal renditions project, and the special material by Richard Barstow, inter-

spersed with light banter, show-cases the potentialities of the comely couple. Both Miss Watson and Austen have made a name for themselves as singles in the musi-comedy field, so the know-how is there. Only thing missing is a developed routine that might give the act a personality all of its own. As is, kids are attractive vocalists rather than a programmed and well-paced act.

Jerry Austen tees off with "Most Unusual Day," introducing Miss Watson, who singles on "Check to Cheek." Coupie get together on "Happy Taik" with special lyrics and conversation and do very well when vocaling together. Combined talents on an "Oklahoma!" medley goes over with seat-holders, as does their finis, "Wiegenlied," a luliaby by Mozart. Duo's pleasing stage manner projects, as do their vocal efforts. date since his return to the band business via his Mutual net broad-east "Sing For Your Supper."

Paul Winchell is standout on the bill. His ventriloquial cross-fire with dummy Jerry Mahoney forms a honey of a turn that supplies laugh upon laugh. His act is split into two parts, one, his usual mike-front series of gags and the other, one of the scenes that he has used on the Bigelow-TV show he does with Dunninger. This consists of a scene in which Winchell as a dentist yanks one of the dummy's teeth, assisted by a cute, red-head-ed "nurse." It's similar in staging to Edgar Bergen's old doctor scene and beyond question helps Winchell hit the audience jackpot. Lone criticism of Winchell's stint is his leaning toward lines he could well do without. Occasionally there's the feeling that the Cap is presenting Furlesque.

Golden Gate Quartet are right behind Winchell in effectiveness. Group, plus a planist-accompanist, on this has hard, however, until the last half. Alming for pace, they start out with "It's a Great Day" and "Four Winds and Seven Seas," both of which are okay, but neither carries the weight that their material things, such as "Shadrach," "Ezekial" and "Joshua" do. Tucker is fronting seven brass, five sax, three rhythm. For the straight stage bill, Caesar offers the customers three worthwhile bits, his imitation of a British and a French officer at Zero Hour; the tribulations of an expectant father, and a kid at his first prom. Last bit is done all in pantomime, and draws the biggest hand. Caesar's act starts slowly comedian working easy in formality without trying to high-pressure or force. Steve Evans registers with his
comedy portraits, including his
classic drunk act and lively mugging of audience types. For color
and thrills, in sixth spot, the Appletons present a fast Apache number featuring a man and two gals.

Most reminiscent of the old days

Replete with knife-throwing and vigorous knockabout, it goes over solidly.

Mest reminiscent of the old days is the Frank Ross-Anita LaPierre turn in next-to-closing. Ross' impressions of trumpet stars Henry Busse and Clyde McCoy and general clowning with Miss LaPierre's vocalizing click big.

Gus Van naturally brings back nostalgic memories with his old songs and patter for a smash finale. His invitation for audience choraling of cldle tunes and his income tax complaint ditty, "Old Man Revenue." were effective.

As a unit this Palace package seems to be the type which will bring in the vaude-hungry Syracusans. Local orch needed tightening opening day but is grooving it now. Business terrific. Hayd.

Palace, N. Y.

Sherwoods (3), Bobby Pinkus with Ruth Foster, Texas Tommy & Baby Doll, Jesse, James & Cornell, Doris Patts & Mrs. Waterfall, Briants (2), Fred Lowery with Leslie Roberts, Salici Puppets, Don Albert House Orch; "Ma and Pa Kettle" (U), reviewed in VARIETY March 23, 49.

The Palace stager has a hard time getting started. A pair of comparatively slow acts in the early part of the bill hamper the pace of the show, with plekup coming on the last half of the program. A trio of strong standards gives this layout a strong exit. Major strength comes with Jesse, James and Cornell, Negro hoofing act. This trio warms up the stage James and Cornell, Negro act. This trio warms up the all over again and paves to for the solid receptions for suing acts. Immediate bene are Doris Patts and Mrs. W are Doris Patts and Mrs. Wateriali (New Acts), a new issue of the act previously done by the late Nan Rae and Maude Davis. In the immediate rundown, the Briants' pantomimicry hits a top re-ception with their tramp clowning; Fred Lowery listed in New Acts reption with their tramp clowlings. Fred Lowery listed in New Acts because of a change of partner, and the Salici Puppets, doing an abbreviated portion of their turn, provide a strong windup to give an overall good impression of the current bill.

overall good impression of the current bill.

Opening, is by The Sherwoods (New Acts) a good acro trio, who exit nicely. Bobby Pinkus, assisted by Ruth Foster, constitute a hardworking turn, but unfortunately, much of their effort is dissipated by inept material. There are times when Pinkus and partner come out ahead of their material, but verbiage is frequently too much of a handicap. A faster turn than that of Texas Tommy and Baby Doll was in order for this spot. This cowboy and pony act has its moments of cuteness, which probably registers considerably better with afternoon audiences, but there isn't enough excitement for adult crowds. There's a peculiar twist to this act, inasmuch as Texas Tommy has the appearance and garb of a pared from down vonder but sab.

Al & Connie Fanton, Kay Kenton, 3 Arnauts, Moke & Poke, Viola Layne, Yuonne, Clavel & Farrar, Artie Dann, The Herzoss (3). "Follow Me Quietly" (RKO).

Although not the sock lineup featured in the klck-off week of vaude here last week, there are enough strong spots in this second session to make it add up to an entertaining bill, with the audience

session to make it add up to an entertalning bill, with the audlene reaction substantial.

Bill tees off with Al & Connie Fanton, mixed team with a nice assortment of taps and tricks, followed by Kay Kenton, a vivacious blonde, who registers with her session of comedy songs, in the Betty Hutton manner. Neat pace is continued by the Three Arnauts, who wow with their comedy violining and acro steps. Wind stint with their familiar bird fiirtation turn to heavy response.

A couple of colored boys, Moke & Poke, do okay with a smattering of terping and a line of unintelligible gibberish, followed by Viola Layne, a slick chick, whose impreshes of Fanny Brice, Bonnie Baker, Ethel Merman and Rose Murphy scores with the payees, Closes with a slightly overlong carbon of Mae West. Younne, Clavel & Farrar have something new in ballroom dancing, the man leading his gal partners through neat routines.

Dann, who always regis-Artie Dann, who always registers solidly here, gets plenty of yocks with his zany line of patter, especially his nose business which is always surefire wow. Bill closes with the Herzogs, three femmes, whose trapeze stunts left the payers gasping.

Larry Flint house band backs acts neatly.

It's a straight vaude lineup this week. There's not a headline turn in the bunch, but the bill spells "variety," and judging from the applause dividends, it's okay entertainment.

Fast opener is Larry and Lynn, who work on unicycles of various sizes, and garner attention. Femme (Continued on page 56)

Speaking of economy, the fact that a best-seller of any kind still represents a costly investment is another item that reduces interest in such books. Story eds maintain, however, that if there were anything really hot on the list, costly or not, it would find a sale. The trio of best-sellers that are currently owned by Hollywood are "Father of the Bride," by Ed Streeter, which Metro holds, "Cheaper by the Dozen," by Frank B. Gilbreth and Ernestine Gilbreth Carey, which 20th-Fox has, and "The Fighting Bulls," by Tom Lea, owned by indie Robert Rossen.

P. Marquand's "Point of No Return"—so genteely satiric it has no mass appeal; resembles "George Apley," which 20th-Fox found a singularly unsuccessful picture. Thomas Merton's "Seven Storey Mountain"—too spiritual in quality; an odessy about a monastery.

George Orwell's "1984"—too ccrebral and terrifying, showing the future in an imaginary "thought control" state. Lloyd Douglas' "Big Fisherman"—a religious subject that would make a questionable film and be very expensive to produce. Frank Yerby's "Pride's Castle"—a costume piece and n.s.h. anyway. Walter Van Tiburg Clark's "Track of the Cat"—a definite picture possibility about ing Hooper sweepstakes with Tom Breneman's "Breakfast in Hollywood," feels it has a potential rating puller in Buddy Rogers and auditioned him for a cross-thea definite picture possibility about a panther chase if the symbolism Garry Moore gets a Columbia five-times-a-week morning spread with a format somewhat similar to his old "Club Matinee," were forgotten.

Philip Wylle's "Opus 21"—completely cerebral. Van Wyck Mason's "Cutlass Empire"—costume. James Street and James Childers" "Tomorrow We Reap"—costume, in addition to which the time span is very long, making the produc-tion expensive.

Theatre Aux Etoiles (CANNES)

CANNES)

Cannes, Aug. 9.

Edith Piaf is in the midst of a successful Riviera concert tour. Last night the dynamic songstress received a rousing ovation from the international crowd at Cannes. She played at the Theatre Aux Etoiles, a makeshift outdoor auditorium with moveable seats.

She was preceded by four rather ordinary variety acts, which might have been pleasing in an intime club but lost their effect in the auditorium. One act had some freshness. It consisted of two lads mouthing to record playbacks. Their timing on a Spike Jones' disk, and a Danny Kave-Andrews' Sisters disk had some hilarious moments.

Sisters disk had some hilarious monents.

Then came Piaf and she immediately took possession of the audience, and her throaty warbling kept them screaming for more. She did her repertoire of serio-comic songs, and created some spinetingling moments in her interpretation of a woman driven mad by malicious friends when jilted by her lover. She has creat stage presence, and her bodilly movements and stance play an important part in her delivery. Her measured entrances and exits highlight the mood of her songs. Mosk.

Paris, did not miss a showing.
Maria Montez always created a stir or six admirers. Annabella, Madeleine Carroll, Mrs. Byron Foy and Mrs. Randolph Hearst were the most faithful audience. As for the staffs of Harper's Bazaar, Vogue, Mademoisselle, the New York Times, etc., even though they had on their best decollete numbers, they looked more like obedient schoolgirls scribbling away in shabby old notebooks.

Scarcity of financing, a perennial difficulty at this time of year, is delaying the unprecedented number of Broadway's scheduled fall productions. Only about a dozen of the "definite" fall prospects are known to be completely financed. But several established managements are reportedly still beating the bushes for backers for productions which are mostly cast and for which specific rehearsal dates are set. Certain shows, now fully subscribed, required voice-exhausting persuasion by the producer, as well as endless "auditions," to scare up all the coin.

Among the new presentations for which the ante is in the producer's coffers are Maurice Evans "Double Bill." George Abbott's "Touch and Go." the Kermit Bloomgarden-Gibert Miller "Montserrat," six Theatre Guild enterprises, headed by "I Know My Love," the Playwrights' Co. "Lost in the Stars," and Katharine Cornell's "That Woman." Most of the other announced projects, even seemingly sure items by name managements, are mired by lack of wherewithal.

Several factors complicate the already tough situation. One is that, with general business at a dog-trot, "risk capital" is abnormally elusive. The second is that, with production costs so high, a kingsize stake is necessary to put on even a one-set straight play. At the same time, there's a rage for musicals, legit's cash-consuming and doubtful-payoff champs.

Cities on Return Visit

Minneapolis, Aug. 16.

"Finian's Rainbow" is coming back to the Twin Cities and this time will play St. Paul as well as Minneapolis.

Its action last season in confining its Twin City engagement exclusively to Minneapolis, where it played a week, caused the usual umbrage in St. Paul, where newspapers refused to accept its ads or give it publicity. In making Minneapolis its only Twin City stand, it was doing the same as "Annie Get Your Gun" and "High Button Shoes" also did last season, and the same as some other attractions have done in previous seasons. St. Paul also turned thumbs down on ads and publicity for those shows. The first big musical to hit here this season, "Brigadoon," plays both Minneapolis and St. Paul next month. St. Paul's mayor last season protested to the United Booking Office against the booking of shows exclusively in Minneapolis.

'Agents' Greediness'

In similar vein, Sara Stamm, who operates the Newport (R.I.) Casino, complains about "producers attempting to recoup road losses by charging an exorbitant flat fee, in addition to royalty, for plays which failed on the road. Trend will kill summer theatres," she says. Miss Stamm also inveighed against "agents' greediness" in the matter of salaries, and "stagehands union encroaching where budgets can't afford them."

Managers were asked whether large salaries to one or two starssuch as the \$5,000 weekly coin paid Tallulah Bankhead — had inflated fees for other names. Comment was mixed, some saying no, others admitting it had. "Most of the stars have been very fair on this point," says John Lane, of the Fairhaven (Mass.) theatre. Lewis Harmon, of the Chapel playhouse, Guilford, Conn., says: "It's difficult to convince stars and their agents that although a Princeton house seating 1,800 can pay \$2,500 or more, 400-500 seat houses are limited and cannot pay fantastically high salaries plus percentages."

"One or two stars have complained because Tallulah received such a high salary," says Aldrich, "but on the whole most stars realize that Tallulah draws capacity business, and most of them do not. In my opinion, no stars should re-

business, and most of them do not. In my opinion, no stars should re-ceive more than a guarantee of \$750 to \$1,000, plus a percentage above a reasonable break-even fig-

"I think the choice of plays is almost as important as the star," says Aidrich, "and I would rather book a less well-known star in a very fine play than a well-known star in a very inferior vehicle."

Burke predicts, "The star system will eventually put the summer theatres out of business. The excessive and absurd salaries de-

costs are correspondingly higher this year, due to higher production fees, enlarged operations, etc., but mainly due to higher salaries.

Aldrich's costs are up, he says, "due to the uncalled-for increase in royalties by the Dramatists Guild Equity has created no financial problems, but the Dramatists Guild has. It's absolutely ridiculous that one should pay as high a royalty for a piece of old tripe like 'Love From a Stranger,' The Two Mrs. Carrolls,' or 'Lovers and Friends,' as for 'The Heiress,' 'O, Mistress Mine' or 'For Love or Money.' "

Chi's Citronella Circuit Clicking

Chicago, Aug. 16.

Lack of legit fare this summer in the loop may have something to do with the booming biz of the citronella circuit in Chi's suburban area. Chevy Chase Summer theatre, with six successful weeks under its belt in its first season, may extend activity beyond original eight weeks planned, playing until Oct. 1. Each week they've added chairs, increasing the capacity from 500 when they opened to nearly 800 at present. Grosses have jumped accordingly, from a profitable take of around \$4.600 during its opening week, to over \$7.200 in recent runs.

Two sightless members of the Lighthouse Players of the New York Assn. for the Blind have been signed for roles in the Mountain Playhouse presentation of Tennessee Williams' "Summer and Smoke" at Jennerstown, Pa., next week. They are Ruth Askenas and Ida Scotti. They appeared last year in New York in their organization's productions of "Post Road" and "The Old Maid," and will be seen with resident members of the Jennerstown company. Although "Summer and Smoke" will be toured next season by Margo Jones, Mountain Playhouse got the rights to the drama because it is so uncentrally located to key legit centers, being around 80 miles from Pittsburgh and around 250 from Philadelphia. Since it draws only a small percentage of its trade from this city, strawhat showing wasn't figured to hurt its later chances here any. Pittsburgh, Aug. 16.

SHOWS 55G DEFICIT

Despite one of the most successful seasons in four years of operation, the Civic Light Opera Assn. showed a \$55,000 deficit for its just-ended nine weeks of summer operettas at Pitt Stadium. Total gross was just short of \$331, 000. Loss will be covered by voluntary contributions from 35 sponsors. Deficit may jump another \$5,000 if rain delays dismantling the huge stage and electrical system.

Incidentally, loss was \$15,000 less than management anticipated at beginning of the season. As a result, \$50 pledges given by 350 guarantors will be returned to the individuals. individuals.

R&H Have Arrived as Longhairs; **Draw Record Stadium Turnout**

what looks like the start of another tradition, akin to the annual Gershwin nights, was the second annual Rodgers-Hammerstein concert at Lewisohn Stadium, N. Y., Saturday night (13). Program drew the season's largest crowd, of 21.000 people. (Gershwin night this summer, incidentally, drew the second largest, 20,000). Concert, which was artistically as much a success as it was financially, proved many things — that a Rodgers-Hammerstein evening can draw as much as a Tchaikovsky, Strauss or Gershwin program; that R-H music has the content, flavor, variety and appeal of national or folk music, and that the Broadway producer-writting the state of the

so a cension systems or Gershwin program; that R-H music has the content, flavor, variety and appeal of national or folk music, and that the Broadway producer-writers have definitely arrived, willymilly or even in spite of themselves, in the longhair pop field.

There were two main faults with Saturday's program. One was the Gershwin night complaint—sameness. Program, aside from the few "South Pacific" excerpts, was too much like last year's, in content and in soloists. Some lesser known R-H works than the familiar ones presented might have given the concert more fillip. The other complaint was repetition. An orchestral suite that presented the hit numbers of an "Allegro" or "Oklahoma!" was followed by the same numbers done as vocal solos or duets. Better judgment could have been shown here.

Otherwise, it was a worthwhile evening. Salvatore Dell'Isola, regular conductor of "South Pacific" at the Majestic, N. Y., made his debut as Stadium conductor of the N. Y. Philharmonic, and distinguished himself by his expert, tasteful handling of the R-H scores. Program included selections from "Allegro," "Carousel," "South Pacific," "State Fair" and "Oklahoma," with a mixed shorus of 40 assisting soloists and orch.

Robert Weede gave a rousing performance of the "Sollloquy" from "Carousel" and "Allegro," and "When I Marry Mr. Snow" ("Carousel") were distinguished solos, and Thomas Hayward's "If I Loved You" ("Carousel") was particularly appealing.

Richard Rodgers took over the baton for the evening's final sequence, a group of songs and orchestral numbers.

THAT MAN SHAW IS AT IT AGAIN IN BILLIONS

Malvern, Eng., Aug. 16, George Bernard Shaw's latest play, "Bouyant Billions," which premiered here Saturday (13) is one of the talkiest, but never-theless interesting, of his marathon conversation pieces. For an author of 93, the comedy is impressive, even remarkable, but by normal audience standards it's tough to

Play, the principal event of this

Play, the principal event is about year's Malvern Festival, is about an old man, Bill Bouyant, who calls a family conference to announce that he's leaving all his wealth to his oldest daughter. That sparks one of Shaw's characteristically pyrotechnical discussions.

Five-Town Circuit Mulled For Summer Operettas

Dallas, Aug. 16.

Dallas is to be one of the towns of a contemplated circuit composed of five cities which will present summer light opera or musical comedy. Others include Memphis, Cincinnati, Indianapolis and Louisville. George E. Gans, prez of the Louisville Park Theatrical Assn., has proposed the circuit.

Average capacities of the amphitheatres would be 3,400 seats, Expenses per production were estimated at \$150,000 and income at \$165,000.

According to Charles R. Meeker, According to Charles R. Meeker, Jr., managing director of the Casino operetta series here, the local presentations have been de-veloped beyond the capacity, in-come and expenses indicated in the proposal.

reception at the boxoffice, according to translations of the reviews received in New York. Whereas business for the engagement was the biggest in the history of the series, the reviews varied from so-so to downright pans. In general, Nat Karson's settings and lighting were praised, and Robert Breen's staging drew mostly good notices. But Breen's editing and arrangement of the script drew mixed opinions, the performances were more or less given the brush.

Svend Kragh-Jacobson, of the Berlingske Tidende, perhaps the leading critic of Copenhagen, wrote a lengthy, detailed and hospitable notice in which he called the production dramatically exciting, but artistically lacking. He, in particular, enthused over Karson's physical production and lighting, and Brenn's direction, but panned the latter's and most of the other performances. Harald Engberg, of Politiken, in another exhaustive, polite analysis, noted various assets of the show, but complained that it was noisy and shallow, without achieving the effect intended. All the reviewers condemned the device of using an amplified recording for the voice of the Ghost, and were incensed at the handling of the Rosenkranz and Guildenstern characters as resembling American gangsters.

Catholic papers have carried an extended National Catholic Welfare Council News Service story quoting Frederick O'Neal, a founder of the American Negro Theatre, and a lead in the original "Anna Lucasta" legiter, as telling the Catholic Interracial Council in New York that the current crop of films with Negro themes—such as "Home of the Brave" and "Lost Boundaries"—have "irrefutably established the Negro actor as a performer of merit." O'Neal said that motion pictures dealing with serious aspects of race are of "immeasurable benefit in dissolving the traditional stereotype of the Negro actor as clown, servant and shoeshine boy." Tracing the history of the Negro in the American theatre, O'Neal asserted that "the minstrel and the spiritual, while serving as the first contributions of the Negro to the theatre, have also helped to create and perpetuate the stereotype of the Negro actor." The actor-speaker listed among milestones in the progress of the Negro in the theatre, "Emperor Jones," "Shuffle Along," "Porgs and Bess," "The Green Pastures," "Cabin in the Sky," "Mamba's Daughter," "Othello," "Anna Lucasta," "Kiss Me, Kate" and "South Pacific." SCULLY'S SCRAPBO SCULLY'S SCRAPBOOK

Dublin, Miss., Aug. 14.

There's an old Irish rann which the late Dr. Douglas Hyde dug up years ago and which Hollywood might well read twice today. "I see the better things," the old saying went, "and approve of them, but I follow the worse."

Everytime Hollywood announces that an Irlsh comedy is on the way I leap with delight. And everytime I see it, I grow pale like a banshee and boil thereafter like a live volcano. Stromboli, if I must name

Fifty years ago Lady Gregory wrote that Ireland's dignity suffered from persistent belittling of its character and too often at the hands of its own children. She was, of course, referring particularly to Lover and Lever, a pair of home-grown clowns who wrote to please the English not their own people.

Seemingly, Hollywood has never read anything else when working out an Irish comedy. If one ever read Gerald Griffin's "The Collegians," except in Dion Boucicault's loused-up stage version called "The Colleen Bawn," I have yet to see evidence of the piracy. Yet Justin McCarthy held that "The Collegians" was up to the best of Scott's immortal romances.

Enter Don O'Quixote

Save for a beautiful kodachrome travelog produced by Burton Holmes and still among his top five grossers, I have not seen anything in years, which, designed to rub my Gaelic fur the right way, has not put a match to it instead. I have never keened for Cathleen ni Hollihan, being no 18th century lover of Ireland but a 20th century refugee who wouldn't go there even if offered Dublin Castle.

an, being no 18th century lover of tretand out a 20th century rerigee who wouldn't go there even if offered Dublin Castle.

As far back as 1904 Irish actors stopped pilling on the brogue, yet in Hollywood scareely a year passes without some brogues gallery fugitives talking as if they were Eskimos. In this latest one, Par's "Top o' The Morning," the dialects of Bing Crosby, Barry Fitzgerald, Hume Cronyn and Ann Blyth will need subtitles in Dublin. Dldn't any of them ever hear Father Flanagan of Boys Town talk? He was born in Ireland, yet people understood him in every corner of America. With him no longer among us to translate the Fitzgeralds, I doubt if even Belfast, Maine, will understand "Top o' The Morning."

The tradition that the Irish are a gay, dancing, belligerent race, given to swinging shillelaghs one minute and incense the next, may be all right in bars and eocktail lounges where the atmosphere is reeking with error anyway. But it's a nuisance to have to sit through the nonsense year after year under the guise of entertainment on stage and screen and, I fear, soon in television.

I know a lot of Irishmen, myself included, and they are nothing like these outsized leprechauns who have been spoiling my leisure for years. I suppose it could be argued for the Tyrone Powers, the Bing Crosbys, Pat O'Briens, Dennis Days, Frank Mellughs and the like that they have to live. But by now all of them must be solvent enough to show some independence.

some independence.

Garlie Odors From Hollywood

Garlie Odors From Hollywood

Granted that Liam O'Flaherty had his bias in presenting Irish characters in "The Famine" and "The Informer," as indeed Shaw did in "John Bull's Other Island," Synge in "The Playboy of the Western World," "Joyce in "Exiles," and O'Casey in "Juno and the Paycock," nevertheless the Hollywood bias is worse because it drips with oncesweet juices which have long fermented.

The Scully Circus children are now watered down to one-half Irish, three-eighths Norwegian and one-eighth English, and in another generation or two should take these things less seriously. But it would be better if they didn't have to take them at all. I agree with Sean O'Faolain that Ireland has clung to her youth, longer and more tenaciously than any other country in Europe. For every exageration of Irish virtue exported from Galway Bay, Hollywood doubles it in bemused begorrahs. The Irish have resisted amazingly well the Scotch, English, Cromwellian and even the Norman invasions, but God help

Irish virtue exported from Galway Bay, Hollywood doubles it in bemused begorrahs. The Irish lave resisted amazingly well the Scotch, English, Cromwellian and even the Norman invasions, but God help it if it tries to resist Hollywood.

The general trade opinion is that "Top o' The Morning" with Crosby and Fitzgerald guarantees big grosses. It has been hailed as an above-average yarn filled with lilting Irish melodies, and clean, wholesome entertainment for the whole family; that it should mop up and all that sort of thing. If forced into a pocket of resistance, I might concede that "Luck o' The Irish" was worse.

In these Irish pictures some manipulator of a laughmeter figured that if he took an American-born star of Irish ancestry and transported the broth of a lad to Ireland, the contrast between his down-to-earth behavior pattern and the whimsy of the bog-trotting natives would make Chase National richer than ever.

Up Where Money Doesn't Talk

Up Where Money Doesn't Talk

That the manipulators can point to bank statements as proof of how right they were in no way muffles my ire. The bank statements don't awe me either. In fact nothing over five bucks impresses me in an argument. Beyond that sum money talks no longer. We are up where the trush is mightler. And up there the perpetuation of the myth that the Irish are still quaint, shillelagh-swinging tenors comes perilously close to clinkable perjury.

These script writers apparently haven't seen anything written of Ireland in the last 100 years. They never read Swift and seemingly have never heard of any Irishman but Shaw. It wasn't an accident of history that the dozen or more men who dominated the intellectual

Ireland in the last 100 years. They never read Swift and seemingly have never heard of any Irishman but Shaw. It wasn't an accident of history that the dozen or more men who dominated the intellectual bellicose and artistic life of England for a generation were all Irish. Augustus St. Gaudens, George Moore, Oscar Wilde, Lady Gregory, John Millington Synge, William Butler Yeats, George Russell, Frank Harris, Conan Doyle, T. P. O'Connor, Lord Roberts, Lord Kitchener, Sir Horace Plunkett, Lord Northcliffe, Justin Huntly McCarthy, Sir William Orpen, Lord Dunsany and James Joyce were Irish at least as much as the Rockefellers are American.

Even today the best short stories, it is generally admitted, are not being written in America or England but Ireland. Among F. L. Green, Mary Lavin, Sean O'Faolain, Michael McLaverty, Joe and Frank O'Connor, James Stern, Seumus O'Kelly, Robert Gibbings and Bryan MacMahon there may not be a Donn Byrne but they are several cuts above the Hollywood crop of Freudian rewrite men. Most of these Coast case-historians, husheen, make me feel like a surviving victim of the potato famine.

potato famine.

Back to Barrymore's Grandfather, Eh?

Back to Barrymore's Grandfather, Eh?

The loss of the Blarney Stone in "Top o' The Morning" had only one sad moment for me, and that was when it was found again. Its recovery mean the jig-dancing comic Irishman would be back next St. Patrick's Day with a clay pipe stuck in his battered old hat, wearing a sprig of shamrock and marching behind McNamara's band.

In American we've had this spurious man of Aran on the stage from the days of the original John Drew, grandfather of the current Barrymores. But it was left to William Scanlan to perpetuate the character by singing his way through the duller sees of a dozen Irish romantic comedies. I wouldn't be surprised if the realization of the mischlef he was doing was what caused Scanlan to drink himself to death. When Chauncey Olcott was signed to continue the legend he was smart. He took a pledge. That way he could live with Cathleen ni Hoolihan and sing "Mayourneen" in his sleep without being driven insane, as Scanlan was at the end.

sing "Mayourneen in this steep without the lrish Duke of Wellington had an answer to such the arricalities which Hollywood might well listen to. "Sir," he used to say indeed, I think he said it to an overacting Lord Nelson), "Sir, don't be a damned fool."

ally, however, is keeping out of the bop camp.

But while Ellington and some other top musicians are sticking to their proven styles, a flock of im-portant leaders have moved closer to bop. Some of them don't know they are playing bop and others don't care. Benny Goodman has stated that it didn't matter if some stated that it didn't matter it some of his sidemen play bop, as long as they play well. Jimmy Dorsey, referring to a group of bop players in his crew, has said, "There are two factions in my band, but no frietler." friction.

Other bandleaders who are giv-ing bop a twirl, even if only once-lightly-over, include Charlie Bar-net, Ziggy Elman, Claude Thorn-hill, Gene Krupa, Lionel Hampton, net, Ziggy Elman, Claude Horn-hill, Gene Krupa, Llonel Hampton, Count Basie and Coleman Hawkins, among others. In addition, of course, there are the heavily bop-accented aggregations led by Dizzy Gillespie, George Shearing, Woody Herman, Machito and the more esoteric, but highly rated Charlie

An increasing number of vocalists are warming up to bop also, although many of bop's best friends would rather file and forget the would rather file and forget the screwball numbers titled "Oop Bop Shi Bau," "Oo-pa-pa-da" and "Ool-ya-ka." Bop, however, also has a repertory of numbers which are super-seriously titled "Anthropol-ogy," "Epistrophy" and "Ornith-ology,"

Bop City the Capital

Although the peak of the bop craze passed away sometime last year, currently there are more bop musicians working regularly than any time since its birth in 1943. Bop City, Broadway nitery, has been the central showcase for this been the central showcase for this type of music since it opened sev-eral months ago. While many of its attractions, like Billy Eckstine, are not boppists, there's enough bop to go around for the younger generation of jazz fans who have made this enterprise a lucrative proposition.

On 52d street, the vanishing of strippers is being replaced the bop crowd which makes up the bop crowd which makes up in earnestness what it now lacks in size. Cafe Society Downtown in Greenwich Village is also fiddling with new type of chords in its current layout featuring Coleman Hawkins' slightly boppified combo. Monte Kay, meantline, is also slated to open a bop spot, Birdland, on the site of the shuttered Clique Club.

Bop musicians are also working

Bop musicians are also working jazz spots located in other metro Jazz spots located in other metro-politan centers. While the payoff is low compared to the coin com-manded by the top pop bands, it's more than most of the bop musi-cians received a couple of year-ago. Another factor blocking the cians received a couple of years ago. Another factor blocking the bop bands from sharing the big coin, where It's still to be had, is the discriminatory attitude against mixed white-and-Negro aggregations, still prevalent in some class spots. You gotta approach bop with a sense of relativity, say its defenders. fenders.

Disks Slow A-Boppin'

In the disking industry, bop has also copped a fair share of the revenue, again considence relatively. While few bop records have scaled the 100,000 mark, it's pointed out that the Indle platteries, with their limited distrib facilities, can make limited distrib facilities, can make a profit with only a 5,000 sale. In any case, the small disk companies are still baking the bop records in fairly large quantities with the prime motive of profit. Heavy disk lockey plugging of bop records by Fred Robbins, Symphony Sid and Leonard Feather in New York. Dave Garroway in Chicago and other platter pilots is also keeping alive bop prospects in a generally sagging market. sagging market.

sagging market.

Tipoff to bop's grip on the younger crop of instrumentalists is evidenced by the good sale of bop sheet music, handled mostly by J. J. Robbins & Sons publishers. Bop, incidentally, has also cued strong interest among the hot jazz youngsters in the classical modern composers from Ravel to Hindemith

Several bop bands have been formed in Europe, notably Germany, and it's reported that an underground bop movement is stirring behind the Iron Curtain in Czechoslovakia where it's officially banned. Leonard Feather's recent book, "Inside Be-Bop," was smuggled in as a text. Tadd Dameron, Gillespie's arranger, also dld some prosyletizing on his recent European tour and will return there in October.

There is no doubt that the majors are ready to meet any likely joint production proposal half-way. From the Coast, reliable reports come that Metro, UA, 20th-Fox and RKO are ready to talk to St. John or any other British producer whose production experience rates. Joint production deals would effectively breach the currency restrictions imposed by the Anglo-American film pact and pave the way for a future course of conduct, it is noted. New type pact sought by St. John and welcomed by the majors is double-edged so far as the restrictions are concerned. Not only does it absorb frozen pounds amassed by American companies in the form of production expenditures but it also exempts the product from the barriers raised against uct from the barriers raised against dollar remittances.

TV's Heavy Fall Grid Lineup; NBC B'WAY LEGIT GROP Talent Agencies Dusting Off Radio Blueprints Four-In-One Coverage

NBC television will launch a revolutionary new system of college football coverage this fall, simultaneously feeding the top games in the east to various stations divided into simulated regional webs. To carry out the plan, the network's remote cameras on certain Saturdays will pick up as many as four different games, each of which will be aired by three or four stations in the home team's vicinity.

With the other video networks also expected to devote considerable time to football this fall, broadcasters are steadily refuting the contention of the web's de-emphasis on sports. It had been thought that, because of commercial commitments, they would be forced to leave sports coverage to indie stations. But NBC, as one example, even without baseball is earrying more sports events this year than it ever has. Web now has the trotting races two nights a week, has covered races from the big tracks and all the major tennis and golf tournaments in the Greater NY, area and tees off its Friday night fight schedule in September.

has given bonifaces confidence that the fall will bring a general upbeat in nitery trade. Many cates here as well as elsewhere have picked up sharply since the break in the recent heat wave.

Despite the pickup, cafe owners are still wary on buying high-priced talent. Except for the few name turns that are always working, traffic in high priced acts has been very sparse. One of the reasons ascribed is the general belief that act salaries will hit the to-boggan. Last year's salaries won't be paid in most situations. Vaude pickup ties in directly inasmuch as most of the new playing time is made up of lower priced talent and most of the standard acts that are playing the vaude time are doing so at cut salaries.

Another factor contributing to the decline in buying cafe names is the uncertainty of the Florida situation.

Garry Davis Drops Exec Job on World Movement; To Study Refinancing Paris, Aug. 16.

Paris, Aug. 16.

After a last fanfare meeting in the provincial city of Cahors, the Garry Davis World Citizen movement seems to be heading for a switch in organizational policy. Davis exchanged with his public relations manager a couple open letters stating he was temporarily retiring for "study and meditation," which also might mean refinancing.

letters stating ne was temporarily retiring for "study and meditation," which also might mean refinancing.

Friends had advised him long ago that what he needed most was a good business manager, otherwise no private backing would permit him to carry on with the scheme for long. But he persisted in blinding himself to anything but propaganda, regardless, getting deeper in the red as he progressed instead of accumulating a surplus. Angeled at first by a few sympathizers, including some American showmen currently in France, he's been in the red from the start.

Davis, former Broadway legiter, who lives now at 7 Rue Brea, in the heart of the Montparnasse district, is devoting himself to propaganda via recording speeches and inspirational material. The opening of "Annie Get Your Gun," at London's largest theatre, the Coliscum, exceeded the most optimistic dreams of the producer. The British audience—normally unemotional — cheered, laughed, and sang. There were speeches, in which everyone forgot to say the things everyone always wants to say. ing, cheered the merest words.

The orchestra struck up a reprise of one of the Irving Berlin songs and the cast sang. "More," cried the audience, and the cast sang another song and another and another. The leading lady, Dolores Gray, casually mentioned that for her it was a double accasion as it was also her birthday.

At that someone in the gallery

was also her birthday.

At that, someone in the gallery shouted for the orchestra to play "Happy Birthday," so the cast and the entire house sang it together to the new star. The last streetcars had stopped and it was time for the late trains to leave, but the audience remained in the theatre to cheer and sing.

So for the producer, at least, June 7, 1947, the opening of "Anie Get Your Gun" in London was the all-time high for first-night enthusiasm and excitement,

PITCHING HORSESHOES By Billy Rose

Actors Equity Association 45 West 47th Street New York, N. Y.

Gentlemen:

During the past six months, reputable producers have announced approximately 50 new productions for the fall season, and yet here it is the middle of August and you can count those actually in rehearsal on the fingers of one glove.

Broadway, of course, knows what the trouble is—money, or rather the lack of it. It knows that, because of one thing or another, yesterday's angels have folded their wings and that a producer who auditions a show for a group of potential backers these nights is lucky if he raises enough to pay for the canapes and cocktails.

enough to pay for the canapes and cocktails.

Obviously, what the legitimate theatre needs most right now is a new seb of angels who are willing to gamble on the productions that are all set to go. And if you're inclined to listen, I can tell you where you'll find this new set of angels—gents with fresh, green folding money, who are not only willing but actually eager to take their

chances.

And you won't have to look far. These gentlemen have their offices on Broadway, and if you don't know them by name you undoubtedly know them by sight. Yes, I'm talking about the ticket brokers.

To hear them tell it, the reason they're anxious to bankroll certain productions is because they're fed up with taking the rap for certain thieving producers, theatre owners, company managers and box office treasurers. They're unhappy about the bad notices they've been getting lately and, for a change, would like to buy blocks of tickets at boxoffice prices in advance of production, and are prepared to "eat" those tickets when they guess wrong.

To make this possible. Equity of course would have to remove it he

when they guess wrong.

To make this possible, Equity of course would have to remove its ban on the "buy." And, begging your pardon, it's about time. Though the experiment was worthy in motive, what resulted from it, like Prohibition, is a matter of record and regret. As everybody knows, bootleg tickets to some of the big hits this season have sold for as much as \$50 a seat—several times as much as the public paid for a "Follics" or a "Show Boat" during the years of the "buy."

A lot of us, of course, know the scandalous story behind the ticket

A lot of us, of course, know the scandalous story behind the ticket scandal, certainly I do. But to put the ill-making details on paper—10 explain the institution of "ice" and how it's melted down—well, that would involve blowing the whistle on a lot of guys I've chummed and bummed around with for years and, for reasons I won't bore you with, I'm not disposed to play "copper."

I'm not disposed to play copper.

As the owner of a theatre, I get to see most of the musical scripts that are turned out these days, and in the past few months I've read at least five which shape up as potential boxoffice hits. But, so far, not one of them has ordered a dress or a stick of scenery because the producer hasn't been able to dig up more than half of the necessary money.

ducer hasn't been able to dig up more than half of the necessary money. It's my belief that the ticket speculators, if given the chance to speculate on pre-opening ticket buys, would complete the financing of these shows, and five musical productions, gentlemen, mean the employment of close to 1,000 actors, dancers, musicians, stagehands and other help around the theatre. And remember, I'm only talking about musicals. I understand that at least a dozen dramatic shows are ready to go into rehearsal as soon as dough is available for the necessary bonds and production expenses.

Who would suffer? Nobody I know of, except possibly a few chiselers who are stashing away dark-of-the-moon money in their vaults—little, if any, of which ever shows up on their income tax returns.

"There's more show business in New York than there is on the whole Continent," declared N. Y. Latin Quarter operator Lou Walters, on his return from Europe on the Ile de France, Friday (19), the Ile de France, Friday (19), after a eight-week stay. From a quality standpoint, the entertainment industry in America is way ahead that of Europe, Walters stressed. On this trip he didn't visit England and the Scandinavian countries.

"The semblance of life that Continental show business has is given by U. S. acts. The Lido, Paris, for example, has American acts, and it's a good show," Walters avers. "The four hours of 'Folies Bergere,' 'he continues, "is repetitious, and costumes are not so good. In the smart spots such as the Casino at Monte Carlo, the best-dressed women were either American or English. Even the style shows by some of the leading designers, had ornamental rather than useful costumes." At one show, Walters pointed out, 'one of the models fell and two men had to get out on the floor to help her get up—the gown was that unwieldy."

The only item that Walters wanted to import was a ballet company, the Roland Petrie troupe, which legit impresario Lee Shubert dissuaded him from signing. He later learned that Arthur Lesser pacted the outfit and the troupe will be presented this season in a Shubert house.

FILM B.O. HITTING HOT PACE

L. B. Mayer's V.P. Title Prelude To NEW RELEASES British Filmites, Softened Up By Possible Divorcement of Loew's?

Election of Louis B. Mayer totarist vice-president of Loew's, Inc., last week was seen in some trade circles as a prelude to possible divorcement. Should the break come, appointment is said to clear the way for Mayer to become prez of the producing-distributing end, while Nicholas M. Schenck heads up the theatre company.

This was given as the explanation why Mayer, for the first time in his 25 years with the company, has accepted a corporate post. Previously he has always been in the position of a paid employee, although he has participated in profits.

previously he has always been in the position of a paid employee, although he has participated in profits.

By taking the post of "first v.p.," it is reported, he is in the logical position for a natural stepup to prexy if and when divorcement becomes final and Schenck chooses to stick with the theatres rather than with the less lucrative producing-distributing division.

Another reason for the election of Mayer to the vice-presidency was said to establish him publicly as top man at the studio. There has never been any doubt within the organization that he holds that spot—as he has for a quarter of a century—but since Dore Schary was named production chief last year there has been Hollywood gossip as to the reltaive standing of the two men in the Metro heirarchy. This definition of duties is understood to have been one of the things that held up inking of Mayer's new pact for a considerable time. The announcement of its signing last week left no doubt as to Mayer's standing, aside from the v.p. appointment. It read:
"The announcement is made of the final signing of Mr. Mayer's new contract with the company. Mr. Mayer will continue as director of all M-G-M studio activities, as he has for the past 25 years. The board of directors of Loew's, lac., last week elected Mr. Mayer first vice-president. The term of his new contract is five years."

PRODUCING ABROAD

Harry Cohn got in Friday (19) on the Ile de France and flew to the Coast Monday night (22) after several home-office powwows. The Columbia prexy's conclusions on producing abroad is, "In Hollywood you press a button, tell your staff what you want done and they get it done. In Europe a producer presses the same button, but the only difference is that he has to run out and answer his own bell, and get things rolling—the hard way." The film executive avers that producing abroad "is a case of throwing good American dollars after bad pounds, francs or lira; it's OK only for authentic background shots but not as any competition to Hollywood."

Cohn was glad he made the trip, however, because it enabled him to meet many key Columbialtes in Britain and on the Continent—men who had been 20 years with the company but to whom he was only a name on a letterhead.
Cohn and wife, the former Joan Perry, made the seven-week trek with the Arnold Grants (Grant is personal attorney for the Col prez). Mrs. Cohn flew back to Hollywood as soon as they docked in order to see their two children.

American industry toppers are more confident now than at any time in the past two years that changes in favor of Yank films are on tap in England. The financial hammering which Rank has taken both at home and abroad during the past year has had teling effect, they say. Change in British attitude is so marked that American film men—who have consistently resisted previous efforts of the British to convene the Joint Anglo-U.S. Films Council—are now looking forward to the session scheduled for Long to the session scheduled for London in October. National Boxoffice Survey Cool Temperatures Warm B.O.—'Magic' Takes Over First Place, With 'Feeling' Great Second

Continued cool weather in many

Continued cool weather in many key cities plus the fact that the long heat wave was broken in other sectors is spelling very big biz this session. Overall total gross for the 10 biggest pictures probably will reach the highest figure since last Easter.

"Black Magic" (UA) is fronting the pack, with launching simultaneously in more than 13 keys covered by VARIETY. While not big in three or four cities, it is leading in two spots and generally nice to big or smash. Smart, intensive bally is paying high dividends in several communities. "Great Feeling" (WB) is a close second in the national box-office sweepstakes although not sock in many spots.

"Slattery's Hurricane" (201h) is copping third coin, with the storm meller doing much better than first time out. "You're My Every-thing" (20th) again is finishing fourth where it was last week. "Great Sinner" (M-G), latter spotty.

Batch of new pictures, being groomed for extensive playdating Labor Day weekend, hint strong possibilities for the new fall season. "Jolson Sings Again" (Col) is outstanding with new all-time record at N. Y. Loew's State. "I Was Male War Bride" (20th) also tips strong potentialities on basis of initial sock week in L.A.; opens at N. Y. Roxy this week.

"Roseanna McCoy" (RKO) also looms as a smash winner based on extensive launching in Ohio, Indianna and Kentucky this round. It is pacing Cincinnati, Louisville and Indianapolis, being smash in all three. Terrific bally put the film over in all three spots.

"Yes Sir, That's My Baby" (U), still good on second Chi week, is fancy in Indianapolis and nice in Pittsburgh. "Blue Lagoon" (U), still good on second Chi week, is fancy in Indianapolis and nice in Pittsburgh. "Blue Lagoon" (U), given novel exploitation, is torrid in Washington. "Abbott-Costello Meet Killer" (U) also is shaping up judging from returns this week despite its long title.

"Brimstone" (Rep) looms nice in LA. "Scene of Crime" (M-G) shapes good in Philly. "Not Wanted" (FC) is sturdy in Cincy.

Reissue combo of "Dumbo"-"Saludos Anigos," from RKO, is doing nicely this week.

Selznick, Wanger Held N. Y. Exhibition System Forced 'Em Into Unique Dual

Peculiar system of exhibition in fact that the Selznick Releasing fact that the Selznick Releasing Organization and Eagle Lion have no other strong product on their Immediate agenda, is given as the reason for the unusual deal last week by which David O. Selznick and Walter Wanger agreed to team "Portrait of Jennie" and "Tulsa" as a dual bill in the area.

"Tulsa" as a dual bill in the area.
Under the arrangement, SRO has taken over Wanger's "Tulsa" as the co-feature with "Jennie" and has given Wanger a guarantee of income for the territory. The pix will get equal billing when they hit the Loew's circuit at the end of September and then go into the subsequent loops.

to the subsequent loops.
Sidney G. Deneau, v.p. and general sales manager of SRO, is handling the circuit deals for both pix. "Tulsa" is being distributed by EL, while that company does the tail-end selling on "Jennie" and other SRO product, which provides the link between the two producers.

producers.

Both pix had Broadway runs, "Tulsa" at the Capitol and "Jennie" at the Rivoli. "Tulsa" stars Susan Hayward annd Robert Preston and "Jennie" Jennifer Jones and Joseph Cotten. Despite the "A" Broadway playing time and the marquee value of the casts, neither pic could get booking as a top feature on the Loew's circuit. No effort was made on the RKO chain.

Loew's Top Bid

Loew's Top Bid

Best that Loew's would offer to either producer was equal billing with another picture. That's not so bad financially as regards the Loew chain, but it can be disastrous in the subsequent New York circuits because of the odd booking situation in the territory. All the houses that follow Loew's and RKO use the same booking pattern as they do. That is, whatever pix are twinned on the two major circuits are similarly dualled in the subsequents.

This has led to a historical set-

This has led to a historical setup by which the subsequent circuits habitually pay percentage on
one and flat rental on the other
of the two equally-billed features.
Wanger and Selznick would thus
take a great chance of landing
in the flat category in the subsequents. That is obviated by their
making up their own dual bill and
divvying the percentage coin between themselves. Result of the
whole operation will be less coin
than each pic would get independently billed as a top feature,
but more than by taking a chance
of ending up as a flat.

The two producers are known

of ending up as a flat.

The two producers are known to be highly resentful of their inability to get top billing from Loew's, pointing to pix in that category from other studios which did less biz in their Broadway engagements and which did not have the cast names of "Jennie" and "Tulsa." Producers attribute their difficulty to the fact that they are indies and do not have a line of strong product in back of them to use as a lever.

Plan which may change the general outlook of foreign films in the U. S. is to seek sponsoring groups similar to the Theatre Guild. Community intends entering partnership deals with the civic units to divide profits of showings on a 50-50 basis. It will offer a choice of six films from total of 12 which Lopert Films, Siritzky International, Times Pictures and Irwin Shapiro's Film Rights International are delivering.

Outfit, according to Kayden, anticipates concert series with 100-150 groups as a starter. Under the plan, civic group such as the Junior League would book the six pix to be played bi-weekly for the season. Some 25 groups have been established in preliminary work. Outfit is starting with a couple of fieldmen and expects to expand later if the scheme gets across. It is the first attempt by foreign film distribs to employ the concert plan to build grosses on celluloid imports in this country. Distribs are convinced that demand exists in smaller cities where no art theaters operate to meet the middle and upper crust appetite for non-English language films.

Arthur Rank as chief of the Odeon and Gaumont-British circuits, two of Britain's largest chains, are expected by the six American film companies that voted an extension of the unit rule in Britain. Rank, who clamped an unofficial boycott on American pix when the rule was first adopted last year, is now depending heavily on U. S. imports because of his greatly reduced production program.

With 20th-Fox counting itself out, Paramount, Metro, RKO, Warner Bros., Columbia and Republic have voted to extend unit booking to March 31. 1951. from a previous expiration date of April 1, 1950. Unit rule bars the playing of mixed British and American dualers in British theatres.

Although the rule is uniform for the entire United Kingdom, it was originally directed against Rank. inims while relegating the American films to second-half-of-the-bill rentals.

Rank's production plans cail for only 20-25 films during the '49-'50 season, an inadequate total to keep his theatres going. Against this total are the 60 films which he produced last year in the first bloom of the 45% quota act. Moreover, Rank was then drawing on a pile of reissues to fill his playing time.

When the unit rule was first passed, Rank made no secret of the fact that he considered it a violation of his understanding with American distribs. He, thereupon, refused to book product of those voting the plan for a number of months.

months.

Reports from England indicate that 20th, always close to the Rank interests, has a quiet guarantee of added playing time from Rank because of its stand against the unit rule. American distribs have not played the 55% quota limit on the Rank circuits. Twentieth, it is believed, will now get that maximum playing time, particularly because Rank will have more flexibility with the company's product and can combine it with some of his films.

Sears Tells Pickford and Chaplin **UA Earnings Look Best in 5 Years**

United Artists in 1949 will prob-ably show its greatest profit in five years or more, prexy Grad Sears reportedly told owners Mary Pickford and Charles Chaplin last Friday (19). Sears is understood to have predicted a possible over-all net of \$300,000 to \$500,000 for the year.

It is believed that the last time UA operated in the black was 1946, when it showed a net of about \$50,000. It reportedly came close to breaking even last year, but suffered through a very bad period during the first five months of 1949. When returns from "Champion" and "Home of the Brave" started appearing on its books, income took a spurt. Billings are said to have run as high as \$400,000 a week during some recent stanzas.

Net on the domestic operation reportedly now stands at about \$350,000 for the year. If the company can hold its present pace, it can easily beat Sears' prediction on the net. Film rentals are currently about \$600,000 ahead of last year, with costs \$200,000 less. Weekly operating expenses of the domestic department are running between \$70,000 and \$75,000 weekly.

Small-UA 'Pard' Talk Now Cold

Deal for a partnership by Edward Small in United Artists, which the producer discussed with prexy Grad Sears some weeks ago, is understood cold. Talks were never more than vague at best and took place in the east when Small's deal to take over Eagle Lion fell

apart.

Plan discussed was similar to that by which Samuel Goldwn, David O. Selznick and Sir Alexander Korda all got their partnerships in UA. They were to be granted their shares in return for delivering a certain number of films for the company's release. In each case it was a method, as it would be with Small, for assuring the company a product supply.

producer.

Bad experience with this type of deal in which no coin is advanced for the stock interest naturally makes owners Charles Chaplin and Mary Pickford reticent about going into such an arrangement again. However, it is admitted that there would be less likelihood of a "personality situation" developing with Small than with any of the three previous producers.

Small, on his side, has a tough problem to decide in considering a UA partnership. It would mean that he himself would have to finance the pix he'd make for delivery to the company. He currently has an opportunity to line up with Columbia on an independent basis by which that studio would put up all the coln for his pix. His profits wouldn't be so large, of course, as the potential from films with his own financing—plus the bonus of the UA stock—but he'd be taking no risk whatsoever. splitting of product will stand up before a legal challenge which is likely to be raised in the near future.

According to a number of sales execs, splitup of product is the answer to the cry raised by many exhibs that the latest Federal court decision, ordering complete divorcement, will spell doom of indies. That protest was last raised by Herman Levy, general counsel of the Theatre Owners of America, who predicted that the theatre-by-theatre selling without discrimination meant bankruptcy for a flock of "old customers."

As an instance of the new trend, a sales biggie for Universal told VARIETY that the company would henceforth split product "whenever we find that there is real competition in a situation and adanger that the financially-stronger rival is going to drive out his competitor by bidding more than a picture is actually worth."

"We're not fooled by the prospects of a fast buck on one or two films from any particular house," this exec added. Showmen are reluctant to even consider any price reductions. There is no shuttering of houses, in spite of the warm summer. Exploitation has been running pretty much in the groove as has newspaper, radio and billboard advertising. In these respects the policy has always been to keep on the beam.

Daylight saving, in vogue again this summer, wasn't resisted by showmen, as it was considered futie to protest, although it does hurt the take. Hartford B.O. Hinges On Fall Industrial Revival

Hartford, Aug. 23.

The state of the film business in this immediate area is on fairly solid ground. Although business is off from 5% to 25%, depending on the location of the individual house, the operators are way ahead of pre-war days in both take and attendance. However, unless there is a fall pickup in industrial activity, there will be a good drop encountered.

Four reasons exist for the drop

ity, there will be a good drop encountered.

Four reasons exist for the drop in attendance to date. First is drop in purchasing power. For over a year, there has been a decline in industrial activity with a coinciding drop in employment. Second, with the decrease in employment, there has been a population shift of war time workers and others to places of industrial activity or to home terrain. Third, there is a tendency for decreased theatre attendance on the part of regular patrons.

Actually the above three reasons can be rolled into the one big reason—namely, a reduction in purchasing power. Another reason set forth is the lack of good pictures. Theatre managers openly admit that the calibre of pictures this season has been off and public is showing its resentment by decreased attendance.

Prices Falling On Film Yarns

Hollywood. Aug. 23. Price of story properties is com-ing down, along with film produc-

ing down, along with film produc-tion budgets.

Since the first of the year Para-mount has bought 16 stories and plays for \$927,000, an average of \$58,000, a sharp decline from pre-

Solutions, a sharp decline from previous years.

Only three of the 16 were in the six-figure class. These were "Detective Story." \$280,000; "The Greatest Show on Earth." \$250,000, and "Father Goose," \$100,000.

P.S.—It's Now Back to Its Original 'Red Danube' Tag

Mental twists and throes that a m company can suffer before Mental twists and throes that a film company can suffer before finally fixing a label on a pic was played out in spades this week by Metro. It took a direct order from Louls B. Mayer, studio chief, to nail down the name "The Red Danube" for Metro's forthcoming release after every branch of the company played switch-the-title for a lengthy stretch. Name, incidentally, was the first that the pic had.

devially, was the first that the pichad.

Culver City lot had dubbed the Carey Wilson production "The Red Danube" while the film was being lensed. When the print reached the h. o., sales dept nixed the label because it was felt that the name gave the impression of a European film with political overtones. Since anti-Red films have not scored notably, sales staffers viewed the title as b.o. poison.

Studio then suggested "The Case of Mary Buhlen" to which the distrib wing tentatively agreed. When that title reached Metro's flackery, however, a minor revolt occurred. M-G's h.o. publicists drafted a petition to change the title again because of a feeling that it would not go over with the public. "Buh'en" tag was then dropped.

Instead, sales dept. ordered a survey of a cross-section of the public with 40 professional poll-sters handling the project. Those quizzed were asked to choose from four titles, "Crossroads," "The Whirlwind," "No Escape" and "The Red Danube."

"Crossroads" won hands down and an announcement of title change was released. On second

"Crossroads" von hands down and an announcement of title change was released. On second thought, it was felt that the tag had little or no connection with the pic's story plot. Mayer then intervened to restore the original 'abel.

Construction prices are about the 'abel.

Title of the novel from which Although most houses have canthe film was adapted, incidentally, was "Vespers in Vienna."

Recent pronunciamento by Abram F. Myers, Allied States exhib association board chairman, that the industry must clean up its product to get better ratings from the Legion of Decency was met head-on this week by a statement from the Motion Picture Assn. of America. It presented lengthy quotes from spokesmen for leading women's organizations to show that "Hollywood is turning out more films suitable for general family entertainment than ever

more films suitable for general family entertainment than ever before."

While neither Myers nor his recent statement were mentioned by the MPAA, refutation included a quote from Mrs. James F. Looram, of the Legion of Decency. She said that "in the past nine months we have been able to recommend 75% of the Hollywood product as meeting our standards of decency and wholesomeness." Others quoted were Mrs. Jesse M. Bader, national chairman of the Protestant Motion Picture Council; Mrs. Dean Gray Edwards, chairman of the motion picture committee of the General Federation of Women's Clubs, and Mrs. LeRoy Montgomery, chairman of the motion picture committee of the Daughters of the American Revolution.

Myers stated that with attendance on the downgrade "it's sheer folly recklessly to ignore the Legion's standards." Calling for "serious pledges of reform to build up industry good will on the solid rock of public confidence," Myers said it was no answer that a picture rated "B" or "C" by the LOD had been successful, since "If given an 'A' rating it might have been more so."

Progress in Non-Flam Film Footage Augurs Big Savings on All Fronts

Steady reduction in the price of acetate (safety) non-inflammable film is being pushed by Eastman Kodak with the cost of the newly-developed rawstock now slashed to only it per foot above that of standard nitrate stock. Latest reduction was now here. standard nitrate stock. Latest reduction was pushed through last week. In the past six months, since EK first marketed the non-flam celluloid, price has been whitted from an initial .4c per foot birther than primtie.

tled from an initial .4c per foot higher than nitrate.

Of its total output of motion picture stock, EK is now turning out 35% in safety stock. Within two years, entire output will be converted to acetate from the nitrate base. Under an agreement with EK, majors are committed to take all the acetate produced by the Rochester firm.

the Rochester firm.
Once the changeover is comthe Rochester firm.

Once the changeover is complete, industryites predict something of a revolution in the shipping of film and building of theatres. Fire insurance rates will be drastically cut, it is said, and theatres can be built without elaborate fire precautions now used. Exchanges, moreover, can switch to standard office buildings. In this respect, it is noted that several cities including Boston and Washington bar exchanges in buildings of more than one story.

Prints, both nitrate and safety, are still being shipped in heavy metal containers. No switch will be made to lighter and cheaper packaging until the conversion to safety prints is complete. Precaution is being taken to avoid the dangers of mixing up the two types of prints while in the transition period.

Safety film is currently selling at \$13.656 per 1,000 feet.

Long wait before a picture made from a hit legiter can be released is proving almost as much a damper currently on Hollywood interest in Broadway plays as the high prices set on screen rights. Studios are being very wary of what 20th-Fox production topper Darryl F. Zanuck said recent was "gambling on the state of business two or three years hence."

three years hence."

Legit producers understandably do not want a film killing off a play's income before it is completely milked. That means that a combo of the Broadway run and road companies of a solid smash may result in a delay of 24 to 36 months or even longer between the New York opening and the time the legit producer would want to face his live actors with celluloid competition.

face his live actors with celluloid competition.

When picture b.o.s were definitely on the upswing, studios weren't concerned too much about the wait. As a matter of fact, with prices on the uptrend, a play might be considerably more valuable by the time the pic was released than when the property was bought. Now, however, studios hesitate to take a chance not only on the state of the film biz, but on the economic situation in general. With several hundred thousand dollars or more involved, the value of the dollar in 1951 or 1952 may make a lot of difference.

A number of plays have had such

A number of plays have had such long runs that despite the cold storage periods insisted on by the storage periods insisted on by the producers, the pictures come along and overlapped them. Among such have been "Tobacco Road." "Life With Father," "Tomorrow the World" and, most recently, "Command Decision." It is genefally agreed that the touring companies have been hurt by the pix, but that the New York run may or may not be affected. Sometimes the film will come onto Broadway and off without a noticeable flutter in the legit gross.

without a noticeable flutter in the legit gross.
On the latter basis there have been some efforts by the picture companies to convince producers that they ought to cut down on the waiting periods they demand. Most have not taken the bait, however, particularly Richard Rodgers and Oscar Hammerstein II. who go to the extreme of put selling their I. who go to selling their the extreme of not selling their stage properties to pictures at all because they feel they a have a greater potential value as touring flesh musicals for years to come.

trade at nearly all deluxers this session.

The socko exception to mild new entries is "Jolson Sings Again." soaring to new all-time record at the State where \$95,000 looms in litital week ending last night (Tues.). Threatening weather final day (yesterday) probably cut in somewhat and may have kept the new Jolson opus from crossing the century mark. The rather abrupt tapering off, experienced also by other houses, late Sunday likewise was detrimental.

Both "Siren of Atlantis," with \$14,000, and "Special Agent," at \$7,500, are doing very mildly for newcomers.

last week for homeoffice huddles
after 18 months abroad. Expressing optimism that the turning point
has been reached, he cited improving conditions in Scandinavia,
termed the Italian situation
'bright' and noted that the company was looking forward to operating in Germany next January.
RKO's earnings, Bellfort emphasized, are keeping up with last year
and may even surpass the 1948 figure. With "Joan of Arc" now
scheduled for day-and-date release

cities of western Europe, the RKO
continental chief added that he was
confident that company billings
would be increased in every territory. Picture's distribution will be
preceded by a gala, invitational
charity preem to be held at the
Paris Opera.

Bellfort minimized reports of
'anti-American' film legislation recently passed by the Italian government. He explained that a
clause in the law enables the government to help the exhibitor by
fixing a maximum film rental "in
case of necessity." However, this
hasn't been finalized, he said, and
added that there's a good chance
that the legislation may be adjusted to the satisfaction of American distributors. Part of the same
law compels U. S. film companies
to pay a 2,500,000 lire tax on each
film brought in with proceeds used
to subsidize native production.

Spanish Gov't Pushing Pix Industry Via S. American Confabs in Madrid in Nov.

Madrid, Aug. 16.

Madrid, Aug. 16.

Great efforts are being made by the Spanish Ministry of Education, supported of course by the government, to make a big affair of the Second Congress of Spanish-South American Cinema, which will be held in Madrid in November. There will be a convention of Spanish and South American producers, actors and technicians, and ducers, actors and technicians, and an exhibition of films produced in Spanish-speaking countries. The Cinema Workers Syndicate will

present a huge publication extol-ling Spanish production. The Syndicate will distribute 1.-250,000 pesetas (about \$62,000) in prizes to the best Spanish films of 1949. This is, of course, another prizes to the best Spanish films of 1949. This is, of course, another form of indirect subsidies given by the Spanish government to its own film industry. Syndicate also announces that it will give about 500.000 pesetas (\$25,000) in prizes to the best stories submitted by cititens of Spanish-speaking countries if they extoil the ties between Span and South America.

A new private agreement is announced between Spanish producers and Mexican distributors and a first package of six Spanish films to already being exhibited in Mexico.

The famine of good American production in Spain has produced a reissue of Metro's "Ninotcka." which is proving an enormous suc-cess.

Hitherto a strict ban has been imposed on all broadcasts of a party political nature, and discussions on controversial subjects are only permitted under stringent conditions. Some of these rules are that both sides of a question must be presented in the same broadcast, that the subject was in the public interest, and was not likely to offend the susceptibilities of any section of the public. Just how difficult the question of these broadcasts is, is given by protests which are continually being made by the nationalist press regarding the BBC news service. The SABC relays the BBC news for a 15-minute period twice a day, and on one or two occasions the BBC has given prominence to political speeches made by General Smuts. The nationalist press is calling for a promise from the BBC to exclude political references in these newscasts, which the BBC refuses to give.

French Seen Seeking \$ Guarantees on Films: Italo Skyhigh Demands

French producers are now insisting upon minimum guarantees in dollars when selling U. S. dis-tribution rights to their films. Demands of the Gallic filmmakers were revealed in New York last week by foreign film distributor Albert Spalter, who heads Spalter. International Pictures. New attitude of French studios, he explained, stems from their belief that they're not gaining the amount of dollar income from their product that they think they should.

Spalter, who recently returned from a seven-month product hunt through Austria, Italy and France, claimed that producers in the latter country are hampering their chances in the U. S. by turning out films which they think are geared to the tastes of the American public. He teels that only pictures containing a genuine, Continental flavor are logical contenders for the U. S. art house dollar.

In his swing through Italy, Spalter said he was amazed by the astronomical sums asked by Italian producers for U. S. distribution rights to mediocre product. Unquestionably, he holds, their attitude has been influenced by the success of certain of the better Italian pix in the American market. At any rate, prices sought by the Italo filmmakers were too "prohibitive" to warrant any purchases by the American distrib. "prohibitive" to warrant any pu chases by the American distrib.

Entertainment Tax Cripples Brit. Pix. Says Rank; More Unemployment Due

Joe Friedman's 'Take It Easy' at Bevhills Home Joe Friedman, longtime manag-ing director for Columbia Pictures in Great Britain, returned to Amerin Great Britain, returned to America on the Ile de France in company of Harry Cohn, president of the company. Glasgow, Aug. 16.

Entertainment tax is crippling Britain's film industry, J. Arthur Rank said here today (16). The industry hadn't yet spoken out against it as one voice, he told VARIETY, but producers, exhibitors and the trade unlons would now combine, he said, to take matter up with the British Exchequer. Rank foresaw more unemployment if solution were deiayed.

British films needed a world market if they were to make profits, he also added. A producer, Rank said, could make a film for £140,000 (\$560,000). This would take in coin to value of £500,000 (\$2,000,000) went back to the producer. When the others bills were paid there was a loss of £50,000 (\$200,000). That was what happened, Rank said, if the pic sold only in Britain.

New Film Color Process in Venice

Venice, Aug. 16.
A new film color process, Italcinecolor, was previewed here today (16), for the press. Based on
the four-image, four-filter system,
its inventor, Luigi Cristiani, ciaims
its use of black and white film,
plus optics developed over period
of several years by Italy's Gailieo
lens factory, make it three times as
sensitive as other color systems,
besides being very economical.
Cristiani claims two advantages
over other systems. One is possibiitly of "painting" on film by controiling intensities and shades of
desired colors in the camera instead of the lab. Other is the
possibility of making color prints
from Italcinecolor b&w negatives
on any other type of color film on
the market by means of another
machine he's developed, still retaining the values achieved by Italcinecolor lensing. Latter process,
Cristiani hopes, will also permit
immediate commercial use of his
system in normal channels until
cost of projection attachment required to project b&w film drops
to commercial level, allowing wide
distrib. Results seen are okay,
but colors aren't bright enough.
Using same four-image system,
Cristiani has developed his Stereocolor, in which his color process is
applied to stereo. Polaroid glasses
however, are required, and colors
in first film, shot a few days ago
and also screened here, aren't true
enough, results being closer to a
bl-chromal film process. The Inventor expects his Stereocolor to
he perfected and ready for full
commercial use within a year.

Producer Joe Pasternak has established a neat pattern during his Metro tenure of turning out almost consistently good grossers via a Technicolored musical format. That Midnight Kiss" helps cement the habit. With the usual thin but Technicolored mušical format. "That Midnight Kiss" helps cement the habit. With the usual thin but amiable story, a couple of strong production numbers and a long list of Metro stars and featured players, this one should have little trouble in drawing 'em. In addition, the film introduces a potentially smash b.o. draw in tenor Mario Lanza, recruited by M-G from grand opera, whose standout singing and capable thesping should provide an extra word-of-mouth fillip for exhibitors.

Lanza, judging from this initial effort, should emerge a big attraction. His voice, when he's singing opera, is excellent. In addition, far from resembling the caricatured opera tenor, he's a nice-looking youngster of the "average American boy" school who will have the femme customers on his side from the start. Completely at ease before the cameras, he's no great actor but handles his thesping chores adequately.

Intro, "Kiss" is along the general M-G musical lines. Original screen-play by Bruce Manning and Tamara Hovey has Ethel Barrymore as a wealthy Philly blueblood, who attempts to compensate for her own operatic frustrations by financing a civic company to star her grand-daughter, Miss Grayson. Jose Iturbi, as the maestro, agrees to audition Lanza after Miss Grayson discovers him. When the temperamental tenor originally booked to co-star with Miss Grayson quits, she convinces Iturbi to give Lanza the big chance. Latter also walks out after a lover's quarrel but returns in the nick on opening night to take over for the big finale. While Lanza will draw the notices, rest of the cast performs well under the skillful direction of Norman Taurog. Camera at times isn't too kind to Miss Grayson but her soprano pipes sound good and her thesping is appealing. Miss Barrymore is fine in a role that doesn't require too much of her acting talents and Iturbi, besides giving his piano a sock workout, also demonstrates considerable act-

History has not treated the infamous Borgias too kindly, and 20th-Fox hasn't advanced their cause any in a melodrama of intrigue, treachery and cold murder. However, the names of Tyrone Power and Orson Welles, plus the novel's bestselling title from which this film was adapted, should serve the boxoffice to some extent.

Samuel Shellabarger's novel of the same name—and the cinematic version—are reminiscent of recent modern history in their pertinence to the ruthless, treacherous warfare they chronicle. "Prince of Foxes" actually is a fictional incident in the history of the Italian Renaissance general, Cesare Borgla, but too often it is slow and plodding in its exposition and execution. "Prince" telis of Borgia's lust for

plodding in its exposition and execution.

"Prince" telis of Borgia's lust for power and desire to expand his empire. This he does with all the intrigue and knife-in-the-back knavery at his command. It is inferred that he is responsible for the death of his sister Lucrezia's husband, so that she can marry the Duke of Ferrara and thus effect an advantageous alliance. He also plans to have slain the aged ruler of another neighboring duchy, and have one of his aides seduce the latter's wife, as part of his plan for conquest.

The Borgiastic episode, despite
its 16th century background, nevertheless, has been conceived and executed in true Capone and Chicago

and the like, are inclined to become monotonous.

Tyrone Power plays Orsini, who assumes the mantle of nobility to achieve social stature and ultimately bests Borgia when he deserts him to join the invaded duchy of the elderly Varano. Power hasn't been photographed to best advantage in a number of scenes though his performance generally befits the couragrous character he plays.

Wanda Hendrix, as Varano's young wife, and whom Power loves, gives the weakest of the performances.

Everett Sloane, as the traitorous aide to Power—who ultimately is responsible for Power's freedom from the Borgia chains—gives an excellent portrayal that almost snares the film's major acting laurels. Marina Berti is the girl Power rejects for Miss Hendrix, she's a native Italian who has little opportunity to show her ability. Katina Paxinou has a bit as Power's mother, but she carries it off well. Felix Ayimer, as the elderly duke, gives a quietly restrained but effective portrayal.

As an "action" picture, "Prince" suffers mostly because of lack of action. There is one battle scene, wherein the forces of Borgia seek to scale Varano's fortress, that is much too stagey. A gripping situation, however, and very well played

The first Hollywood-made feature to treat on the sensitive subject of the Palestine war, "Sword in the Desert," is a credit to the industry. Because this major offering of Universal is an exciting adventure, well conceived, directed and lensed, its boxoffice payoff is assured. At the same time, it represents as fair-minded an approach to national differences as can be maintained in an era of disturbingly hysterical partisanship.

Granted the original premise of

hysterical partisanship.

Granted the original premise of this pic—and no bones are made about it—that the Jews' fight for a homeland is the right one, "Sword" takes meticulous care to depict the British in a favorable light. If the Jews are on the side of the angels, the British are no heavies. Their dry humor; their valor in battle; their punctillous observation of the rules of war; and their self-questioning as to the rightness of their cause are stressed repeatedly.

observation of the tune of the rightness of their cause are stressed repeatedly.

U carefully inserts such quotes as: "Avoid gunfre if possible, men, there may be women and children" or, in the pondering of the commanding general, "This isn't a Jewish, Arab or British problem—it's a problem of all mankind." If anything, the expounding of the British and Jewish positions in text book style is one of the pic's few weaknesses — giving an exciting feature an overcast of scntentiousness. Surprisingly, very little is said about the Arabs.

Only one part, that of an Americand

said about the Arabs.

Only one part, that of an Amerlean sea captain (Dana Andrews), does not sit well. Acting as a foil to the zeahous Israeli battlers with whom he becomes entangled, Andrews is meant to depict the skeptical, I-want-what's-coming-to-me attitude of the selfish neutral. In pressing that point, he is made to do some foolish and incredible things. His conversion to the cause is one of the major developments of the pic.

This offering will pay off handsomely in all situations.

sical imagination that marked his searly successes. This offering will pay off handsomely in all situations.

Split into equal halves, film is based on two popular books, Kenneth Grahame's English classic. "The Wind in the Willows," and Washington Irving's "The Legend of Sleepy Hollow" They are handled in widely differing, but equally effective styles. The Grahame yarn has a subtle, satirical edge on its comedy which will imit its appreciation to adult audiences. The Irving legend, however, is treated with splashes of color and broad strokes of humor and violence that will appeal in a fundamental way to all age groups. Together they comprise a solid package of varied entertainment. Initial section of the film is devoted the adventures of Mr. Toad an aristocratic amphibian with playboy tendencles. The toad is a superlatively clever creature of the drawing-boards. He is a member of the leisure class, cultured, as superlatively clever creature of the drawing-boards. He is a member of the leisure class, cultured, autos and airplanes. When he gets pinched on a stolen car rap, the toad acts as his own counsel and through the cartoon's power of parody, exposes the prosecution's legal cliches with insouciant non-chalance. It's the high point of the film.

The dialog and narration are impeccably tailored to match the animation.

A skirmish on the beach; flight to the villages; detection because of Andrews' foolhardy action; capture and release in a final, hair-raising rescue are tensely dramatized for the maximum of movement.

Woven into the story and heightening its impact is some excellent camerawork of the barren country, the tiny villages and the people themselves. Effort is made to show the seamed and weary refugees; the welcoming Jews; and to give some indication of the broad international base of those who fought for Israel.

Intense and sincere portrayals are contributed by Marta Torem wha plays a patriot broadcasting over a secret radio; Stephen Methally, her vis-a-vis and a leader in the underground; as well as Jeff Chandler as a partisan chief. Miss Toren can be torridly attractive by without feminizing her intrinsically chiefly because of Crosby, Also,

the way of territying the younger set.

The tinting of both yarns is skillfully keyed to the tone of each yarn. While "Mr. Toad" is drawn in soft pastels, the Ichabod yarn is swept by full, contrasty colors, In both cases, it pars Disney's standard for excellence. Herm.

"Black Magle" is one of those pictures that's full of sound and fury, signifying very little. In short, an overwritten, over-acted and under-lit costume piece that will need all the exploitation and ballyhoo planned for it. Exhibitors might be able to take advantage of the mass saturation campaign already launched by producer Edward Small and United Artists, which will provide them with the chief selling points. Need for hep merchandising is all the more pronounced because of the dearth of any strong marquee pull. Film's best attribute is the authentic background. Based on Alexandre Dumas' story of Cagliostro, a villainous impostor of the 18th century who rode roughshod over Europe by exploiting his hypnotic powers, the picture was lensed entirely in Italy and France. As a result, it was possible for Small and director Gregory Ratoff to shoot their story in the actual places where the events might have happened. But the melodramatic story, which is never quite believable, and the heavy - handed thesping are too much for the authentic backgrounds to overcome.

Orson Welles plays Cagliostro, and Ratoff evidentity gave him a free hand. In this case, Orson is awesome only because he lays on the theatrical gestures so thickly. His acting is reminiscent of the mustachioed heavies in the old saloon-day mellers. Rest of the cast might have taken their cue from him and they are given no help by the stilted dialog. Example: Marie Antoinette, waiting for Cagliostro to perform one of his magic stunts before the French court, declares, "We're all agog with impatience."

Story would have the audience believe that Welles, or at least Cagliostro, practically single-handed fomented the French revolution. Story is told by Dumas in flashback as he is writing his book and picks up the villain as a gypsy boy when he is forced to watch his parents unjustly hanged for witch-craft. As a man, he has already developed his hypnotic ability bit doesn't know how to exploit it un-

Pleture was credited by VARIETY's reviewer as being" a sincere attempt to tell simply and movingly a story of the ordinary folk of a tiny Welsh village." The review noted that though the "frequent use of the Welsh language and the constant Welsh dialect may prove a deterrent in America, the production should have some appeal to the art house trade."

The entire yarn is staged in the picturesque village of Dolwyn and pivots around the plans of a city slicker to buy up the entire district for a water development project. Edith Evens and Emlyn Willams stars in the production,

Hollywood Veering More to Casting Lesser Roles With B'way 'New' Faces

Practice of inking Broadway players for Hollywood roles, which has shown a sharp upturn in the past six months, looks certain for even more of a hypo in the near future. Success with this method of casting has led the studio increasingly to send scrints to their creasingly to send scripts to their eastern talent reps with instruc-tions to suggest Broadway actors for subsidiary leads and character

exhib cooperation, Montague will declare that Columbia is "very eager and willing to assume our fair share of the responsibility for showmanship with the exhibitor." But the company expects "fair-minded exhibitors to assume their part in a revival of point-of-sale selling effort."

In his talk today (Tues.) be-fore the assembly of branch and division managers, Montague re-vealed that Columbia planned to release 31 "A" features in the 1949-50 season in addition to 22 "bread-50 season in addition to 22 "bread-and-butter" productions. Four of the top 31 will be in Technicolor and another will be tinted in Cine-color. Included in the release slate will be four Gene Autry starrers, two action musicals and eight westerns.

starrers, two action musicals and eight westerns.

Montague announced that exhibs were showing no resistance to upped admission scales for "Jolson Sings Again," which is expected to be Col's biggest money-maker during the coming year. Upped scales are currently being tested at the State, N. Y., and the Woods, Chicago, where the pic opens tomorrow (Wcd.). When the Jolson film opens at the Hippodrome in Baltimore, Montague confirmed the report that the house would drop vaudeville for the pic's run.

On the basis of the company's forthcoming product lineup, Montague predicted that Columbia "would surpass by far its best year which was 1948-49." Five of the top productions, besides "Jolson Sings Again," were screened before the convention delegates.

Inside Stuff—Pictures

One of the surprises of Columbia's "Jolson Sings Again" is the rave reviews and word-of-mouth being garnered by Barbara Hale in the role of Jolson's wife. She had previously played supporting parts, mostly in program pictures, and had garnered no particular reputation beyond being "pretty" and "adequate." She was chosen for the "Jolson" role by producer Sidney Buchman and director Henry Levin after considerable testing of other people and it is expected to promote her into

an important secondary star bracket.

The 27-year-old player from Rockford, Ill., was picked up while modeling in Chicago by an RKO talent scout. Her first part was in RKO's "Gildersleeve's Bad Day." Then she was in a couple of the "Falcon" series, a western and a few other moderate-budgeters. More recently she's been in RKO's "The Window" and "Boy With Green Hair."

she's been in RKO's "The Window" and "Boy With Green Hair."

The identifying catchphrase, "The rest of the Jolson Story," which Columbia Pictures veepee Nate Spingold whipped up, almost became the release title of "Jolson Sings Again." For a time it was the shooting title, and producer Sidney Buchman got to like it so much that Spingold, who coined it as an advertising slogan, had some time unselling Buchman on it, on the theory that it wasn't pat enough for a marquee as is the current title.

Spingold and the Col merchandisers know that, for mass consumption, and especially in light of the wave of reissues on the market the last couple of years, the big job is to impress that this is a "new" picture, and ad copy accordingly will stress "new songs, new thrills," etc.

On the subject of merchandising and reissues, Col sales veepee Abe Montague envisions a double-barrelled reissue of both "The Jolson Story" and "Jolson Sings Again" some years hence into a "Jolson Festival." That is, if there is t a third and possibly a fourth sequel, as is already being talked.

Beckworth's deal with Col has some time to go, meaning that McA's deal is gambling on the future after the Beckworth (Miss Hayworth's capital gains corporation) contract with Columbia expires. Meantime the Morris office gets the commissions.

Cohn states that his star is due to have her baby next spring. Both he and Stein were impressed by the clamor the Hollywood glamour girl commands. The Col prexy concedes that MCA may be betting on a strong future bet.

Gary Cooper stands to make a fancy profit this year on literary investments if he succeeds in present efforts to sell to one of the studios A. B. Guthrie, Jr.'s, "The Way West." Allied's "Caravan" committee, which regularly publishes for the organization's members what terms other exhibs are paying for pix, is endeavoring to supplement the strictly statistical data with dope on sales policies, trade practices, distribution experiments, etc. It is asking Allied members who subscribe to the Caravan service to provide such info along with reports on terms they're paying.

Exhibs have been requested to keep eyes and ears open in their territories and send in what they learn. Outfit calls these "We hear" and "We think" reports.

In addition, new statistical forms are now going into use which allow more leeway for comment concerning circumstances surrounding any deal. Use of these forms was agreed on at a meeting of the Caravan committee in Dallas late in the spring.

Charles Einfeld, 20th-Fox publicity-advertising chief, seems to be making it a policy to use tradepaper advertising for promotion of intra-company morale as well as to reach 20th's customers. Good example of the new thinking has been the ad appearing in tradepapers the past few weeks picturing each of 20th's branch managers and listing their names. Copy carried the line, "Meet the Bosses," and quoted prez Spyros Skouras as saying: "Each branch manager will conduct his business in his own territory as if he were the owner of that business."

Issue was promoted and produced by Alexander Sayles, managing director of the Palace, Fabian flagship in Albany. Section opens with an editorial, "Life Begins at 35," and covers the history of the Fabian chain in this area. Local merchants cooperated by buying full-page spreads. full-page spreads.

With a total of some 65 musical shorts ultimately projected by Artists Films, Inc., the company expects to release its first two pix next month. Initialer will be "Music in Hunter College" while bandleader Artie Shaw appears in the second. Part of the firm's "Music of American Composers" series, the picture is principally woven around the music of Norman Dello Joio. Latter plays Shaw's "Nocturne" and also accompanies the batoner in "Concerto for Clarinet."

Speed record for completion of a major picture is claimed by George Cukor, director of "Adam's Rib," co-starring Spencer Tracy and Katharine Hepburn at Metro. Screenplay was finished 30 days after the idea was born. Shooting took 36 days and the show was previewed 42 days later. It will start off Metro's 1950 releasing program this fall.

S.O.S. Cinema Supply Corp. last week donated five film projectors to the Israeli government whose army reportedly will use the 35m units to train as well as entertain its men. Valued at \$2,500, the gift was turned over to Material for Israel, Inc.

Metro's "Battleground," a war tale, will save a lot of money through the absence of background music. Except for opening and closing military marches composed by Lennie Hayton, the two-hour film is tuneless, something different in modern pictures. Taking the place of pictures will be sound effects natural on a battle front where brass bands don't toot. It also saves the studio about \$100,000.

Black Magic

til he meets up with Mesmer, the Austrian physician generally acredited with having originated the therapeutic use of hypnotism.

But neither Mesmer nor modernday medicos and psychiatrists would acknowledge the powers granted to Cagliostro oy the screenplay. Reputation for healing the sick makes him almost a god to the peasants, preparing him for his big chance when he ties into a nasty bit of intrigue in the courts of Louis XV and later Louis XVI. He almost succeeds in his intrigue until Mesmer appears on the scene again and, in a dramatic court trial, pulls a switch by hypnotizing Cagliostro, forcing him to admit his villainies. Comes next a swordfight high above the courtyard, in which the magleo comes a cropper and crashes to his death.

With Welles making with the gestures, the other actors have little chance to show much. Nancy Guild, in a double role as Marie Antoinette and the love interest, doesn't do too well with either. Akim Tamiroff is good in a standard character part but Frank Latimore, as the courageous captain of the king's guard who brings Cagliostro to his end, makes a weak attempt at imitating Doug Fairbanks. Valentina Cortese is okay as the gypsy wench whom Welles spurns for Miss Guild but Stephen Bekassy overdoes the dramatics as the black-hearted French nobleman. Berry Kroeger, seen only briefly at the start as Dumas, tips the audience on the eye-rolling that's to follow.

Lighting and camera work recall Welles' low-key "Citizen Kane" but fall far short of the standards established in that one Calliting at times is brutal, cutting from scene to scene in jerky movements that often dissipates the sought-for mood. Paul Sawtell's score is as heavy as the polt. But Wulptreal release of Leonard Guldstein works.

Arctic Manhunt

"Arctic Manhunt" is a slow mov-

"Arctic Manhunt" is a slow moving drama of the frozen north that has little to recommend it. Exploitation may help sell the film, but in the main it's a dualer.

Based upon Ewing Scott's story. "Narana of the North." the pic recounts an ex-convict's flight to Alaska in an effort to cash in on some armored car loot. Although he had served his time, insurance investigators are still relentlessly after him to regain the stolen swag. In his retreat through Alaskan wastes, the one-time con poses as a missionary, and has a brief affair with an Eskimo gal before losing his life in the icy wilderness.

Message of "Manhunt." the time-honored "crime doesn't pay," is an admirable admonition, but unfortunately the listless acting, combined with director Scott's slow pacing, make the film too tedious. Irving Glassberg's camerawork is a lone bright spot.

Scott, who directed as well as authored the story, captured some fearsome scenes of the Arctic tundra. However, the natural background isn't sufficient to offset a lustreless plot. Cast as the con on the lam. Conrad seldom breathes any credibility into the part. Carol Thurston, as the Eskimo gal, shows some promise. Other players move listlessly through their stints. Gilb.

While not as action-packed as some of its predecessors. Columbia's "Desert Vigilante" is a fair oatimer in the Charles Starret-Smiley Burnette mesa series. Footage contains the standard chases, six-shooting and hard riding that

followers of this "Durango Kid" chain of pix have come to expect. A smuggling ring that's been illegally moving silver into the U. S. across the Mexican border furnishes the plot for "Vigilante." A Federal agent, Starrett soon realizes that the local U. S. attorney, Tristram Coffin, is in cahoots with the outlaws. After the usual elimination of most suspects, Starrett bags the culprits in a bangup shooting fray.

Starrett registers as a forthright nemesis of the smugglers. Smiley Burnette competently handles the comedy. Peggy Stewart is okay as a femme rancher. Coffin is good as the crooked attorney. Balance of the cast turn in standard performances under Fred F. Sears direction. Camerawork of Rex Wimpy gives this Colbert Clark production a lift.

Canada Unlimited
Fifth in the series of shorts
being released under the public affairs program of the Motion Picture Assn. of America, "Canada Unlimited" is a
well-made documentary concerning the industrial development of our neighbor to the

contribution made to that development by the recent imnigrants and displaced persons
of Europe. As seen through nigrants and displaced persons of Europe. As seen through the eyes of one of Canada's new citizens, film sweeps over the country's expanse in a kaleidoscopic catalog of its wheat fields, manufacturing plants, dams and universitles. Background narration, unfortunately, is repetitious and overstresses the materialistic assets of Canada while ignoring its democratic tradition. Two-receler was produced by RKO as part of its "This Is America" series.

from her box with an understanding smile, knowing history will repeat itself. Picture ends, where it began, in the railroad yard, with the guard pedalling off contently to his white-collar job.

Valerie Hobson handles the role of the musician's wife with delightful nonchalance with John Clements exuding charm and temperament as her errant spouse. Joan Dowling and Lawrence Payne make a pathetic pair of fugitives and Jack Warners's guard is characterized with his usual unerring touch. Susan Shaw has little to do as his pleasure loving daughter, and Irina Baronova duly displays fire and temperament as the concert pianist. Acting plum falls to Peter Finch, brought from Australia by Sir Laurence Olivier to Play opposite Edith Evans in "Daphne Laureola." His tense overwrought emotions, depicting how war can turn a harmless nonentity into a murderer, are convincingly and forcefully portayed. Mary Morris makes the most of her short span as his faithless wife, and all supporting roles competently cast.

It were well, the with "Wild Weed" is that it does not do it very well. However, straight melodical was a straight melodical with the bill. Film may do passably well where given sensational bally even though interest in the Leeds case apparently has passed.

Slight yarn shows how a chorus girl (Miss Leeds) working to put her brother through college, develops into a marijuana addict and then becomes mixed up with a dope peddler. From then on, it is just a question of how bad she will become as a reefer smoker, when she will reform, and how she will help the minions of the law. Eventually she cooperates with the narcotic agents to break up the dope ring.

Story is laid in Los Angeles. Story is laid in Los Angeles. Scenes at reefer parties are different if nothing else, but even the so-called "tea" adherents overact. Sherman Scott's direction is generally very routine.

Miss Leeds measures up as an okay actress when given half a chance. She also photographs excellently. Alan Baxter makes a sufficiently odious reefer peddler. Lyle Talbot. Doug Blackly and Don Harvey suffice as narcotic operatives. Support is headed by Michael Whelen.

pings also fall far below usual Italian standards.

Yarn opens promisingly as an adventure of Near East slave traders plundering the Italian coast for a new cargo of gals. Pic rapidly bogs down, however, after the marauding chief is captured and falls in love with a native belle who gets in a family way without benefit of cfergy. Remainder of the yarn is concerned with the plotting of her kinfolk to murder her and the child. Film abruptly ends with the lovers making a getaway in a sailboat.

Thesping is on a par with the corny yarn. Annette Bach, as the gal, and Enzo Fiermonte, as the slave trader, posture awkwardly as does the rest of the cast. A slipshod editing job accents the crudity.

This panoramic musical made the best grosses of any Argentine picture so far released this year, taking in \$63,000 U.S.) for a seven-week firstrun. This is close enough to the average of \$70,000 for any good Hollywood release here. Directed by tango-warbler star Hugo del Carril, the production is deserving of some praise. If one takes it in comparison with the general run of material now being turned out by the local studios. There's some interest for U. S. audiences.

The action is slow and continuity faulty, but on the basis of its nostalgic flavor (the story recalls the Buenos Aires of 50 years ago) the picture has its charm for an Argentine public, especially as a number of del Carril's most popular tangos are included in the musical score. The greatest mistake has been the attempt to present the warbler as another Bing Crosby singing Schubert's "Ave Maria accompanied by a child chorus. However, in the main del Carril is a less wooden actor than usual although he is outclassed by the veteran Guillermo Battaglia as the

Lost Youth

"Lost Youth" Italian-made, originally titled "Gioventu Perduta," was tradeshown in New York, Thursday (18). Film was reviewed in VARIETY from Rome, April 14, 1948, by Quat, who thought that "as a thriller, pic is a little disappointing." Also noted in the review was the "fine directorial job" done by Pietro Germi, who with the aid of a clever screenplay "turned out a vivid dramatization of the moral disorder which has taken hold of postwar Italian youth, especially the middleclass." "More stress is given to characters than to story," was another opinion voiced by the reviewer. Picture is being released in the U. S. by Lux films.

his aggressiveness and disposition; rather than his polltical beliefs. Film fails to take advantage of the habits and customs of the small village. Entire play is put in the hands of the leading character, Peter Pettinger, whose brashness is properly portrayed by William Hartnell. Mary Morris shows intelligence and understanding as Hartnell's gif friend, while Elliot Mason adds a realistic touch as his mother. John Laurie turns in agood job as a shop foreman.

John Harlow's direction does nothing to allevlate the film's excessive length of 95 mlnutes.

qualifications for approval by opera and music lovers, plus some features intended for appeal to less specialized audiences. It's doubtful, however, that these extra features will be enough to satisfy average audiences not used to an operatic dlet.

Director Carmine Gallone ("The Lost One") has tried, for the most part successfully, to steer clear of usually static filmed-opera technique. Good use of flashbacks provides some dramatic footage and effectively heightens suspense. Judicious cutting and choice of camera angles has, with some exceptions, relieved the static quality of the "aria" scenes, *and action lovers will go for several impressively-mounted battle scenes, splendidly photographed by Aldo Giordano. Film, however, is overlong and the tragic finale in which Count dl Luna has Manrico killed, not knowing he's his brother, lacks proper punch. Much material has been added to the opera libretto in an attempt to round out the story, but it's debatable whether this increases total values.

Musically, pic is expertly handled and sound work is good. Two leads, Gianna Pederzini and Enzo Mascherini, both wellknown in same roles on the stage, ably sing and act their parts, while others in cast have had voices dubbed in. Theatrical thesping usual in these films has been held to a minimum. In its field, "Il Trovatore" is a strong entry.

Special nod should go to Gastone Medin for his set design. Hawk.

Legrand, Mores, with Felisa Mary, Maris Santos, Maris Gamez, Yeva Duciel and Claudio Martino. Running time, 90 MINS.

This production follows the current trend for musicals in Argentine film-making and is a light, entertaining farce of perhaps too broad a comedy, but refreshing in the welter of lugubirous stories so popular with local studios. It has the virtue of introducing a new film favorite in Marianito Mores, better-known as a composer and arranger of tango music, but who made a great hit in legit comedy with Delia Garces last year.

Mores has an unusual quality of spontanelty for an Argentine actor, and although he is not strong on looks, he is popular with local fans who have known him for some years as an orchestral arranger. He conducts a "Concerto in Tango" of his own, complete with background ballet, and also a Cuban rhythm, "Oscurito," which makes an easy tune to remember. Mirtha Legrand is elaborately costumed, but her precocupation with looks and clothes hampers her as actress. Production has been lavish and the hotography is fair, the whole adding up to fairly good entertainment for local audiences.

The story concerns a young femme medico who decides to engage a tango composer to organize beenefit concerts for her philanthropic interests. Boy and girl become involved with each otter to the disgust of his former glid friend. All ends happily whole

Dean Murphy, Patti Page, Tony avelli, Peggy Taylor Trio; "Sand"

There's an overdose of music in current Capitol bill, which detracts somewhat from usual variety and pace offered here. However, since individual acts are bell ringers, customers seem to take it in stride, and like it. Accent on music is marked by usual overture. Milt Slosser organ-sing fest, and then an accordionist and chantoosey to tee off vaudebill. Rearrangement of acts would help. of acts would help.

Dean Murphy, with his impres-n monolog, headlines layout and gets terrific reception. Murphy, a great fave of the late FDR, has a winning personality and a greater respect for the celebs he minics than most imitators. His impressions gain, rather than lose in authenticity, by. the fact that he strives for effects, rather than ribbing his subjects. Running line of patter ties it all together and adds the comic touch, with constant laughs and appreciation. Sock appeal of the Murphy routine lies in his final sequence, with heavy, and strongly sentimental accent on the nostalgic. "Arctic Manhunt" (U-I).

With the majority of the bill composed of veteran acts, the Palace has whipped up a diverting octet of turns for its current session. In keeping with the house's relatively modest budget there are no top bracket names. However, the generally nostalgic flavor of the layout appears to be a sure guarantee of success with the predominantly midde-age audiences the theatre has been drawing since vaude's revival here.

Eddie Garr's mimicry evokes memories. His impressions of varied singing styles are so-so, but he gains momentum with a carbon of Jinmy Durante and garners heavy applause at the windup with a "drunk" routine that's a classic. Artistry of drummer Jack Powell also pleases. Working in his familiar blackface, he plays the sticks all over the stage and climaxes by tattooing the frame of a chair.

maxes by tattooing the frame of a chair.

Concert style of soprano Sara Ann McCabe is effective for the most part. After briskly opening with "I Know That You Know," the stately blonde loses some headway with a difficult Irish number, but bounces back with a Frimi medley. Irving Benson & Jack Mann hold down the comedy slot. Theirs is an innocuous line of chatter that occasionally assumes a slightly blue tinge. Team's best routine is an impression of strawhatted, singing comic of a bygone ra. Register nicely.

Rigoletto Bros. with Aimee Sisters, in the trey, is a show in itself. Brothers open with a bit of prestidigitation with colored handkerchiefs. Follow with the bottle and glass switch, illusion. Also essayed are juggling, bell ringing and hand-to-hand b a lancing. Femmes have little to do aside from a toy soldier shuffle they execute on their haunches. Get okay returns.

patronage, with a 60c.75c. scale, is certain to insure vaude's retention here.

It's been such a long time since vaude has been presented here that a new generation has grown up but there was a large number of oldsters who contributed heavy palm pounding for every act that spurred the performers to greater effort.

Ross Wyse, Jr., well known here through his p.a. at the Municipal Theatre Assn's Forest Park theatre in former years, wowed the chair-warmers with his pratt falls, line of nifty chatter and zany stuff, with his partner, Peggy Womack, a tall, willowly gal who seems twice his size. Teeoff of Gaynor & Ross, roller skalers, working on a circular platform, started the program off on the right foot with the customers as they worked at a dizzy pace with the gal being whirled around just inches above the platform.

"Lady Day." as usual, doesn't let them down. Neatly-gowned and niftily coiffed, the sultry song stylist gives out with a solid song session that has 'em begging for more. Teeing off with medley comprising "Lover Man." "Lover, Come Back to Me," "My Man" and "All of Me" for top reception, she follows through with "Porgy" and "Strange Fruit" for an undisputable hit and begoff.

Berry Bros., strong faves here, do equally well with their socky dance session. Lads give them everything in the book, solo-wise and tandem, and top it all with their slick acro cane twirling number for a boff finish. Win many recalls but guys are too knocked out for an encore.

Machito band also registers high on the applause decibels with its bebop treatments of sambas, tangos and other fare. Comprising five reeds, four brasses, three rhythm, bongo and maraccas trio, they give out solidly on "Timbero," "Tanga," "Blen, Blen Blen" and other tunes. Bruce Moore is spotlighted on tenor sax for a couple of items that win good applause, while Graziel, sister of the maestro, gives lusty rendition of "Oo Blaba Doo." Vaudeville returned to Interstate's Majestic and with it came four packed houses. As early as 10 a.m. for a noon opening, crowds started lining at the b.o. to witness the much heralded return of stage shows.

Seven acts of well balanced variety and a lively pit band ushered in Dallas' comeback. Like other openings the country over, the theatre was filled with old vaude fans, theatre execs and press.

The Roulettes, a roller trio, with new spins and nifty background, started the show off with interest and encores. Bobby Brandt, young tapsterer, followed with a few new tapnasties and somersaulting for neat returns. Arnaut Bros. click with their dual violin dance and bird flirtation whistling bit.

Ruth Petty, blonde songstress, with nice audience appeal, contribs neat vocal session topped by impression of Sophie Tucker on "Some of These Days." Dave Apollon and his two young talented assistants, La Verne Gustafson, pianist and Lois Bannerman, harpist, score heavily. Gals contribs are neatly received. Apollon's comedics and talking mandolin are as sock as ever and won many rounds of applause.

Three Swifts' clever club juggling, interspersed with comedy, keeps things rolling for neat returns.

DeCastro Sisters (3), Art Lung Laurette & Clymas, Lenny Brus, Mayo Bros., Freddie Carlone Hous Orch; "Girl From Jones Beach (WB).

Current layout is satisfying for the vaude addicts.

Familiar to the stubholders are the topliners, the DeCastro Sisters, whose impact in a theatre seems more solid than in their recent appearances in local niteries. Much of the "sophisticated" comedica are toned down. Their harmonies are blended in a smart mixture of Latin tunes, expected from the Cubano lassies, with versions of "Riders in the Sky" and a hillbilly la mpoon particularly effective. Offed to heavy palming.

Art Lund's rugged looks and personality hit for full measure in returns, though his vocalistics are on the average side.

Mayo Bros. are neat pace-setters with their precision tappings on a platform. Slick presentation win bem solid applause. Laurette and Clymas with their tongue-in-cheek approach to ballroomology and rack up the necessary amount of giggles and mitts for neat returns. Lenny Bruce, comic, will do better once he slows up on delivery. Freddle Carlone orch backs show capably.

ROWENA ROLLINS Comedy 10 Mins.

Latin Quarter, N. Y.

Rowena Rollins (ex-Masters &), now in business for herself, stands to make her mark as an eccentric comedienne with probabilities that maximum effectiveness will be in vaudeville. Miss Rollins has col-lected some good material, best of which seems to be her impression which seems to be her impression of a stripteuse making a political speech. Carryover from her act with Johnny Masters is the impres-sion of Mrs. FDR which is also a laughgetter and her eccentric arm movements similarly are in a comic

ROBERT SIŞTERS (2) & WHITE

ROBERT SISTEMS (A)
Balace, N. Y.
Three gals garbed in short, blue dresses contrib varied terp routines atop a raised platform. Femmes work in unison, in tandem and individually. Turn builds to a climax with two of the gals executing acrobatic somersaults.
Despite the obvious earnestness an spirit of the trio, the act has an irritating sameness to it. A dash of comic patter midway through the stepping might supply the needed change of pace. With further experience the Robert Siters & White loom as likely constenders for most vaude and nitery bookings.

Particularly novel are their arrangements of Liszt's "Hungarian

Columbia is puzzling over how to wind up "All the King's Men." the takeoff on the life of the late Ruey Long. Representing something of a high in this respect, Robert Rossen, producer-director-scripter of the film, has made and is testing four possible endings. Rossen returned here after sneak previewing the pic in New York.

One of the endings depicts Broderick Crawford who plays the Long-like part just being shot up and killed. Alternative folderoos shows Crawford killed but attempts to leave the audience sympathetic to the slain politico. Two other ends wind up the pic before the actual assessination but leave no doubt of his fate with the audience.

However, its abuses, particularly that of overbidding are now coming to light in view of the two years or so of experience behind distribs.

Attorneys for the majors incline towards the view that the Federal courts will uphold product-splitting when the inevitable test ligresented. The challenge is likely to be presented by a big chain peeved over the fact that its higher bid is ignored in favor of an outright product split. Television in the long run will be a great boon to theatreowners. according to Marco Wolff, v.p. of Fanchon & Marco, Inc., who was in town last week to witness the reestablishment of vaude at the Fox theatre.

Wolff said he believed tuat within five years many of the great tele
programs will be shown in theatres
and sponsored by them. Such programs, he said, would include
World Series games, world championship boxing contests, basketball tournaments and musical and
theatrical events. Mass financial
support from theatre audiences
would enable tele to make great
strides, Wolff stated.

He also said that a nationwide
group of 3,000 to 5,000 theatres
could support more lavish entertainment than any one advertiser.
However, he pointed out, until that
time theatres will have to worry
about tele draining off their attendance. As envisioned by Wolff,
theatre tele programs would be on

in Germany, there's no immediate possibility of the organization's blocked earnings being converted into dollars. However, the military government is permitting the use of frozen marks in the German economy. That's the American film companies' future remittance situation, as seen by Arthur Mayer, retiring chief of the Motion Picture Branch for the U. S. Military Government in Germany.

Citing 20th-Fox's German locationer, "I was a Male War Bride," as well as the company's "Quartered City," currently shooting in Berlin, both of which represent partial liquidation of the firm's marks, Mayer feels production of these pix in western Germany creates a convenient precedent for other majors. Meanwhile, he added, unless the American industry shows some restraint, undoubtedly there will be some form of restriction to prevent the Yanks from flooding the market, which is capable of absorbing only 300 films annually.

Sees Market Flooded

On the basis of some 200 pix that U. S. companies have submitted over the past three months to the Civil Affairs Administration of the U. S. Army for approval, Mayer asserted "there's every indication the market will be flooded when the majors start individual distribution Jan. 1. Furthermore, there are only 3,200 theatres available in the west zones to absorb product as against the prewar 6,000 houses. Although native production probably won't top 30 features this year, he said, other continental product, as well as British films will obviously compete with U. S. pix for German playing time.

Mayer looks askance at the Military Government's action which will relax all film controls as of Sept. 15. He stressed that the only rein occupation authorities will have after that date on pictures will be the right to stop any film that's "harmful to the prestige or safety of the occupying forces." This, he feels, is an especially "nebulous" phrase.

No Pre-Production Censoring

This, he feels, is an especially "nebulous" phrase.

No Pre-Production Censoring Inu the future, Mayer declared, there will be no "pre-production' censorship. However, he added that the German industry is establishing its own "film self-control liching its own "film self-control."

that the German industry is estab-lishing its own "film self-control office." The MPEA hasn't joined, he revealed, since it is said to fear a German "plot" that might bar American product. On the other hand, Metro has already submitted films for the organization's seal. It's also understood that Universal "unquestionably" would submit its pix.

"unquestionably" would submit its pix.

Analyzing the native industry setup, Mayer said that under a policy of splitting production, distribution and exhibition into three separate divisions the distributor has emerged as very powerful, and the producer is financially weak. This arrangement, he emphasized, is breaking down under its own weight. Accordingly, legislation was asked to permit film-makers and distribs to own five showcases apiece. However, they have been and distribs to own live showcases apiece. However, they have been granted only one. As an example of how broke producers are, Mayer pointed to a special fund set up to rediscount their notes. But before processing, the bank must have the approval of the Minister of Economics. Arthur Mayer Deplores Israeli Exhib Payoffs

ISTACH EXRID YAYOHS

Fresh from a two-week tour of Israel, Arthur Mayor, retiring chief of the Motion Picture Branch of the U. S. Military Government in Germany, said in New York Monday (22) that he was stunned by the heavy taxes and weighty film rentals paid by Israeli exhibitors. Pointing out that Tel Aviv has some six first-run situations, he noted that from the average 80c admission the government slices a 48% bite, while theatremen generally pay a distrib 42% of their first weck's gross.

Despite the talk of much theatre building, Mayer declared that construction costs are astromonically high and labor's wages are also fantastic. With about .75 theatres throughout the country, the existing houses have a total of approximately 37,000 seats. Roughly, 80% of playing time is devoted to American product. Native production is negligible. The former operator of New York's Rialto theatre said he was particularly amused at he was particularly amused at Arabic, Hebrew and English titles, which roll haphazardly across the frames of every print.

Drive-Ins Pace Chi B.O.

ferent story

Drive-ins have cut in on regular film biz in this area in a big way. At present there are seven drive-ins in the Falls City area with one A-building just across the Ohio River from Louisville.

Drive ins have the same clear ance as in-town subsequents, and some are playing an occasional first-run. In most cases, however, these have been turned down by these have been turned down by the downtown houses as weak h.o. fare. Of course the drive-in opera-tors have to pay more money for the firstruns. Percentage terms are the rule with drive-ins. Most drive-ins in this area are of standard-tive construction. Operators head type construction. Operators bend type construction. Operators bend over backwards to give the pa-trons service, having attendants wipe off the windshield for better vision, and distributing printed programs.

No new construction is under way in this area. However, undergo a modernization about every 10 years, and alterations have been made in most of the first-runs, as well as nabes in the past year. One house, the Orpheum, has been completely rebuilt, renamed the Rodeo, and the entire decor is western. Plans interested to the control of the particle way in this area. However, house undergo a modernization abou built, renamed the Rodeo, and the entire decor is western. Plans include a double screen and house now boasts a restaurant and concession stand in connection with the theatre. Ushers, ticket sellers, attendants, etc., are garbed in cowboy togs, and film fare is entirely western stuff.

Still Dualing

Pics are running about the same as a year ago, with double features still the rule. Occasional strong films are single-billed. Customers want 'em, and in spite of surveys, etc., and comments of some vocal complainants and letters to the editor, thats what they will get, according to the exhibitors. tor, thats what they wil cording to the exhibitors.

cording to the exhibitors.

Admission prices have been static for some time, and no movement is on foot to change them, one way or the other. However, there is a strong movement on the part of exhibitors to have the state tax removed in Kentucky. Exhibitors are buttonholing every legislator and candidate for political office, to learn how he stands on the question of admission tax removal, in an effort to have him commit himself on the subject. A special rep has been engaged to work in Frankfort, state capitol, in the interest of the theatre owners.

No theatres have shuttered for

No theatres have shuttered for summertime. With declining grosses, there has been increased intensity of exploitation. Exhibitors are out hustling now, whereas during war days customers bought anything on the screen. Now they don't overlook any peg to promote biz, and get 'em in the house. Status of competition from out-

door sports and other competing forms of amusement in the mer months is normal. Summer mer months is normal. Summer shows at Iroquois Amphitheatre offer plenty of competish to the downtown houses. National, Louisville's only live talent house, has been holding the line for the vaude policy all summer. While biz has not been too forte, house is at least establishing a policy and holding to it firmly, which should be in its favor when the fall upswing starts. swing starts.

Butte, Montana, Biz Off 10% in 6 Months

Butte, Mont., Aug. 23.
Picture business in this town of 42,000 dropped off approximateby 10% six months ago, below the previous six months, and business has remained about the same.

Fox-Intermountain operates five Fox-Intermountain operates five houses here, two first-runs and two subsequents: fifth house is dark except for rentals, roadshows, con-certs, subscription entertainment or athletic events.

Television and drive-ins are non-existent here. In other parts of the state, nine drive-ins have been built in the last two years. Those now operating have been successfui despite Montana weather, which is close to nine months winter in the northern part. (Butte had 97 days below zero, with many days of 5-10 above, average being 36.7).

and Hollywood, it might be a dif- half completed new 1,250-seater in the \$400,000 bracket installation is provided for in this

Concession biz is better in Butte than at other F-I stands, percentage-wise. City manager Bob Anderson comments: "Sales on merchandise are predicated on the type program presented. Action and comedy pictures bring in the greatest concession business." Candist are growing ware markets. greatest concession business." Can-dy stands are growing; mass mer-chandising is the sales secret of candy selling. Snack time is pro-grammed—"Three minute inter-mission for refreshments."

Comedies, westerns, musicals are one-two-three in customer acceptance. Heavy drama is the tailender. Double features are the rule in all situations except in the case of extra-potent features which can stand alone—with shorts—in frestrum houses. which can stand alone shorts—in first-run houses.

Indpls. B. O. Slides 30% But Pickup Due in Fall

Indianapolis, Aug. 23.
Note of optimism dominates thinking of exhibs in this area, despite some rough going this summer. Biz has been at a postwar low in meet situations but they see mer. Blz has been at a postwar low in most situations, but they see better days ahead on account of lin-proved product in line for late proved product in line for l summer and early fall release.

summer and early fall release.

There is no serious talk of changes in admission scales at present. Film men feel the market won't bear an uppance at present and prices, particularly in Indianapolis, are considered lower than they should be, so no cutting is in sight.

Business as of now is averaging

Business as of now is averaging Business as of now is averaging about 30% less than a year ago. The slump this summer has been more than seasonal. Polio, which has reached the epidemic stage in parts of the state, is definitely a strong factor. Equally potent is the outdoor competition, which has reached an all-time high in 1949. Actually, grosses are not down more than about 15% from a year ago, but increased cost of doing business makes up the doing business makes up the difference.

The drive-ins have been very well this year, where they are not overbuilt. But the tendency to overbuild is strong in the better locations. Two new drive-ins are not oversum.

To oversum it is strong in the petter to overbuild is strong in the petter to overbuild is strong in Indianapolis right now, and plans for two more have been announced. There would have been others in operation, but zoning restrictions headed them off. Most theatre men feel the driveins are not a major factor in the slump at regular houses. They figure a state a family, slump at regular houses. They fig-ure the drive-ins get a family, shirt-sleeve crowd that probably wouldn't come to their theatres

All drive-ins in this All drive-ins in this area are playing some percentage films now. In the northern part of the state, they frequently bid successfully for firstrun. In most cases, however, they play 7 to 14 days after first run downdown. Television is not big enough to be an important factor in the picture here yet, tor in the picture here yet, although the situation may change within the next few months.

One new de luxe nabe house, the Arlington, first built here in more than 10 years, will open about Sept. 20. A number of new about Sept. 20. A number of new theatres, particularly in suburban areas, are in the talk stage. High costs are still a deterrent. But a great deal of work has been done, and Is continuing, to fix up stand-ing house. ing houses.

ing houses.

The relation of the candy and concession biz to admission take has not varied greatly, although exhibs now are putting greater emphasis on it. Loew's, which formerly forbade popcorn in the house, now sells it in the main lobby. The candy and concession take averages about 40% of the total, varying with pix grosses. Outside of three counties in which all theatres have been closed by authorities due to the polio hysteria, no important theatres operating a year ago are shuttered toing a year ago are shuttered to

Exploitation definitely has in-Exploitation definitely has in-creased in recent months. As one exhib put it, they're "getting the idea they have to be theatre men again." To what extent this ac-tivity pays off at the boxoffice, no-body can say for sure; but most progressive exhibs are satisfied biz would have been worse without it,

Majors have resisted the plan ever since it was brought up at an Allied States exhib association convention more than a year ago. They feel it is illegal and impractical. Since they therefore cannot adopt it, they have desired that it not be brought up at the public relations meeting. They feel that it can lead to nothing but recriminations and dissension, which will only do harm to the Chicago conclave's purpose of finding a way to promote good relations within and without the industry.

Since the Finneran Plan, involving as it does the names of some of Hollywood's best-known players who have gotten themselves into trouble with the law; is the most colorful item likely to come up at the sessions, it will no doubt attract major attention from the nation's lay press. Studios do not relish finding themselves in the position of defending stars of whose conduct they disapprove.

Impractical?

They claim that the plan is impractical because any star blacklisted by the majors would be immediately picked up by an indie—and many theatres cincluding those of some Allied members) would play the ensulng pix. Secondly, they say a blacklist or any semblance of one is of doubtful legality. They point out that they are now being sued by alleged leftist writers and a director whom they refuse to hire.

First Pro-Industry Short Pays Off Auguring Black Ink for P.R. Series

Upsetting predictions of wide exhibitor resistance, the Motion Picture Assn. of America's series of public relations shorts launched earlier this year has gotten off to a fast start. In the first nine weeks of release, RKO has grossed a total of \$33,000 on the teeoff briefie, "The Moyles and You," practically guaranteeing that the series as a whole, labelled "Let's Go to the Movies," will pay off.
"The Movies and You," it has

"The Movies and You." it has been learned, booked 4.465 theatres in the U. S. and 438 in Canada during the initial nine - week stretch. On that basis, short subject sales chiefs figure the pic should snare another 6,000 bookings and finally wind up with a total gross of \$48,000-\$50,000. This figure would represent an exceptionally high return for an average short.

month.

Since the revenues from the first shorts are slotted for bankrolling followup two-reelers, big returns from the RKO release means that the series can go ahead as initially planned. Before the pic was grooved to the theatres, a sharp hassle developed between distribs and the big circuits who balked at paying regular rentals on the p.r. pix.

Compromise was reached which permitted readjustment on price if the first few briefies turned in revenues out of proportion to negacosts.

Season's Toughest Assignment: Find Your Favorite Star, Program

Usually at this time of year the decks have been cleared for the new broadcast season's inaugural.

Usualiy at this time of year the decks have been cleared for the new broadcast season's inaugural. The all-important questions as to "who is your competition, and with whom are you bracketed" had been resolved and the network aspirants for bigger and better Hoopers geared themselves accordingly.

But not so this year. The jockeying among sponsors, agencies and performers for better time segments continues unabated, with a flock of question marks still surrounding nighttime segments.

With perhaps three or four exceptions, past years have found programs and personalities returning to "same time, same station" cashing in on listening habits. But when the fall season officially tees off next month, the four-network schedules will witness an unprecedented upheaval in programming, seven nights a week, with many of the top stars not only switching to new times and new evenings, but different networks.

The continuance of a "Lux Radio Theatre" in the Monday night 9 to 10 CBS period or a Phil Harris retaining his Sunday night at 7:30 NBC time is the rarity this season.

That's why the trade will be watching the early Hoopers closely. For it means inviting new listening habits on the part of the coast-to-coast audiences—and that's tougher than breaking in a new format.

WFIL Builds Package **Promotion Service For**

Philadelphia, Aug. 23. new "package promotion" ee designed for conventions service designed for conventions and trade or amusement shows is being offered by WFIL and WFIL-TV. The title SRO (Standing Room Only) Plan cues the purpose—to boost public attendance at sched-

WFIL and WFIL-TV conducted a trial run of the SRO Plan during the recent National Office Management Assn.'s convention in Philadelphia. It was mutually regarded as successful and drew a letter of commendation from the Association's press relations commission.

Web will also drop "Make Believe Town," now aired from 3:30 to 4 p.m. across the board, when the new Garry Moore show takes over that spot about the middle of next month. CBS is still undecided on its future plans for comedian Robert Q. Lewis, who occupied the afternoon spot before taking over as sub for Arthur Godfrey during the latter's vacation.

NBC Has Bigtime Garroway Plans

NBC has ambitious plans for Dave Garroway, now that interest in his Sunday night video show out of Chicago has snowballed into big dimensions.

Top Coin For **Guest Shots** Seems Passe

The days of the \$5,000 to \$7,500 fees for guest radio shots are over. With perhaps the single exception of "Lux Radio Theatre." top-coin budget, there isn't a program on the air that'll plunk down that kind of coin for guest artists. ("Telephone Hour" is paying \$4,000 each for Ezio Pinza's series of guesting, including last week's but that's the exception).

week's but that's the exception). Problem creates a poser for pix personalities who in past years have been circuiting the top air shows on a "money plus plug" basis. During the upcoming season, Al Jolson, Bing Crosby and Milton Berle, among others, will shuttle the nighttime program rosters to bally their films, but those erstwhile \$7.500 fees for Jolson and Crosby will be missing. those erstwhile \$7.500 fees for Joison and Crosby will be missing. In the case of all three, the coin factor won't be a serious deterrent, with the "pix plugs at any cost" opening up a number of shows at a fee ranging from \$1,000 to possibly \$2,500.

Drop of pix b.o. is expected to cue a wholesale embracing of the air-ianes by top film personalities this season. And they're all reconciled to the fact that it'll be either on a cuffo or small fee basis.

GIVEAWAY FIGHT LINES DRAWN

Back to Show Biz

The FCC crackdown on giveaways can and probably will be The FCC crackdown on giveaways can and probably will be stalled legally for many months, maybe years, and possibly beyond the time that the something-for-nothing vogue has run its course. Thus, as a practical curb on giving you a house and lot if you can spell c-a-t it's vacuous; but theoretically it may achieve a more positive purpose of channeling radio shows and showmanship back on the beam showmanship back on the beam.

The return to entertainment and giving the chill to the deepfreeze giveaways is a good idea, both for the kilocycles and for the politicos. Look how hot seven deep-freezers have made things for certain D. C. geezers.

There will be prolonged pros and cons on both the issues of economic curbs and encroachment on the freedom of the air, especially as it might affect certain networks in greater or lesser degree. But the more positive note that emerges is the hope that AM and TV broadcasters will be sparked into thinking more positively about shows with entertainment instead of jackpots.

Point at Issue: Can FCC Invoke **Lottery Law Without Mandate?**

Washington, Aug. 23.

Major question involved in FCC's authority to impose rules banning giveaways is whether the agency appropriated to itself powers claimed to reside in the Dept. of Justice. Commissioner Frieda Hennock, lone dissenter to the majority decision, thought FCC had no right to administer the lottery laws without "a specific mandate" from Congress.

The FCC ban on giveaways was based on a section of the Criminal Code which was formerly Section 316 of the Communications Act. During oral arguments last October before the Commission. Bruce Bromley, special counsel for ABC on the lottery proceedings, contended Section 316 was purely a penal statute to impose the same penalties on radio stations for broadcasting lotteries as is applied to newspapers for carrying advertisements of lotteries. Congress intended the penalties to be imposed, he said, only "upon conviction."

Campana Pullout To Cost CBS 400G

Campana may pull out of "First Nighter," the CBS Thursday night at 10 show, at the end of the current cycle Sept. 29. Heard on limited network of 70 stations, the pullout would dent Columbia's billings to the tune of \$400,000. Campana has until the end of this month to act officially on its option, but has already intimated that it won't renew. Fact that the client has been riding along with the stanza for a solid year led the sales boys to believe that it was in the bag for another whirl. Program originates out of Chi and has been a Campana on-and-off perennial.

NBC's split-time experiment in programming, bracketing three 20-minute stanzas within an hour, is creating considerable trade watch-fulness, since it may spark a wholesale trend away from the traditional half-hour slotting.

With the Friday night 8 to 9 period open, NBC is now planning a comedy parlay utilizing three of its most costly sustainers for the 60-minute segment. These will include the Ethel Merman Show, the Dean Martin-Jerry Lewis program and Henry Morgan. All three face dispossession when the regular season commercials return.

REACTION OF TRADE MIXED

The FCC's long-overdue crackdown on giveaway shows is gen-erally regarded as one of the most healthy things that's happened to the industry in years.

Some of the industry's top brass, including network execs, while not in a position to come right out and say so because of advertiser sensisay so because of advertiser sensitivities, are hopeful that the Government agency's edict will mark the "beginning of the end" so far as the giveaway show is concerned.

They're also confident that they'll win the court fight, they recently fight the court fight, thus permitting them to "have their cake and cat it too," as one key broadcaster put it.

ABC, with millions of dollars in billings at stake with its "Stop the Music," "Break the Bank" and multiple varieties of sponsored giveaways, has already blueprinted its court battle, retaining one of the nation's top law firms, Cravath, Swain & Moore.

CBS prexy Frank Stanton also announced Monday (22) that Columbia will join in, in seeking judicial review. CBS has just sold part of its "Sing It Again," after trying for a year, and has a big coin stake in the DeSoto-sponsored "Hit the Jackpot."

Flock of Guinea Pigs If FCC Wants To Force Giveaway Test

Washington, Aug. 23.

Washington, Aug. 23.

If networks and stations continue broadcasting giveaway programs after Oct. 1 to force a court test, FCC will have a big choice of guinea pigs in determining the validity of its rules. On Nov. 1, licenses of all AM stations operating on the frequencies 640ke through 900ke, except 740ke, expire. Applications must be made 60 days in advance.

Whether the Commission would place all violating stations in this frequency range on temporary status pending a test of the rules has not been determined but some station or stations would have their licenses held up and hearings ordered to determine whether the lottery rules were being violated. Among the stations whose three-year licenses come up for renewal at the time the giveway ban takes effect are WNBC, WJZ, WCBS and WOR in New York, in addition to many other network and non-network clear channel stations.

Capitol Hill Feeling Mixed On Giveaways

Washington, Aug. 23.

The FCC ban on givenways brought mixed reactions yesterday (22) on Capitol Hill but in one important quarter—the Senate Committee on Interstate & Foreign Commerce—the agency was commended for stepping in on the money shows, even though there was doubt as to its authority.

Chairman Edwin C. Johnson OD-Colo.) said he was glad the FCC acted. "I think they had the duty (6 act." he told VARIETY, "but I don't know whether they had the authority." He thought a court test is needed to determine whether the lottery laws are being violated.

Sen. Johnson was of the opinion the giveaway shows have been going altogether too far. "They have taken on the aspects of the Pyramid Clubs," he said. "It has seened to me these programs got out of hand and the FCC was forced to do something about it." he declared. "Whether the Commission went too far," he said. "I do not know."

On the House side, Chairman Robert Crosser (D., Ohio) of the Committee on Interstate & Foreign Commerce admitted he was not well acquainted with the giveaway shows, except that he liked to test his wits by listening to quiz programs. Of course, he said, there can be no moral justification for programs which violate the lottery rules. However, he preferred not to "prejudge" the action of the FCC until he had studied the mater.

The essential purpose of a public service program is to transmit information or ideas to the listening audience. Its problem is to do this in an interesting and enter-

"With a few exceptions, proper techniques for putting across ideas are customarily neglected or misused in public service shows," Horace Schwerin says. "We hear a lot, for instance, about 'sugarcoating' such ideas. Actually, our tests have frequently revealed that dislike for the material meant to serve as sugar-coating was the main reason for the failure of some of the programs studied."

Defining the kind of subjects that listeners want to hear treated has proved to be one of the Schwerin System's services to programs of this type. The nature and range of satisfactory topics vary for different shows. Often, a program is

AFRA Charges for WATL License ABC DUE FOR Revoke Called 'Innuendos, Untruths'

The FCC was told last week that
it has no basis to institute a proceeding to revoke the license of

A petition filed by John P. Southmayd, counsel for WATL, denied that J. W. Woodruff, owner of the station, has wilfully violated of disregarded lleense responsibilities. "On the contrary," the petition said, "His record as a licensee and his sense of public responsibility have been demonstrated during the past 14 years to be outstanding."

have been demonstrated during the past 14 years to be outstanding."
WATL said that the fact that a strike has been going on at the station since the first of the year, involving AFRA and members of the International Brotherhood of Electrical Workers, "is no evidence of a flagrant disregard by the licensee of government regulations nor is it evidence of chronic violation of the National Labor Relations Act."

tion of the National Labor Relations Act."

Notwithstanding AFRA's concern for the public, said WATL, "it seems apparent that this complaint has been filed solely for the purpose of using the good offices of this Commission to compel settlement by the licensee of his differences with AFRA and IBEW."

WATL also doubted that AFRA would push its revocation complaint if its labor demands were met, since revocation would result in abolition of jobs at the station for members of both AFRA and IBEW. AFRA's concern, WATL declared, "is not with the public interest—it is understandably with the private Interest of its membership."

The AFRA complaint was based largely on testimony taken at pro-ceedings before the NLRB. It was filed three weeks ago.

To Plug His Candidacy

Pittsburgh, Aug. 23.

For probably the first time in radio history, an individual politician sponsored a sports broadcast here last week as a means of promoting his candidacy. Councilman Joseph A. McArdle, independent Democrat candidate for renomination to city governing body, footed the bill for the blow-by-blow account of the Lee Sala-Joey DeJohn middleweight scrap in Syracuse, N. Y., over KOV.

Sala is a big local favorite and station had manager James V. Murray, former sportseaster, and Bill Burns, news editor, at the ringside in Syracuse putting the fight on the air here.

Commercials between the rounds were plugs for McArdle's candidacy. Previously a regular on the Democratic tieket, he was dropped this year because of repeated squabbling with Mayor Lawrence and is running for a place on the party slate as an independent.

Canada Set Fees May Be Doubled

Rather than increase revenue by accepting more commercial business, the Canadian Broadcasting Corp. will seek a doubling of the present radio-listener fee in Cauada from \$2.50 to \$5. This proposal will be submitted by the CBC when that body and the Canadian Assn. of Broadeasters meet before ASSN. 01 Broadeasters meet before the new Federal - appointed Com-mission of Culture, which body meets in Toronto for a four-day hearing, commencing Sept. 6, for the clarification of this Dominion's entire radio setup and some deci-sion on the present non-existent television outlook.

Meanwhile, the grapevine has it that the CBC will be in the red another \$300,000 this year. The proposed \$5 annual fee will apply only to radio sets with the tariff on television sets in Canada still to be determined, and this already mentioned as being anywhere from \$10 to \$25 per set per annum.

Any appointment that will be made will be done in consultation with Bertram Lebhar, Jr., general sales manager who co-piloted the station for the last 10 years with Pettey. It's likely Lebhar will take over the Pettey post while continuing as general sales manager. Pettey is moving into the presi-

BONANZA, IF--

Schenley, first of the liquor eompanies to make network radio overtures, apparently envisions more than spots in its kiloeycle future, if any. Once the lee is broken and ABC would like to break it, unless those anti-D.C. currents get too hot), Schenley, it's known, contemplates a major invasion into programming, with likelihood of four or five shows. On that basis the distillery outfit is ready to sink millions into radio.

That kind of business would come as a bonanza to ABC in the face of such cancellations as Phileo, American-Elgin, U. S. Steel and Sealtest, but it's still a moot point whether Schenley and the networks could get past the U. S. Senate's pearly gates. The FCC has already suggested that it won't issue any blanket nix on liquor ac'vertising, preferring rather to act on individual abuses. But Chairman Edwin C. Johnson of the Senate Commerce Committee doesn't intend to sit by and watch the liquor boys move in.

recently gots its government okay to extend its airing to a 24-hour basis, and is lining its sights on the lucrative local market.

Timed with the expansion is the avowed aim of general manager Brad Eidmann to switch WAAF's emphasis from a record station to a live program outlet with plenty of stress on the local angle. Drover Journal, owner of the 1,000-watt station, has laid out a \$500,000 expansion program that'il embrace FM operations, plus a longrange eye on WAAF's future as a tele outlet.

Station goes FM Oct. 1, and expects to get into 24-hour AM operation about February. Present operations are on a sunrise-to-sanset basis, but next winter will see WAAF battling for fulltime local markets with WIND and WCFL, and preparing to spend the cash in a big way.

First goal of Eidman is the sports field, now dominated by the other indies and network O-andO outlets. Towards this end, he's peddling the full football sked of the U. of Illinois, including nine games home and away. He figures to lose money on the deal, but wants to start getting in the fight in a "no holds barred" way.

WAAF is now constructing two additional studios in the LaSalle-Wacker bldg, for FM operations, which will give the outlet a total of five, one of which can be used for studio audiences. The studios are switchable from AM to FM and vice versa, which allows a flexible program operation.

Radio News Eds Indict Press Groups For 'Tired,' Dull Copy, Badly Written

Minneapolis, Aug. 23.

Minneapolis, Aug. 23.

The four major press associations have been put on the earpet by radio news directors for feeding badly-written and dull copy to stations on their wires. Negative verdict was handed down this week in a hard-hitting report made by the National Assn. of Radio News Directors after an extensive study of the wire services over a one-week period.

Starting out as a fact-finding project, the report wound up as a catalog of complaints against the press associations. Passing marks are given to the AP. UP, INS and Transradio press wires for their speed, accuracy, good taste and lack of editorial slanting, but these favorable comments are subordinate to the port's criticism on other scores.

Chief shortcoming of the press associations, according to the NARND report, is their inferior writing. "On both the trunk wires and the radio wires, writing is a low point... In many cases, news stories were handled in a dull, humdrum routine fashion when they readily adapted themselves to lighter and more interesting fashion... Poor old regional rewriters

are just so tired they can't make the mare go," says the report.

Another big beef concerned the unbalance of news in the services' output. The report found that "there is too much emphasis on national and international affairs and not sufficient development of local and regional news," In a breakdown of the services' daily file, it was revealed that about half the news dealt with national and international affairs and the other half with local events., including sports, weather, farin and women's news.

Pitt. Situation Points Up Struggle To Clear Time in Single-Station Cities

Struggle among the television networks to clear air time in sin-gle-station cities has hit a fever pitch during the last several weeks. Webs are reportedly trying to power their way into these stations to sew up time, whether they have a commercial show set for a certain slot or not. Stations, as a result, are refusing to take any bookings unless they see a signed con-

ings uniess they see a signed contract, with the result that the situation in several cities has reached an impasse.

Illustrative of the feeling among station managers is that of WDTV in Pittsburgh. While the station is owned and operated by DuMont, it is considered in a class with independently-owned outlets, since it has very little local programming. As a result it is dependent on the networks for most of its shows. Station has turned down bids for air time from competing networks on several fall shows, not because it wants to carry DuMont programs from N. Y. exclusively, but because it wants to carry DuMont programs from N. Y. exclusively, but because it has been bitten by the other webs several times on that matter of time clearance.

According to Chris J. Witting, assistant director of the web in charge of administration and operations, the sales chief of one rival network optioned a half-hour on WDTV Sundav nights for the fall, when a new commercial show was slated to start. Several weeks later, however, the sales chief wired the station to cancel that time in favor of a Thursday night slot, since the client and ad agency had decided to move the show. WDTV, as a result, was stuck with the Sunday night period.

Because of such maneuverings. Witting said. DuMont has decided not to accept any future commercial commitments from other webs on WDTV unless they know definitely the name of the program and the sponsor. Web is keeping a sharp eye on the fall program schedules of the other networks, since most snonsors and agencles demand to know what stations they are getting before signing a contract and the webs can't furnish the information.

Witting, while emphasizing that WDTV needs programming from other nets, also noted that DuMon must reserve time on the station for some of its own shows, even though these may be sustaining at their origination point in N. Y. To preserve its local operation status, the Pitt outlet must make time available to local sonsors. Thus, witting said, it sells participating spots

Hubbell's Foreign TV Importations

Negotiations have been completed for the importation of British films into the U. S. for use on video. Richard W. Hubbell, tele consultant, last week returned from a lengthy tour of the continent after having set up British and French companies for conversion of shorts and features into tele films. Pix will be re-edited with standard dissolves and spots for commercials for sale to American stations. Hubbell plans to set up further companies in Italy, Belgium and Canada.

panies in Italy, Belgium and Canada.
Hubbell has completed arrangements with British Pathe for their entire output. First films are expected to be flown in this week. Currently, 263 films are being processed for video, with 163 set for release this year.
Import of Pathe pix is being done in conjunction with the Richardson-Hubbell Television Networks. Ltd., a subsidiary set up with British financier W. T. Richardson, who controls 51% of the firm's stock. Company is capitalized at \$30,000, and plans are being made to raise additional capitalization to 50,000 pounds, maximum permitted by the British Government for any new business.

50,000 pounds, maximum permitted by the British Government for any new business.

According to the agreement, American distribution must return negative costs with a 5% profit. Hubbell figures this to be comparatively easy, inasmuch as costs will be figured on the basis of conversion to tele use and not on the original cost of the film. Most of the pictures have already returned their original investment through theatre exhibition.

After film is re-edited, new negatives will be made, according to Hubbell, so that fresh stock will be exhibited in the United States.

ABC-TV to Make Clean Sweep Of Chí 'Teledogs'

Chicago, Aug. 23.

Chicago, Aug. 23.

ABC-TV is making a clean sweep of six web-fed, Chi-originated sustainers within the next six weeks, in a move to drop all programs that won't sell. At the same time, the net is making a fresh start with a flock of fresh sustainers that are hoped to draw a heavy sponsor reaction.

Programs bowing out, all Chi-originated, are "Penthouse Players," "Skip Farrell Show," "Treasure Quest," "Sing-Copation," "Science Circus" and "Stand By For Crime." Except for "Sing-Copation," all are 30 minutes shows routed over the midwest and eastern network. "Crime" is taking an eight week hiatus, Aug. 27, but its return is considered doubtful. ful.

As replacements, ABC-TV is launching four net shows to originate from Chi—a 30-minute musical revue, featuring top singers and dancers, skedded for Sept. 4 at 7:30 p.m.; a 30-minute swap show with audience participation, lined for Sept.; and a 30-minute suspense-type chiller written by William Ballinger, to start screening around mid-September.

Fourth new net show—a panel quiz with a telephone tie-in—is in the indefinite stage because of the FCC ruling on giveaways, but will go ahead if the lottery kinks can be worked out. Starting date is Sept. 9 at 7 p.m. if net toppers give it the green light.

TV Set Sale Pace Slows Down

Slump in television set sales during the summer was especially marked during July. While the number of sets throughout the country hit the 2,150,000 marker as of Aug. 1, the increase over the preceding month was only 140,000, which marked probably the lowest rate of increase during the last year. Because previous estimates on Toledo and Albuquerque were too high, this month's figures show no increase. New York, still far out in front of all other cities, maintained its pace of a 35,000 increase, bringing the city stotal up to 720,000. Following is the city-by-city breakdown as of Aug. 1, including 75 stations in 43 market areas, as complied by the NBC research division. No. of

GARROWAY GAB INTO | Ford Dealers in Deal 5-MIN. COM'L FORMAT

Chicago, Aug. 23.

Chicago. Aug. 23.

WNBQ's experiment with disk jock Dave Garroway in a five-minute commercial show starting Sept. 19 for Mott's Apple Juice is being watched with considerable interest by trade circles here. As one observer put it, "the station has tossed the talkingest character in town into the shortest show in town. It won't work."

Garroway will screen five weekly for 39 weeks in the 10:30 p. m. slot, normally the station's signoff time. Young & Rubicam agency routed the deal, and was known to have wanted a minimum of 10 minutes for the garrulous disk jock to get started. Titled "Reserved for Garroway," the show is reported as a tipoff experiment on whether Chi TV audiences will go for a show less than the orthodox minimum of 15 minutes. But as trade talk goes. "five minutes for Garroway. Are you kidding?"

"Crusade" was wade by 20th-Fox for exclusive use by ABC-TV outlets and is being beamed on ABC stations everywhere but locally. Net allowed the program to go to KTTV here because KECA-TV was not on the air. "Kieran's Kaleidoscope" will also remain on KTTV along with "Pal Headliner." Both programs purchased ABC time adjacent to "Crusade." Both went to KTTV with "Crusade" and will remain until series is concluded. "Kieran' precedes the Eisenhower series and "Pal" follows. COME WEST, H'WOOD'S TELE PLEA

Rentals; May Hit Profit in 2 Yrs.

NBC television's film department will rack up gross rentals of \$250,000 for its first fiscal year, ending Oct 1. Figure, while certainly far from the grosses turned in yearly by even the smallest theatrical film distributors, is believed the highest yet earned by a TV distrib and presages a profit for the NBC department within the next couple of years.

According to department chief Russ Johnston, it's too early to de-termine whether the gross means a profit or loss for this year since the department has had too little the department has had too little experience in figuring its distrib costs. For example, he pointed out, no set formula has been devised for amortizing the costs over a period of years, which might be necessary since many of the pix NBC handles have valuable residual rights. He pointed out, however, that the earnings have been derived from only six series of films, which have been leased to stations at prices ranging from \$20-\$50 per showing.

WILL SWING IT

They're keeping their fingers crossed out here and uttering a silent prayer that everything goes well with the three new developments that may shift the trade winds of television to this seaboard. High hopes of the Coasters rests with what Hollywood is famous for—film

ers rests with what Hollywood is famous for—film.

CBS' Harry Ackerman has two projects in the works, kine and sprocket celluloid, while Irving Brecher and the Warwick & Legier agency (for Pabst) are concerned only with the emulsified ribbon that worms out of cameras. If all three come off within reasonable anticipatory bounds, has will fly in the air and cries of "Eureka" will go up from every cubicle along Commission Row.

"Bureka" will go up from every cubicle aiong Commission Row.

The Ed Wynn show, first of the kinnied biggies for eastern networks, will be scanned with eager eyes, east and west. It could make the big difference and dissipate a iot of doubt. Then, for added good measure, the straight filming of CBS' "Escape" and Brecher's "Life of Riley" for Pabst could turn the trick and the hoped-for shift to the west of big time tele eventuate before another year passes.

passes.

Hope, I Hope, I Hope
The coast optimism soars to these heights: Should all three projects click there's nothing to prevent the exodus west after another season. The cry for names will grow louder and few will pull stakes and break family ties just for TV in the east. Should film and kine achieve the hoppd-for quality and be kept within reasonable budgetary bounds, the Coasters will feel much better about their chances of being the video capital of the world and the ghost agencies once more keyed to prosperous times.

Only certainty, however, at this time is the Wynn kine for Speidei and CBS and "Riley" for NBC. Ackerman and Harlan Thompson, who'll produce, are toiling like trojans to get all the bugs out of the inaugural show Sept. 22 (two weeks later in N. Y.). Studio A at Columbia Square is being converted to teevee and every new technical device has been installed to give the kine every advantage for a successful takeoff. FCC's Giveaway **Edict Has Little Effect on Tele**

FCC's ban on giveaway shows, if it sticks, is expected to have little effect on television, since only five programs on all the major TV networks fall under the Commission's ukase. Reason is that TV, being comparatively new, is still experimenting with program formats and so has offered little chance for the giveaway fad to move in and take over.

Giveaway ban, in fact, may react beneficially for video. TV broadcasters have long believed that they can compete favorably with aimost any type of radio show except for those which offer mammoth jackpot prizes for bait. If such programs are forced off the air, consequently, TV should enjoy that much wider a share of audience.

FCC Finds 'T'aint Easy Trying To Give Away a Giveaway Ruling

Washington, Aug. 23.

Despite industry announcements that the giveaway ban will be taken immediately to the courts. legal opinion here last week was that the FCC will have to take the first move before the Issue can be tested. While there may be efforts to obtain a stay order in the lower courts to enjoin the FCC from putting its rules into effect. there is considerable doubt such an order would be granted. Similarly, it is considered unlikely that a court would issue a declaratory ruling on the Commission's authority to impose the rules.

It is generally agreed that the giveaway issue will be resolved by the following procedure:

1. After Oct. 1, when the ban becomes effective, the Commission will refuse regular renewal to one or more stations whose three-year license expires, if such station or stations have been broadcasting programs prohibited under the new regulations.

2. Hearings will be held to determine whether the station or sta-tions have violated the lottery rules and whether license renewal shall be denied.

shall be denied.

3. Should the Commission deny renewal of license because of lottery law violation, the station or stations (probably joined by one or more networks) would immediately go to the U. S. Court of Appeals of the District of Columbla to maintain license status of stations effected, pending a decision.

4. In the event of a decision favorable to the industry, the Commission would ask the Supreme Court to review the lower court ruling. In the event of an adverse decision, industry would do the same.

5. The Supreme Court, in either case, may refuse to review, in which case the lower court ruling

Giveaway Poser Goes Back Decade

Washington, Aug. 23.

Giveaway shows go back at least 10 years. Early in 1940 FCC referred six different money and prize shows to the Dept. of Justice for possible violation of the lottery laws (no action was taken). These shows were "Pot o'Gold." "Mead's Bakery." "Musico and Songo." "Especially for You." "Sears' Grab Bag." and "Dixle Treasure Chest." Three of these programs were telephone giveaways. One required purchase of the sponsor's product. Two required listening to the broadcast. Giveaway shows go back at least years. Early in 1940 FCC re-

to the broadcast.

Since 1940 local giveaway programs have been springing up all over the country but it is only in the last few years that big network jackpot shows have come along. Among the first was "Break the Bank," carried on both ABC and MBS. Later came "Stop the Music" on ABC; "Hit the Jackpot" on CBS; "Take a Number, "Hollywood Calling" and "Sing it again."

In addition, there have been a

wood Calling" and "Sing It again."

In addition, there have been a large number of audience participation shows, such as Ralph Edwards' "Truth or Consequences." which have been on the air for many years. Few of these are believed to be affected by the give-away rules which ban programs requiring listening or viewing, answering the telephone, or buying the sponsor's product.

"Congress intended the Commission to have power to issue rules and regulations with respect to matters intimately related to the operation of radio stations." Bromley argued, "and it carefully and specifically granted and limited that power. Its silence with respect to the right of the Commission to issue regulations under Section 316 convincingly corroborates the conclusion that Congress recognized the inappropriateness of conferring upon an administrative agency the right to interpret, enforce collaterally and impose additional sanctions and penalties under a criminal statute."

FCC 'Too Late' On Giveaways?

Did the FCC walt too long to take action on the giveaways?

There's a body of opinion here There's a body of oplnion hereand some of it is inside the
agency—which thinks it did. It's
argued there would have been
much greater acceptance of the ban
if it had come last fall, shortly
after oral arguments were held on
the rules, when the number of giveaway shows on the air was relatively few and there was none on television

But now, just as predicted by those who had favored the ban, a those who had tayored the ban, a rash of shows has developed to combat competition. The networks, stations, program producers, agen-cies and advertisers have made commitments. It's not so easy to "stop the music" as it was last year. The giveaways have become year. The giveaways have become the biggest audience shows on

FCC first announced its proposed FCC first announced its proposed rules on lotteries on Aug. 5, 1948. It held oral arguments Oct. 19. Since then, the Commission just "couldn't make up its mind." For a while, the agency seemed content to have the idea get out that action was imminent, but it was hesitant to take the plunge. Meanwhile, the industry worried less and less about FCC cracking down and got busy producing shows.

What seems to have stirred the

What seems to have stirred the agency to action were the recent hearings before the Senate Committee on Interstate & Foreign Commerce on the nomination of Edward Webster for a second term on the Commission. Relentless on the Commission. Relentless cuestioning by Senator Charles W. Tobey (R.-N. H.), while directed at Webster, involved FCC operations and policies generally. Tobey told reporters he wanted to throw "the fear of God" into the agency.

fear of God" into the agency.
Shortly after Webster's confirmation, the Commission, after reportedly vacillating on what to do about the G. A. Richards case, surprisedly voted to hold hearings on both the proposal to transfer the three 50 kw stations to a group of trustees and to look into charges of news slanting. It was whispered at that time the giveaway rules would be next.

'Include Us Out': Canada

The FCC rulings on radio jack-pot giveaways will have no repercussions in Canada. While Canuck listeners may enjoy listening to such U. S. programs, there are no giveaway shows on the three national networks of the Canadian Broadcasting Corp. "That should be a fair indication of what our executive thinks of them," said Ernest M. Bushnell, CBC program director. director.

Giveaway programs have been strictly controlled in Canada and no action, comparable to that of the FCC, is expected.

Web-By-Web Breakdown

Following is a web-by-web breakdown of the giveaway programs currently on the air or returning in the fall. This list includes all shows coming under the FCC decision, which drew no clear line between studio participation giveaways and those involving home listeners through the use of the telephone. Latter type of shows, listeners through the use of the telephone. Latter type of shows, which are concededly more vulnerable to the FCC ban, are marked with an asterisk.

growing increasingly slim.

While the court test of the FCC action may be a time-consuming factor and not hit the current shows for perhaps another year, nevertheless it's held a cinch that sponsors will be more wary of taking them on. It's considered a foregone conclusion too, that any of the package boys having additional giveaway product to peddle might just as well toss them into the ash can.

Shows to Go On

Washington, Aug. 23. Now that the FCC has finally decided to ban the giveaways, it's pretty generally agreed here that long-drawn-out court battle is ahead. The Commission has let it be known it will welcome a court test. The industry will be glad to accommodate it. In the meantime, the shows are likely to continue.

the shows are likely to continue. How long it will take for the question to be decided will depend on whether a test is based on Commission action to enforce the rules after they take effect Oct. 1. If a test is made following FCC refusal to deny license renewal to a station broadcasting giveaways, it is expected it will take at least a year. However, if a stay order can be obtained in court before the FCC takes action against an offending station, it is believed the issue can be decided in perhaps nine months. While the Commission rules were

While the Commission rules were generally believed to knock out the big jackpot shows, it was expected that many of the audience participation programs would not be affected. Whether a particular program violates the lottery laws, as interpreted by the FCC, will depend on the facts of each case. However, the agency set up the following criteria by which radio and television stations may determine the legality of programs in which the elements of prize and chance are present:

Consideration Present
One of the conditions frequently

regarded as necessary for a lottery
—the element of "consideration"— —the element of "consideration"—
was considered by the Commission
in the light of the peculiar nature
of broadcasting. The majority
opinion thought that in those programs barred by the rules a conopinion thought that in those programs barred by the rules a consideration "of some form" is present. This, it indicated, would be true in programs in which the participant must furnish a boxtop or buy the sponsor's product.

First reaction to the Commission

rist reaction to the Commission action came from the National Assn. of Broadcasters, whose prexy. Justin Miller, took issue with the agency's authority to promulgate the rules. Miller emphasized he was the rules. Miller emphasized he was taking no position on the merits of glveaway programs from the standpoint of "good" or "bad" radlo. He pointed out also that the NAB code discourages broadcasting of programs designed "to buy" the audience by offering inducements of reward rather than quality of entertainment as the incentive to listen.

Tele Follow-Up Comment

sion has been so marked as to cause comment.

The show is better since Garroway has been pointed away from those silly comedy sight tags he was using to close with and so long as he remains just the informal interlocutor his value will hold and grow. At present the troupe misses the team of ballet dancers it formerly included, particularly the boy who was outstanding with his turns, and the planiste who delivers a good lyric and stands out when she has a number like "Bring Her Along, She Plays."

The talent on the show is not spectacular but it's good and it's consistent. Viewers also have to like the way the troupe gets into and out of numbers and that, of course, is production. The background of script, music, camera work, and direction drip with perspiration—but it's worth it.

A recent trend for this Sunday night half hour has been the in-

work, and direction drip with perspiration—but it's worth it.

A recent trend for this Sunday night half hour has been the inclusion of one guest down next to closing. If it is to be continued, however, some new device will have to be launched for introducing the visitors. Garroway has now ignored, in turn the visible but silent Duke Ellington, Buddy Ebsen and Henry Morgan. And who except Morgan would fly to Chicago for a two-word gag?

Probably the most ambitious number the show has attempted was "Rhapsody for Camera and Orchestra." It was well done although the emphasis was on the wrong half. Boiled down, it summed into merely a montage of dollyup and pullaway shots of the instrumentation with special lighting on some of the musicians. Not one shot it included was as striking as a view practically thrown away on a previous program when

There no longer is much doubt that from a production standpoint the Garroway show is the top revue current in TV circles. There are more than a couple of reasons: One is that despite the casual atmosphere for which it strives the originating studio is obviously throwing into it every resourse at its command, its people are young nice looking and capable, and NBC is bringing this Chicago presentation east with the sharpness of artiching. This clarity of transmission has been so marked as to cause comment.

It's a pattern which has cropped up not only with this but on other audience quiz shows. Herbert Bayard Swope was the doyen and dean so deferred to, but he took it modestly and good-humoredly. That didn't estop Inez Robb from getting in her innings, and ditto Abe Burrows whose "Gallagher and Shean" doggered was certainly a change of pace. "Said That?" has become the "Information Please" of video, and one of the better things on TV.

Morey Amsterdam's intensive desire to punch over a succession of toppers apparently didn't rest well with "the girls" whom he "met" Sunday night over NBC as he apparently was too loquacious for a quintet of femmes who usually know how to take good care of themselves regardless. They're as rapier-witted as they're videogenic but femmeece Maggi McNellis along with her usual triumvirate. Eloise McElhone, Florence Pritchett and Robin Chandler, plus guester Maxime Barrett, apparently couldn't talk fast enough for the peppery comedian. SMALL TIME With Danny Webb, of Director: Ray Barrett 30 Mins., Sat., 5 p.m. WPIX, N. Y.

"Small Time" is a juvenile edition of Arthur Godfrey's "Talent Scouts" without the benefit of a personality like Godfrey. Danny Webb, who handles a number of juve shows on that station, talks to a small-fry who wants to exhibit a youngster who has talent, and then the child performs. An applause meter has the final say on who gets the award.

Initial edition of the show appeared somewhat stilted. Although there was evidence that Webb tried to make the conversation between himself and the "agent" interesting by some pre-arranged gab, sparkle failed to come off. Talent was on par with the general run of kid shows.

Generally, the program attempts more than it can handle effectively. There are brief demonstrations, for example, of how to knit a beaded bag, or how to whip up a cooling non-alcoholic drink. With Harding taking all that time, there's hardly sufficient time for exposition. Sarah Palfrey, the tennis player, conducts an interview session, with initial guest being flier Marjorie Davis. Shirley Spencer, of the N. Y. Daily News staff discourses om graphology and models parade some of the new modes. Generally, there's something for virtually every type housewife on this show.

It will have no trouble in reestablishing its grip on dialers who have cottened to this show in past seasons. This show, however, has little in the way of novelty. The flock of scripters are evidently prefabricating the laughs out of ready-made gags and mall-order situations. But the timing is good and the yocks, judging from the studio audience, are planted accurately to explode every half-minute. Hattie McDafiel is back in the familiar role of a domestic in the Henderson family. Reenforcing the racial stereotypes, all the Negro-characters in this show are clownish, while the whites are patronizingly sympathetic. Within the framework of this cliche, the script is otherwise innocuous. Story line on the opening show (22) indicated that Beulah is to be saddled with her cousin's six-month's old baby for some time.

Aired by the University of Chicago workshop, this show presented
a full summary of the activities and
aims of the Protestant Radio Commission. It made an interesting
contrast between the narrow approach of the bible-belt broadcasting evangelists and the PRC's general plan to promote enlightened
and tolerant thinking. Dr. Everett
C. Parker, director of the Commission, gave the details of how his
'organization operates on the air.
Most interesting features of this
program were a couple of guests
from abroad who spoke simply on
the meaning of religion. One was
a Japanese woman who lived
through the American bomblings of
Tokyo and the other was a converted head-hunter from the Solomon Islands. Both gave evidence
of the humanizing influence of
their religious ideas. He/m.

purposes of classification, Starke

Judging by one of the "Music

this platter program is considerably less irritating than some of
its contemporaries. Starke stresses
"easy listening" and in keeping
with that objective reads the blurbs

Radio Followup

Al Joison's exploitation whirl to launch his "Joison Sings Again" included marathon personals with the N. Y. disk jocks, and in his authoritative informal manner he philosophized and also told the platter chatterer's confreres how he rated them. For instance, on a stint with Ted Husing the star observed that Art Ford and Rayburn & Finch, both WNEW, impressed him as hep, young, personable and showmanly. He took Hushng's showmanship for granted as was evidenced by Jolson's palaver with the WMGM record impresario. Part of the philosophy, in relation to show biz nostalgia, was Jolie's question, "What does time and a clock mean, excepting maybe it would leave you disk jockeys stuck when it comes to announcing it's now 9.30 a.m. by courtesy of B-u-l-o-v-a." He wondered that if there were no such thing as a calendar, the following might come to pass: "You'd look at yourself in the mirror and that wrinkle you might say, 'My, hasn't my dimple become more accentuated." Or, let's say you notice a gray hair, and you'd say, 'Doesn't that touch of white make my curls look softer." Jolson discoursed on why he hates radio scripts, and proved his point with a glib ad lib manner of bright chitchat. The does not be to the completers on the Loew circuit, his radio DJ personals, and the like, he evidenced himself a natural bailyhooist. philosophized and also told the platter chatterer's confreres how

Tex and Jinx show Sunday had an extraordinary presentation with the "man of the week" salute to Bernard Baruch. It was showmanly, hep and adult, intersplicing a variety of vignettes and anecdota by Mrs. Eleanor Roosevelt, John Golden, Billy Rose and Baruch himself. All taped, it was a skillfully blended pot-pourri. Golden recalled how Baruch almost got into show business, and Rose, one-time secretary to Baruch, dwelt on the wisdom of his counsel. . . . On the subject of Mr. & Mrs. teams, the Richard Kollmars (Dorothy Kilgallen) are doing a tiptop job via taped travelogs of their current hegira through Italy. The "Dorothy & Dick" show evidences they're as graphic audio reporters as, for instance, have been two of their colleagues on the N. Y, metropolitan press—Earl Wilson and Louis Sobol. The Post columnist did some of his best reportage via his recent European o.o., and Sobol got a new slant on Hollywood, with a hep Broadway approach, that's different. And so with the Kollmars, who don't Cook's Tour, but got a new slant on Hollywood, with a hep Broadway approach, that's different. And so with the Koll-mars, who don't Cook's Tour, but give it a folksy yet sophisticated approach as they meander through the Italian treasuries of art and tore.

Basic malady of radio comedy, Basic malady of radio comedy, according to Abe Burrows, is the disposition of gag writers and comics to undersell the intelligence of their audiences. Guesting on Gilbert Seldes' "America's Funnybone" airer on WNEW, N. Y., Thursday night (18), Burrows ripped the double standard of some comics who privately enjoy an adult brand of humor while publicly retailing the tired cliches to dialers. to dialers.

From week to week, this airer continues to present a trenchantly entertaining analysis of American humor. Seldes has a sharp and discriminating taste and never commits the sin of talking down. Sample comment from this airer reveals his wry approach: "The amount of time and money spent on radio comedy is, to coin a phrase, no laughing matter, Two tragic sights you can see any day along radio row; a gag writer when the comedian doesn't like his joke and a comedian when the sponsor doesn't like his liooperating."

Abbey Albert is doing a marathon pickup from New York's Village Barn nitery in a manner that reminds of the 3 Suns' intensive broadcasting which did so much to build them up. A sample of the entertainment on tap in Saratoga during the racing season is Sammy Watkins' music from Piping Rock, which hit music from Piping Rock, which hit its air stride on final night of the first week. That broadcast came the closest, of four stanzas heard, to the smooth Watkins entertainment of long ago from the Kenmore Hotel in Albany, via WGY, Schenectady. Lively and rhythmlc, it constituted one of the most sustained half-heurs of dance band stuff caught hereabouts in some time. Rough spots still existed, but the ail-over effect represented a distinct improvement over previous shots.

TELLE-KID QUIZ With Bruce Eliot, Dan McCullough 30 Mins., Sat., 9:30 a.m. MERIT CARD CO. WOR, New York

MERIT CARD CO.

WOR, New York

Designed for juves under 16 years, Telle-Kid Qulz adds up to a low-budget giveaway with "Uncle Don" overtones. Question and answers show, conducted via a two-way phone conversation, is supplemented by some idle chitchat between quizmaster Bruce Eliot and the youthful contestants. Categorized into various age groups, the questions are basically simple with Eliot giving the kids enough time to get answers from their parents, in not in the know themselves.

In addition to answering an initial poser, each contestant is given a chance at a miniature jackpot. With only 30 seconds of thinking time allowed, even the parents have difficulty getting the answer to the prize puzzler. Eliot, however, could use a little more discretion in his choice of questions. Asking a five-year-old, "what fictional character slept for 20 years?" is unquestionably overestimating the kid's ability and as was the case on the program left the entire problem in the hands of his mother.

60 Mins., Wed., 9 p.m.
Sustaining
CBS, from N.Y.

CBS has come up with a most commendable idea—to give quaiified U. S. composer and arrangers a chance to present a full hour of their own compositions and arrangements with a full-size orchestra. This is more than the average symphony orchestra does for America's wealth of talent. CBS has picked five nationally known artists in the field of light and popular music, and given them a 48-piece orch and carte blauche in building their programs. Not only is the web thus paying proper respects to David Broekman, Raymond Paige, Robert Russell Benneit, Ray Bloch and Mark Warnow, but coming up with a choice evening of music. of their own compositions and ar-

ing up with a choice evening of music.

Brockman teed off the series Wednesday (17). Novelist, composer arranger and conductor, he showed off his talents to rare advantage. Wisely, to prevent monotony or charge of hogging the act, he offered only three of his compositions, the balance of the hour consisting of Brockman's arrangements of the work of fellow contemporary composers, or of classics. Thus, he offered Youman's "A Great Day," Scott's "Drawing Room," Porter's "Begin the Beguine," "Carousel" Waltz, as well as his arrangements of Mexican tunes, Mozart and opera bits. His arrangements were distinctive and smart, and faithful to the composer, without being too intricate or contrived.

His own compositions sounded.

intricate or contrived.

His own compositions sounded first-rate. These included "Samba of the Orchids," a snappy rhythm number, melodious and catchy; "Intermezzo for a Day in May," a charming, jaunty mood piece, and excerpts from his "Manhattan Fairy Tale" Suite, which is good descriptive music in jazz vein. The expert orch CBS provided Broekman helped make a superior program. Only flaw was the announcer's pronunciation of the selections, his dropping of his voice towards the end of a title leaving something to be desired. Bron.

YOUR GOOD FAIRY With Ellen Fay Writer: Miss Fay 30 Mins., Sat., 9 a.m. Sustaining WROW, Albany

Small children constitute the principal audience for this program, presented by a State Teachers College senior. Choice of material and style of narration are properly geared to that level-it is probable some mothers may listen with their youngsters. Mail response is reported good. The tabbing of birthdays and messages for individual tots make an effective hook.

Miss Fay spins the stories, straight and "sound," with a degree of skill. From an adult vlewpoint, program is slightly noisy, but in the children's world of fantasy and make-believe this has a natural place. Certain of the tales—many concern animals—have a fearsome tenor but that, too, presumably is part of child iore. Transcribed musical selections — one heard seemed to carry narration by Don Wilson—and a poem, round out the 30 mlnutes. Miss Fay commendably starts the show with the saying of grace. She possesses a pleasing radio personality. Jaco.

Inside Television

Underlining the trouble that may be encountered by television producers in adapting w.k. works was the casting job faced by Mort Millman, producer for ABC-TV on the upcoming "L'il Abner" show. Because of the preconceived notions of viewers as to what the characters should look like, Millman at first attempted to find actors who would look as though they had stepped directly out of the Al Capp comic strip. He later decided, however, that it was more necessary that the actors have the subtler qualities of walking and talking like the cartoon characters, since the public has acquired a feeling for such things based on watching the strip for years.

Millman finally completed his casting of the four main characters.

on watching the strip for years.

Millman finally completed his casting of the four main characters last week, setting Craig Shepard as "Abner"; Judy Bourne as "Daisy Mae"; Bobby Barry as "Pappy Yokum," and Agnes Scott Yost as "Mammy." Producer said, however, he will keep looking for even better characters until the show takes the air early this fall. Ezra Stone will direct, with Arnold Horwitt and Lee Rogow handling the adaptation. Special score, including a theme for each of the four main characters, has been written by Bernard Green, who will conduct the orch. Capp himself is taking an active part in the production as consultant and adviser.

New television transmitting antenna designed to provide higher power, greater power gain and directional effects was put on the market this week by RCA, with the first one delivered to WNBT, Columbus, O. Antenna comprises dipole and screen combination units, which achieve flexibility through the many possible arrangements. Each unit can serve an area extending from the tower in the form of a quarter-circle. By mounting one, two, three or four dipole and screen combinations on as many sides of the tower, the broadcaster reportedly can obtain a directional pattern from a quarter-circle to all-directional coverage. New units can be tuned for use in both the high and low frequency portions of the current TV channels.

Pointing up Canada's increased interest in television, the Canadian Radio Yearbook will carry a video section for the first time in the 1949-50 edition. Andrew N. McLellan, TV director of Canada's Academy of Radio Arts, has been named to edit the section. Year-book is published by T. J. Wheeler. McLellan will also conduct the Academy's second TV study course, which tees off in Toronto in October.

ECA Films Set for TV

Four single-reel films turned out by the Economic Cooperation Administration will preem individually over all N. Y. television stations this weekend in a plan set up among the webs by ABC-TV film chief Nat Fowler. While the other stations have not selected their time spots, WJZ-TV and the ABC eastern web will screen "One Piece of Coal," Sunday night (28) from 9 to 9:15. 9:15.

Films are to be rotated so that each station will eventually have played all four. Other titles are "Hidden Treasure," "Railroads" and "Life Must Go On."

Cincy's 30,000 Sets

Cincinnati, Aug. 23.

TV sets in the WLW-T area as of Aug. 1 numbered 30,000, an increase of 25,600 in the past year, according to a survey by Crosley's research department. Latest figure on installations in the Dayton, O., area served by Crosley's WLW-D, is 11,400, and in Columbus territory reached by Crosley's WLW-C the number of sets is 8,000.

Schwerin, Starch Entries Into TV **Cues Increased Ad Interest in Field**

Entry of both Schwerin Research and Daniel Starch into television last week is believed to emphasize TV's growing stature as an ad medium. Schwerin had heretofore confined his efforts to radio, while Starch had concentrated on researching newspaper and magazine ads.

"audition" tests, have been signed for by Miles Laboratories, American Telephone & Telegraph, and others. Telegraph, and others. American and Schwerin to use its facilities for outside clients.

Starch plans to cover only TV commercials, incorporating many of the techniques used by the outfit in its previous work. Schwerin, on the other hand, will seek audience measurement of both commercials and approximate accordant his ence measurement of both commercials and programs, conducting his testing on both shows already on the air and those still in the planning stage. On the basis of experiments conducted with NBC for the last eight months, Schwerin declared in a press preview of his system Thursday (18) that "for the first time we are able to overcome the reluctance of many national advertisers to enter TV at this stage." stage.'

stage."

Experiments have shown, for example, Schwerin said, that the sequencing of time slots is nowhere near as important in TV as it is in radio. In TV, he emphasized, program quality is the dominant factor. Schwerin also revealed his tests to show that setowners and non-setowners do not react differently to programs; that the increasing popularity of large-screen sets will not be a factor in enjoyment; that the number of viewers per set does not appreciably affect reactions, and that the novelty factor is not important in TV.

Advertisers Sign Up

Researcher disclosed that he has pacted with N3C for a continuing program of "on-the-air" home tests, teeing off tonight (Wcd.) with "Believe it or Not." Testing will utilize the superimposition of numbers on the screen to cue viewers when to note their reactions. Future home tests will be conducted on both sustaining and sponsored shows, with the service open to all webs. Continuing "improvement" tests, both home and studio, and

Schwerin to use its facilities for outside clients.

Starch system is to incorporate a continuing consumer research program on TV commercials covering viewing, attitudes and product acceptance. Starch will not attempt to ascertain whether commercials have resulted in increased or decreased product sales, but advertisers will be able to derive their own conclusions on that question by correlating Starch's results with other tests. First of a series of monthly reports is to be published Sept. 20, covering commercials on the air during August.

Hesearchers are to go info viewer homes with "story boards," on which are a series of stills taken in sequence from the commercial. Respondents identifying the commercial will then be asked for their reactions. Research will be conducted in five or six key cities at the start, with interviews to be divided equally between men and the women. According to Jack Boyle, who will handle the TV testing, charges are to be based on the advertiser's TV activity, with one basic subscription price and an additional charge for each network show and spot commercial covered.

Were we to be criticized because Senator Bilbo on criticized because Senator Bilbo on a "Meet the Press" broadcast admitted he was a member of the Ku Klux Klan? Or were we to be praised for getting Bilbo through sharp questioning to reveal his shameful affiliation? As a good journalist, you know the difference between the man who does or says something and the newspaper or television broadcast that reports it. "Meet the Press" is a news medium that prides itself most on one thing: it gives a man a chance to that prides itself most on one thing: it gives a man a chance to reveal himself for what he really is—good natured or short temp-ered, direct or evasive, principled or unprincipled.

REACTION IN TELE BOW

Omaha, Aug. 23.

Omaha, Aug. 23.

Omaha's first mass reaction to television was observed last week when WOW-TV and KMTV, first local video stations, broadcast from different points in town. Principal broadcast was the western league baseball game between the Omaha Cardinals and Sioux City Soos. Sets were available in dealers windows, in more than 200 taverns, in some business houses and in quite a few local homes. In some area, sidewalks were completely blocked as large groups of men, wonen and children stood around sidewalk sets. WOW-TV also televised the first news event, the dedication of the new 8,000 foot runway at the airport where DC-6 service was inaugurated coast to coast with one-stop flights by United Airlines.

WOW-TV estimates that there are 3,800 sets in Omaha now with every prospect of this being lifted to 5,000 sets by Sept. I when regular telecasting will start. Biggest plum is held by WOW-TV which will handle the U. of Nebraska football games.

In public service programs, probably the two biggest obstacles to getting information across to listeners have been too much of the "sugar-coating" previously mentioned, and too much discursiveness

Evidence that sugar-coating was Louerice that sugar-coating was lowering interest in one program was readily apparent from the Schwerin System's tests. The program had to do with certain aspects of science. Again and again in the voting, three-fourths or pects of science. Again and again in the voting, three-fourths or more of the audience complained that they "would like more scientific information," that the show took too long to get to its point. Further, when all the scenes in the editions tested were examined, it was found that the ones involving the scientific aspects and in which scientist characters appeared, had an average score six points higher that the rest of the scenes, many of which contained the program's sugar-coating.

As to discursiveness, when speakers on public service programs wander too far away from the subject, it is almost a certainty that liking will drop off. When this

seasonal spring and summer slump since long before the war, are at last bouncing back.

Jump in music sales coincides with a now definite rosier outlook in record sales. Most disk executives last week had begun changing tune. Sales were picking up and the gloomy attitudes were wearing away. They now feel that the fall and Xmas business will bounce back nicely. Older, top publishers who have gone through many biz slumps are of the same opinion. In fact, several expect heavy fall and winter sales figures. Broadcast Music, incidentally, is hogging a heavy portion of sheet music and record sales for the first time in its brief history. BMI affillated firms control "You're Breaking My Heart." "Someday" and "Room Full of Roses."

Sharp upward sales spurt in record biz has taken piace during this month, according to Bob Stabler, Capitol exec, who says that orders are now at the January-February level. Lee Palmer, who heads Mercury's western offices and also distributes some 15-odd labels, last week reported that salesmens' orders thus far in August are 100% over any month in the past four. Ben Seivin, Columbia Coast chief backs up general statement that biz is better, but supplies no apecific figures. Joe Perry, Decca rep here, says Decca and Corai orders from retailers for August are up about 10%.

Cap Straightening Out Its Foreign **Royalty Situation**

Involved collection of royalties from the sale of Capitol Records abroad. through its distribution deal with British Decca, is being straightened out. Cap's disks are now on sale in around 10 Continental countries, either fed directly by English Decca, or via local labels, and to properly channel royalties is a problem of sorts.

Since Cap sends masters to British Decca to press in England, the resultant royalties, though the tunes involved may be owned by U. S. pubs, cannot be shipped to the latter. They must be paid to local reps. For example, if a U. S. publisher assigns a tune to a British firm for exploitation in England, royalties on Cap sales of that tune in England must go to the British publisher. The same is true in France, Beigium, Switzerland. Germany, Sweden, Denmark, Holland, Italy, etc. Most U. S. publishing houses have agreements with firms in those countries and Capitol is endeavoring to de-U. percentage of it, eventually comes home to the U. S.
Same system applies in the U. S. because of London Records. When a British pub gives the rights to one of its tunes for U. S. publication, the U. S. firm collects royalties on London disks, even though those recordings are pressed in England and the British firm is sues the recording license.

RCA CUTS 45 PRICE TO LURE DISK-BUYERS

RCA-Victor has not fully completed plans for the vast promotional push that will be applied this fall to its 45 rpm records and changers. It has decided, however, that the 45 machine designed to be hooked into larger radio combinations will be reduced from \$29.95 to \$12.95 as a means of luring disk buyers and turning them into 45 rpm fans. Victor's larger machine, which plays 45s inde-pendently, will hold at \$39.50 and

ON ROYALTIES

of the major music publishers into an uproar last week when the company distributed royalty statements on the basis of a unique computation plan, which sets a precedent the pubs do not like. And for which they apparently are not going to hold still very long. Some have refused to accept accountings and checks, others are insistent upon refusing Decca lleenses to record their tunes, which would force the company to pay the statutory 2c per side rate on everything cut, or not cut at all. Other pubs are accepting checks under protest, as part payment, pending settlement of the argument.

Heretofore, the general practice in-making out statements was to deduct certain percentages from all to cover returns, breakage, etc. have refused to accept accountings

deduct certain percentages from an it o cover returns, breakage, etc. Now Decca insists on making full deductions for every return. In itemizing statements, the company listed records shipped out and, balanced against that total, the disks returned. However, in many cases the tunes involved were expired pops, no copies of which were sold during the quarter Decca is reporting on 'third, ending June 30). So returns couldn't be balanced against sales. To get around this, Decca simply added up royalties owed on all copyrights held by one publisher, and deducted from that amount totaled figures representing returns of records inscribed with songs held by that same publisher. Mfr. Absorbed Loss.

Heretofore, when Decca or any other company received returns on songs already expired, and on which royalties had been paid to pubs. the manufacturer absorbed the loss. It couldn't go to the pub and ask for a return of its coin the sides, the 1909 Copyright Law states that pubs can demand payment of royalty for every recording manufactured, whether it's sold or not). Even if Decca did take that procedure, it couldn't get all tocin, since the publishers split mechanical royalties with individual writers immediately upon receipt of the coin.

That's what got publishers bothered with Decca's new system. They are accountable to writers for half of the royalties on every recording sold. If they let Decca deduct as it wants to, it's probable that the publishers will be forced to absorb all of the loss, even though half of all royalty coin is not theirs. They can't go to writers who have already been paid royalties and ask for a kickback. By the same token, under Decca's new system of payment publishers would be balanced in lump total against the hit of a current quarter. But those two hits might be by different writers, and one would suffer for the return deductions that should rightfully he paid by his contemporary. It's an involved argument that publishers heatedly point out toles a great many complications. And if Decca is allo

Decca's Dubbing To LP Spotlights Wide Use of Tape

Decca Records in dubbing material from its regular 78 rpm masters to the new 3315 sides, used tape exclusively for the transfer. It's a simple process of feeding from a 78 master to tape, thence to a 33 master, after which the latter were shipped to Columbia Records' Bridgeport factory for press-(Columbia has been doing

ords' Bridgeport factory for pressing. (Columbia has been doing initial platters, but Decca will soon be turning out its own 33s.)

Decca's use of tape in the process highlights what is not generally known—that the majority of major companies are using tape exclusively for the cutting of masters. Use of tape has gathered momentum only during the past year or so because prior to that real fidelity wasn't possible due to poor reproduction of highs and lows. That, of course, made the method unsatisfactory for virtually all finishing work.

With tape recording vastly improved, however, the task and expense of cutting flew material are considerably reduced. For example, any minor error in wax-recording, by a musician or a vocalist, usually forced a master into the discard no matter how excellent the remainder of the performance might have been. Often, master after master would he gone through before an acceptable performance was gotten. There have (Continued on page 40)

In going LP, Decca swings a vast majority of the power in the favor of that system, putting RCA-Victor in a position which makes a good many important recording people believe that eventually the kingpin of the diskers will be forced to accept the LP idea for its Red Seal classical series. RCA is, of course, continuing with its 45 rpm platters and machines, the introduction of which brought on the battle of the rpms. Victor is about to begin exceution of a vast promotion campaign for fall sales. And it's not going to stop because of Decca's ioning with CRC, Mercury and Capitol in the production of LP's (Capitol only recently went for the 33 rpm sides for its Telefunken Classics; it had at the outset joined RCA in the making of 45 pop platters.)

Deca's introduction of LP to its line will be accompanied by the marketing of LP machines under the Decca name that will retail at \$9.75. These, of course, are designed to be jacked into radio combinations. Decca also will make a Microverter, to retail at \$39.75.

In issuing its first LP's Decca has developed a label-color idea, the different colors marking different divisions of disks. There will be Black, Maroon and Green labels in 5,000, 6,000, 7,000, 8,000 and 9,000 series numbers, prices ranging from \$2.85 for 10-inch Black label platters to \$5.85 for 12-inch Maroon label "specialty" disks.

Decca's new label designs, incidentally, prominently display the designation "LP" and "331'a rpm." (Continued on page 46)

SCOTCH HOT' WHITLOCK JUST PAST 80TH YEAR

Roanoke, Va., Aug. 23.

Editor, VARIETY:
"How old is Billy Whitlock?" That is the question which I examined at some length in the Aug. 10 issue. From internal evidence I deduced that the belis virtuoso, whose London record of his own composition, "Scotch Hot" is proving a hot seller, must be somewhere between 80 and 100 years old. Preponderance of evidence, I said, favored the comparatively youthful fourscore, but the Whitlockian chronology was still a mystery.

or evidence; I said, ravored in comparatively youthful fourscore, but the Whitlockian chronology was still a mystery.

Well, I'm glad to p s the word along that the puzzle in puzzle no longer. From a reliable source I have learned that Whitlock, who was making bells and xylophone records as well as singing laughing songs 50 years or so ago, is—hold your breath!—just 80!

The "reliable source" is Gene Rayburn, of WNEW, New York, who has written to me as follows:
"My partner and I read your letter to the editor of Variety with considerable interest in view of the fact that we are responsible for the renascence of "Scotch Hott" or "Hop Scotch Polka." Since we have been in touch with the composer, Billy

mystery surrounding his age. Ted Lewis teiis us that Whitlock passed his 80th birthday early this year, about the time he re-recorded 'Scotch Hot.' Further, they had to iteraily hold him up at the recording session because of his advanced years.

"WNEW," Rayburn continues, "was throwing out a stack of oid records, among them the Edison Bell recording of 'Scotch Hot,' with Whitlock at the beils. We played the record three or four times during the course of one week, and began to get unusual response on it from our listeners via both telephone and the mails. We put the record saide temporarily and began an investigation through London Records to find out who owned the master. Tutti Camarata of London Records informed us that his firm did not own the master, that it was non-existent, but Whitlock was still around and willing to re-record it. We sent them an acetate dubbing from the original Edison Bell and suggested that they do it with the same instrumentation and arrangement. While ail this was happening, we were still humming and whistling it, and began kicking around some ideas for a lyric.

Inside Orchestras—Music

Band bookers for South America are burning at statements made by Xavier Cugat recently to the effect that he was paid off mostly in frozen assets on his last swing below the border. Pablo Williams and A. Higuera, booking agency which handled the Cugat tour, flatly contradict Cugat with claims that Cugat received \$45,000 in cold U. S. cash for his engagement in Venezuela aione. Bookers are particularly sore because they want to pact American bands for the Latin American carnival season opening next February, but are meeting resistance. Bandleaders claim they don't want to be paid off in coffee beans.

Rex Riccardi, assistant to James C. Petrillo, prez of the American Federation of Musicians, backed up Gene Krupa solidly recently when two of the maestro's men were invoived in marijuana arrests. Krupa fired both musicians on the spot, but both went to the AFM to force Krupa to give them the required two weeks' notice. Riccardi refused to allow their complaint, and on top of that, refused to allow ballroom promoters who had Krupa's band booked to cancel him out due to the publicity over the case. publicity over the case.

Based upon a poem by Rudoiph Vaientino to songwriter Ditra Fiame, "Candlelight" was published yesterday (Tues.) by Whimsy, Ltd. Date coincided with the 23rd anniversary of the matinee idol's death. Miss Flame is said to have composed the song's music about 25 years ago. She also has converted another Valentino poem into jyric form and supplied the music as well. This number is tagged "One Red Rose." Meanwhile, the tunes will likely benefit from the couple of pix about Valentino which have been announced for production.

RCA-Victor, in a drive to promote interest in its Negro artists, for the first time bought advertising in all four Philly Negro weeklies, Pittsburgh Courier, Afro-American, Philadelphia Tribune and the Independent. Ads were taken to get campaign rolling on "Careless Love," which the Four Tunes have waxed on Victor's new Bluebird label Record company recently hired newsman Joe Baker to contact Philly disk jocks over their alleged failure to piug race platters. Baker will be in charge of the newspaper campaign on "Careless Love."

RCA-Victor and Vaughn Monroe hosted a group of 25 record fans at luncheon and a recording session by Monroe's band last week at Victor's New York studios. Kids were winners of a contest run by Martin Block, WNEW, N. Y. disk jockey, on the subject of "Why I Like Phonograph Records." They lunched on RCA, watched Monroe record and drew a tour through Victor's miniature pressing plant at its 23d street studios.

Jocks, Jukes and Disks

king Cole "Land of Love" (Capitol). Another Eden Ahbez ("Nature Boy") tune, "Land of Love" is very impressive and a possible hit. Full of the same structural characteristics as "Boy," Ahbez's tune gets an excellent performance from Cole and fit doesn't sell it won't be his fault. He's backed by a bank of fiddles and other musical color framing a really understanding vocal.

Fred Waring's Pennsylvanians "Trees". "Hymn To Music" (Decca). Waring's huge choral society did a job on "Trees" that won't make the standard a new hit, but one that belongs in every discerning jock's library. Waring's arrangements of music like this and his group's performances of them seem to burnish and inject new and different life. Reverse is material that doesn't make half the impression, though well cut.

Tex Beneke "Blues In the Night March"."One Who Gets You" (Victor). Another of Glenn Miller's wartime march arrangements of standards, similar to the "St. Louis Blues March," which was a hit for Beneke a while back. This one's not as good, but it's well played and it might happen. Flipover brings up a medium bounce tune ploed by Beneke and the Moonlight Serenaders that's fair.

Jack Owens "Jealous Heart". "Dime A Dozen," "Your'e The Only One I Care For"."I Wish I Had a Record" (Decca). Jack Owens, of radio's "Breakfast Club," is now a Decca man. He does a fine job on all four of these sides. "Jealous Heart" cutting a swath that's better, vocal for vocal, than Al Morgan's. "Dime A Dozen," a new tune that varies widely with different artists, is good. "You're The Only One," ballad on which Owens is cowriter, seems like an excellent tune that can move on its own power. It's backed by a rhythm item that is okay.

Les Brown "Joltin' Joe DiMaggio". "Now a power or eight years ago, far enough back to be new to mest locks. At any rate, aside from the timely baseball import of the "Joltin" is dated at all. Band choruses and Betty Bonney vocals. Serenade" is another bounce bit almed originally at coinmachines. heter tittle. It's okay.

Platter Pointers

Percy Faith put a lot of guts, fiddle-wise and otherwise, into his outstanding diskings of "Deep Purple" and "Oodles of Noodles," a string-crazy thing that will be well-played by locks. Milt Herth sliced a sharp instrumental version of "Last Mile Home" (Coral), with beat-men assisting his organ Deeca released "Blue Skirt Waltz" by Guy Lombardo, not exactly the equal of Frankie Yankovie's (Columbia) Good disk for je 'ca and Jukes, too, is Phil, Harris', "Is It

Bing Crosby "You're In Love With Someone" "Top of The Morning" "Oh, Tis Sweet To Think" "The Donovans" (Decca). Four tunes from Bing's forthcoming "Top O' The Morning" film. Top Jock, juke and sales sides are the first two, by Johnny Burke-Jinmy Yan Heusen. "Someone" is a swell ballad with a sharp chance at hit dom, and Crosby does it with rare touch. It stands out. "Morning" is a light rhythm item with an Irish tang. "Sweet To Think" a slow ballad dueted with an unbilled female, and "Donovans" one of those infectious Irish items. They're play, Jeffry Alexander Chorus and Victor Young's orchestra accompany.

Frank Sinatra "Let Her Go. Let Her Go, Let Her Go" "Wedding of Lillii Marlene" (Columbia). "Let Her Go" is the disk about which there's been so much discussion and argument over release dates. A slow ballad, smoothly and accurating songs), the tune has an excellent chance to hit for jocks and paparently has resumed 'rehears-ring songs), the tune has an excellent chance to hit for jocks and whorns apparently has resumed 'rehears-ring songs), the tune has an excellent chance to hit for jocks and whorns apparently has resumed 'rehears-ring songs), the tune has an excellent chance to hit for jocks and whorns apparently has resumed 'rehears-ring songs), the tune has an excellent chance to hit for jocks and whorns apparently has resumed 'rehears-ring songs, the tune has an excellent chance to hit for jocks and whorns apparently has resumed 'rehears-ring songs, the tune has an excellent chance to hit for jocks and whorns apparently has resumed 'rehears-ring songs, the tune has an excellent chance to hit for jocks and colicks.

Three Suns "Scotch Hot" "The Windmill's Turning" (Victor): Sunshine' (Victor): Julia Lee, "You and the proposed that jocks will find much use for, but it doesn't capture the spark that marks Whitlock's London version. Some Majors Eye Non-Plug Songs To Give 'Em Ride

Some of the major recording companies are aiming to help sales by making a try at creating hits with non-plug material held by music publishers.

music publishers.

At least two of the majors in recent weeks have approached various pubs on the idea of the latter digging out material possibly worthwhile enough to record. And part of the deal is that the recorders want special royalty rates on the stuff they do record. Pubs feel that the reduced-rate idea is reasonable, especially since it's probable that the tunes they can dig up would not be recorded at all under normal circumstances, or not unless it particularly suited some browsing artist with a disk contract.

Lou Levy, manager of the Andrews Sisters and head of Leeds Music, left for the Coast over the weekend, picking up the vocal trio in Chicago, to help prepare them for the resumption of their Campbell Soup broadcasts (CBS) Aug. 29.

Some mention has been made, too, that the pair, who operate numerous enterprises in this town, are trying to set up a deal with Pleasure Beach Park, Bridgeport, under which they will try to buy bands on a three-day weekend basis, playing them two days at Asbury, and Sunday at Bridgeport.
Reddikers have dropped a fair wad promoting at Convention Hall this season.

Capitol, M-G-M and London labels all turned out quarterly royalty statements for the period ending June 30 that were lower than the preceding quarter, pointing up the depths of the summer biz lag. Curiously enough, however, in each instance the disbursements to publishers were in all instances either higher or on a par with the total paid out for the second quarter of '48, indicating this year's slump was not as deep as last year's despite the louder wailing of the cur-

spite the louder wailing of the current seasonal drop.

Figures can lie, of course, in the returns of individual companies, because one hit disk or the lack of one can fluctuate comparative figures greatly. But for all three firms currently reporting to better or hold their own with last year is curious.

On one other day a week, Taylor fills up a soft-drink truck with two quarts of gas. The driver of the truck starts driving around town. Taylor and the engineer are with him, conducting their show right from the truck. The truck continues to prowl from one neighborhood to another until it runs out of gas. Taylor gets out of the truck and informs the lady of the house where the trucks stops that she is the winner of the day. The housewife is put on the air while she is loaded down with prizes.

The rest of the days, the show is broadcast direct from the studio, playing top tunes, answering requests, and interviewing transient celebs.

LONDON WON'T PRESS FFRR DISKS IN U.S.

London Records says it has no intention of ever pressing its classical FFRR disks, either 78 rpm shellac or Microgroove Long-Playing, in the U.S. London execs explain that, firstly, it isn't easy to obtain the quality achieved by its own pressing plants in London and, secondly, there is a great deal of merchandising prestige attached

of merchandising prestige attached to the "imported" angle of disks shipped here from abroad.

London recently concluded a deal with the Webster Record Co., Webster, N. Y., under which the indie factory will press London platters here. It was at first opined that eventually Webster would make LP and 78 classics for London. But London now says the factory will press only 78 pops.

Switch back was due to numerous squawks that abnormally high handicaps gave Class B and C players too much of a head-start on A players. In the past three years no A golfer got close to winning.

RCA'S SPECIAL BALLY ON 2D 49c RELEASE

ON 2D 49c RELEASE

RCA-Victor will host a group of 50 or more New York area disk jockeys tomorrow (Thursday) night at its Exhibition Hall, Radio City, to unveil the second release of Blueblrd (49c) sides. Reason for the party is the fact that Victor's artists and repertoire men are trying new things with the label, in the way of artists and songs, and a great deal of promotion emphasis is being placed on the records contained in the second release.

Jocks will have the recordings played for them and the aims explained, and are to be given copies of each disk. Bluebird initial release, on the market a few weeks ago, consisted only of hit songs performed by non-name artists. Victor is re-emphasizing the idea of using Bluebird solely to market established hits at a cheaper price. It wants to build artists and create song hits, hence the special attention to the second release.

N. Y. Roxy Mulls Revised Format, With Bob Crosby as Steady Emcee

Roxy theatre, N. Y., is planning a new stageshow format. It is dickering with Bob Crosby to come in as permanent emcee at a reported salary of \$3,500 week. No deal has been set as yet. Crosby recently played a stand there, and apparently impressed the Roxy toppers to the extent of making him this offer.

offer.

If this deal fails, house execs may decide upon a different format, whereby the Roxy shows would undergo considerable revamping. At vartious times rumors had it that

vartious times rumors had it that ice shows, choral group and or terp line may be eliminated.

Currently bandleader Paul Ash is handling the introes by climbing from pit to the stage. In the past the Roxy attempted to build personalities through long engagements at the house. First to get the treatment in recent years was Bob Hannon. Anoher attempt was made with Archie Robbins, and still a third try with Carl Ravaza. If Crosby deal goes through, it will be the first time idea will be tried with an established name performer.

Crosby is currently in Detroit, Crosby is currently in Detroit, and is due for a vaude stand in Minneapolis and in Omaha later. He'll probably give the Roxy answer following these dates. Singer before going out on the vaude junket was emcee on radio Club 15 show for Campbell soups.

FIRST TWO-A-DAY BILL SET FOR SEATTLE MET

Seattle, Aug. 23.

Booker Joe Daniels has lined up his first two-a-day bill at the Metropolitan theatre, here, to start Aug. 29. Show will have Tony Martin, Rose Marie, Billy Rayes, Craig. Collins and Ames, Hudson and Sharae, Prof. Lamberti. Estelle Sloan and Jackie Souder's band.

Daniels contends that vaudeville can be sold on its own without the aid of films. Initial show is in the nature of a trial and subsequent bills will depend on gross of his show.

Managing

For Havana-Madrid, N. Y.

Havana-Madrid, N. Y., is slated to resume full-scale operations Sept. 9. Miguelito Valdes band and the De Castro Sisters have been pacted to headline the initial layout. Line will also return with that narlay. that parlay.

Spot has been operating with non-name acts, sans line during the summer.

Eight-Act Vauders Nudge Bandshows Out of Most Spots

The Palace policy of eight-acters loom as an effective replacement for the band packages. RKO, with its 13 major houses now playing its 13 major houses now playing vaude, has already indicated that the "show of the month" policy will replace the spot bandshows in cities where previously played. The Adams theatre, Newark, which until last season, was a major band buyer, is starting the straight vaude policy Sept. 15.

vaude policy Sept. 15.

There are several reasons for the switch, first being that band displays have lost their b.o. potency in the majority of situations. Another reason is the comparatively low cost of the eight-acters. The Adams, for example, used to spend from \$7.500 to \$10,000 weekly for orchestral and name talent. With the newer policy average will run half that sum.

Another reason making the new

half that sum.

Another reason making the new type operation desirable is the fact the eight-acters are giving the public set of fresh faces. With the bandshows, two or three acts were used frequently, the same repeated when the orch made another stand in that town. The less-expensive turns rarely could break into that category. It's since been discovered that the lesser acts often have as much entertaining power as the middle-bracketed names that were middle-bracketed names that were

used.

In all situations, the straight vaude shows have been doing good business with the RKO circuit getting the heaviest grosses because of tie-in with the N. Y. Palace. The billing-line "Direct from the N. Y. Palace" is apparently worth plenty b.o. in other sections of the country.

The Eddie Sherman office, which will book the Adams, also plans to convert the Rajah, Reading, into a Palace type showcase. This house opens Sept. 22.

AGVA to Ask 4A's for 25G Loan. **Cues Retrenchment in Operating Nut**

Artists, which is scraping the bottom of its financial barrel, is slated to make a request for a loan from the Associated Actors and Artistes of America, parent union of all performer guilds, at a 4A meet being held today (Wed.). AGVA reps to the 4A's are expected to ask for around \$25,000 for a revolving loan, terms of which are still to be determined and which will be useo

by the vaude and nitery union.

AGVA's decision to request again for financial assistance from the 4A's follows a two-day meeting of the AGVA executive board which wound up yesterday (Tues.). Meetings were called at the behest of Georgie Price, member of the executive committee and candidate for president of the union, who felt (Continued on page 56)

An arrangement between Murphy and the city gives the latter a graduating percentage of the water show's take. New York State has also appropriated coin for the building of a new water stadium at Jones Beach. Scheduled for completion in 1951, the new arena will also be under Murphy's supervision.

Though the amphitheatre uses name personalities, Murphy does not publicize them as drawing cards. His ads are confined strictly to the water shows. Included among the headliners presented so far this season were Henny Youngman, Joe Howard, Buck & Bubbles and the Salici Puppets.

Joe E. Howard Recovers In Time for Ont. Date

Atlantic City, Aug. 23.

Joe E. Howard recovered sufficiently after his collapse at the Steei Pier here, to leave for an engagement at the Elmwood Hotel, Windsor, Ont., which started Mondy (22). The 83 year old singer was unable to perform at the final show at the Bier last Saturday (13) during the record-breaking heat wave. Jean Carroll, also on the bill, substituted. substituted.

Howard's collapse was not due to conditions in the theatre as the Steel Pier is airconditioned and he was not asked to do more than the usual number of shows.

RKO Adds Newark For Spot Bookings

RKO is expanding its "Palace Road Show" policy to include Proctor's theatre, Newark, which tees off Sept. 7, a week prior to the start of eight-act shows at Adams theatre in the same town. It's the Mexico City, Aug. 16.
Breach of contract suit has been fled here for \$50,000 by Harry H. Gould. theatrical agent, against Yolanda Montes Farrington, known as "Tongolele," exotic dancer. She came here as a chorine with "Holiday on Ice" two years ago.
Gould says he inked dancer for two years of dates in the U. S. Cuba and Venezuela on a 20% deal. He figures that her earnings under these contracts would bring him \$50,000. He's suing for the full amount of the anticipated earnings, plus court costs, contending that Miss Farrington's walking out on the deal entiles him to such compensation. Suit was filed by Gould's two Mexican lawyers. Complaint said that she did go to Oakland, Cal., where Gould had booked her, but she didn't play, spending her two weeks there with her mother, then returned to Mexico.

Miss Farrington's lawyers answering said she had to come start of eight-act shows at Adams theatre in the same town. It's the second town where the Palace policy will have the same kind of competition. The Schine house in Syracuse is also using eight-acters along with RKO Keith.

The Newark stop will be part of the "show of the month" plan which RKO has instituted in 13 other towns with a total of 12 weeks playing time. Other stops on the circuit include Boston, Cincinnati, Cieveland, Columbus, Dayton, Syracuse, Rochester, Chicago, Davenport, Ia.; Sioux City, Cedar Rapids, Minneapolis, Kansas City in addition to the Palace, N, Y.

RKO is also planning the third and fourth units, to open late Sep-tember and latter part of October, Talent for both packages are being lined up.

Miss Farrington's lawyers answering said she had to come back here because she owed \$3,000 to the Follies, local vaude-revue theatre, and having no money to iquidate the debt must play it out. She's currently headlining at the Follies. Her lawyers argue that Gould has no case because his lawyers filed the charge against the dancer under a section of the Mexican civil code that applies only to merchants, and that a performer does not come within confines of the law. Gould's lawyers obtained an in-Pitt's Vogue Terrace Pacts Sophie Tucker

PALL QUARTET APPEALS IMMIGRATION SNARL

Washington, Aug. 23.
Appeal has been made by a board of examiners of the Immigration Bureau to permit entry of the Irving Pail quartet into the U. S. from Canada. Jonas T. Silverstone, representing the act, appeared Monday (22) before the examiners asking for a reversal on the ground that the quartet's entry does not violate the Contract Labor Act which forbids importation of musicians.

Silverstone argued that the group works as an act using musical instruments as props only. He declared that when the quartet wasn't permitted entry into this country, they were replaced by several acts at the Latin Casino, Philadelphia, where they were scheduled to work. At no time, he added, were musicians displaced. Silverstone asked the board to admit the group also on the ground that good labor relations between both countries should be continued. It's believed sale of the nitery is prompted because of heavy losses incurred since the death of its owner. Mrs. Jesse Schuyler, executrix of the Carroll holdings and owner of the site on which cafe is located, is expected to agree to the sale. Another reason for the sale is that the estate must retain most of its assets to build a \$1,500,000 cancer hospital on the Coast in ac-

Detroit's Unseasonal Cold Fails to Chill K.C. Boystown Benefit

Detroit, Aug. 23. Hailed as the "biggest all-star show ever held in Detroit"—which show ever held in Detroit"—which it probably was—the Knights of Columbus benefit Friday night (19) for Boysville Foundation of Michigan failed to hit an expected gross of \$100.000 but the net of \$25.000 was plenty o.k. Tommy Dorsey, Janet Blair & Blackburn Twins, Hattie McDaniel, Rose Suzanne der Derian and John Connolly did well because they surmounted two obstacles that have baffled their equals in similar

Connolly did well because they surmounted two obstacles that have baffled their equals in similar circumstances.

The obstacles were: A flood-lighted football stadium a little more than half-filled with customers thoroughly chilled by a 50-degree temperature. The stage, in one of the end-zones, was so far removed from the \$10 box seats that the blanketed occupants without binoculars totally missed the big attraction of personal appearances—visual satisfaction.

Despite all this, the quality of the show was such that the crowd of 18,000 stayed through the three-hour show. Anything less than top-drawer performances would have sent hordes trekking for the gates midway through the evening.

Cantor had the misfortune of coming on last after a long intermission in which the K of C tried to up the gross by selling more programs. But he got the crowd back ino good spirits quickly with insulting remarks about Detroit traffic. His running-jumping-kneeling antics boffed and by the time he was singing "Ida," "Margie" and "Susie," he was in solid.

Emcee Bob Crosby got the show off to a fast start with jokes about brother Bing and kept it rolling nicely. Soprano Rose Suzanne der Derian had the toughest job of all. At the beginning of her first number, an Italian aria, one of the spectators collapsed and considerable commotion resulted before an ambulance rolled onto the field and removed the victims.

U.S. PERFORMER GIVES COPENHAGEN ROUNDUP

Editor, Variety:
As an American performer playing here, I thought you'd like to learn what's happening in local show business.
Copenhagen's cabarets all seem to be doing well and most of them have music, dancing and floorshows as well as good food and liquor to draw. Among those booking acts—and they are glad to get U. S. talent — are Atlantic palace, Belevue Strand hotel, Czarda's, Kobenhavnerkroen, Landevejskroen, Lorry, Montmarte, National Scala, Nimb, Skandia, Valencia and Wivex.
On the circus side, there's the Cirkus Revyen, which means Circus Revue. It's an old-type vaudeville show under canvas with circus atmosphere, and the big features in the Schophery.

Cirkus Revyen, which means Circus Revue. It's an old-type vaude-ville show under canvas with circus atmosphere, and the big feature is 1b Schonberg, Danish singer, actor and film star. Then there's Kramer's variety, of which a real intriguing thing is a "Gay 90s" talker with a swell handlebar mustache, flamboyant costume and flowery description ("artistes from Asia, Africa, New Holland and even America.") Its atmosphere is like Coney Island, featuring fine music and dancing spots, whereas Dyrehavsbakken (Bakken for short), of which Kramer's and Cirkus Revyen are a part, has more of a true carnival air. Bakken is over 350 years old and its setting is a very beautiful forest. It contains the famous Kirsten Piil fountain, said to have "miraculous powers," some 300 years old.

Copenhagen's Tivoli has a new "chief of engagements and publicity." Mrs. Ingelise Bock, whose new plans include erection of a variety theatre with programs in the old tradition, including low prices. The vaude revival is not confined to the U. S. by any means. As a matter of fact, it has never really died in Copenhagen and other cities.

Night Club Reviews

Tatin Quarter, N. Y.

(FOLLOWUP)

The final change of principals before the new Latin Quarter show comes in impresses as being one of the strongest lineups the spot has had in some time. Show is notable inasmuch as it gives Joey Bishop his first Broadway showcasing and marks the return of Sunny Skylar to topline cafes in this sector. Rowena Rollins (New Acts) and the Paysees' ballroomology round out the newcomers.

Paysees' ballroomology round out the newcomers. Bishop, some years ago, made his New York cafe bow at the Greenwich Village Inn, and has since been scoring in cafes throughout the country. Recently he was booked for two weeks and options at the Vine Gardens. Chi-cago and stayed for nine months. He followed almost immediately with a stand at the Chez Paree in that city. His Broadway bow indi-cates that he's arrived stylistically, with a stand at the Chez Paree in that city. His Broadway bow indicates that he's arrived stylistically, projection and material-wise. Material is first rate and informality of his mien adds to the overall effectiveness.

trade. Stories are generally clean and the impressions he tosses off as throwaways are built for ribbing rather than fidelity.

Opening is a bit with house singer Don Saxon, who incidentally is developing into one of the better straights around town. He indicated his flair for comedy earlier this season in a stooge bit with Frances Faye, he worked with Jerry Lester and finally his stint with Bishop indicates that he can aid any comic. Bit with Saxon set Bishop off well and pace continued at a rate good for encores and bows.

set Bishop off well and pace continued at a rate good for encores and bows.

Skylar has improved considerably since his previous time around. He's taken on increased charm and sets himself well with the audience in a migratory mike stint in which he welcomes the ringsiders. Afterward he dishes up a medley of his own tunes and results bring encores. Skylar's is a strong item, both vocally and personality wise. His gab is as ingratiating as his tunes and he walks off a hit.

The Paysees (Jimmy and Beverly) also making their first major Broadway stand, have arrived in the category of standard ballroomers. They are a handsome, personable couple and their routines win applause. Duo work excellently in classic and energetic terps. Three routines bring them a solid mitt.

Rest of the show holds up well, although costumes are showing signs of long usage. The Frenchy motif provides a gay atmosphere.

\$3.50 minimum.

Dusty Brooks headlines new layout here and has new material, which fits neatly into this intime spot. Comic registers with sharp impresh of Al Jolson singing "Mammy" and tops with satires on table-hopping chantooseys for plenty yocks and applause.

Perry Franks and Janyce get over nicely with tapstering. Franks rapid castanet-like solo to "Begin the Beguine" is unusual and pair's terping to "Cheek to Cheek" and "Tea for Two" registers strongly. Lorraine Fortune, lush songstress, uses wrong type of tunes for this room. Standards and semi-classical in full dramatic register seem too robust for the room. Her faster numbers sell better.

Mel Cole orch backs the show neatly and Bancho alternates for rlumba addicts.

here some years, ago at the Five O'Clock, looks and sells better than ever. Always an apt impressionist, his turn is even more sock today, thanks to the nostalgic carbons of Cantor, Jolson, Jessel (a howler), and of Durante. Blending an a laughmaking series of dialect stories to spell the impreshes, plus some Irish songs, he had to beg off.

Joan Brandon and Kenny Davis alternate the emece chores. Miss Brandon, in her own spot, offers slick magico, standouts being the dollar-in-the-lemon bit and drink-mixology. Offed to good reception. Terp slot is well handled by Mara and Quentin. Fresh looking pair of youngsters have imaginative routinings which spot their easy approach to difficult spins and lifts. Blend slow tempos with fast paced Latin-American tunes for boff returns.

Kenny Davis, son of the owners, is a nice looking youngster who broke in this year as an emcessinger. On the vocalistics he needs work in the ballad tempos, but on rhythms shows a flair that can be utilized as highlight of his stint.

Terrace Grill has found something of an attraction in the George Arnold "Rhythm on Ice," and the ice troupe is being held over. For the second session Arnold has come upp with an entirely new show.

Currently the layout shapes up into a smooth 25 minutes, as routining is improved and show is snappily paced throughout. Line, too, which lagged in earlier show, has come around in good shape. Florian Zabach, whose orch holds the stand and also backs the show, handless emceeing in personable fashion.

handles emeeeing in personable fashion.

Line opens show in modern polka number in nifty costumes. Arnold follows with round of twirls to hit tunes from "South Pacific," and Janice Moore solo shows some tricks of the blades to "Just One of those Things," Karen Lane and Phil Richards come through with adagio acrobalte turn to Zabach's "Jalousie." Cubettes set in for waltz ballet in period ballroom gowns.

In the second half Arnold and Richards zip through an acrobatie boogie at top speed for hefty applause. Number is only one held over from first edition, and deservedly so. Ballet solo by Miss Lane follows as a change of pace and also nets a generous hand. Finale brings back Arnold and Miss Lane for a boogie session backed by the line.

Shortened running time of the surprise show tightees routine con-

by the line.

Shortened running time of the current show tightens routine considerably and gives it an edge on previous production. Ice shows apparently are popular with the natives, and is permitting the Grill to beat the usual summer doldrums.

for voluntary use by its members.

As explained in a letter sent to its membership last week by the council, over the signature of Herbert Kubly, secretary, the Guild is considering appealing the court ruling, seeking an amendment to the anti-trust laws to give "creative workers such as writers, composers and artists" the exemptions afforded to other workers, and negotiation of a new basic agreement eliminating the items recently deemed illegal. It's believed the organization will attempt all three moves.

The letter concludes that the re-

The letter concludes that the recent court decision, though a "bitter disappointment, is neither conclusive nor final." It promises that it will comply with the law, but that it "will strongly urge on appeal or in other proceedings, that its main purpose is to protect its members and in particular the unestablished author from unfair dealings."

Unanimous Member Vote Needed for Party Agents' Show Choices

Assn. of Theatre Benefit Agents has ruled that hereafter none of its members may book any show not approved by unanimous vote of the membership. Decisions on show selections will be on the basis of quality, it's stated. That is one of several amendments to the group's constitution adopted at the last meeting.

last meeting.

The other principal change is that theatre parties henceforth be booked only with organizations "serving a public need and a humanitarian or educational cause." A revised code of ethics, by which the membership is to be bound, was also adopted. A list of forthcoming shows for which parties will be sold will be announced shortly.

Chicago company of Arthur Miller's "Death of a Salesman," now in rehearsal with Thomas Mitchell as star in the Willy Loman part, is being directed by Harold Clurman. Latter is taking over for Elia Kazan, who staged the Broadway and London productions, but preferred not to repeat the stint. That's usual policy for him, since he withdrew as stager of the second company of "Streetear Named Desire" after putting on the original.

Clurman will get a small royalty for the assignment. The coin will be an additional cost for the show, since Kazan will reportedly receive 2½% of the gross and 15% of the profits from this didlion, just as he is from the New York and West End versions. Under usual deals the director also handles subsequent companies, from which he draws royaltics.

Although Kanin has been waiving his 10% author and 3% director royalities for some time, he's apparently gambling on an upturn of business in the fall more than paying off his losses during the summer. They promptly took their case to court, insisting that the right of the city to seize private poroperty for such a purpose was illegal. It was further claimed that the quiet of a residential neighborhood would be destroyed by such a project. Latter's limited capacity makes it practically impos-sible to clear a profit there, so a large house is sought outside the Times Square area, where full union scales apply. Chief problem facing New Stages for the coming season is financing. Group's treasury was depleted by its failures last season and an attempt may be made to get outside backing this semester. In addition, New Stages hopes to expand its subscription' setup and thus acquire a steady production

Although New Stages has several plays on hand for possible presentation this season, nothing is set, and the group would like to find a suitable new script.

receive another \$50,000 return on their investment early in September, bringing the total payoff to \$400,000 so far on their \$100,000 investment. Additional earnings of more than \$50,000 are represented in cash reserve and union bonds.

Besides regaining the \$100,000 cost of the original production, at the Aivin, N. Y., the Thomas Heg-gen-Joshua Logan comedy-drama has gotten back the \$60,000 outlay for the second company, Latter was financed with profits from the Broadway edition. The original, which bounced back to virtual capacity last week at the Alvin, is pacity last week at the Alvin, is apparently good for at least the balance of the 1949-50 season there. The second company, which winds up a 54-week run Sept. 17 at the Erlanger, Chicago, will then tour.

The idea of producer Leland Hayward some time ago was to do the film version of the play himself, probably in the east. However, noth-ing has been heard of that lately, so plans may have been changed. That may be known when Hayward returns Sept. 6 from his European honeymoon-vacation. There may also be word then about a possible London production.

Wildberg Closes Deal With Jack Hylton For London Melville Show

London Melville Show

London, Aug. 23.

John Wildberg has closed deal with Jack Hylton, who staged his Broadway hit, "Anna Lucasta," at His Majesty's theatre lest year, to produce a new show in London based on Herman Melville's book, titled "Billy Budd." Show has an English sea yarn background, and will have an all-male cast of 19.

Norris Houghton is coming from America to stage, with rehearsals to start around Sept. 15. and opening, probably at Piccadilly theatre, sometime in October.

Wildberg's other s'how is comedy by E. P. Conkle titled "Keep Your Head," with local show producer Charles Hickman to direct. Mocal has as yet been culminated, but it's likely to be in conjunction with Hylton or Linnit & Dunfee, As soon as shows are produced in England, they will be produced in England, with Wildberg taking Hickman to stage latter show there. Hylton's "Ann Veronica." at Piccadilly, which after a slow start has built into a hit, is l'kely to be acquired by Wildberg, who intends to turn it into a big musical, and is already dickering with localite Freddie Bretherton to write the music.

London 'Story' Awaits Theatre Availability

Theatre Availability

The Jack Buchanan London production of "Detective Story" will be offered this November or March of next year. Date depends on the availability of the Prince of Wales or another theatre of similar standing. Sidney Kingsley will repeat his directorial chore for the West End production as well as supervising the Chicago company. The Windy City production is scheduled to go into rehearsal Sept. 7 or 15, but to date no star has been found for the leading role. Roles for the London presentation have not yet been cast.

Buchanan arrived in New York Thursday (18) from London for a one-day tete-p-tete with Kingsley, leaving for home [the next day aboard the Queen Elizabeth, the same boat that brought him here. Buchanan is scheduled to open in Liverpool Sept. 12 in Alan Melville's "Castle in the Air." Show is set for a six-week tour of the provinces before consting in London.

This is a fair point and I don't blame Harmon for making it, but here is the other side of the problem:

We closed Saturday (20) after our ninth week because we are unable to book any stars or attractions that we feel are strong enough to complete the heat in a tions that we feel are strong enough to combat the heat in a non air-conditioned theatre. Legit Follow-Up

Anne of a Thousand Days (SHUBERT, N. Y.)

Maxwell Anderson's trenchant drama of Henry VIII and Anne Boleyn was back on Broadway Monday (22) after an eight-week summer hiatus, its rich humors and vivid poetry undimmed by the recess. This tortured tale of two strong-willed creatures is still a striking piece of playwriting, its appeal as fresh as when it opened. The dialog sparkles with crisp bite when it doesn't soothe with gentle poetry, and paired by two superlative performances from the play's leading characters, makes a rich evening in the theatre.

Rex Harrison's swaggering, lusty

evening in the theatre.

Rex Harrison's swaggering, lusty portrayal of the vain, shrewd Henry is matched by Joyce Redman's fiery performance of the impetuous, hard-willed Anne. Most of the supporting cast is the same, each giving a sure account. Charles Francis, as Boleyn; Allan Stevenson, as Henry Norris; John Williams as Norfolk; Robert Duke as Percy; Viola Keats as Elizabeth Boleyn; Russell Gaige as Sir Thomas More; Wendell K. Phillips as Thomas Cromwell, and Harry Irvine as Bishop Fisher, fill supporting roles especially well.

especially well.

Of the replacements, Frederic Worlock is an excellent Cardinal Wolsey in the place of Percy Waram, with his playing a trifle broader and more blunt, but no less effective. Janet Ward, a new Mary Boleyn, replacing Louise Platt, is soft and warm, while Margaret Garland, as Jane Seymour, formerly played by Monica Lang, is brightly brittle and fetching. "Anne" is still one of the Stem's brightler charms.

Inside Stuff—Legit

Contradicting what St. Paul considers a libel on its fair name—that it's "not a good show town"—Paul Light, St. Paul Pioneer Press columnist, called attention to the response to the ATS-Theatre Guild annual subscription season. Light wrote that Ed Furni, manager of the municipal auditorium, housing the roadshows, gave him figures "to refute" the "poor show town" charge. Furni revealed to Light that St. Paul has averaged more subscriptions per capita during recent years than any of the 21 cities having the ATS subscription seasons. Furni also pointed out to Light that 95% of the 21 cities are larger than St. Paul.

St. Paul.

In this connection, the St. Paul ATS subscribers have considerably outnumbered those of Minneapolls, but the attractions always chalk up substantially larger grosses in the latter city than in St. Paul. Of course, however, Minneapolis has much the larger population.

Phrasing of the announcement that due to the illness of the star, Lee J. Cobb, his part would be played by the understudy, Robert Simon, brought the refund of \$490 in admissions at last Wednesday's (17) matinee of "Death of a Salesman," at the Morosco, N. Y. Instead of merely announcing the replacement, the management specifically mentioned that anyone desiring refunds or exchange of tickets for later date could get them. At that and the following night's performances, when only the cast change, not the refund or exchange offer, was mentioned, the few refunds were immediately picked up by prospective patrons waiting in the lobby for that purpose.

"Lost In the Stars," the new title for "Cry the Beloved Country," the forthcoming Maxwell Anderson and Kurt Weill musical play, is taken from a song written by the team about four years ago. According to Weill, the new label fits in perfectly with the story line of the original Alan Paton novel, from which the play has been adapted. The tune will also be featured in the show. Copyrighted by Crawford Music Publishers in 1946, the number was recorded for Decca Records by Walter Huston as the flipover for his rendition of "September Song" from "Knickerbocker Holiday."

Pleasant strawhat dalliance but thin for Broadway is William McCleery's new play, which carries on the tale first developed in his "Parlor Story" of two seasons ago. Without Helen Hayes, who seems subdued by the role after her cavorting in "Happy Birthday," there would be little drawing power here. Even the star's own moments of animation are few.

It's an American success story. The first play dealt with rise of an intellectual to the heights of college presidency. Here the prexy climbs another step towards the governorship of the state through his wife's push, and all to the dismay of the wily politicians. Walter Abel was the former president; Kent Smith, carrying on, turns in a forthright job as the would-be governor. Mary MaeArthur, again appearing with her ma, Miss Hayes in the strawhat circuits, is more decorative than important, the role making virtually no demands on her.

Jack Manning, as the newspaper-

making virtually no demands on her.

Jack Manning, as the newspaperman who steers the unwitting scholar toward what appears to be a victory over the state's boss, adds a much-needed brightness to a generally dull affair. Eugene Fitsch's setting is excellent, and Donald Richardson's direction emphasizes Miss Hayes' personality.

The play needs plenty of work if anything but a silo solo is planned. Brighter lines, less sophomoric humor, fewer corny antics and more real action would help.

An occasionally funny but hone-

sudden realization by all concerned that they've been silly, brings the curtain down on a happy family. Despite the wryly humorous lines and the characterization given to George, the play never adds up, one fundamental Georgian monolog after another leading into a narrative boobytrap. In all this, only Elliott Nugent comes out on top. He makes every line and every piece of business score heavily, turning George into one of the more telling characters to appear in some time. The explanation of why George paved his farm is a gem to begin with, and Nugent makes it memorable. The others in the east, competent enough, are too makes it memorable. The others in the east, competent enough, are too sketchily drawn by the authors to register, but Lee Nugent gives her father a nice assist as the secretary, and there are okay performances by Doris Dalton, Richard Derr, Alexander Clark and Robert Ober. It was nicely produced by the South Shore Playhouse, and Nugent, as director, got as much out of it as anybody could. Elie.

Violet Marian Ellerbe Church Woodruff S. in Rice Benny John Hummelheber A theatrical hunch took shape and rocketed an old and scarcely remembered farce, an able but unsung juvenile, and a briskly competent but little known cast, into the season's sleeper at Olney theatre past week.

With the barn outfit solidly In the black, producers Richard Skinner and Evelyn Freyman felt they could afford to gamble on the local success of Dean Harens, resident juvenile, who had practically obscured the bobbysox appeal of screen star Guy Madison with his bell-ringing support in "John Loves Mary." Anyhow, the nut would be so small that the financial risk was almost nil—so John Kirkpatrick's "School for Charm." a mild success on Broadway circa 1925, was resurrected, retilled, and moved back into the first decade of the 20th century. Critical and audience reaction rocked the wooden rafters of the country theatre all week, with repercussions that may result in moving the whole thing, cast, story, et al., to Broadway next fall. Original Broadway Rachel Crothers' production starred Elizabeth Patterson in the mother's role. With Harens in mind, the role of Joe, hero of the story, is built up. Either one is a comic plum from which Harens, as a small town sodal jerker, and Paula Trueman, as the mother of his girl, gets the last bit simplest and most innocent, and at times, corniest, but never have audiences howled with such unrepressed bellylaughs in the successful history of this strawhatter. Its very lack of pretension and depth lends it charm and whimsy, and makes it the rollicking fun it turns out to be.

An occasionally funny but honelessly undisciplined affair. "The Fundamental George" doesn't stand a chance in its present format. Pounded into shape, however, it could contend on Broadway and make a neat film, too.

The authors go wrong in having neglected to create any characters save George himself and any situations worth putting him in. Even those they do devise for him poor out one after the other, leaving but a residue of droll monologs. But George himself is a bright inspiration. A soap opera writer, he lives on a Connecticut farm which, in a majestic gesture of defiance to nature, he has paved over with 18 acres of ecment.

His wife, from whom George has been growing farther and farther away, interprets this as a significant with the ends at humbers of the country theatre all week, with repercussions that may result in repercussions that may result in the processor that may result in the mother's role. Play Out of Town

The Quick and the Dead

Philadelphia, Aug. 19.

Hedgerow Theatre production of drama in three acts by Gerald Savory Directed by Catherine Rieser; setting, Michael de Beausset: costumes, Shelley Forman. At Hedgerow theatre. Moylan-Rose Valley, Pa. Aug. 19. 40, 82.30 top.

For its 165th production, the Hedgerow Theatre has chosen a play apart from its usual scheme of things, and does it very well indeed. Gerald Savory's "The Quick and the Dead," while a thoughtful and intelligent exploration of a postwar theme, has none of the propaganda, none of the revolutionary under-current, none of the striving "ultra" novelty so often found in little theatre presentations. It is quite conventionalized in mold and, perhaps for that reason, has more claim to attention as a commercial possibility.

Savory follows in the recent trend of father-and-son themes ("All My Sons," "Death of a Salesman" and "Edward, My Son") and thas worked out a gripping and generally dramatic variation. Scene is an ordinary English household, one of whose sons was killed in the war and another totally blinded. The father, a small factory owner, has always idolized the slain boy and bears what is almost resentment against the sightless lad on his return.

It develops that the dead boy, far from having been the hero on the battlefield his father believed, had been a coward, and it later develops that, in private life before the war, he had been a long way from the perfect specimen and paragon his well-meaning father thought him. The dead boy's widow, who knew his cruel and junpleasant streak, was the first to learn that the story of his heroism was a complete hoax, concocted by the blind brother and two of his biuddies. The mother, also half-comprehending from the start, is the next to find the truth, but the father, fanatical in his worship of his elder son, will not accept the real facts until they are forced on him. The blow almost kills him and even then it appears for a while that there is no chance of a complete reconciliation between himself and the blind lad. After intercessions by mother, young widow and buddies, the breach between father and son is finally healed in a singularly beautiful if slow-paced scene.

When Broadway turns a completely cold shoulder on J. B. Priestley's "The Linden Tree," another play dealing with postwar problems of an English family, it is questionable whether Savory's play, also leisurely in its pace, will make the grade. But it certainly does have legitimate drama, deep sympathy, a literate understanding of human nature and nice touches of more or less new names. Michael de Beausset shines as Captain and son is finally healed in a singularly sepaling and believable as the blind boy, and Gretchen Anton-Smith and Wesley Huss do well as the prents, the

Huss do well as the parents, the latter's role being perhaps the toughest to put across. Miss Rieser's direction is imaginative and intelligent. Waters.

Attendance on Broadway last week began the long climb back from the summer low. Soarked by cool weather and possibly some tourist trade, there was lively boxoffice activity at all shows. Business started fast this week and, unless a heat wave brings a temporary setback, the uprend may continue through Labor Day, when the traditional fall spurt begins.

Receipts were decidedly better from the start of last week, and zoomed to virtual sellont proportions at the midweck matinee and held the pace through the remaining performances. Strawhat Reviews

Into motion.

There's a second-act party, a la the Charm book, a combination of a studio party and a "soiree" that's so screamingly funny it borders on satire, except that it's played absolutely straight. Party fizzles when Joe's acquired savoir faire gets the better of him and he shocks the town by turning into a wolf before its startled eyes. In the end, Joe's charm spreads to the entire femme population and almost enmeshes him in his own net, but he gets his girl and all is well.

him in his own net, but he gets his girl and all is well.

Accent of the farce is on characters rather than plot, and the three acts are rife with these. Meatiest of all is that of Mrs. Harper, Ida May's blunt and distraught mother. Paula Trueman, the original Essie in "You Can't Take It With You," plays this for all it's worth, milking the sometimes worn lines dry. Philippa Bevans, as the scatterbrained Mrs. Wilson; Miss Dayton, Donald Foster, as the father, and William H. Putch, the book salesman, all rate kudos. Latter role, incidentally, was the one in the original version which helped launch Lee Tracy.

S. Syrjala, who has been hitting a weekly jackpot here with his sets, clicks again with a pair of them, one, of a turn-of-the-century smalltown sitting room, the other a 1910 abothlecary's shon. Harry Ellethe's

Western Wind

Westport, Conn., Aug. 20. Westport Country Playhouse production of comedy by Charlotte Francis, Stars Cornel Wilde. Directed by Martin Manu-lis. s. abriel John Baragray ermione Patricla Knight nthony Cornel Wilde

Here is a skimpy paraphrase of "The Voice of the Turtle," artlessly contrived, sketchily written, but given a certain vitality by the gusty playing of Cornel Wilde in the central role. The yawns of the hardbitten Westport first-nighters didn't mean a thing, however, and there was only standing room by the end of the week here.

The martial readjustments of re-

The marital readjustments of returning soldiers served the theat well for awhile, beginning with good drama, "Soldier's Wife," an good drama, "Soldier's Wife," and concluding with a better comedy, "John Loves Mary," "Western Wind" proves almost for certain that the cycle ended there.

that the cycle ended there.

Charlotte Francis, a London actress, authored "Western Wind," and it is her antic idea that war brides should be wooed all over again by their returning mates to refresh their mutual memories. Anthony, her hero, had met and married the pretty Hermione on short notice and hadn't been back home for five years.

Hermione had been living han-

home for five years.

Hermione had been living happily with a handy newspaperman for the last two of these, and Anthony, returning from the wars, knew that he must be a misty figure in his wife's cyes. He sets out therefore to court her all over again and recrults the services of the surprised newsman to hclp him.

Wilde whips through the play as if it had been written by a Dumas and performs with a relish asked but not always found in a lively, expensive film star on a summer out-ing. He is handsome, forthright and suitably beguiling.

Not so much can be said for Mrs.
Wilde, who is the Patricia Knight
of the playbill. She is very pretty
but scems to spend most of the
time dwelling on the lines. John

Longhair poet Conrad Aiken has come up with a play that is being hotly discussed up and down Cape Cod, but judging by the situation at the moment it'll not be hotly discussed anywhere else. Broadway, for instance.

way, for instance.

Arcularis, a tormented fellow played with subtlety by James Andrews, writhes on an operating table at the start. Then he appears on shipboard, with nurses and doctors cast again as tourists and ship's officers. A girl tries to convince him that the future is bright, that his soul, tormented by the memory of the drowning of his mother and her lover in his youth, will be redeemed. Arcularis dies back on the operating table again, but Aiken comes up with a new twist every other performance and appears to be as mystified by the whole thing as the audience.

whole thing as the audience.

This opus, with some very poetic lines and a haunting sort of suspense, loses much when the redemption theme is lost in death. It's based on an old short story by the author, resurrected in London and staged by Diana Hamilton. Aiken has been reworking it for years.

Robert Carlson, as a doctor and minister, Joseph Lazarovici, as the ship's skipper, and George Roy Hill, as a suspicious fellow passenger, turn in excellent bits. But it's all a little too mystical to make contact with the average audience, and its future seems equally mystical

St. Michael's Playhouse premiere of the \$3,000 Christopher award play is the third new play to be staged here in three season's, and while the play has a terrific impact, it could do with some judicious editing.

Play concerns the night of a proposed lynching and a southern sheriff who has to decide whether or not to protect his Negro prisoners. It's just a little too pat that the alleged rapist is the son of an other prisoner who was taken 25 the alleged rapist is the son of an-other prisoner who was taken 25 years before from the same jall when the sherriff's father was sheriff. Fred Graves makes quite believable the conflict within the sheriff. His attractive wife, played by Margaret Magennis, and appeal of his mother (Adele Thane) add further cross-currents. Only relief from mounting tension is role of Tom Beaumont. John Garth III walks off with honors as Negro jail inmate.

off with honors as Negro jail inmate.

Van Prince, who returned to native Burlington to take the role of the educated Negro who came back to help his people, turns in workmanlike job. Some of author Oberg's best writing is in scene where Prince reproaches Garth for not doing something for his people, and Garth accuses Prince of stirring up trouble. Arthur Edwards has a choice role as the smalltown editor who first tips sherif off to lynch plot. Matt Horner and John Buell are excellent as hard bitten deputles who think a lynching would be "fun." Leon Michel has a good bet in "Pink String and Scaling Wax," a Roland Pertwee drama that ran two years in London. Michel gave the piece its first American production at his Connecticut strawhat, and hopes to take it to Broadway with Leo Carroll in the pivot role. Tightened up, with some of the incidents telescoped to shorten an overlong first act, the play should do well.

should do well.

A few light moments and a slender love story give it a nice balance, but basically it's a tense drama of three days in the life of a 19th century middleclass British family whose lives are changed by brief contact with the town trolop. A martinet father's illusions that he knows what is best for his wife and children are shattered when he learns that his son may be involved in the murder of the interloper's husband.

This is a powerful part, and needs a more adroit touch than Harold Webster could give it. The pretty and able Mary Alice Moore is a good choice for Emily, the oldest daughter: Patricia Quinn Moore is delightful as the mother, and Virginia Vincent excellent as the Cockney tart. And a voungster named Rosamund Riddle, who played the youngest sister, is a comer. A few light moments and a slender love story give it a nice balance, but basically it's a tense

As an alternate attraction, "Icecapades" has not only provided satisfactory business for the local arenas, but has piled up substantial profits for the producing syndicate. The click of "Icecapades."

The click of "Icecapades." in fact, has suggested to local theatremen the possibility of adapting ice shows and other not-strictly-legit productions for booking in stage houses. Shuberts Used to Do It
That sort of operation is more or less what the Shuberts used to do years ago, in order to supply product for their numerous out-of-town theatres. Even if the shows didn't make money themselves, they kept the circuit theatres lighted and thus paid the overhead and realized an overall profit. That the Shuberts haven't forgotten the principle is shown by their recent principle is shown by their recent acquisition on a sharing basis of Margo Jones' production of Tenessee Williams' "Summer and Smoke" for a tour of UBO theatres.

Although some of the local managements that might join in a cooperative producing-booking setup are affiliated with UBO, that pre-sumably wouldn't be a serious comsumably wouldn't be a serious complication. There would probably be occasional booking conflicts, it's conceded, but UBO can no longer supply continuous attractions for most road theatres, so it would have difficulty preventing them from producing or booking their own shows.

Principal local managers who Principal local managers who would be expected to participate in a cooperative organization are Milton Kranz, of the Hanna, Cleveland; James Nederlander, Lyceum, Minneapolis; Robert Boda, of Hattman, Columbus, O.; Paul Beisman, American, St. Louis; David Nederlander, Lafayette, Detroit; James Nixon, Musle Hall, Kansas City; Gdward Kranner Mayubad, Balti-Edward Kramer, Maryland, Balti-more, and several theatreowners on the Coast and in the northwest. Such a setup would probably ex-tend its activities into the split-week and one-night field after a season or two.

From present indications, the number of touring shows this fall may reach a new low. Broadway entries from last season will possibly include "Anne of the Thousand Days," "Death of a Salesman" (second company), "Detective Story" (second company), "Goodbye My Fancy", "Madwonan of Story" (second company), "Good-bye, My Fancy," "Madwoman of Chaillot," "Streetcar Named De-Chaillot," "Streetcar Named De-sire" (original production), besides the already-touring "Brigadon," "Kiss Me, Kate" (second company), "High Button Shoes," "Streetcar" (second company), "Mister Rob-erts" and the about-to-resume "Oklahoma!" and "Finian's Rain-bow."

For such tryout stands as Boston. Philadelphia and New Haven, there will be various pre-Broadway tuneup bookings, but it appears that the number of these, too, may drop below last season's sorry total.

Blanshard Book Rides Tide

Blanshard Book Rides Tide
Sales of Paul Blanshard's book,
"American Freedom and Catholic
Power." have risen considerably
since the controversy between Mrs.
Eleanor Roosevelt and Cardinal
Spellman over Federal aid to parochial schools. Since its publication
by Beacon Press April 14, book had
been selling at the rate of 1,000
copies per week. After the school
aid argument broke out, it jumped
to 2,500 and has stayed at that
figure for the past three weeks.
Book has had a surprisingly large
total sale of 26,000 to date.
Before the controversy, the book
made the N. Y. Times best-seller
list only once but fell off the bottom in consequent listings. In recent weeks, it has placed ninth in
the Times and 16th in the Herald
Tribune and Publishers Weekly
has made it a candidate for a bestseller. The Blanshard tract stirred
up a big dispute on its own as a
result of its attack against the
Church's alleged interference in
non-religious spheres.

Protestant Weekly

Plans going forward for publication of a national weekly representing Protestantism, according to Dr. Homer R. Gettle, Fort Wayne, who with David Hogg, has been publishing The Protestant Voice in that city since 1941. Plans for the new publication, to be known as The Protestant World, to purchase The Protestant Voice are unchanged, although the transaction is awaiting completion of a survey of Canada by Dr. J. W. Montgomery, former Fort Wayne pastor, and a group representing practically all Protestant denominations in Canada. The Canadian survey, about half completed, has shown that Canadian church leaders favor the idea of the publication. From Canada, officials expect to get about 20 corporate board

members as well as writers and workers for the Canadian section.

workers for the Canadian section.

It is believed the equipment and offices of the new paper will be transferred to New York and that publication will begin early in 1950. Officials of the publishing firm say that the goal of the publication will be "to bring about throughout the world a sense of community among all Protestants."

They would like to have a rep of the Society of Motion Pic-ture Producers go with them and an invitation to that organization may well be given in order that the charge cannot be made by SIMPP later that MPAA alone does not speak for the industry.

SIMPP In a Spot?

There is fear, however, that SIMPP prez Ellis Arnall and other officials have got so far out on a limb in insisting that the State limb in insisting that the State Dept, carry the fight for the industry that as a matter of fact it will not be able to send a rep to the London conclave. SIMPP has consistently taken the attitude that any negotiations with foreign governments should be on a governmental level in this country, too. MPAA thinking is that, now that payoff day is at hand for quick improvement in the situation, SIMPP may have talked itself out of being able to participate. able to participate.

In one respect, Arnall and the MPAA are in complete agreement. That is that time is working on the American side and that the British industry is breaking down of its own weight. SCULLY'S SCRAPBOOK

By Frank Scully

Camarillo, Cal., Aug. 20.

Psychiatric symptoms have fanned out in so many directions that not even Patton's old Third Army could have contained them in two columns. Under the circumstances it is hardly possible to squeeze the splits of the word "personality" in the space allotted to this research project.

Thus for the first time the words "to be continued" will rear their teasing heads in Variety. Habitually suspicious characters, who make up the bulk of our readers, will simply have to believe that in Psychiatry the letter "P" bulges like Babe Hardy and simply will not be contained within the limits of an aisle seat.

Even remakes of old gangster pictures are beginning to drip with complexes, as witness the Oedipus migraine headaches suffered by Jimmy Cagney in "White Heat," which only Margaret Wycherly's maternal hands and a Freudian analgesique could ease. This comes under Parergastic Reactions which you will find under P.

Pabulum: Food, particularly baby food. Old stars who eat it in the belief they can even play Baby Snooks on television and be mis-taken for authentic moppets.

chometer: An instrument for measuring the thickness of a body. Used also to check I.Q. of migrants who make the rounds of give-away radio programs and claim to be housewives.

Pachymenic: Having a thick skin. An abnormality in civilized areas but considered an occupational asset in Hollywood. If accompanied by pachmeninx (thick ears) the character may be beyond insult and hence never realize his predicament.

Paidology: Branch of medicine dealing with childhood. So-called because it pays better than the others, now that every child has to be treated by a psychiatrist instead of being spanked for his tres-

Palinphrasia: Repetition of words in otherwise coherent sentences.
Aggravated by radio comedians who feel forced to repeat each other's key words for the benefit of sponsors who are only half-listening and aren't too bright when out of their field anyway.

Pandiculation: Automatic movement of limbs which occurs when patient yawns or is tickled. In Hollywood ticklers are attached to machines to keep projectionists themselves awake during owl showings of "Arch of Triumph."

Panophobia: A free-floating morbid dread of what may happen. Epidemic in Hollywood at option time. In the layoff syndrome.

Paradoxical Flexor Reflex: A deep firm pressure felt on the calf of the leg. If the character cliecking on the reflex is named Babinski it's in the interest of science. Otherwise the guy is out for no good. Paragraphia: Writing wrong words due to a partial lesion of sight. If uncorrectable you're a Gertrude Stein on the Metro payroll.

Paralexia: Disturbance of ability to comprehend printed words and sentences. What producers get from hiring writers who have para-

graphia.

Paralexia: Disturbance of ability to comprehend printed words and sentences. What producers get from hiring writers who have paragraphia.

Paralysis Agitans: Parkinson disease. A progressive disease of middle years marked by tremors, stooping posture, deliberate speech and mask-like countenance. What Alan Ladd will look like in 10 years if he doesn't change his act.

Paramimia: The misuse of signs in expressing thoughts. Actors who see the word "Up" near an elevator and immediately blow up in their lines. Actresses who see a traffic sign reading "Slow Children" and speed up their cars, lest they be deluged by half-wits seeking autographs.

Paramesia: Inability to distinguish real experiences from imagined ones. Common to actors who believe the action in their livelier scripts is autobiographical. The term also applies to those who use words without meaning.

Paranoia: One of the most common psychoses, characterized by delusions in which pride and hate are continually grabbing the controls.

Paraphasia: Stekel's term for psychoneurotics who emote all over the place. In the late Corse Payton syndrome.

Paraphasia: Form of apliasia in which words can be spoken but are mispronounced, misspelled or misused. In the Parsons syndrome.

Paraphenia: Kraeplin's term for a small group who are crazy but don't show it. They have paranoid dementia praecox but no behavior show it. They have paranoid dementia praecox but no behavior and the sa slips of tongue or pen, misspelling names, forgetting to carry out intentions. In the You-Know-Whom syndrome.

Paraphymia: Any psychosis in which uncontrolled emotions are dominant. Actors addicted to fighting in niteries; actresses who think that by letting themselves go, day or night, th

hallucinations occur, you have a scriptwriter fast heading for radio and horror serials.

Patella Reflex: The knee jerk. Jerks who fix attention exclusively on knees and must be placed under restraint until short skirts return.

Pathergaslas: Malfunctions or structural limitations which stand in the way of the individual's capacity for self-adjustment. Reason why Mickey Rooney picks out tall girls to pick on.

Pellagran Delusion: Hallucination of producers who have been told they have pellagra pictures, due to a deficiency of certain vitamins in the diet of their cast, and believe the pictures can be saved by being spray-gunned with ground rice shells.

Pension Neurosis: In Hollywood pension neurosis refers to executives who have outlived their usefulness but are hanging on till they get their pensions.

reformance Test: An intelligence test limited to actions. Subject is first required to fit irregular shaped blocks to form a rectangle and then ordered to put his arms around a femme's waist and not get them too high or too low as long as the eameras are turning.

Persecution Complex: While this often is an authentic condition and frequently inflicted on innocent people by some madman, it is just as frequently a delusion. especially in Hollywood where there are 10 equally competent persons competing for every job.

Pfropfschlzophrenia: This is a word used as a sobriety test which literally means "engrafted schizophrenia." That is to say, the splitting of a personality which was mentally defective to begin with. Tarzan not being able to make up what passes for his mind when confronted with a choice between an ape and a moron.

Phlegmatle: Apathetic, cool, sluggish and stolid. Never excited. In the front-office syndrome.

because it deals with a Negro associating with white soldiers. According to Binford, "it's a military picture and that could happen."

Atlanta ban was reported Friday (19) by Christine Smith, member of the censor board in that city, who said she was against the film who said she was against the mifor no particular reason." De Rochemont and Film Classics, which is releasing the picture, immediately appealed the action to the board of trustees of the Atlanta Public Library, which can overrule the censor. Spokesman for the the censor. Spokesman for the board said that a final decision is unlikely for 10 days or two weeks.

Board spokesman Aubrey Milam explained that only three of seven members had seen the picture and that, because the film involved "such a controversial subject," it was felt all members should have an opportunity to see it. Milam emphasized it would be false to as-sume the film had been finally banned until the board made a de-

Both Binford and the Atlanta board expressed doubt whether they would have any jurisdiction board expressed doubt whether they would have any jurisdiction over the film if it appeared on TV. In refusing to sell time to de Rochemont, Henry Slavick, general manager of WMCT, Memphis video outlet, declared: "We have no contoversy with the Memphis censor board and they have none with us. I'm not sure I like the idea of having someone use us to fight his battles. De Rochemont's fight is with the censor board. Why should we be agitated about it?"

Producer, meanwhile, hopes to

Producer, meanwhile, hopes to get a quick court settlement of the ban since the film has been booked ban since the nim has been booked into several other southern cities. He has offered to furnish counsel to any exhibitor who wishes to fight any censor action, offering to provide the services of Judge Samuel L. Rosenman on the cuff.

VARIETY learned that "Boundaries" may play the Crittenden theatre in West Memphis, Ark., which is only 10 miles from downtown Memphis.

As for Binford's okay on "Brave," it is believed he resented "Brave," it is believed he resented the enthuslasm with which "Brave" was greeted in the southern city. Not only was there very liberal patronage at the b.o., but there was no trouble in the way of pickets, fights or anything else. If Binford had expected to demonstrate by his okay on "Brave" that showing of racial pix below the Mason & Dixon line was impractical, he failed. "Brave" impractical, he failed. "Brave" has also done well in other southern cities. "Boundaries" is just about to start cracking the territory.

Binford's action in okaying "Brave" in the first place was a surprise since he had gone so far as to previously ban an "Our Gang" surprise as to previously ban an comedy because it showed white and colored children playing together. A test case on this ban, brought by United Artists and the Motion Picture Assn. of America, is now pending in the Tennessee court. It had been the approval of thought that Binford's approval of 'Brave' was to knock the props out from under this suit and thus prevent a test of his authority that might carry all the way to the U.S. Supreme Court. "Boundary" nix, however, would appear to eliminate that theory.

H'WOOD'S 'FIGHT BACK' D Color Video May Be Final Clincher To | INDUSTRY UNITES With Legit Financing So Scarce,

Bring Film, TV Industries Together

Color television, which this week looms closer to commercial reality, may be the motivating factor in finally cementing the tie between the TV and film industries. Since very few, If any, video broadcasters have had any experience with color, it is believed they will be forced to turn to film technicians to get them started on the tinted road.

That belief, already being aired by spokesmen for both industries, is based, of course, on the assumption that the Federal Communications Commission will greenlight color TV in some form at the hearings scheduled to open in Washington, Sept. 26. Disclosure by RCA last week of a new allelectronic system which can be linked directly with present broadcast standards, coupled with CBS request that the FCC detail the information it wants on its system, presages an early FCC goahead for some form of color video.

Link between the two industries

STREETCAR' PACKAGE?

Bette Davis, as her first role since breaking her 18-year association with Warner Bros., may play the lead for Paramount in a filmization of Tennessee Williams' hit legiter. "A Streetcar Named Desire." Unusual package deai with William Wyler as director has been set up and was awaiting the return from abroad yesterday (Tuesday) of Par prexy Barney Balaban for final okay.

Pulitzer prizewinning play has had such a high price tag hung on it that studios have shied away from it. It was offered for bidding last winter at a starting price of around \$450,000 plus a percentage. It is in the complicated package arrangement with star and director at \$150.000 plus a percentage. Play is now in its 91st week on Broadway.

Wyler is included in deal despite the fact that he is under contract to Par. He'd be borrowed by the "package" and loaned back to the studio as part of it.

Verbal brickbats with which Hollywood has been habitually slugged for years will no longer go unanswered, it appeared virtually certain here today (Tuesday). For the first time in film history, those who malign and discredit the industry, whether for fun or for profit, can be sure of having the lie tossed back in their face—and of getting, additionally, a positive slant on the virtues of the Industry. Competitive Heat Off, Agents Have It Tough Booking Fla. Names

Booking Fla. Names

New York taient agencies have little hope that the Florida cafe season will provide the booking bonanzas of former years. Up to this time, not a single major name has been bought for a Miami Beach spot. Last season at this time, most of the top talent were already pacted.

Reason for the failure to sell the top performers in Florida is the absence of a major competitive situation, such as existed last season, when the Beachcomber and Copa City were dueling each other for draws. Fate of Copa City still to be determined. Operator Murray Weinger is currently in a Massachusetts hospital and may not be able to raise sufficient coin needed to open the debt-ridden cafe. Thus Ned Schuyler's Beachcomber, across the street from Copa City, may be the sole major cafe in that area. Another factor contributing to the buying decline is Schuyler's recent takeover of the Five O'Ciock club from Sam (Continued on page 63)

British Story Supply As Cold as Frozen Pounds

Cold as Frozen Pounds

Hollywood. Aug. 30.

Despite the fact that they can be bought with frozen pounds, Hollywood studios have found virtually nothing that interested them among British plays and books. Story editors for the major companies declare that English writers are turning out just as little in the way of acceptable screen material as has been published in this country since the war.

It was expected that there would be a large increase in the quantity of British material acquired by the studios as a result of the Anglo-American Film Agreement of March, 1948. That specifically listed the purchase of story properties as one of the methods by which the cold storage steriing could be thawed. Story eds, as a result, have been culling the field, but have come up with virtually nothing since the pact became effective.

fective.
Even though yarns can be bought relatively cheaply with the frozen pounds, it's not profitable unless they are particularly good, as one story exce pointed out, because "you can't produce them in Hollywood for frozen pounds." In other words, production costs are so high that a story bargain is no bargain unless it can be turned into a top-notch picture.

Young, Woolworth Scion and Rathvon ONLY 2 CLICKS IN Come Through With Fresh B.R. for EL

Eagle Lion took its first big step towards solving its product problem this week when Robert Young and other backers of EL, including Alian P. Kirby, Woolworth heir, agreed to advance the company new funds for primary financing of indie-made pix. Reportedly, Young, who is controlling stock-holder of Pathe Industries, EL's parent company, and his syndicate have put up \$1,000,000 in immediate cash and promised to furnish an additional \$5,000,000 in the way of a revolving production fund. N. Peter Rathvon, former RKO prez who heads Motion Picture Capital Corp., an outfit lending "risk money." is tied to the new financing plan in a manner not enirely, clear to the trade. Rathvon, according to an EL announcement, will supervise the new coin and determine what pix packages and producers should be bankrolled and given EL releasing facilities.

While Rathvon has stressed that his outfit is free to finance other than EL product, it is reported that his four bankrolled productions, two of which are now in the can, are heading for EL release. It is understood that out of the \$1,000,000 cash posted by Young, et al., \$500,000 has been advanced to Rathvon as primary financing for his two uncompleted films. Reportedly, the money was loaned with the two finished features, George Pal's "Ruppert" and Alan LeMay and George Templeton's "Sundowners," deposited as security. Rathvon Dickers

Adding credence to these reports is the fact that Rathvon was recently dickering for United Artists' felase for his four films while, at the same time, seeking additional funds to get his last two features under way. After UA dickers fell through, Rathvon turned to EL and it is believed the final complex deal represents an expansion of his original proposition.

Washington, Aug. 30.

The Dept. of Commerce is expected to throw its full weight behind a move for better relations between the various branches of the film; dustry. First tangible step in that direction, it is reported, will be a proposal for an all-industry arbitration system by Secretary of Commerce Charles Sawyer. The cabinet member is expected to voice his proposal at the Los Angeles convention of the Theatre Owners of America where he will be an invited speaker. It is said that Sawyer is currently working on an arbitration system patterned after those adopted by other industries. Since the Commerce dept. concerns itself with the business of the nation, Sawyer does not consider his action far afield.

Rhoden Relents. Won't Insist On **Bid Disclosure**

Revolt against competitive bidding recently staged by bigtime circuit operators led by Elmer C. Rhoden, head of Fox-Midwest chain, is sputtering out. Rhoden, who has been insisting that his circuit will not bid for product unless a distrib agrees to disclose the terms of a winning bid, has now relented. Circuit topper is offering bids in a number of situations where he previously refused to buy competitively.

Rhoden's change in attitude apparently follows a recent huddle which he had with Charles Skouras, National Theatres head, in Los Angeles, Since no other NT exec took the same stand as Rhoden, it is believed that he has withdrawn his objections at the urging of Skouras.

Motion Picture Assn, of America may join with Louis de Rochemonin tests in Memphis and Atlanta of the censorship by which the producer's "Lost Boundaries" (PC) is being kept from the screen. Decision as to how the MPAA can best aid in the battle is expected to come out of sessions probably to be held next week between the Association's general counsel, Sidney Schreiber, and de Rochemonia attorney in this matter, Judge Samuel Rosenman.

Moral encouragement and promise of legal cooperation has already been given the producer of the semi-documentary on anti-Negro bias by Eric Johnston, MPAA topper, in reply to a wire from de Rochemont, declared: "I have persistently fought against censorship on the screen. I am in complete accord with you that the motion picture-as a great medium of communication is entitled to the same rights of freedom of expression as press and radio... I have instructed our attorneys to cooperate those rights. In this I have instructed our attorneys to cooperate in any way they can."

THEATREGOERS

In show biz' perennial quest for the secret of a hit, numerous film producers were pondering this week whether the road to bo. success might not be a direct and conscious appeal to the teen-age audience. They were viewing the somewhat phenomenal grosses piled up in the past two weeks by Samuel Goldwyn's "Roseanna McCoy," and —since Goldwyn staffers themselves admit "the picture is not that good"—wondering about the only explanation that theatre operators have been able to give. That is that the ratio of teen-agers patronizing "Roseanna" is out of all proportion to the usual average for their houses.

is that the ratio of teen-agers partonizing "Roseanna" is out of all proportion to the usual average for their houses.

Conclusion regarding responsibility of the high school and early college group for the film's success fits in with two tenets long held by Dr. George Gallup's Audience Research, Inc. Its surveys have consistently shown that the teen-agers are the most frequent and faithful theatregoers and that, as a matter of fact, the 19-year-old group leads all others in attendance.

The second Gallup point—one of which it has made something of a preachment—is that profits do not lie in a producer's knocking himself out trying to get into the theatre that portion of the public which infrequently buys a ticket or that doesn't naturally take to his type ple. Producer can do much better, ARI claims, in spending the coin and extra steam on pitching to the natural easy-to-get group.

Tougher to Get 'Em Post-30

That's a switch on a stand that Eric Johnston, Motion Picture Assn. of America prexy, and many other industryites have taken as the result of another set of Gallup figures. These show that after 30, customers greatly slow up in thea(Continued on page 22)

M-G Still Unsure On Appeal—Vogel

Chicago, Aug. 30.

Metro has yet to make up its mind on the important question of whether the company will appeal to the U. S. Supreme Court from the complete divorcement ordered against it, Joseph Vogel, Metro's theatre chief, revealed here. At the time, Vogel indicated the likelihood of an appeal.

"We haven't decided the question yet," M-G theatre topper said. "Mr. Schenck (Nicholas M. Schenck, company prez) has had no chance to talk to Mr. Davis (John W. Davis, trial counsel) and it will take some time yet to make up our minds.

"However, as a layman," Vogel added, "I can hardly see that we won't appeal. What have we ever done wrong in the operation of our theatres that has merited this decision against us?"

Metro's vote for or against appeal is considered the key to the entire question so far as the company's co-defendants, 20th-Fox and Warner Bros., are concerned. Latter two majors regard M-G in the strongest position and consider their chances nii if Metro decides against an appeal.

Odlum's Option On RKO Theatres Now in Dispute

Howard Hughes' nix last week of all offers for his RKO theatre stock has thrown into further dispute the option that Floyd Odlum's Atlas Corp. was granted on the shares. Lawyers are reportedly again in a hassle, this time over whether Atlas still holds the option to buy at \$4,500,000 or whether that was wiped out by Odlum's refusal to meet the \$6 a share bid \$(5,575,000) of Stanley Meyer, Matty Fox, Cliff Work and their syndicate.

TV Buying Roach's Oldies But Not New Video Pix

But Not New Video Pix

Unable to get the price he wants for the 12 series of 26-minute TV films he planned, Hai Roach has temporarily shelved them to turn to one-minute spot commercial business. Vet comedy producer is offering his full studio facilities and experience to agencies for the spots and has aiready turned out some for Ovaitine and Chevrolet.

Roach has made a sample film for each of the 12 comedy series he was aiming for the TV market. They cost him about \$10,000 each. He's found, however, that there is not that much coin available yet, aithough he's willing to sell any of the series at cost, on a one-year basis. As a result, he is putting them aside until he feels the market is big enough to support this type product.

Roach's studio on the Coast la sow given ever to rental to a half-

type product.

Roach's studio on the Coast is now given over to rental to a half-dozen or so TV producers. They're far from making it pay for itself, but help him meet the overhead. He is also getting a large measure of income from some 600 features and shorts which he has made over a period of many years. Grace Rosenfield, his salse rep, is getting considerable revenue peddiing them to TV, 35m reissue and 16m.

Howard Hughes is seeking a delay in the divorcement date for RKO because the company, without support of theatre earnings, will show a loss at the end of the year. The dominant stockholder in RKO is said to fear adverse stock repercussions against his production-distribution company at the outset of its solo activities unless it is given more time to overcome redistribution company at the outset of its solo activities unless it is given more time to overcome redistribution company at the outset of its solo activities unless it is given more time to overcome redistribution company at the outset of its own the present year. His move for a postponement from the present Nov. 8 deadline, it is said, has little or no relation to his recent negotiations for the saic of his own theatre stock holdings.

Hughes wants to avoid the declaration of a loss at the close of 1949 because hie is aware that in an uncertain stock market the announcement may have immediate effect in driving down the stock quotes. All profit returns of the company, as well as other majors going it without their theatre wing, will be carefully studied by Wall street and other Interests.

If the deadline is extended past the first of next year, RKO will be able to make its usual consolidated report which merges both distribution and theatre returns. Exhibition end of the company in the first half year has come up with a net of approximately \$1,500,000. In addition, theatre wing took another \$1,500,000 from the sale of its holdings in the Butterfield circuit. After payment of capital gains taxes, the sale price will total over \$1,000,000.

Montreal, Aug. 30.

In a 25,000-word brief before the Royal Commission on Arts and Science last Wednesday (24), the National Film Board In Ottawa intimated it has no fear of the advent of television In Canada. The NFB told the Commission that video programming would call for increased demand for film and that in Canada motion pletures would probably play a still greater part in television, partly because of the difficulty in obtaining live shows and partly because of the lack of relay facilities.

To meet this coming demand, the NFB claims its budget set in 1948 at \$3,000,000 is not enough, and an increase must be made to expand the board's scope and activity, to bring all of its scattered studios into one central building and to increase its staff, which now numbers 540.

The NFB also disclosed that since 1943 it had been supplying both the United Kingdom and the U. S. video outlets with Canadian film. During 1948, 72 Canadian film. During 1948, 73 Canadian film. It has been too long since James Cagney has splt a bellyful of lead or laced a guy's kisser. Cagney is back in that kind of role, and Warners can now start figuring out the potential grosses. "White Heat" is red-hot boxofflee.

Heat" is red-hot boxofflee.

The tight-lipped scowl, the hunched shoulders that rear themselves for the kill, the gargoyle speech, the belching gunfire of a trigger - happy paranoiac — one with a mother complex, no less—these are the standard and still-popular ingredients that constitute the Cagney of "White Heat." It all strikes a warmly responsive—and nostalgic—chord for those who recall Cagney's "Public Enemy" days. All that is missing is the grapefruit in a dame's physiog, in the Cagney manner, but that may be only because grapefruit is not in season.

The story is not so much the se-

The story is not so much the sequence of holdups and murders that comprise this yarn about a modern-day gangleader, but the credence given it by the performance of, mainly, Cagney, as the leader, and, to a lesser degree, the supporting cast. Cagney holds up a train with such authenticity that parents may well rush home, after viewing the picture, and lock up their kids' Lionels until "White Heat" has played out the neighborhood. When Cagney adds a few extra holes to a guy's belt—with lead slugs—you just know that the latter has fulfilled his contract for the picture.

that the latter has fulfilled his contract for the picture.

"White Heat" specifically is about a killer over whom only his mother can wield any influence. He heads a western gang, with his mother and his double-dealing wife along for company. The romantic triangle, such as it is, is completed by the presence of Cagney's chief lieutenant, who covets Cagney's leadership, and also his wife.

by the presence of Cagney's leadership, and also his wife.

When there looms a rap for a train-robbery that he's engineered, along with a couple of incidental killings, Cagney gives himself up in another state and "confesses" to a minor crime, for which he gets a short stretch. By this means he is alibled for the former. The Feds, however, are hep to his scheme, and plant a cellmate to gain his confidence and thus circumstantially break down the alibi. There's a jail break and a finale shooting scene between the T-men and the Cagney gang—during the frustrated holdup of a chemical factory payroll—that is in the Cagney tradition. When cornered he pumps lead into a chemical vat—and is blown to bits.

Cagney has an excellent supporting cast. Steve Cochranmakes a good-looking, doublecrossing mobster's aide wnose ambition for the gang leadership, and the leader's wife, ends in a rain of builets. It's a capable performance. Virginia Mayo has little to do except look sexy as the wife. Edmond O'Brien is fine as the undercover agent, and Margaret Wycherly is quictly effective as the mother. John Archer, as another Fed agent, is effective also.

Alan Ladd Is a hardbolled reporter in "Chicago Deadline," cause enough for audience interest to be concentrated in goodly measure in his movements. Story line isn't always clear-cut, but there's no doubt about film carrying sock action. It's the type of vehicle Ladd's fans best enloy him in, and he acquits himself most satisfactorily.

A girl's body is found in a cheap rooming house, and Ladd, who happens to be on the spot in an adjoining room, sets out to learn about her from the list of names in a notebook he finds in her purse. Quest takes him to high and low alike, to tycoons and toughs, all of whom, some willingly, others unwillingly, offer a piece to the pattern. Murder and violence pace his search, ending with his dueling to the death with heavy.

feel that extreme danger hangs constantly over Ladd's head as he works out assignment.

Ladd furnishes plenty of drive in his portrayal of the reporter who constantly sticks his neck out coloring character at every turn. Donna Reed, who co-stars with him, in role of femme whose body was found, is never glimpsed in a single scene with him, all her footage unfolding in different flashbacks. She gives an appealing performance. Film's exteriors were all lensed in Chicago, on actual background of story which Warren Duff scripted from Tiffany Thayer's original. Robert Fellows, as producer, rates salvo, as does Lewis Allen for his megging.

"Return of the Black Eagle" is an ambilious Italian screen effort. It was turned out about three years ago but this did not hold back outlay for elaborate production and big scale scenes. This looks like a very strong entry for foreign-language theatres and many arty spots. Its boxoffice possibilities likely could be enhanced by judicious trimming since there is enough extraneous footage to pare this down to 90 minutes. There is a sly attempt to poke finn at the Russo church and paint the landed gentry as baddies, but nothing much comes of either.

The original Alexander Pushkin novel about an officer in the Russian Guards who swears vengeance against a ruthless landowner is developed into a meller of love and duty. Scripters have this Russian officer, Rossano Brazzi, deciding in favor of love and deserting his Black Eagle followers; then rescuing the girl from an unhappy marlage and ietting his arch-enenny, the gal's father, bump himself of in a rumaway wagon accident.

in a rumaway wagon accident. The producers have had a field day making the interior castle scenes elaborate and heavily manned. When the Black Eagle's cohorts ride to his rescue and charge on their horses even on the upper floors of the castle the picture rises to the highest Italian film-company tradition for turning out spectacle. Brazi is depicted as swearing vengeance against the wealthy landowner because of the way he persecuted both his father and his friends while he was away serving in the Russian army. As the Black Eagle, a masked bandit, he loots and robs to the embarrassment of the influential landowner. One stake coach holdup introduces him to Isasema Dilian, daughter of Gino Cervi, his rich adversary.

Brazzi emulates a French tutor to gain entrance to Cervi's castle but his identity ultimately is discov-

Director Riccardo Freda, who often permits lesser detail to slow up early developments, generally has built a lusty tale, filled with suspense and action. Rodolfo Lombardi has done a magnificent lensing job.

Brazzi, familiar figure on the Italian screen, makes a dashing Guardsman who forsakes his usual duties to ride at the head of his avenging countrymen. In fact, his portrayal, with the switch to the fake French tutor, is one of the finest in months from foreign producers. Miss Dilian makes an intriguing, comely daughter with whom he falls in love. Cervi contributes a stalwart character role as the cruei, rich landowner. The other villain in the piece is Harry Feist as Prince Serge and conniving enemy of Brazzi. (In Swedish; English Titles)

"Frustration" is a slow, murky film with no appeal for the U. S. market. This Swedish import unwinds its tortured tale with arty pretensions in its long closeus and underlighted lensing but the result in soporific. Pie is thrown for its biggest loss here by the English titling which is frequently so badly printed that it is impossible to read.

Yarn concerns the rivalry between a brutal sea captain and his hunchbacked son for the love of a dancehall lady of easy virtue. Triangle is finally resolved when the captain goes mad and the son takes the gal away from her professional pursuits. Film does offer a couple of frank sequences which can be ripped from their context for some sensational lobby displays in the exploitation circuit. But the overall static story and the hamminess of the thesping will depress the customers.

'Joe Young' Slaps at Crix

Chicago, Aug. 30.

New way for an exhibitor to slap back at unfavorable film reviews was unleashed here last week by the RKO Grand, playing RKO's "Mighty Joe Young." In an attention-grabbing, three-column ad, the theatre quoted the worst lines it could find in the Chi critics reviews, which ran to such condemnations as "the most atrocious film I have seen in a decade" and "the film is incredibly bad and technically shoddy." Topping these with a bedd-face line reading. "In spite of the reviews, the crowds still pour in," the ad ran an "open letter" to the critics:

"If you are right, how do you account for the crowds that have visited the RKO Grand the past three weeks? They have bought only one thing—entertainment. That's the primary object of any motion picture. 'Mighty Joe Young' has it. It delivers no message. It is not an artistic triumph. But it does take you out of this hundrum, work-a-day world and entertains you as no other picture has done before. Ninety per cent of all pictures halled by the critics as masterpieces are financial failures—90% that they condemn receive the support of the motion picture public. There must be a reason. The motion picturegoer looks for and buys entertainment above all—not perfection."

Metro's goai to hit a prewar releasing pace of one picture weekly will be reached in November of the current year in a sudden raising of the company's sights. Double featuring has reached the stage where, for the first time, the independents with bills two or more times a week are hooking up "A" pictures. Their defense is that they're being forced to this policy in self-preservation because of the inroads made on their boxoffices by other neighborhood theatres that have had their clearance reduced from as much as 56 days to as law as 28.

The double-feature exhibitors contend that the early-availability independents want all the advantages. The latter non-dual billers have launched a move to force the double-feature houses to 112 days clearance, or double or more their present availability period.

D. C. Tie Key To Sullivan Boost

Sullivan, exec director of the Theatre Owners of America, to the top spot as TOA president is a growing beilef among big circuit ops that film industry-Government relations in the next couple of years will reach a critical stage. First step in what is considered an almost inevitable promotion for Sullivan took place last week when the Motion Picture Exhibitors of Florida unanimously proposed his election

TOAers note that Sullivan's immediate background is political and mediate background is political and that as former executive director of the National Democratic Committee and a top official in the Postmaster General's office, he has the know-how for presenting exhibition's views to Government politicos. Indicating the current importance of that end of TOA's work, Sullivan has recently been huddling with officials of the Treasury, Justice and Tax departments.

Company's sales force will be instructed to line up bookings for the film in "A" houses with the idea of breaking the pic day-and-date throughout the country at one time. In each big city, aim will be for an extended run rather than a fast playoff down-the-line. Simultaneous playoff would follow preem dates at Radio City Music Hall, and a yet undesignated house in Los Angeles.

Tri-Lingual Pix With Swede Stars

Two former Swedish actors have been temporarily reclaimed from Hollywood by their homeland and are currently making a picture in Stockholm. They are Viveca Lindfors, who until recently was under contract to Warner Bros., and Chrisopher Kent, who is on loan from David O. Sclznick. They are appearing in "The Saga of Singoalla," which has just completed shooting and is now being edited. Pic is being made in three versions — English, French and Swedish. English dialog is by American actor Romney Brent, who also plays a principal role. Film, based on the 19th century classic by Viktor Rydberg, was directed by French producer-director Christian-Jacques.

Smith also disclosed last week that 20th has been forced to order a record 500 prints on its upcoming "Father Was a Fullback," attributing the avalanche of bookings to the effectiveness of tradepaper advertising. Recent ads detailed a contest run by 20th among exhibitors for the best ad-publicity campaigns on the pleture, in which 134 prizes totaling \$7.500 will be awarded. 6 New Bills Help B'way; 'Male Bride' Plus Haley P.A. Smash 118G, 'Sword' Sock 50G, 'Bovary'-David Rose 78G

Six new bills launched during he past week will give Broadway picture houses a lift this session despite a return of hot weather. Rain early Monday (29) morning cooled things off, but the damage was done because of the heat on the weekend, nearly all first-runs reporting a dip these days. This is leaving Broadway business with an uneven appearance currently. Many deluxers look for something of a windfall starting tomorrow (Thurs.) because thousands of Legion delegates will be stopping off in N. Y. on their way home from the national American Legion convention in Philadelphia. This may overcome usual Friday lag as New Yorkers start exiting on the Labor Day weekend and thousands of visitors pour into the eity. Ace newcomer is "I Was Male War Bride" at the Roxy, with "Sword in Desert" a strong second at the Criterion. Former, with Jack Haley topping stageshow, is soaring to a smash \$118,000, or nearit, on first week. "Sword" is racking up a socko \$50,000, or a bit under, at Criterion.

The new control agency has Military Government approval and will be a possible successor to the U. S. Army Information Services Division (ISD). Markova-Dolin End SRO Tour of Africa; **English Visit Starts**

London, Aug. 30.

London, Aug. 30.
Alicia Markova and Anton Dolin have just ended a successful tour in South Africa. Under sponsorship of African Theatres and Alex Chernlavsky, the dancers gave a total of 50 performances, touring South Africa, Rhodesia and Central Africa.

Average concert tour in South Africa has been 10 to 15 performances. Markova and Dolin's success was such, extra performances had to be added on in each city. In Johannesburg, originally scheduled for four performances, they played a month, moving from His Majesty's, a 1,200-seater, to the Empire, where nearly 2,000 saw them at each performance. In Capetown they recruited the local ballet corps of the University Ballet and the South African National Ballet Co. and presented "Swan Lake." "Syl-

They'll be inaugurated a week apart by a Portuguese revue company now touring the colony.

Can. Pix Chain **Vs. Ad Shorts**

Toronto, Aug. 30.

"Your business is to sell entertainment," is the warning to members of the Motion Picture Theatres Assn. in countering the current all-out drive of industrial-film makers to place five-minute shorts extolling toothpastes, soap products, eigarettes and home permanent-wave sets. Under signature of Archibald Jolley, MPTA secretary, it's pointed out to members that "this association remains entirely neutral in the matter but leaves it to the exhibitor-member's own discretion whether or not he cares to rent his screen for advertising purposes." (Membership in MPTA 'ncludes the "Big Three" chains in Canada—Famous Players, the Odeon houses (Rank) and Nat Taylor's 20th setup.) bers of the Motion Picture Thea-Taylor's 20th setup.)

Chief drive has been launched by Audio Pictures of Canada, Ltd., with studios near Toronto, and with such clients as Tuckett To-bacco, Pepsodent and Lever Bros. Newspaper advertising campaign shows certain small chains and in-dies plurging showings of such dies plugging showings of such shorts. Jolley points out that standard contract states minimum number of commercial shorts to be number of commercial shorts to be shown at every regular performance, that this is binding for 24 months. and that no short-term clause is included in the contract which would permit the exhibitor to cancel the remainder of the contract should the exhibitor become dissatisfied.

Paris, Aug. 23.
American participation at foreign film festivals, especially at the most important ones such as Italy (Venice). France (Cannes) and Belgium (Knockke), will have to be handled differently in the future if foreign film trade is not to suffer. This is the opinion of all expert film visitors here, who have witnessed the poor showing made by American firms. Festivals, as meetings of the whole continental trade, they feel, are too important to be bypassed with the remark that since foreign biz is only a source of frozen balances, there is no reason to spend time, manpower and

of frozen balances, there is no reason to spend tlme, manpower and money on increasing them.

Nathan Golden, chief of the motion picture section of the Dept, of Commerce in Washington, was considerably impressed in Venice by the fact that while some nations were all out to grab the trade, American participation was minimized to the limit, with Eugene Van Deé, representing the Motion Picture Assu. of America there, unable to give even a cocktail party for lack of an appropriation.

Continental managers are of

for lack of an appropriation.

Continental managers are of course inclined to forget the political angle to think only of the orrhead. This is why participants to the recent European festivals, recognized by MPAA (and there are many other and minor ones), only appropriated \$300 per participating compants. For the Venice show, with five companies participating, a total of \$1.500 had to cover U. S. expenses.

With "Best Years of Our Lives" in Brussels two years ago; "Cross-fire" and "Dumbo" in Cannes, and more recently "The Window" in fire" and "Dumbo" in Cannes, and more recently "The Window" in Knockke, IKO drew prizes at every turn, permitting the company to tilt the rentals of the accoladed pix and thereby turn overhead into accrued revenue. Same happened with "Enchantment" in Locarno, while "Melody Time" or "Three Caballeros" at the Venice festival and "The Set-up" skedded for the forthcoming Cannes festival, have been picked with the same idea in mind.

Paramount has had to postpone release of "My Own True Love" at the Broadway, as the theatre had to bill "Ole Torero," with Argentine comedian Luis Sandrini, to comply with the protectionist decree, although the picture was actually made in Spain, and not in Argentina.

Luminton's "La Trampa." another local production, is in its second week at the Opera and Roca theatres, with grosses holding up well, chiefly due to the influx of out-of-town visitors who are in the capital for Argentina's great annual cattle fair at the Rural Society, at which the world's finest bulls are on show. This event always means apprailing grosses as the wealthy farmers flock into the city for a funket of two or three weeks.

This has benefited RKO's "Good Sam" at the Gran Rex, which has held on for a third week contrary to expectations. The Hungarian picture "Vaiahol Europabam" ("In Any Part of Europe"), distributed by Cosmos, and at the Luxor and Libertador simultaneously since Aug. 10, is creating a considerable sensation, comparable to that caused by "Open City" two years ago.

Tokyo, Aug. 23.

Japan's three largest motion picture producers and distribs, Toho, Shochiku and Daiei, have been summoned before the Nipponese Fair Trade Commission for hearings on the block-booking system employed by the three firms.

Purpose of the inquiry, the Commission said, was to investigate allegations that the distribs were violating the Fair Trade Practices Act by operating a booking system that freezes out smail distribs. Hearings will start this month.

Arg. Pix Talent Scurries For Work Elsewhere As Studios Stay Snafued

Buenos Aires, Aug. 23.

Studio situation here is being complicated by constant intervention of influential financiers, who have only a hazy connection with the film industry, but are anxious to muscle in, and who obtain raw stock allocations to sell to the studios at black market prices, or in exchange for a block of shares. This further stymies the reorganizational process which the industry has been undergoing since the after the standard of the standard process which the industry has been undergoing since the after the standard and Emeloo Buenos Aires, Aug. 23.

zational process which the industry has been undergoing since the affairs of San Miguel and Emelco studios passed into the hands of receivers of the official banks which had been bolstering up their precarious position. A syndicate of capitalists is now angling for purchase of Lumition studios. What the financial interests are trying to make certain of, however, before investing further in film production, is that they would have some certainty of getting exchange permits for imports of raw stock.

Dr. Horacio Maciel Crespo, who had been appointed prexy of Emelco Studios, lost no time in resigning the task. The Industrial Credit Bank is now looking around for another candidate.

The financial and raw material ups and downs of the industry add up to an anxious time for talent, and they are again looking around in Spain and Central America for likely contracts. Nini Marshall, banned from Argentine legit and radio by government pressure, is currently doing radio work in Mexico with Dolores del Rio and Libertad Lamarque, whose work is also banned in her native Argentina. Buenos Aires, Aug. 30.
Argentina's Academy of Motion Picture Arts and Sciences held a party at the Presidente Alvear theatre last week to hand out awards for the best of 1948 film production. Argentine Oscars take the form of statuets of Don Quixote, and following a government decree issued last year, can only be made with the approval of the Educational Ministry and the Entertainment Board. The orchids were handed out by Hugo MacDougall, current prexy of the Academy, with the help of Joaquin Mosquera, representing the Educational Minister.

Awards went to poet Pedro Mi-

Awards went to poet Pedro Miguel Obligado for his screen adaptation of Oscar Wildes' "Lady Windermere's Fan," produced here under the title of "Una Mala Mujer," with Dolores del Rio in the lead.

Cinemactress Zully Moreno and Arturo de Cordova got firsts for their acting in "Dios se lo Pague," while director Luis Cesar Amadori took the award for his direction of that picture. Enrique Chaico aiso got an award for the best supporting player in the same film. Medeis and diplomas went to Tulio Deinichell (adaptation of screen story). Alberto Etchebehere, photographer; Juan Ehlert, musical director; Mario Fezia and Carlos Marin, sound technicians; Jorge Garate, continuity, and Roque Giacovino, cameraman, in the winning picture.

Two Old Scot Folk-Dramas Steal Play From Preems at Edinburgh Festival

Set for Opera Season

Adaptations of two old Scottish folk-dramas staged in arena style by English director Tyrone Guthrie, are more than rivaling in interest two premieres on the Edinburgh Festival program. **Documentary Pix Makers**

Edinburgh, Aug. 23.
Video offers much opportunity for documentary film makers, says Sir Stephen Tallents, who helped to build the British documentary film movement along with John Grierson.

Opening the Festival program.

Surprise hit of last year's Festival, the satire of "The Three Estates," a Scottish morality play written in 1535 by Sir David Lindsay, is filling to capacity nightly the beamed. spacious (1,200-seat) Assembly Hall of the Church of Scotland. New this year. "The Gentie Shepherd." Allan Ramsay's pastoral comedy (dating back to 1725), is aiready practically sold out for its series of midnight candlelight performances in the 400-seat hall of the Royal High School.

Both plays have been adapted for film movement along with John Grierson.

Opening the third International Festival of Documentary Films here, he said television was now higher than the horizon. It was necessary for those who were making documentary, films to master this medium and to find in it their opportunity for further development in their technique.

Robert Flaherty, who made "Louisiana Story." premiered at last year's Edinburgh Festival, attended the opening here, along with his wife.

School.

Both plays have been adapted for modern consumption by Robert Kemp, who is cufrently Scotland's most prolific playwright. (A new play of his, "The Saxon Saint," is being performed during the Festival, but not as part of it, in the nave of ancient Dunfermine Abbey near Edinburgh.) Music has been composed and conducted by Cedric Thorpe Davie, one of Scotland's leading musicians. And casts for two productions have been rounded up from best Scottish dramatic and singing talent.

Hero of both occasions, however.

singing talent.
Hero of both occasions however, is unquestionably Guthrie himself. He has been mainly responsible for the idea, conception, and style of presentation. And again, as was the case last year with the solo production of "Three Estates." he has carried off both ventures with great imagination and brilliance—despite the handicaps of two not entirely satisfactory arena stages. satisfactory arena stages.

Set for Opera Season

Zurich, Aug. 20.

Schauspielhaus and Stadttheatre have just announced plans for the '49-50 season, which is due to start Aug. 27 at Stadttheatre and Sept. 8 at Schauspielhaus. Preceding the official opening, the latter will have a special performance of "Faust," Part I and II, on the Goethe Bicentennial Day, Aug. 28.

Schauspielhaus plans for the coming season the first German performances of Arthur Milier's "Death of a Salesman," Tennessee Williams' "Streetcar Named Desire," as well as a new play by Thornton Wilder or a revival of his "Our Town." Furthermore, negotiations are underway to obtain the author's permission for the German performance of Eugene O'Neiil's "The Iceman Cometh."

Some four world-preems are also slated for this season, with a post-humous work by Gerhart Hauptmann, "Herbert Engelmann," adapted by Carl Zuckmayer; a new sattric play by Erich Kaestner. satisfactory arena stages.

"The Three Estates" (title refers to church, nobility, merchants) is a typical medieval morality play but still surprisingly relevant in its subject matter. Content deals with the struggle between various vices and virtues for dominance over King Humanitie. Director Guthrie has given each character a strong and definite personality. His handling of crowds and interweaving of groups of people in a relatively small space is superb.

"The Gentle Sheoherd" though

small space is superb.

"The Gentle Shepherd." though not nearly so absorbing a play, becomes almost as effective in production. Story concerns a shepherd and a lass and his problems of woning and winning her. Guthrie has made little real attempt at dramatic tension or theatrical illusion, preferring to treat the material in the manner of a concert recital.

Both works are stored with the

humous work by Gerhart Haupt-mann, "Herbert Engelmann," adapted by Carl Zuckmayer; a new sattric play by Erich Kaestner, "The School of Dictators," and two works by Swiss author Max Frisch and German author M. Jahnn. Sea-son opening will be with Shakes-peare's "Antony and Cleopatra," to be followed by a comedy by Lope de Vega, "The Whims of Donna Bellssa," and, for the first time in German, the Luigi Pirandello play, "Glants from the Mountain." Stadttheatre opens with Wag. Both works are staged with the audience seated on three sides of audience seated on three sides of the action and a tiered forestage jutting out on the fourth side. Relation of two productions is that of chamber music to a symphony concurt. "Estates" abounds in colorful spectacle, swirling movement, lusty humor and theatrical excitement. "Shepherd" is in much simpler vein. Chockfull of Scotish folksongs, alternately gentel and rustic, elegantly costumed, the production has great charm.

Actors perform with uniform feelings or which might display brutality and might have demoralizing influence.

2. Film should not have nationaistic, national socialist, militaristic, imperialistic or racial discriminatory tendencies.

3. Film should not endanger Germany's relations with other countries: it should not degrade their governments, official representations and institutions.

4. Film should not degrade or depreciate the constitutional or judicial basis elements of the German people as a whole, or of one of its states (Lacnder).

5. Film should not present untrue historical facts by emphasized propagandistic or tendentious elucidations.

6. Propaganda films produced under the direct or indirect influence.

Actors perform with uniform competence; some of them, notably willowy comic Duncan Macrae, are topnotch. They have enough vitalty comic Duncan Macrae, are topnotch. They have enough vitality and sense of style to overcome occasional difficulties of the piays dialect and their thick Scotch brogues.

Two productions not only give additional liveliness to the Festival proceedings. They represent the finest professional arena work in British Isles. And they are giving strong impetus to current upsurge here of native Scottish drama.

Delegates Go Slowly, But Restrained Optimism Felt

As the meeting swung into its work, it became apparent that the delegates were proceeding with care and restrained optimism. Out care and restrained optimism. Out of the convention it was hoped that a temporary organization would be created to carry on the p.r. chores and that, ultimately, a permanent group would be formed. However, the delegates have not been authorized to agree to a permanent hence, they must report back on the temporary plan which may later develop into a permanent op-

later develop into a permanent operation.

This view was expressed by Ned E. Depinet, RKO prez who heads the MPAA community relations committee, whose axiom is: "You must crawl before you walk and walk before you run. It is hoped that the diaper stage is quickly passed and that we may soon be on firmer footing."

As evidence of the gravit

on firmer footing."

As evidence of the great progress made today (Tues), the conclave named five sub-committees to take up five generalized topics. On all sub-committees are reps from the nine organizations participating.

These committees are: 1. General public relations; 2. public relations as affecting the boxoffice; 3. public relations pertaining to inter-industry affairs; 4. discriminatory taxes and adverse legislation; 5. aspects of p.r. which are subject to basic research.

It was hinted that trade practices may eventually be handled by a similar conference. But Depinet, chairmanning the meeting, was circhairmaining the meeting, was cir-cumspect in reiterating that no con-troversial subject be taken up at the present meeting. All reps agreed to eliminate trade practices agreed to eliminate trade practices as a subject on the insistence of Abram F. Myers, National Allied board chairman, with general agreement evidenced that discus-

Depinet, in his address opening the conclave, lost no time striking a note of caution. After expressing great enthusiasm for the cooperative spirit which brought industryites together and optimism over what might be done, he added.

a dangerous delusion for us here to believe that the kind of comprehensive public relations program we need for our industry can be written in two days. One of the pitfalls this conference must avoid is our understandable desire to make haste and the temptation to emerge from this conference with a complete program."

Deninet, as did Johnston who

Depinet, as did Johnston, who followed him to the rostrum, asked an end to inter-industry feuding. "I urgently advocate a moratorium on name calling. The job ahead is big enough as it is to occupy our full time on constructive things," he said.

things," he said.

Among others speaking at the Tuesday morning session were Abram F. Myers, National Allied board chairman; Nicholas M. Schenck, Metro prexy; George Murphy, repping the Screen Actors Guild on the Motion Picture Industry Council; Robert O'Donnell, for the Variety clubs; Arthur Lockwood, TOA prez; J. J. Fitzgibbons, repping Canadian exhibs; Ellis Arnall Society of Independent wood, TOA prez; J. J. Allied will not insist on the adoption of the much-discussed Finneran Plan which would bar erring stars from Hollywood studios, Myers told the conclave. "Flowever, Allied fully believes in the principle that something like the Finneran Plan must be adopted." Myers added. He acknowledged the generally expressed fear that Allied might upset the applecant by insisting on the plan's presentation in Chi. He left no doubt that while ready to concede on some points, Allied wanted the principle adopted. Schenek declared: "I'm 100% for

wanted the principle adopted. Schenek declared: "I'm 100% for this meeting. In 40 years in the industry, I think there has never been as much need for something like this as today. William Rodgers and Joseph Vogel will stay with you with full authority to act."

Murphy told of Hollywood's charity work and the contribution of stars to hospital benefits, "Let's not have our hassles in the street." Murphy said. "Differences opinion are healthy, Let's st them around a table like this."

Depinet had been unanimously elected permanent chairman, fol-owing his nomination by Brandt, rancis Harmon, MPAA veepee, was appointed permanent secretary by Depinet.

Aside from 1 rade practices, MPAA's community and exhibitor relations committee, which spark-plugged the Chicago conclave, went out of its way to avoid suggesting an agenda. Although its members met together all day yesterday (Monday) in advance of the meet an agenda. Although its memoers met together all day yesterday (Monday) in advance of the meet. Depinet asserted the only agenda would be what the participants in the conference desired to discuss. Aim of this is to avoid the appearance of MPAA trying to steam-roller or direct the sessions.

Members of the MPAA committee, who arrived Chicago Sunday (28) night, in addition to Depinet and Johnston, who is an exoffcionember, are William Rodgers, Metro veepee in charge of sales; Austin Keough, Paramount general counsel; Maurice Bergman, special aide to the president of Injuryers and Ergories Harmon. special aide to the president of Universal and Francis Harmon.

Calling the meeting "a shirt-ceve conference," Depinet asked sleeve conference." Depinet asked participants speak out with con-structive ideas on two questions: '11' "what can we do to protect our industry... from attacks from within and without, from discrimi-patory. Leading. Gensorship and within and without, from discrini-natory taxation, censorship and other adverse legislation and in-fluences?" and (2) "what can we do to pump new life into our veins and bring short this can we and bring about a healthier return on our investment."

The conclave is the most sig breadth of its type ever held breadth of industry facets represented and in the importance of its delegates. There are more than the interest of the concession of the concess sericed and in the importance of its delegates. There are more than 65 film people on hand, represent-ing nine major organizations and many subdivisions of the industry, including the tradepress. Ses-sions being held at the Drake he-tel here started this morning 'Tuesday) and wind up tomorrow night.

M-G Challenges Selznick's Sincerity In Tying Up 'Ivanhoe' Production

Vanguard Productions, which not long ago were in a stiff battle over rights to "Treasure Island," are at it again on another public domain property. This time it is Sir Walter Scott's "Ivanhoe." Issue is being set for arbitration.

Metro is objecting to Selznick's request for a six-month extension on his rights to the classic under the Motion Picture Assn. of America rules. Leo's squawk is that DOS is doing nothing to indicate any intention of producing the picture, that he is also laying claim to at least three other classics which he must produce in the next six months to one year in order to retain title and that he just can't go no bottling up the public domain field and not producing pix.

Selznick is now in Europe and has stated that he is taking a hiatus from production for a year or 18 months. In that case, Metro queries, what good would time extension be anyway. Reissues Hit Their Postwar **Peak This Year**

Postwar peak in reissue business was reached in the early stretch of the current summer when some 4,000 U. S. theatres regularly booked the oldies during at least one change weekly. Business of peddling oldies hit its high during the June-July period because of a product shortage in strong new features. With the entry of bigger bo. hopefuls during August, sales execs report dwindling revenues and bookings for the past few weeks.

Average good package, it is said, can get into up to 6,000 houses, many of which ordinarily do not take on reissues.

Handled by these distribs, the top reissue (either packaged or single billed) can now bring in \$400.000 in a single time round the country. Two-year period is required to cover all houses available for hookings. On the average, however, distrib garners some \$150.000 per pic in working the U. S. territory.

Oldies are generally sold on flast to all houses except first-run, key city situations. Hence, their popularity among a raft of exhibs who count on regular patronage to give them a solid margin of profit. here, will participate in a broad-gcale onslaught on their detractors. The modus operandi is still to be determined—whether it will be ac-complished through the Motion picture Assn. of America, through an entirely new and independent setup, or by hirting some high-priced outside public relations or-ganization.

priced outside public relations or ganization.

The spirit of the delegates here, as far as can be determined, favors establishing a new, industry-controlled unit. In any case, its full time job would be to acquaint the nation's theatregoers with the bright side of the Hollywood picture. Major company publicity-advertising directors, represented here by Warner Bros'. Mort Blumenstock, will fight off any efforts to use their staffs, or anyone's staffs, in a halftime fling at the job. Their experience has been that anything less than a real effort, unhampered by pressures of day-to-day picture-selling, is the only one worth making.

making.

Who would set up such an organization, who would run it, how it would be financed, etc., are among the details that may be hammered out of the meeting here by adjournment time tomorrow (Wednesday) night. More likely, however, they'll be turned over to a permanization.

Top P.R. Committee

It will take a long time to co-ordinate all the views, but the in-dustry avas never nearer to that than now, as evidenced by the sincerity and good will shown by production, distribution, exhibition, union, guild, tradepaper and other reps here.

Exhibs to Be Used

Exhibs to Be Used

The 18,000 theatremen throughout the country, continually referred to here as the first line of attack in any public relations campalgn because of their closeness to the grassroots patron, will be used in the campaign as much as possible—probably with material provided at least in part, by the Hollywood writers whom the Motion Picture Industry Council reps claim have unequalled talent that they'd like to throw into such a fray.

fray.

Another angle will undoubtedly be a speakers' bureau. It would work with local exhibs and organizations in bringing everyone from top Hollywood stars to an oratorically gifted exhib in a nearby town to local meetings. In this way the shopkeeper, the chamber of commerce secretary and the small business people of America would see for themselves, firsthand, that he industry is made up of seriousminded businessmen, artists and artisans, that tall tales out of Hollywood might make Interesting reading in a newspaper column, but that they are exaggerated out of all proportion.

In line with all this thinking.

or all proportion.

In line with all this thinking, one of the statements that privately won most applause from observers here came from Abram F. Myers, board chairman and general counsel for Allied States Theatres Assn. He went out of his way to make clear to assembled

execs that they must consider pullic relations separate and apart
from publicity and exploitation. It
was generally agreed that the two
have been too often confused in
the past, with poor results.
Many other suggestions have
been made, running from trailers
to a grand tour by Eric Johnston
and a bevy of stars, latter suggestion being entered by Spyros
Skouras, 20th-Fox prexy. All the
proposals have been put before an
overall public relations committee
and will be discussed today and
tomorrow. tomorrow.

profits.

In a general roundup of conditions abroad, the 20th topper noted a considerable improvement in countries aided by the Economic Cooperation Administration. For film business, Italy is the only country in top shape, both as to production and exhibition. Boxoffice grosses are dipping slightly in all other countries and rising costs have made production "difficult." Despite this, Skouras sald, 20th will continue its policy of producing any picture abroad whose subject calls for a particular foreign locale. lar foreign locale.

lar foreign locale.

Britain Can't Turn Out 40 a Year Explaining why 20th had withdrawn from the so-called unit plan in England, which prevents the dualing of American and British films on the same bill, Skouras said British producers could not possibly turn out more than 40 pix this year. As a result, he said, 20th can see no reason in continuing the plan. He scotched reports that he had negotiated a deal with J. Arthur Rank to provide playing time for 20th films in England, saying they were "entirely untrue."

turn out as many as 100 pictures a year. Unlike Hollywood, he pointed out, the British lack the necessary trained technicians and personnel to support such an ambitious program. British situation is especially unfortunate, he added, since production costs were mounting and the boxofice was silding off during the time they tried to increase their production. Skouras noted, however, that the British b.o. today on an average is better than the U. S., estimating it about pars the 1943 or 1944 grosses.

Twentieth prez revealed he had told John J. McCloy, U. S. high commissioner ln Germany, that it would be unwise for the Government to select the films to be shown in that country. To best demonstrate to Germans the American way of life, he advocated the Government permit the company presidents to select the pix. but limit them to no more than 15 or 20 a year from each studio in order to preclude flooding the German market.

market.
Skouras said 20th will build theatres in any foreign country where it will be able to remit earnings from the theatres. Move is particularly advisable at this time, he said, when 20th faces the possibility of domestic divorcement. Company has already decided to erect four theatres in Israel and one in Alexandria, Egypt. Each theatre in Israel, he said, will provide office space for doctors, dentists, etc., which is desperately needed at this time.

Evades 2 Issues

Skouras declined to discuss the two subjects which have received most emphasis recently—Government-enforced divorcement and 20th's attempt to buy a 50% interest in J. Arthur Rank's Odeon circuit in Canada.

The two are directly linked, since 20th will need theatre earnings from whatever source possible if it is forced to divest itself of its theatre holdings in the U.S.

Malcolm Kingsberg, prexy of the
RKO circuit, is also still in the
fight to obtain the 929,020 shares,
representing 24% of the outstanding stock, which Hughes owns in
the approximately 100 houses involved. Whether Kingsberg was

answer the question, won't talk.
With the temporary hiatus on all bids, however, the Atlas option again comes to the fore. Hughes' stand reportedly is that Odlum had his chance and refused to meet the best bid, as called for under terms of the deal, and therefore let his option slide. Odlum takes the opposing viewpoint that if Hughes doesn't accept any other bid, the \$4,500,000 option still stands. Impartial lawyers admit that the matter is open to argument and litigation under terms of the option. Pertinent paragraph states:

Odlum viewpoint is that since Hughes accepted no offer then none could have been "the most acceptable." In any event, he had previously challenged the validity of the Meyer offer, suggesting that it was not bona bide but a method of bidding up the price. He sent a series of questions to Hughes hesitate to file suit since the charge general legal opinion was that he'd and hinted at litigation, although would be extremely difficult to prove.

is said to be in the red for about \$2,000,000. It is believed that the company has a good chance of operating in the black during the rest of '49. Without a sensational recovery, however, it cannot rally to the point of overcoming its earlier losses.

Company was particularly hard hlt, distribution-wise, by the late spring boxoffice slump. Its gross for the second quarter dropped to \$21,900,000 compared to \$28,681,-555 for the same period of last

year.

Despite its loss, production-distribution unit would probably have ample cash reserves since the theatre unit is making an extraordinary distribution of \$10,000,000 cash to it prior to the splitup. Fund is being paid by way of a dividend and reduction of capital. Nonetheless, if the production-distribution unit was forced to take this year's loss alone, it would represent something of a dent in the working capital.

WPEN, Philly, Lines Up 11 Indies As Nucleus for Sports B'cast Web

Philadelphia, Aug. 30.

WPEN, 5,000-watt indie, is sparking a new Sports Broadcast Network with 11 independent radio
stations already lined up, and negotiations swinging to bring the
string up to at least 50 by the time
the grid calendar gets into operation in late September.

the grid calendar gets into operation in late September.

Idea stems from Jack Hensel, of the Weightman ad agency, with Albert J. Sylk, owner of WPEN. The new "network" was officially launched with 11 stations, all of whom get in on the ground floor. It was organized exclusively for the purposes of making it possible for the indies to carry major sports events live.

The initial links in the new sports chain are: WPAM, Pottsville, Pa.; WSNJ Bridgeton, N. J.; WKOK, Sunbury, Pa.; WHAP, Hopewell, Va.; WFPG, Atlantic City; WEEU, Reading, Pa.; WNOW, York, Pa.; WAMS, Wilmington, Del.; WOKO, Albany, N. Y.; WLAN, Lancaster, Pa., and WAEB, Allentown, Pa.

Already signed by SBN are airling rights for all at-home and away games of the Philadelphia Eagles, professional football champions, and the boxing bouts promoted by Harry Steinman, Latin Casino owner, who is putting on bouts at Philly's Convention Hall, starting Sept. 21. The Sports net Is dickering for major events in every field of athletics. The new web will peddle the games to national and regional advertisers, permitting time buyers to take as many stations as they want, in as many towns as they like. Individual station retains its own rights whether to come in on web sale or to peddle the events to a local sponsor, or even carry the games sustaining.

Additional stations are being invited, on a planned scale, to cut down to a minimum the wire costs involved. Instead of direct wires from the origination point, each station in the link will take the games and bouts by direct wire from the network station in the hearest town. Web figures on spotting its stations about 40 miles an opportunity to carry major athletic events live, without having prohibitive wire bills.

No organizational setup for the new network as yet. Rensel is serving as general manager.

ATLANTA CANDIDATES POUR COIN INTO RADIO

Atlanta, Aug. 30.

Atlanta, Aug. 30.
Flood of fresh coin is pouring into Atlanta's radio stations as municipal election nears its climax. Election date is Sept. 7.
Chief interest centers in race for mayor, which has simmered down to contest between incumbent, Mayor William B. Hartsfield, and Charlie Brown, ex-commissioner of Fulton County. Two other men in the race are not cutting much figure, but are in there punching and spending radio coin just the same. Also to be elected are full slate of aldermen and councilmen, all of whom are buying radio time.

REAPPRAISING THE AGENCIES

BBD&O: Brains, Billings, Duffy—Ouch! BBD&O IS THE 'Where's That New Biz?' Webs Ask

The saga of BBD&O and its emergence into the No. 1 agency spotlight is generally regarded by the trade as the Horatio Alger payoff to prexy Ben Duffy's masterminding—the same Duffy who parlayed a regime dating back 30 years to his BBD&O mailboy chores into gross billings of \$80,000,000 a year.

As a strictly U. S. institution (with no overseas representation), that's unparalleled in agency circles and a far cry from the days when (only a decade ago) BBD&O was gasping for billings breath and operating in the red.

that's unparalleled in agency circles and a far cry from the days when (only a decade ago) BBD&O was gasping for billings breath and operating in the red.

It was in 1938, to be exact, that BBD&O was floundering, following the checkout of Roy Durstine. Durstine, back in '31, brought to the agency business its initial bigtime radio splurging, with the LaPalina-Kate Smith showcase, the Ethyl Gas sponsorship of Andre Kostelanetz; John Charles Thomas show, the Hoffman Brewery 60-minute showcase for Nelson Eddy, the Julia Sanderson-Frank Crumit stanza, March of Time and other nighttime productions, which, in terms of 1931, represented radio show biz at its best. The "House of Duffy," with only "Cavaleade of America" and Phil Spitalny left as major network attractions five years ago, began fitting its stride when Duffy moved into the prexy spot three years ago. It was Duffy who, through the simple expedient of a postcard and a telephone call, wrapped up by the \$10,000,000 American Tobacco business, and is now moving into Vincent Riggio's video domain (now represented by N. W. Ayer). Only a couple weeks back Duffy sent an agency emissary to England for huddles with Robert Montgomery to lay the groundwork for a major Lucky Strike production. Something in the nature of a TV version of "Lux Radio Theatre," it would feature Montgomery to emcee the show and star in the weekly attractions.

Of the \$80,000,000 overail buildings, upwards of \$25,000,000 comes out of the agency's radio-TV columns, with about \$8,000,000 channelled into spots alone.

ABC to Move Today (Wed.) for Court Test on Legality of Giveaway Ban

Washington, Aug. 30. Action to test the legality of the FCC's ban on giveaway programs will be taken tomorrow (Wed.) by the ABC network, Variety learned yesterday, Preparations for a court test have been under way for the past week under the direction of Joseph A. McDonald veepee, secretary and general attorney of the web. The New York law firm of Cravath, Swain & Moore has been retained.

Efforts were being made to have papers ready for filing today. It is understood a complaint would be filed with the United States Circuit Court of Appeals of the Second Judicial Circuit, of which Learned Hand of New York is chief judge. McDonald was unable to say what ABC will ask of the court, pending final determination of legal strategy, but it was expected the web would request that the FCC order prohibiting certain types of money and prize shows be set aside until the merits have been argued by both sides. The ABC exec said his company would take action independently but he thought it likely that others would file. (CBS and NBC will join in obtaining judicial review of the ban).

'Railroad Hour's' 750G Sidetrack

ABC suffered another nighttime billings reverse, in this instance to the tune of some \$750,000, when

to the tune of some \$750,000, when the American Assn. of Railroad secided in favor of moving its "Railroad Hour" musical to MBC. Effective Oct. 3, show, starring Gordon MacRae, goes into the Monday night at 8 period, same time segment it's been occupying on ABC.

Factor in Railroad Assn.'s decision to switch was desire to the lumith NBC's Monday night "mood music" experiment, with "Railroad Hour" as the curtain raiser to a parlay comprising Firestone, "Telephone Hour" and "Carnation Hour."

Originally it was planned to spot Fred Waring in the Monday at 8 period, but he'll be moved into Thursday night 10:30.

Meanwhile, NBC has changed its plans about Dave Garroway as a radio personality and instead of a Saturday night 7:30 showcase, he'll be spotted Monday nights 10:30. Network is fighring on the line of the old vaude axiom, "leave 'em laughing," and will thus have Carroway bringing up the rear of the 'mood music' evening.

Matchabelli Back

Prince Matchabelli is coming back into radio. Perfume com-pany, which formerly sponsored the Paul Lavalle pops-semi-ciassical Paul Lavalle pops-semi-classical stanza on NBC and CBS as an instanza on NBC and CBS as an inand-out Sunday afternoon attraction, is buying the 2:30-3 p.m. Sunday segment on Columbia this fall,
preceding the New York Philharmonic symph concerts for a return engagement of Lavalle.

Move comes in wake of Carnation moving its "Contented Hour"
into Sunday night at 10 on CBS
and Standard Oil of New Jersey
mulling sponsorship of Andrew
Kostelanetz Sunday at 5.

Who Lands Where? Query Keeps CBS Execs Guessing

Prevailing Jitters for an executive level around CBS are said to stem from the fact that board chalrman William S. Paley, now that he's refreshed from his European vacation, will turn his immediate post-tabor Day attention to the problem of effecting an integrated AM-TV pattern.

The move, in turn, it's reported,

pattern.

The move, in turn, it's reported, will result in a wholesale realignment of executive positions. "Who lands where?" is the question uppermost in the minds of execs, particularly in the programming division, where the divorced AM-TV operations have been the cause of considerable confusing.

Thus far CBS has effected integration only within the ranks of the Public Affairs Division, under veepec Davidson Taylor, Jr.

Sale last week of "This Is Broadway" as a half-hour video program for Sunday night showcasing in the 7:30 period served to point up anew the confusion within the programming department resulting from the present unintegrated setup. Show was created by Irving Mansfield, strictly as an AM attraction. Mansfield himself operates out of the radio dept.

A few weeks back "Broadway" was converted into a simultaneous AM-TV show and last week the video stanza was soid to, Crosley. The original AM version is being dropped. Thus the program, conceived by the AM boys, moves out of the radio creative ken into tele with Mansfield remaining as the only bridge between the two divisions as producer of tie program.

BIG NOISE NOW

By GEORGE ROSEN

The big noise in agency radio activity is, far and way, BBD&O. The 'House of Duffy," with its enviable roster of stars and major accounts, has, within the span of two years, parlayed itself into the trade's "wonder agency." Whereas five years ago it wasn't even in the running in terms of major league network prestige programming, it goes to the post next month for the opening of the '49-'50 broadcasting scason with the most solid lineup in the business, including, among others. Jack Benny, Bob Hope, Phil Harris-Alice Faye, Frank Sinatra-Dorothy Kirsten, the U.S. Steel's "Theatre Gulld on the Air," Fred Waring, "Hit Parade," "Cavalcade of America" and "Sam Spade." trade's "wonder agency." Whereas

Back in 1944 the agency's only bld for a place in the nighttime programming sphere was "Cavalcade of America" and Phil

rade of America" and Phil Spitalny.

A "then-and-now" appraisal of agency activity spanning the 1944- '49 five-year period (see chart) reveals just how turbulent the transition has been. Back in '44 it was J. Walter Thompson and Young & Rubicam slugging it out, as they had done for years, for "top dog position in nighttime billings and star-studded shows. They divided the "cream" between them.

Those were the days when Y & R boasted, among others, Jack Benny, when he was selling Jello; Burns and Allen, Eddie Cantor, Dinah Shore, Kate Smith with a full-hour variety show, "Duffy's Tavern" and such sundry items, which contributed toward a fabulous billings payoff, as "Molle Mystery Theatre." Sherlock Hoimes, "Silver Theatre," Goodyear's "Star and the Story." "March of Time" and Celanese's "Great Moments in Music."

It was a period, too, when JWT Story, March of Time and Celanese's "Great Moments in Music." It was a period, too, when JWT

It was a period, too, when JWT was riding high and handsome with Bing Crosby's "Kraff Music Hali," "Lux Radio Theatre" (which now remains the only bigtime network entry on the JWT books and the agency's sole Coast-originating-ing program; Edgar Bergen and Charlie McCarthy, Frank Sinatra, Bob Crosby, the brace of Ford-sponsored nightime entries, "Greenfield Village Choir" and "Watch the World Go By"; the Ballantine "Broadway Showtime," Wrigley's "America in the Air" and its hid to break the daytime serial strangehold with Alfred Drake's "Broadway Matinee" for Owens-Illinois.

"Broadway Matinee" for Owens Illinois.
Like JWT, Y & R's Coast production (which once set the Hollywood pace) has been whittlêd down to a single entry: "My Favorite Husband," which actually, is a CBS-built package.
The five-year interval has witnessed a drastic reshuftle of agency standings in terms of programs and billings, with Benton & Bowies, next to BBD&O, moving into a new sphere of influence with its im-

CBS CUTS PLATTER FOR 750G KOSTY PROGRAM

Standard Oil now wants to come back into radio, with Columbia pitching up the Kostelanetz program for the Sunday 5-5-30 sement. In place of "Weekend With Music" there will be an insert designed to develop native music composition, with Kostelanetz giving a weekly showcase of the best ubmitted.

Proposed ltinerary will take Junkin to the major universities to talk on radio writing in general and "Radio City Playhouse" in particular. Crusading Columnist Is **Bounced From Kentucky** Station Under Pressure

Janes B. Rhody was bounced from WFKY, Frankford, Ky., last week because he made "too many attacks on city officials and the police department."

According to manager Wallace Robinson, Rhody's comments were undermining the confidence of the listeners in Frankfort's police force and encouraging "petty thieves and delinquents" into greater activity. Robinson took the position that the airlanes are not the place for anyone's personal gripes.

gripes.
Rhody's version of the Incident differed with that of Robinson. He claimed he had to buy advertising space in the State Journal, Frankfort's newspaper, to explain why he had been banned by the local station. Claimed his comments were banned "at the insistence of a special group or interest who find free speech objectionable and detrimental to their activities or pursuits."

detrimental to their activities or pursitis."
Rhody's airing, called "This 'n' That." a chatter session during which he crusaded against things he thought were wrong in the city, was a carryover from a column he wrote for 10 years in the State Journal before entering radio three years aga.

Timetable on the anticipated bullish radio market has gone awry somewhere along the line, and the networks appear to be singing another tune. It's recalled five or six weeks ago, NBC and CBS were fully confident that by the end of

fully confident that by the end of August each would have remaining but two or three nighttime half-hour segments for sale. Such, however, is not the case. Those wide open gaps still remain and the sponsorship niibbles are as elusive today as they were a month ago.

and the sponsorship nibbles are as elusive today as they were a month ago.

The webs nonetheless are far from panicky and are now saying: "wait until the immediate post-Labor Day period."

Four or five years ago the majou networks knew by early July just where they stood on fall programming sales. Year by year, inowever, commitments have been held in abeyance and last year it wasn't until the middie of August that the pattern crystallized itself.

This year the economic uncertainties have been more pronounced. The bullish attitude of six weeks back stemmed partially from the predictions of Sunner Schlichter, the Harvard economist, with the webs in turn taking their cue from his note of optimism. But they're fairly well reconciled to the fact, as of the moment, that there will be quite a few open time periods when the fall curtain is officially up in late September.

'Sneak Previews'

Tom McCray, NBC's program chief, has blueprinted a plan for utilization of the pix industry's "sneak preview" technique as a solution to the problem of what to do with shows now on the shelf that didn't have a chance for an airing this summer.

that didn't have a chance for an airing this summer.

In adopting the "sneak preview" idea for network radio, McCray will spot on a continuing basis at frequent intervals the shows that missed out on the summer schedule. Listeners won't be apprised in advance of the "sneak" and they'll be asked to mail in their comments in the same manner as pix companies invite card comment.

nent. Initial "sneak" under the new policy will take place tomorrow night (Thurs.) at 11:30 (that's the night (Thurs.) at 11:30 (that's the experiment), when "Security Agent. USA" gets an unveiling. Actually NBC pulled a "sneak" earlier this summer with Ed Byron's giveaway package, "Invisible Micropione."
"Sneaks" will also serve a dual purpose in that they will be an assist toward establishing prior title and format rights.

'CONTENTED HOUR' SWITCHES TO CBS

Carnation ends an association of 18 years with NBC Oct. 2 when the "Contented Hour" starring Buddy Clark moves to CBS in the Sunday night slot following Horace Heidt, also a fugitive from NBC. Sponsor also bought another half-hour on Columbia for a Saturday matinee show with Jay Stewart as emcee. Starting Sept. 24 on the Coast network, it will spread nationwide if Carnation likes both the show and the rating.

In view of Buddy Clark's Columbia Records deal, CBS regards its web as a natural habitat for "Contented."

SCHWERIN TESTS OF JUVENILE SHOWS REVEAL KIDS, NOT ADULTS, KNOW BEST

The main trouble with many juvenile programs, Horace Schwerin holds, is that they are written to conform with what grownups think children will like rather than really being written for children.

In the Schwerin System's test sessions, one common criticism adults make of shows they don't like is that such programs are "too juvenile." Comments like that are, naturally, valueless to research. In addition, they badly underrate the interests and attitudes of children.

Actually, the Schwerin System's experience reveals, children's sentiments as to the radio material they like don't jibe with what most adults think or feel young people should enjoy. Further, children are quick to react to any departure from the correct presentation level, either on the side of aiming too low or of "talking down."

This article deals with some Schwerin findings on juvenile shows—ones meant mainly for children, though sometimes with a secondary appeal to grownups also. Studies on children's reactions to adult programs have been made from time to time, but these are a separate subject.

adults.

Boys Meet Girls?

Frequent mention has been made in this series of Schwerin's principle of Direction, which has to do with defining the audience groups to whom a program appeals. Cases have been quoted to illustrate how certain elements will make a show better liked by men than by women, or vice versa. In studying juvenile shows, it turns out that the elements swinging programs in the direction of boys' appeal or girls' appeal often have far more marked effects than on adult programs.

One of the most obvious Influences is having a heroine in the story. If too much emphasis is placed on her, the interest of boys often suffers, though that of girls will rise higher.

This doesn't mean that the heroine's part must be erased, but if does mean careful study to learn the amount of emphasis that can the placed on this type of character. This varies from show to show.

On one major juvenile tested, it was found that boys' liking could be retained even though the heroine was on scene throughout the first act, but that it weakened if she was around too much in the second act, where the chases scenes and climactic action took place. Under the former conditions, the average liking score for boys was 10 points higher than when the heroine was featured in Act II.

Another well-known show had no heroine in the episodes tested, (Continued on page 40)

Cantor's 1-Man Show

Eddie Cantor may have a 15-minute, once-weekly chatter show on the air this year, in addition to serving as emcee on NBC's "Take It or Leave It." Comedian, now in N. Y., plans to do an intimate one-man program, having it sound as though he were talking to listeners from his Hollywood home.

Cantor is showing the idea this week to NBC program chief, Tom McCray. "Cookie" Fairchild, orch leader on his radio show, and Bruce Dodge, producer, accompanied him to N. Y.

the year, totaling about \$1,400,000, as Philip Morris this week decided to shift its daytime billings from MBS to ABC. Reason for the move, which will be made around Oct. 24, is said to be the eligie outfit's dissatisfaction with the ratings racked up by its two shows. "Queen for a Day" and "Against the Storm." Decision to shift to ABC is reportedly no reflection on the programs but is due to the fact that MBS, with a considerable amount of unsold time, couldn't surround "Queen" and "Storm" with highpowered stanzas.

On ABC Philip Morris will pick up the tab for "Ladies Be Seated," which is aired from 3:30-3:55 p.m., and Walter Kiernan's "One Man's Opinion." from 12:25 to 12:30 p.m., both cross-the-board. SHOWS LACKING FRESH FORMULA

If there's anything at all that distinguishes the upcoming broad-casting season, it is the undistinguished role radio is currently playing in an attempt to project fresh personalities and ideas into the creative programming picture. A glance at the Sunday-through-Saturday rosters on the major networks reveals how firmly the year-works reveals how firmly the year-

A glance at the Sunday-through-Saturday rosters on the major nettworks reveals how firmly the year-to-year "reprise technique" has taken hold, despite the fact that the emergence of video into the bigtime hangs as a sword over commercial radio is general.

Come October, and CBS board chairman William S. Paley's "dream pattern" of major league programming will be fully realized. This comprises the Sunday night Amos 'n' Andy-Jack Benny-Edgar Bergen-Red Skelton back-to-back parlay, and the Wednesday night Groucho Marx-Bing Crosby-Burns & Allen sequencing.

Major interest centers on the Paley strategy—involving, as it does, a switchover of all the old established NBC favorites—with NBC in turn relying on such "standards" as "Theatre Guild of the Air," "Sam Spade" and Phil Harris-Alice Faye, plus an excursion into giveaways via "Hollywood Calling," to meet the stiff Columbia competition.

This in itself, the trade concedes, is a revealing commentary, for

bia competition.

This in itself, the trade concedes, is a revealing commentary, for aside from the NBC-CBS maneuvering for "top dog" position, the "old hat" overtones attending the programming stand out above all also

else. What few innovations are on the horizon stem from the NBC camp, rather than CBS. The projected three-in-one comedy parlay designed to bracket Ethel Merman, signed to bracket Etnei Merman, Henry Morgan and Dean Martin-Jerry Lewis into an hour segment; the bid to showcase Mary Martin and Ezio Pinza as a radio team; the Monday night experimentation with "mood" programming (se-

and F210 Pin2a as a ratio team; the Monday night experimentation with "mood" programming (sequencing "Railroad Hour," Firestone. Bell "Telephone Hour" and "Bands of America") suggests an attempt at departure from the tried-and-true formula.

On top of that, NBC throughout the summer initiated an impressive sustaining drive with a variegated roster (Merman, "Chicken Every Summer," "Dragnet," "Four Star Playhouse," "Eight by Request," "Tree Grows in Brooklyn," James and Pamela Mason Show, etc.) which revealed a bid for program recognition, despite the fact that many didn't pay off ratingwise.

Murphy was fired after NBC surveyed eastern radio eds and station owners and after Ben Katz, Gruen Prexy, had canvassed dealers. Original format, with emphasis on giveaway aspect, was used by NBC as counter attraction to defeating Jack Benny. Knight played up comedy. Gruen is understood to have ordered return to audition format, which it bought for second half.

Murphy, when notified shortly before broadcast time that he was being dropped, balked at first on doing his windup show, but was finally persuaded to go on. Howed off with the terse air announcement: "This is my last broadcast."

The parley unanimously approved participation in the Television Authority to be set up ynions in the Associated Actors and Artistes of America. Move is interpreted as throwing down the gauntlet to the Screen Actors Gulld, which has turned down the proposal to establish the new TA with jurisdiction over both live and film video, on both coasts.

George Heiler, AFRA executive secretary who is generally expected to resign his AFRA post and be named TA topper when the plan is put into effect, said that the radio union would ask the backing of the 4A's at the latter's executive board meeting Sept. 15. According to Heller, if the board gives final approval to the TA plan, AFRA and the other 4A's unions involved would immediately launch a campaign for collective bargaining in the tele industry.

"I know that some workable solution will be found which will enable us to proceed effectively and immediately to organize this new and most important entertainment medium." Heller declared.

The AFRA resolution declared that video performers must be protected, that collective bargaining can be delayed no longer and that "every effort should be made to reach agreement with the screen guilds" to give performers a single bargaining agent and prevent possible jurisdictional strife. Petitions from dozens of stations indicated wide disinclination to applying for UHF cohannels. Many broadcasters suggested ways in which VHF could be allocated in their cities in place of UHF. They said they could bring television to their communities much sooner with VHF than with UHF, which would require waiting for equipment to be made available.

A surprising number of broadcasters offered to establish VHF television stations in small towns and were willing to proceed as soon as they could get permits.

DuMont's plan would provide 48 UHF channels for metropolitan stations, 12 UHF for community stations, and nine for educational. With the 12 channels now allocated in the VHF band, the proposal would call for the use of 81 chan-(Continued on page 39) Petitions from dozens of stations

Washington, Aug. 30.

While most television applicants were telling FCC last week how it would be possible to provide their cities with VHF instead of UHF stations, Newark Broadcast-ling Corp. (WVNJ) of Newark, offered a plan to make avallable four UHF channels in the New Jersey city. Under the new proposed video allocations no channels in the lower or upper band would be given Newark and all VHF allocations in the New York-Newark area have been assigned.

WVNJ told the Commission it recognized that the only possible way in which additional television service could be furnished to Newark would be through UHF. It therefore proposed that four channels in the UHF band which are allocated to cities less than 200 miles away he also used in Newark, although FCC proposed requirements call for a 200 mile separation of stations on the same channel. Since the other cities using the channels are at least 150 miles away, WVNJ suggests, the use offset carrier would provide a better interference protection to the other stations than the distance separation itself.

At least two of the channels could be used in Newark, under FCC requirements, the station aspear at the September video

He claims his salesmen don't ever get past the receptionists without a fight even while the agency bras are out making speeches about "tV stations don't give much help."

Gillette Bouts In Chi Hit TV Snag

Chicago, Aug. 30.
Squabble between International
Boxing Club and two ex-Chi Stadium fight promoters has temporarily snafued plans to televise 10 major scraps out of Chi starting Sept.
30, and running until April 14. IBC
kingpin Arthur Wirtz has already
arranged with NBC-TV to carry six
of the bouts and CBS-TV to handle
four, but must clear five disputed four, but must clear five disputed dates with the Illinois Athletic Commission before he gives the green light to the tele contracts.

Likewise pending is the position of Gillette Razors as sponsor of all 10 flghts, starting with the Kid Galivan-Beau Jack scrap Sept. 30, and embracing nine other major fights. Illinois boxing mogul Joe Triner is settling the disputed dates this week between Wirtz and promoters Irving Schoenwald and Jack Begun.

Dates set with NBC-TV, all Friday nights, are Sept. 30. Oct. 14, Nov. 4 and 18, Jan. 20 and April 14. CBS-TV dates, all Wednesd ay nights, are Dec. 7. Feb 8, Feb. 22 and March 22. NBC time will be 9 p.m., Chi time, and it's assumed the CBS times will coincide. Gillette already holds the NBC Frittime periods for its New York bouts, but it's believed the sponsor will be just as happy to switch to Chi originations, as long as the calibre of the bouts has some televiewer appeal.

Another wrinkle not yet Ironed

Another wrinkle not yet Ironed out Is whether Chi will be blacked out on the bouts. Wirtz is reported dickering to accomplish this, for fear of the TV effect on his Stadium gates, but whether Gillette will go along is doubtful.

HEFTY TV BILLINGS LOOMING

CBS Vs. RCA's 'Dye-in-the-Sky'

As far as CBS is concerned, the current color television tempest adds up to a "here-we-go-again" and a reprise of the October, 1946, ruling, with the FCC once more yanking the rug from under Columbia.

ruling, with the FCC once more yanking the rug from under Columbia.

CBS is anything but happy about it and privately feels that it's getting a rough deal from the Commissioners, in view of its avowed championing of tinted video. As one CBS exec put: "After all, what network took it on the chin to the tune of \$3.500,000 in trying to push color TV?"

'Thus to accuse CBS of trying to hold back the color advance is slightly ridiculous, the net execs argue.

Attitude of the Columbia chieftains, it's known, is something like this: By hailing the RCA announcement, the Commissioners can pat themselves on the back. They can be jubilant over the fact that they didn't act hastily on the ex-CBS pitch, on the basis that now they needn't change the standards and use up twice as much spectrum space. They can thus relax into a four-five-year period of inaction while RCA fulfills its "pie in the sky" promise. But meanwhile, CBS argues, it's the public that takes the beating.

Around CBS there are some who question whether RCA's electronic color system can do what it claims. They say the technique for integrating color into the existing black-and-white low band was tried and abandoned by Columbia experts as not feasible.

NBC to Project 'American Family' In 3-Hour Saturday Night Showcase

programming, which in effect will give 12 sponsors a three-hour show each at an individual cost of a 15each at an individual cost of a 15-minute segment, has been set by NBC-TV for its fall Saturday night lineup. Conceived by Sylvester L. ("Pat") Weaver, new NBC-TV veepe, the program will have no set format but will encompass all things the average American family does on a Saturday night. By spreading the cost of the three-hour block among 12 bankrollers, Weaver thinks it will lower the cost for each and yet provide enough o' a budget to lure topname stars.

Weaver thinks it will lower the cost for each and yet provide enough o' a budget to lure topname stars.

NBC-TV salesmen are now out pitching the idea to ad agencies and clients, terming the show a gigantic participation. Show will present a panorama of Americans at play on Saturday night, comprising a series of vignettes featuring the name talent. For example, one sequence may depict' a group of teenagers playing a Tommy Dorsey record. Cameras would then dissolve through the record into a live pickup of the Dorsey orch. In the same way, the program may encompass nitery shows, films, stageshows, etc. For a film, the cameras may depict a family going to their neighborhood theatre and (Continued on page 63)

Initial Eagles appearance before the cameras was the exhibition game with the Chi Cardinals held yesterday (29) in Chicago. WFIL-TV presented the game here by Midwest conxial cable facilities. George Walsh, WFIL-TV sports director, did the play-by-play. The game, however, was not seen in Chicago.

NBC NIGHTTIME 74% SOLD OUT

Underlining the belief that television is due for hefty billings during the upcoming season, a roundup of the four major TV networks reveals that NBC is already 74% sold out on its weekly evening time and the CBS availabilities are about 66% gone. ABC and DuMont fall short of the other two webs, but both have a number of new packages on ice which they're confident will snag bankrollers within the next few weeks.

Taking 7 p.m. nightly as the network starting time, NBC's fall program log at this time calls for 24½ hours per week. Of that time, 18 hours have been sold. In addition, two-and-a-half of the still open six-and-a-half hours have been optioned by different advertisers. Biggest hole in the NBC commercial schedule is Saturday night, where "Who Said That," with Crosley sponsoring, is the only show sold. Crosley, in fact, may drop the show, since it has already signed with CBS to bankroll a half-hour version of "This Is Broadway" in the fall.

NBC toppers are confident, however, that their new block programming lineup for Saturday night will go fast. Web is planning a solid three hours of shows, probably starting at 7 o'clock, which will comprise pickups from several stations on the interconnected link tied together by a central theme. Time is to be sold on the block in 15-minute segments, meaning 12 different slots are open to participating bankrollers.

NBC's Tuesday Sellout

NBC's Tuesday Sellout

With confirmation this week of the switch from DuMont to NBC of the Old Gold "Amateur Hour." NBC's Tuesday night lineup is completely sold out for the fall and winter. Present layout has "Kukla. Fran and Oille" (Sealtest) from 7 to 7:30; Roberta Quinlan (Mohawk). 7:30; to 7:45; "Camel News Caravan" (Camels), 7:45 to 8; Milton Berle's "Texaco Star Theatre." 8 to 9; "Fireside Theatre" (Procter & Gamble), 9 to 9:30; "Life of Riley" (Pabst), 9:30 to 10, and the "Amateur Hour" from 10 to 11.

CBS, taking the same 24½ hours as average weekly network time, to date has sold 16¼ hours. Saturday night presents the biggest problem for that web also. Only show sold to date on Saturdays is "Winner Take All." bankrolled by Chevrolet. But, as with NBC, CBS is confident it will have little trouble in filling the available time. Ken Murray's "Blackouts," slotted in the Saturday night 9 to 10 period, has already been bid for by several advertisers. Once that show is sold, CBS believes it will easily fill the adjacent slots.

Wednesday is CBS big night so far, with only the first half-hour of the four-hour evening still open. Lineup at present reads Doug Edwards News (Oldsmobile), 7:30 to 7:45; Earl Wrightson Show (Masland Carpets, 17:45 to 8; "Godfrey and Friends" (Chesterfield), 8 to 9, Paul Winchell-Dunninger (Bigelow Sanford), 9 to 9:30; "Armchair Detective" (Whitehall), 9:30 to 10, and the fights (Ballantine), 10 to 11.

Underhill to Coast For **CBS Operations Study**

CBS Operations Study

Presaging an increased use of Hollywood-originated television programs on the CBS-TV web, eastern program chief Charles Underhill planed to the Coast Friday (26) for a 10-day study of CBS program operations there. Underhill plans to oncover all shows now aired by KTTV, the web's Hollywood outlet, to determine which might be suitable for kinescoping for the rest of the country. He'll huddle with Harry Ackerman, who heads up the web's tele program operations on the Coast, with a view towards lining up a greater interchange of shows. Underhill also plans to confab with Ed Wynn, whose weekly half-hour comedy show tees off Oct. 6 via kinescope on CBS' eastern and midwestern nets.

Santa Fe Goes Video

Santa Fe Railroad has signed for a weekly 15-minute travel film on WCBS-TV, key N. Y. outlet of the CBS web. Films will be scanned in the Sunday night 6:15 to 6:30 slot starting Oct. 2. Agency is Leo Burnett.

Set Retailers Confused On Color To-Do

Television set retailers presented varying reactions this week to the effect on sales of the current to-do about color video. Some claimed the newspaper stories on color, which hit the front pages of several N. Y. dailies last week, boomed sales by finally settling the obsolescence issue in the minds of prospective buyers. Other retailers claimed, however, that the public is now more confused than ever and berated the industry for reviving the color controversy at a time when the 1950 models are just hitting the stores.

One factor gleaned from a survey of N. Y. retailers is that the store managers themselves are confused. One such manager confessed to being muddled over such terms as adapters, converters, etc., and whether TV sets will need them if color is approved by the FCC. This was despite the factual information given about such problems in last week's announcement of its new color process by RCA. As a result, some industryites, fearing buyers may be scared off by such an attitude on the part of retailers, are mulling some form of education campaign for dealers throughout the country.

Spokesman for one of the large indie retailers pointed out that stories on color, besides clearing the obsolescence issue, had also brought video into public view editorially. This, he claimed, gave set sales the biggest push they have had since the political conventions a year ago. Another retailer averred that all the publicity given both color and obso-(Continued on page 63)

This is the situation comedy to which, as a coin-saving expedient, General Foods latched itself on behalf of its Maxwell House product, as replacement for the high-budgeted Burns & Allen show in the Thursday night 8:30-9 period.

There are two factors, however, that may mitigate against "Father" when the Hooper chips are down. Essentially the family-slanted situation comedy clings somewhat to the idiom of "Aldrich Family," which it follows, thus posing the question whether the bracketing of two 30-minute comedy gab sessions is the ideal come-on for listeners. Too, it stacks up against the high-voltage suspense parlay of shows on CBS, with the high-rated "Mr. Keen," in this instance, as the competition.

That fact, however, did not detract from the stirring quality of the mayor's words. He revealed that the death toll of his city was between 21,0,000 and 240,000—more than twice the original estimates. He also revealed that there was a sizable garrison of Japanese solidiers in Hiroshima at the time of the atom blast, which gave the Yanks a military reason for using the bomb. And he explained that Hiroshima has been rededicated as the "Peace City," that it is being rebuilt as an exhibit to halt another war "which would bring thousands of Hiroshimas."

Second half, which dealt with Tokyo, injected more dramatic material in the form of recordings of live from a Niponese vaudeville show, some music from a traditional Japanese play. Americanized nightery in Tokyo, man-in-the-street interviews, and an excerpt from a military government briefing session. Cousins stressed the moint that many Japanese feel they ing session. Cousins stressed the point that many Japanese feel they are becoming a democracy merely by aping superficialities of American culture—comic books, baseball, jitterbugging and nightclubbing. More important, he said, is the need for continued reforms.

"My Friend Irma," rolling into
its third season, continues to be a
crackling good comedy show. It has
two strong factors working for a
solid Hooperating. Firstly, "Irma"
follows the blue-ribbon "Lux Radio
Theatre," and secondly, but more
importantly, it rides with all production cylinders clicking at top
speed. The quartet of scripters,
headed by the program's originator,
Cy Howard, are contributing the
indispensable ingredients of fast
lines and farcical situations.
The characterizations are being
handled by the same cast in the
same expert style of former years.
Marie Wilson, in the title role as
the dumb cluck of a heroine, has
not faded the brightness of her ignorance. Cathy Lewis is back as
Irma's sidekick after being absent
last year. One of the cleverest bits
in the show, is played by John
Brown, as Irma's boyfriend with
an occupational dislike of work.
Other familiar roles are also filled
by topnotch supporting players.

Opening show (29) of the new
season precipitated a steady torrent
of puns, gags, malapropisms and
other assorted forms of absurdity
for a full measure of laughs. The
situation found Irma without a job,

JACK SMITH-DINAH SHOREMARGARET WHITING SHOW
Producer: Bill Brennam
Writer: Glenn Wheaton
15 Mins., Mon.-thru-Fri., 7:15 p.m.
PROCTER & GAMBLE
CBS, from Hollywood
(Dancer-Fitzperald-Sample)
A good show, to which something
new has been added for the season—in the person of Margaret Whiting, who rivals Dinah Shore in the
femme phase of name singers. Miss
Whiting works Monday and Friday
with Smith, Miss Shore Tuesdays
and Thursdays and the two alternate each Wednesday.
Almost exclusively musical, with
a minimum of script between
numbers, Smith's new show gets
over nicely. On the entire week
of programs it adds up to a series
of standard and pop-recorded tunes
by all three singers, solidly backed
by an excellent combination under
the direction of Frank DeVol.
If anything can be cited as having a weakening effect on the
broadcasts Smith himself is to
blame. His vocal forte is rhythmic
material which brings out the infectious style that brought him to
attention. On the opening week's
shows he leaned toward ballad
material such as "Maybe It's Because," a type of tune that he unquestionably is handling better
than heretofore, but which simply
isn't Smith. Of course it's to be
expected that working in tandem
with either Miss Shore or Miss
Whiting he must take on a ballad
or two for the interests of pacing,
while they occasionally kick up a
light beat item, but it's a circumstance that decreases the show's
impact to a pop tune level. Smith's
is a "happy" voice and he'd be
better off, and so would the show,
if a better attempt were made to
provided by Miss Shore and Miss
Whiting and their promoting of
recorded material. There are
plenty melodics available, with a
little digging, that would make
Smith's innings different and at
the same time play to his ability.
"I Still Get a Thrill," which he
did Thursday (23) isn't different
enough.

"Hollywood Star Theatre," resuming after an eight-week layoff, is a neat, modest-budgeted dramatic show. Novel peg of this airer is its showcasing of up-and-coming film and radio thespers in the lead parts with a top Hollywood name appearing to introduce the new-comers. While the studio stars contrib only some perfunctory comments, they make good dialer bait and publicity icing. Show's basic value, however, depends on the calibre of scripts written by free-lancers.

Opening show Saturday (27) was a solid horror piece that was expertly projected by a good cast. Yarn involved a murder-for-insurance scheme with an innocent young gal playing the patsy for an urbane killer. Although the wind-up rescue was based on a series of unlikely coincidences, the plot developed several original twists that provoked interest and attention. If future scripts maintain the level of the opener, this airer should garner a hefty sector of the Saturday evening market.

Newcomer on this show was Jeanne Bates who played the fentile lead. She registered effectively, showing plenty of emotional power in the near-murder scene. Ronald Colman handled the intro in his usual suave manner. Rest of the cast also performed expertly with a good assist from the background music.

There's something unpredictable about Willson and his musical aggregation. Granted he's not AFRA's choicest specimen in the gift of gab department, or that the writing has prize-winning overtones. The fact remains that there is an arresting quality about the pseudo-philosophical, corny ramblings. He literally throws the book at his audience in the potpourri that represents a musical format, but at the most unpredictable moment there emerges a line or a musical tidbit that redeems the stanza.

musical tidbit that redeems the stanza.

Last week's initial NBC broadcast spanned the gamut—typical for the Willson course. His byplay with the Talking People and their precision tongue dance (which incidentally, provides a lift to the Jello commercial); the transition from the Josef Marais and Miranda South African incantation to Joyous hymnal notes of "Abide With Me" the provocative jumping of Jivin' Joe, the excursion into the Willson "chiffon swing" and the variation on the Sigmund Spaeth "tune detective" stunt—they were all in evidence in a loosely-constructed formast that, perhaps by intent, had the listener hanging around to find out what's coming up next.

Ralph Edwards' "Truth or Consequences," with its telephone give away stunt, is one of the shows that could come under fire of the recent FCC ban. Unlike those which depend strictly on the jackpot twist, though, this one was originated 10 years ago and built its following sans the giveaway before such audience lures were conserved. As a result, if the FCC ban sticks, it would be possible for Edwards to revert to his original format and still probably maintain the high ratings the program has received in previous years.

"T. or C." returned to the air Saturday night (27) after the usual summer hiatus. Format, judging from the initialer, varies not a whit from that of last season. The show was replete with questions submitted by listeners, the contrived consequences for giving out with wrong answers and the giveaway stunt. There was enough entertainment value in the "T. or C." part alone to indicate Edwards could eliminate the telephoning with little loss of audience.

Edwards' successor to the "Miss Hush" and other identification contest is "Laughing Boy." with a \$2,500 prize going to the listener who identifies him. Mystery character made a call to a listener during the week and Edwards rephoned the same listener during the broadcast to play back a transcription of the recording for identification. Fact that the recording was very bad, however, almost negated the stunt, since the mystery man's voice could hardly be heard. With no winner last week, another listener will get a chance on the next show.

Consequence anties Edwards put the studio contestants through still.

Consequence antics Edwards put the studio contestants through still sounded too visual for the most part. Studio audience got all the benefits, with home listeners forced to rely on the emcee's description of the goings-on. Stunts, though corny, were clever. There may be listeners who would object to the way the contestants bid for self-ridicule, but, with no klekbacks from the participants themselves, Edwards probably has no worries on that score.

WAVE-TV, Louisville
Any TV show with a Churchill

Downs background will get attention in this hoss race-minded town, and this one has an excellent set depicting the grandstand at the famous Derby oval, executed by Mary Alice Hadley. Contestants, three males and three femmes, were local sports figures in the field of baseball, golf and tennis Men were Billy Herman, 21-years in major and minor league baseball; Wayne LeMaster, also retired pitcher who made the rounds from minor league to major, then back home where he is proprietor of an antique shop, and Irv Jeffries, local boy who played in the majors. Gals were local tennis and golf tournament players. Sweepstakes quiz gimmick was a chart depicting horses, which were advanced when the contestant answered the question correctly. Q's and a's were on various subjects, but none strangely enough on sports. Quizees were rather slow on the upbeat, and closeups were greeted for the most part by deadpans. Neat job of mc'ing was turned in by LaVell Waltman, regular WAVE radio announcer. One distracting note was announcer's stand which in some shots took up too much space in the frame. Waltman kept the quizzes in a light vein, and had the contestants in a happy mood throughout.

Telephone angle was worked by calling individuals with a jackpot question, which no one answered at the show caught. Prizes to be given away are a television set, portable radio, and a vacation trip to Fontana Village, in the Smokey Mountains. Contestants on the show were given cigaret lighters, compacts, and the like.

Another gimmick which was slanted at viewers was a jissau howing part of a man's face, nose and ear. Each week another section will be added until someone guesses the identity of the phiz. There's a lot of good quiz stuff for contestants, viewers, and stay-at-homes, with a chance for all to win something.

Nice production effort went into this stanza, camera work was sharp, and results are to be commended.

After experimenting with sevral half-hour television formats last season. Bonafide Mills returned to the air Friday (26) with a standard vaudeo presentation. Show is patterned after almost every variety program that's been on TV yet, Such a layout, at its best, would be dependent entirely on talent and, at least as far as the preem went, the talent wasn't overly impressive.

George Givot, as emcee, was lacklustre. His opening monolog failed to catch on even with the studio audience and his method of tle 15-minute musicale, similar in

Dancer Shirley Levitt looked well in an impressionistic number that was highlighted by some fine shadow lighting and camera effects. Paulette Sisters, a vocal quartet, handled their two numbers adequately but would have more impact if they limited their efforts to one tune. Joe E. Marks did a neat introduction with a rhythm monolog routine and the Cavalier Trio, led by Dick Style, backed the acts capably.

break up the mood and the program's personnel must get started again.

Talent on Saturday's (27) show wasn't hard to take at all. Most of the acts did extremely well and Carter individually did one of his better stints. The Winter Sisters' acrobatics warmed up the set and Georgia Gibbs produced a high standard of warbling.

The Brooklynese of Phil Foster also registered extremely well as did the comedy antics of the Pitchmen. Kathryn Lee did a tasty bit of dramatic ballet. In fact as far as talent was concerned, the sole negative turn was that of the Treniers, a strictly jive and bop item.

Under sensible standards of commercials, this show should have hit the upper rungs of audience acceptance, but with the pace broken up so frequently by plugs, it wasn't.

All "EXTRAS" are standard equipment

There's a good reason why so many advertisers select WLW first as the vehicle to carry new selling appeals.

WLW-700

For here is a radio station with unequalled facilities - a great station that is equipped to provide many extra services far beyond simply selling time on the air.

And here, in WLW-Land, are 330 counties comprising parts of seven states -an area that presents a true cross section of the nation.

Yes, you'll find that WLW's Merchandise-Able Area is an ideal proving ground for new advertising campaigns, new techniques, new products. And with a "know-how" peculiar to its territoryplus adequate manpower-The Nation's Station is in a position to help you study this market of nearly fourteen million people. It can smooth the way in securing distribution . . . gaining dealer cooperation...getting consumer reactions.

If you are planning to launch a new advertising campaign or introduce a new product, talk it over first with The Nation's Station.

On show caught, Newcomb did a varied dramatic reading of poems ranging from war themes to pastorals. Except for one flaw, when a musical bit from a record was overplayed, Newcomb slipped easily from one mood to another with no jolting transitions. He showed an adaptive voice and some skill in catching the keynote of the selections.

Schwerin On Jive Shows

though the popular story series on which the program was based did have such a character. More than three times as many girls as boys voted that there should have been a woman in the story.

The presence of young children in "he-man" adventure stories usually has great appeal for girls, but is not pleasing to boys. This is particularly true if they are portrayed as so young that they are helpless when placed in dangerous situations. Boys old enough to take part in the adventure, however, are frequently well liked as characters.

Bringing songs or music into ad-

ever, are frequently well like as characters.

Bringing songs or music into adventure stories is also customarily more appealing to girls than to boys. There are cases where this has been done in which that part of the show was the high liking point of the show for girls but the low point of liking among boys.

Cirls are more sensitive to rough

point of the snow for girls but the low point of liking among boys. Girls are more sensitive to rough scenes, and especially to actual or implied brutality, than boys are. Girls particularly dislike any suggestion of cruelty to animals. In one leading program extensively tested by the Schwerin System, the two most disliked sequences were of this kind. In one, the heavy killed an animal to get blood to spread around so that he could fake a murder setup. In the other, two crooks discussed a plan for killing a watchdog. Girls' liking dropped off violently each time. In addition to finding whether juvenile programs appeal more to boys or to girls, the Schwerin System examines their age group appeal even more closely than that of adult shows. Children's liking scores are usually studied year by year to see at the state of the sense the sense.

dult shows. Children's liking scores are usually studied year by year to see at what age the show reaches its peak appeal. When this peak is found to be at too young an age, this signals the need for corrective changes that will increase the show's interest for older children.

Kids Sharp Critics

In most cases, children seem quicker to catch plot flaws than adults. They have sharp ears for

spotting inconsistencies or impossibilities in a story, and such faults will adversely affect their liking for the program.

Beyond that, credibility is especially important in putting together juvenile programs. The mood of such a show does not have to be realistic, but, once the mood is such a show does not have to be realistic, but, once the mood is established, any departure from its own internal set of rules will prove costly. Thus, on various shows tested by the Schwerin Sysshows tested by the Schwerin System, some exploits assigned to animals have created high interest, while others have lost interest because the children didn't believe that any animal could possibly perform these exploits. For example, an animal warning its master or going for help may create high interest; but belief and liking went down when an animal was supdown when an animal was sup-posed to have dug up a hidden cache of gold.

determining the mood of a In juvenile adventure program, a key question to answer is whether hero or setting is the center of inter-est. The answer, of course, is not the same for all shows. If the hero is the focus, too much emphasis on scene-settings and too nuch stress on odd and colorful locales may actually weaken interest. If the setting interests young listeners most, the hero can often be absent from the scene for considerable stretches, and there can be more time devoted to narration. The true mood of a program is not automatically identifiable, but it becomes clear in testing.

Too much parartics by the way. sis on scene-settings and too much

Too much narration, by the way, can be just as disruptive of mood on juvenile shows as on adult programs. In the case of one major grams. In the case of one major youngster's show tested, episodes having about a fifth of the total story time devoted to narration scored eight liking points higher than those which devoted a third of their story time to narration.

One final point that has come out of the Schwerin System's qualitative testing of children's shows should also be mentioned here. It concerns over-complex-

This is a fault that should thy. This is a fault that should especially be guarded against. There is no surer way of getting children to lose interest than by children to lose interest than by bringing in an unnecessarily large number of characters or too much subplot material. One animal fantasy tested had a low liking score among children, but the young people voted that they liked nearly all the animal characters better than they liked the story. The animal characters the children said they didn't like were involved in scenes that had nothing to do with the main thread of the story. Clearly, cutting down on the number of these characters and sticking to one simple story line would have raised liking substantially.

To sum up, the Schwerin tests

To sum up, the Schwerin tests have shown that producing good juvenile programs is at least as hard, and perhaps harder, than turning out adult programs of real quality. Those concerned with turning out adult programs or real quality. Those concerned with such shows must stick close to cer-tain basic rules—and departure from those rules is apt to prove even more costly than when con-structing radio fare for grownups.

Of the seven members of the agency, only four voted, one dissenting. Com-missioners Paul Walker, George Sterling and Edward Webster were in the affirmative. Commissioner Frieda Hennock voted in the nega-tive.

It is generally conceded that if all members had voted, the out-come would have been much closer. Commissioner Robert Jones is known to have been against the majority action. He was ill at his known to have been against the majority action. He was ill at his home the day (18) his fellow commissioners took a vote at their regular weekly meeting. If the vote had been taken the next day, when Commissioner Jones was at his office, the decision would have been three to two.

Chairman Wayne Coy, who re-turned to Washington last week after several months in Europe on International communications mat-ters, is believed to have favored the ters, is believed to have tavored the ban on giveaways. During the oral arguments last October on the proposed rules, he indicated, in questioning Bruce Bromley, lottery expert for ABC, that he was not impressed with claims that "skill" was involved in identifying the mystery tune on "Stop the Music."

Commissioner Rosel Hyde, who has been on vacation in Idaho for several weeks, was reportedly "on the fence" with regard to the give-

Had all the members been present, it is probable that the decision would have been at least 4-3 and possibly 5-2.

The 3-1 vote, according to some lawyers, will weigh heavily before a court. Among opponents of the FCC ban, the vote has been alluded to as evidence of arbitrary action by the regulatory agency. Among defenders of the Commission, the opinion has been expressed that a full vote would have been more conclusive.

conclusive.

Chairman Edwin Johnson (D-Colo.) of the Senate Committee on Interstate & Foreign Commerce, while applauding the voting majority for "courageous action" in banning the shows, told the Senate last week he regretted that seven banning the shows, told the Senate last week he regretted that seven commissioners did not join as a unit in abolishing "this cheap clap-trap which lowers the standing of radio." Similar sentiments were ex-pressed editorially in the Washing-ton Post.

"adamant" in his determination "that no color television system is rejected because it is inadequately presented by those who could have made a proper showing." Jones' remark carried the implication that the Commission may license both the CBS and RCA systems and possibly a third, system.

Jones' Letter was cetengible a re-

the CBS and RCA systems and possibly a third, system.

Jones' letter was ostensibly a reply to a lengthy communication from Stanton outlining CBS' achievements and activities in the color field. Stanton strongly protested implications Jones had made that CBS "has not done its proper part" in color video. This, Stanton said, is "entirely unfounded and unfair." On the contrary, he said, CBS virtually created the art, and contributed more to it than "all the rest of the Industry combined." Yesterday (Mon.) the Commission followed up the Jones-Stanton exchange with requests to CBS, RCA and Color Television, Inc., of San Francisco, which has a "line sequential" system, to provide "as large a number of receivers as possible" to demonstrate their systems at the September hearings. Acting chairman Paul Walker advised the companies that FCC is "most anxious" that color developers present "the most complete tests and demonstrations possible."

Victor in Super Buildup of Flanagan Disks, In Bid for New Band Name

RCA-Victor is attempting to do something that no other recording company or band agency has tried too hard to do since the end of the war—build a new band name via recordings. Using it's revived Bluebird label, marketed at 49c, Victor is deliberately setting about the task of establishing a new maestro personality by basing a studio band on the clarinet-lead musical style which made the late Glenn Miller's orchestra one of the nation's alltime tops. A style, incidently, that the current Tex Beneke Orchestra, actually the postvar Miller band, has not tried to duplicate very seriously. RCA-Victor is attempting to

chestra, actually the postwar Miller band, has not tried to duplicate very seriously.
Victor took Ralph Flanagan, arranger for various bands and radio shows, such as Perry Como's Chesterfield broadcasts, had him turn out arrangements deliberately copying the old Miller style, and record four sides at the helm of a studio orchestra. These disks will be marketed this week as part of the second Bluebird release, and were the reason for Victor's tossing a party for disk jockeys and newspapermen in New York last Thursday (25). The sides were the main fare of the pre-release "showing" to platter spinners.

Victor Intends promoting the Flanagan disks heavily and to keep hammering at the old Miller style with Flanagan, despite the possibility of tangling with Beneke over it (Beneke records for the 75c Victor label). Company's artists and repertoire division feels that if it can help revive the band business by launching a new band name, the pop disk business will be so much better off than it is now, almost confined to top vocalist sales power.

Budd Sweeney and Bert Stille Producer: John Moses 135 Mins; 2:30 p.m., Mon. thru Fri. Participating WHKC, Columbus, O.

On Labor Day this twin-jockey program, which has better than tripled the time period Hooper since it began, will enter its second year. Sweeney and Stille have stuck to an all-request routine, and only rarely spin an uncalled-for tune. They take it easy on this show and as a result the audience feels no pain either. They don't try to be funny or hyper'ensive, they're just relaxed.

Pair splits the chores. When Sweeney handles the mike, Stille is at the turntables, and vice versa. The program uses a musical bridge between numbers and commercials, a unique departure which also adds up to an easy-going atmosphere, the bridge usually always a piano, guitar or harp filissando.

Because of this technique the boys use three turntables and claim they could use four. With all the platter-spinning it's strictly a twoman job. They run a commercial about every five minutes and have nearly all they can handle.

Biggest triumph Sweeney and Stille had during this first year was forcing Victor to reissue the Wayne King recording of "None But the Lonely Heart" with the Franklin McCormick monolog. They started plugging it six months ago, the requests piled up and three months ago came the reissue.

Top orchestra leaders in town for engagements are frequently heard on the program.

Joe Louis Joins Ranks Of Sports Disk Personalities In New Bluebird Release

In New Bluebird Release

Basing of pop tunes on sports personalities was expanded last week from baseball to the fight game. RCA's Bluebird label came out with a tune titled "O! Joe Louis." written by Cy Corber recorded by Cab Calloway.

In recent weeks, there have been such items as "Brooklyn Dodger Jump," recorded by Ralph Branca, Erv Palica and Carl Furillo, Dodger players, and "Did You See Jackle Robinson Hit That Ball." cut for Decca by maestro Buddy Johnson. Plus Columbia's reissue of "Joltin' Joe DiMaggio." originally made by Les Brown in 1941.

Sammy Kaye's orchestra will play the Statler hotel, Detroit, week of Sept. 19, an unusual booking that will serve two purposes. Statler's cafe, seating only 275 patrons, probably has never employed a name band of the stature and expense of Kaye's combination, but it bought the maestro as

Kaye wanted the date, too, and made the Statler a special price. He figures it a good idea to sit down briefly among Chrysler executives, who help bankroll his band on the air via transcriptions. Chrysler itself doesn't underwrite Kaye's band entirely: dealers in various keys and towns buy the time to air the recordings, which are paid for by the manufacturer.

business. All four sides are excellent, cut on a rhythm beat that's slightly more definite than Miller ever used, and are excellent jock and juke material. Flanagan used his own arrangements and turned out cuts of pop and standard music that ring the bell solidly. Harry Prime does the vocal on all four, his voice smoothly fitting into the clarinet-lead style that Miller popularized and which has never been used since.

Billy Eckstine "Body and Soul"-"If Love Is Trouble" (M-G-M). Eckstine's standards and pops have been doing well and these two should follow nicely. But, like his "Temptation" and "Crying" coupling, the pop here is superior. Distinctive singer does too much vocal-playing with "Body and Soul," perhaps to vary it from the National label record recently released, and which was made before he hooked up with M-G-M. At any rate, "Trouble" is superior; a ballad, it's musically in Eckstine's groove and he does a swell job.

Sarah Vaughan "That Lucky Old Sun": "Make Believe" (Columbia). An excellent pairing, Miss Vaughan's "Lucky Sun' isn't going to take over from Frankie Laine's standout version, but it is nevertheless a solid side and it figures to get many a play. It's her type of music. "Make Believe" is fine, too. It ranks with the best disks on the tune. Backed by a group, Miss Vaughan turns up an unusually commercial arrangement of the old melody, in ballad tempo, Joe Lipman's band backs both nicely.

Platter Pointers

Ralph Young does a swell job on "September in the Rain" on Louis Prima's initial Happiness label disk. It's apily backed by another good vocal of a tune titled, "Green As April"...Ray Anthony's excellent band shows up solidly on "Slider," an instrumental (Capitol). Mary Ann McCall's beat-vocal of "Sunday" (Discovery) is a shining example of the work she turns in when the tune is right... Another tune smoothly fitting a slinger, "Ya Gotta Buy, Buy, Buy For Baby," by Kay Starr (Capitol). Buddy Johnson's vocalist, Arthur Prysock, is another who turns a melody a la Billy Eckstine, his "Lovely In, Her Evening Gown" is good work... RCA's Bluebird label knocking out string band disks, "Golden Slippers." and "Hello," by the "Main Street String Band" forming a formidable coupling of that type. ASCAP Talks Per-Program Licensing ALL-OUT DRIVE Pubs Won't Go for Decca's Royalty Format; Blanket Deal May Be 3 Yrs.

American Society of Composers, Authors and Publishers executives, who have been handling television negotiations to the exclusion of the Society's full committee on the subject and its board of directors, journeyed to Lancaster, Pa., last week on tele business. Group spoke there with Clair McCullough, independent video operator, on the problem of setting up the per-program tele licensing contract, which indie station owners Insist should be available in addition to the bianket contract. It was decided by ASCAP that in formulating the terms and the language of the per-program contract, discussions should be conducted with a representative of the indies, rather than with network or National Assn. of Broadcasters reps, who would be more interested in the blanket license angle. McCullough is an NAB board member, but also an indie tele owner.

Exactly how far the negotiations between the Society and tele have gone, aside from walting for the per-program formula, nobody seems to know. Vacations here, procrastination there add up so far to a lot of talk and little action, while publishers and song-writers constantly search for information on how far the ball has been carried, by either side. Meanwhile, ASCAP continues to extend the deadline on a deal; a half

been carried, by either side, Meanwhile, ASCAP continues to extend the deadline on a deal; a half dozen extensions have been okayed by the Society since last Jan. 1.

The deal, when it's finally completed, apparently will be for three years only, instead of the five tele men have been seeking. ASCAP, it's said, is insisting on a maximum of three during which it would be better able to measure the effect video will have on the music business, and to right whatever wrongs are incurred more quickly than a five-year deal would allow. Some ASCAPiles don't see the wisdom in that term, pointing out that, since the deal now being arranged will be retroactive to last Jan. 1, it will barredyel tinto operation before new negotiations will be demanded. A three-year deal will require only the extension by one year of the two-year assignment of rights by publishers and writers, given publishers and writers, given ASCAP last year. That two-year right to represent them began as of Jan. 1, last.

They are expensive, at least to install, since there are some 200 light changes required and numerous floods and spots, all controlled from a panel operated by from two to three electricians. Don McGrane's orchestra will be used at the New Yorker to present the show.

While "Satchmo's" opening night was claimed by Bop City's owners, Ralph Watkins and Monte Kay, to be the biggest, each succeeding evening up to Sunday (28) was bigger, resulting in long lines of holdouts in the street. Club gets a 98c admission price, which covers standing room only. Armstrong is drawing \$4,000 weekly for the date.

'Dream,' 'Georgia' Disk Sales Cue Campaign To Hypo Sheet Music

To Hypo Sheet Music

Prompted by the sales success of recordings of "I Can Dream, Can't I" and "Georgia On My Mind," the publishers of those standards are planning to launch plug campaigns, hoping to add sheet music sales. "I Can Dream," as cut by the Andrews Sisters for Decca, has set such a disk-selling pace in the past week that Chappell Music will put a staff to work on the tune. Same goes with Peer-International, owner of the "Georgia" copyright, which Frankle Laine cut for Mercury.

Another revival selling big on disks is "Someday," led by Vaughn Monroe's RCA-Victor recording. Duchess Music (Leeds subsid) already is at work on plugging the tune and It has reached the No. 4 slot on the sheet music best-seiler lists at Music Dealer's Servlee.

STARTS SEPT. 20

RCA-Victor anticipates spending close to \$2,000,000 o. its campaign, beginning Sept. 20, to consolidate its 45 rpm disks and machines with the public. Actually, RCA exces do not know for certain the exact amount that will be spent, but, including radio spot announcements, television, newspaper and magazine ads and dealer "incentive" contests, the cost will easily approach \$2,000,000 and could possibly go much higher. RCA heads are so emphatic on putting over the 45s that it's said they wouldn't be averse to going up to \$3,000,000.

All told, therefore, it's likely that the 45 development and marketing will in the end cost RCA in the neighborhood of \$5,000,000 or so including the expense of development, loss of sales in recordings and machines, etc. And that's probably a conservative figure.

As pointed out in VARIETY last week, one of the prime movements in the fall campaign will be the reduction of the cost of RCA's 45 player, which jacks into bigger combinations. from \$24.95 to \$12.95 as a means of getting them into the hands of record buyers. This spearheads ads citing the price reduction, calling for 1.000, 800 and 600-line blurbs in 154 key markets throughout the country. This will be followed by a series of 12 weekly ads, bought on a cooperative basis by dealers, distributors and RCA, In similar territories. Radio spot ads will be used on 30 major radio outlets, along with plugs on RCA's tele show, "Kukla, Fran and Ollie." which will emphasize the kiddie aspect of RCA's small 45 players.

RCA sales, merchandising and promotion exces are now out on the road briefing distribs and dealers on the campaign. RCA will give three automobiles and 13 U. S. Savings Bonds ranging from \$1,000 to \$100 to distributor and dealer salesman on a contest basis.

LP Going Great Guns, Sez Col.; **Decca Optimistic**

Columbia Records claims that the improving disk market, plus the impetus of the announcement that Decca Records will bring out a complete line of its albunts on LP platters, has shot the ordering of CRC Microgroove albums up nicely. Columbia asserts that at the moment it is shipping LP sets at a ratio of between two and three to one over 78 rpm wax

at a latto one over 78 rpm wax albums.

As a result, and also with a view toward leading disk buyers more and more in the direction of LP, Columbia is bent on issuing albums only in the LP groove. Heretofore, anything released was either on 78 only, or on both 78 and LP. Naturally, the material to be issued solely on LP will not for the present be top sales. It will consist of standard pop songs and the like that encounter a modified sale.

Decca, incidentally, predicts solds success for its LP's, which will be on the market next week. Advance orders are heavy, especially for the standout "Oklahoma!," "Carousel," "Annie Get Your Gun" and other items.

London Co. Completes 1st U. S. Disking Date,

Slated to Do Uthers
London Records completed its
initial recording date in the U.S.
on Monday (29). First cutting was
done with Al Morgan, former Universal Records. Chieazo, singer,
whose contract London took over
several weeks ago when it bought
his hit master of "Jealous Heart"
from U. Date was done at Muzak
studios, New York.
From here on in London will
continue with a string of dates involving U.S. artists just signed
to the label. Theresa Brewer, new
gal singer recently at the Village

volving U. S. artists just signed to the label. Thereas Brewer, new gal singer recently at the Village Vanguard, N. Y., will be recorded next week, and then Bobby Wayne, former vocalist with Ruby Newman's band in Boston, is due.

London only recently got the right to record U. S. artists here via the conch sion of an agreement with U. S. Decca. This deal gives U. S. Decca an annual quarantee from the sale of its disks in England, et al., through British Decca distribution channe's. This alleviated the U. S. company's complaint that the English company was not extending itself in behalf of U. S. Decca product. In return, British Decca's London company in the U. S. took over U. S. distribution of FPIR classical platters and was given the right to record in the U. S. which it had been prevented from doing.

Ernest Sharow, who has played in the NBC and other symphonies, engaged as new first violist of the Dailas Symph Orch.

Decca Records so far has made little headway among major and minor publishers alike with its new To Entertain GI's Oversea method of toting-up royalty statements owed individual pubs for the quarter ended June 30. While the publishers are being careful to avoid getting together as a group in refusing to accept Decca's payoff principle, fearing price-fixing charges under the Sherman antltrust law, none has so far agreed to Decca's terms. Some have accepted checks "under protest" and others have returned the coln allotted, demanding full payment,

others have returned the coin allotted, demanding full payment.

What Decca is seeking to do is
to deduct from current statements
for returned disks that may have
been shipped as long as a year ago.
Not only that, but instead of toting
returns against sales of a particular
song. Decca simply added up coin
owed and deducted returns in lump
sums. This approach forms a hopeless complication for publishers,
who could not hope to allocate
royalties to writers in a fair manner. For example, deductions for
returns on a pop song that may
have expired months ago are applied against earnings of a pop
song during the past quarter, so
long as one music house published
both. That's all right for Decca,
but the publisher finds himself between two writers, one demanding
payment on the sales of a current
hit, against which the returns of
an expired hit by an entirely different writer may have been applied. It would then be up to the
pub to recover royalties on returns,
which had already been paid to the
writer of the past hit, or absorb the
loss.

Actually, there is only a small

writer of the past nn. or absorb the loss.

Actually, there is only a small amount of coin involved. The disputed amounts aggregate only about 2% to 3% of Decea's overall distribution for the Jine 30 quarter. But pubs are lighting the principle. They feel that if they accept Decea's ideas, which are identical in thought, but differently worked than RCA-Victor's unsuccessful attempt to secure a flat 81½% deduction last fall, all other recorders will want the same deal. And mathematical chaos will result.

CHAPPELL TO PUBLISH DANISH BALLAD IN U.S.

DANISH BALLAD IN U.S.

Copenhagen, Aug. 30.

The Danish ballad, "Lad Tonerne fortaelle," which for the last 12 years has been for Scandinavian tenors what "Trees" is for American singer, will be published by Chappell in America under the title, "Dream Days," with lyrics by the British writer, Carlene Mair.

"Lad Tonerne fortaelle" has over 20 recordings in Scandinavia, which means that each recording firm has had to record it with several different artists — ranging from Royal Opera singers to jazz pianists. The tune is by Erland Frederiksen, known in Denmark as "the man who knows every tune written!" He is in charge of the retail department of one of the biggest music firms in Copenhagen. Original Danish lyric is by Vietor Skaarup, Variety correspondent here.

"Dream Days" will be used as signatur tune in a new series of shortwave broadcasts of light Danish music from Statsradiofonien, with songstress Lilian Ellis emceeing.

Crack L. A. Tooters Lure Longhair **Disk-Cutters Into Westward Trend**

An hegira of longhairs from the east is threatening to lavish its cul-

ture on this art colony. Concert stars with a Red Seal rating are beginning to eye these placid pre-cincts as permanent stamping grounds, in closer proximity to the sprocket factories.

It all came about when Ben Barrett, a music contractor, proved to the Victor crowd that instrumental artists, ergo, top musicians, are as abundantly available here as in the east. He proved his point by round-

abundantly available nere as in the east. He proved his point by rounding up 68 men for a six-side Red Sealer of Grieg's A Minor Concerto. Antal Dorati came out to conduct, with Artur Rubenstein soloning at the piano. Richard Mohr, Red Seal director, presided in his official capacity and is said to have expressed astonishment at the end result of the night's recording. Recording was done at Republic picture studio.

Victor and other concert recorders have long held that class records can be made only in New York, which boasts the best musicians. Barrett plucked his men from concert, radio and pictures and came up with 68 musicians said to be comparable to the best N. Y. has to offer. Not in years had a classic platter been cut in Hollywood, but recently Dorothy Kirsten, Mario Lanza and Robert Merrill were pressed for the needle trade.

Grieg pancake album required

Grieg pancake album required only six night hours, with each of the sidemen drawing \$82.50 for his chore. If the Mr. Bigs of Victor like the Coast sample there'll be more to come. And that will make the artists very happy, to say nothing of the Hollywood Chamber of Commerce, which would tub-thump the town's new cultural side.

Carl Fischer's Off-Air Recording of Shows On Long-Playing Disks

Project to record radio shows off the air on long-playing disks for the air on long-playing disks for private record collections is being planned on a national scale by Carl Fischer Music Co. Deal is being set up on the basis of a new high fidelity L-P recording device manufactured by the Wagner-Niehols company in New York. Legal snars involved in unauthorized commercial use of radio shows are being sidestepped by a system in which the customer will rent the recording machine for a specified time to etch whatever program he wants. Carl Fischer company will handle the distribution of agencies in music stores across the country.

Wagner-Nichols outfit, co-headed by the former bandleader Buddy Wagner, is also setting up a radio clipping service for stations and performers.

Service will include a morgue of all network shows which will be grooved on a four-inch super long-playing disk invented by the company. New recording process, called embossing, is much cheaper private record collections is being

pany. New recording process, called embossing, is much cheaper than the standard acetate disks.

MILLINDER ASKS 100G IN 'HUCKLEBUCK' SUIT

Maestro Lucky Millinder has fled suit in N. Y. supreme court, against his former arranger. Andy Gibson, over parentage of the hit song, "The Hucklebuck." Action asks \$100.000 damages, accounting of profits and that Millinder's name be placed on the time as writer. It's based on circumstances unique to the pop music business, but not so unique gauged from the viewpoint of the "jazz riff" style of music, on which the tune is based.

of music, on which the tune is based.

'Hucklebuck' and Millinder's 'D Natural Blues," recently recorded by him for RCA-Victor, have one and the same music. Millinder's version is instrumental and Gibson's, with the lyrics he added, is, of course, vocal. Question to be settled by the court is whether Millinder or Gibson developed the basic riff on which both melodies are based. There's no question that Gibson did the 'Hucklebuck' lyric. Millinder claims he wrote the original melody last year and it

Inside Orchestras—Music

Music and recording men are wondering about a curious incident of the past couple weeks. Ray Bloch, musical director of Signature Records (and its subsid Hi-Tone), has been offered as an artist to major record companies by the president of Sig. Bob Thiele. Many took the circumstance as an indication that Signature might be going out of business, but the thought behind seeking a major disk contract for Bloch, it's claimed, is that the stuff Bloch does for Signature is too high-class for low-cost, low-price 35c disks such as Hi-Tone.

Decca Records has gotten unusual reaction from its two recordings of "Maybe It's Because." Comme Haines' Coral disk was the first cutting of the tune to hit the market, and it met with such success that it was decided that the song merited another recording, on the Decca label. Dick Haymes cut it and, by virtue of his more powerful name, took over in popularity from the Coral platter, but Miss Haines continues to sell well.

Jo Stafford's **Touring Unit**

Jo Stafford is planning an unique series of concert dates in the midwest during October, Capitol Records singer is making up a unit consisting of Paul Weston, Cap

consisting of Paul Weston, Cap musical director, and a 25-piece band, plus the Starlighters, vocal group, and two other acts, which will play college dates and regular ballroom promotions.

Based on the coin secured for three of the 11 days, Miss Stafford figures to earn a healthy return on the fortnight's work. She's down for one day at Michigan State, East Lansing, at \$4,000 guarantee against 60% of the gross, and a flat \$6,000 for two days at Purdue U. Tour starts Oct. 15 and is the singer's first p.a. work since last summer, when she worked the New York Paramount theatre.

UNION BANS CANADIAN SERVICE BANDS AT EXPO

Upsetting the daily 24,000-seater grandstand shows at the Canadian National Exhibition, the Toronto local of the Canadian Musical Protective Assn. has banned appearances here of the massed bands of the Canadian army, navy and air force. Three 40-piece units from each of the three services were to be included in the finale of the Olsen & Johnson grandstand show as well as the morning raising and evening lowering of the colors. These two ceremonles will now be carried out by three buglers.

will now be carried out by three buglers.

Arthur Dowell, union business agent, refuses all comment; the union president, Walter Murdoch, is in England. Elwood Hughes, general manager of the CNE, termed the union's action a "peculiar decision" and said that his offer to put in standby musicians was refused by the union. Matter is now being taken up with Department of National Defense. It's also pointed out that many members of the three active services' bands, who were formerly professional musicians before joining up, have kept up their union membership fees.

Vic Damone tapped for the Mo-cambo, Hollywood, Nov. 1 and will be followed by Danny Thomas starting No- 21.

SONG CONTEST SNARL

Mills Music has been served with papers in a suit by Larry Stamps, amateur songwriter who won an am contest put on in 1948 by Coast disk jockey Gene Norman at the Hollywood Bowl. Top prize in the contest was a contract under which Mills would publish the winning song, which was selected by

ning song, which was selected by judges Ferde Grofe. Johnny Mercer, Victor Young, Johnny Green and David Rose.

Stamps' tune was titled "Said the Little Train." His suit claims that not only didn't Mills publish it as the contest terms promised, but that Mills subsequently marketed a melody titled "Down By the Station." a fair hit earlier this year, which Stamps asserts was very similar in idea to his creation. "Station" lists Lee Ricks and Slim Gaillard as co-writers.

'TIM-TAYSHUN' REISSUE. ACCENT ON STAFFORD

Capitol Records is back on the market with Red Ingle's "Tim-Tayshun" record, which not too long ago sold over 1,000,000 copies. In reissuing the disk, however, Capisn't missing a bet. While the original release of the platter did not give the vocalist billing, which started a guessing game culminating in the spottighting of Jo Stafford as the purveyor of the hill-billy-slanted vocal, the new disk clearly makes certain it's Miss Stafford.

Stafford.

Cap's new label gives the femme singer top billing over Ingle in an effort to renew sales via her disk mart power. It also has dropped the hillbilly spelling of the song's title in preference to the straight "Temptation" tag.

first night's opening on word-of-mouth that Miss Hutton's band had not arrived but Miss Hutton grimly waved the baton, with long waits between numbers, for the small turnout.

'4 Winds' Blows Legal Hurricane

An infringement suit with freak overtones is being threatened over the current pop hit, "Four Winds and Seven Seas." It involves the Lombardo brothers in several different ways that the music business, with all its infringement actions, never heard of before.

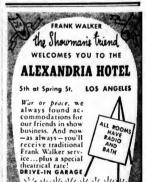

Back in 1927, a tune titled "Where in the World" was marketed, with the writers listed as Ai Lewis, Gerald Marks, Emerson Gill and Carmen Lombardo. Shapiro-Bernstein published. Lewis, Marks and Gili are the complain-Marks and Gili are the complainants against "Four Winds." Lombardo refusing to become a party to it. They assert that the melody of "Winds" Infringes on the melody of "Where in the World." Shapiro, incidentally, also refuses to become a party to the complaint, but may be drawn in on an involuntary basis.

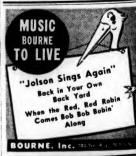

Here's the rub in the whole thing: Carmen Lombardo, listed as one of the "Where" writers, is co-owner of Lombardo Music, which publishes "Four Winds." Not only that, Don Rodney, vocalist with Guy Lombardo's orchestra, is one of the co-writers (with Hal Davis) of "Four Winds."

SAM WEISS SETS UP OWN PUBLISHING CO.

Sam Weiss, former Coast rep for Edwin H. Morris Music, has gone into business for himself. Weiss has been in the east for the past two weeks or so and late last week finalized plans for his own publishing venture, which will be undertaken without outside financiai help. It'li be called Sam Weiss

Weiss will headquarter on the Weiss will headquarter on the Coast, returning there next week, and he will put a one-man staff to work in N. Y., reversing the usual procedure of headquartering in N. Y. and having representation in the west. Weiss gets going with two tunes, one titled "Mad About You," from the King Bros. forthcoming film, "Gun Crazy," and a pop by Dave Franklin titled "A Man Wrote a Song."

FFRR DISKS TO U. S.

London Records flew its first shipment of FFRR recordings into the U. S. from England Monday (29). Shipment consisted of approximately 35,000 high-fidelity disks of approximately 60 different classical selections. They'll be distributed to dealers in the U. S. immedlately. They're all Microgroove Long-Playing platters.

London was to have had the disks here earlier, but held up until a greater number of units could be brought in at once. They're the first FFRR material to be retailed in the U. Saratoga No Longer Playground For Chi-Chi; Pop Prices Key to Biz

The season which ended Saturday (27) at Saratoga has ended the myth that the spa is a playground for society. It's now a foregone conclusion that the hol-polloi have taken over completely and the re-sort will have to run along pop-priced lines if it's to come out

priced lines it its to come out even.

Indicative of the change in the tenor of the town is the engagement of Hildegarde at the Piping Rock club at the beginning of the season. Hildegarde played the spot as the sole entertainer. However, business was extremely spotty, indicating that those the chantoosy draws at the swank spots, such as the Persian Room of the Hotel Plaza, N. Y., where she's the hottest draw the room has, didn't-come to Saratoga this season. Business at that spot picked up immediately with the next show, on Aug. 15, with Joe E. Lewis, Connee Boswell, Raye & Naldi and a line. The spot ended the season in good shape because of the business done the last two weeks.

Another indication that the resort is being supported by those not in the chi-chi set is seen in the fact that the Minsky Carnival

City Slickers' Hot Licks Take Round Haircut Onus Off Sq. Dances

The city slickers are striking back at the country cousins for the introduction of the square dance in metropolitan centres. The urban urchins vacationing in the hinterlands are bringing about a series of changes. The square dance, as is being practiced today in the remote country spots, is a mixture of the rural reels and jitterbugging. General contour of the terp is along established lines, but there are Lindy-hopping embellishments that take this dance form out of the category of relaxation for the oldsters into the classification of violent exercises for youth groups.

Having learned the rudiments of the amount now totals \$25.19 in the canding the country of the same of the amount now totals \$25.19 in the country of the same of the amount now totals \$25.19 in the country of the same of the country of the count

Having learned the rudiments of the backwoods ballets while in the cities, the vacationing kids have superimposed the fancy figures usually cut at the Roseland ball-room on the traditional square

It's now an established fact that the urbanites have taken over compietely. The callers are working more rapidly. The dances are shorter since both the prancers and shorter since both the prancers and the callers need to catch their breath. The callers, incidentally, have been forced to get a wider range of tunes because the number of dances in one night exhausts the standard catalog. The "newer" (Continued on page 51)

STAGE SHOW SKED IN MPLS. UPBEAT

Minneapolis, Aug. 30.

Stage shows are making a decided comeback here. In a single week, starting Sept. 15, for example, the town will have, simultaneously, the musical comedy, "Brigadoon," at the Lyhave, simultaneously, in the Lycomedy, "Brigadoon," at the Lyceum, legitimate roadshow house; a stage show headed by Edgar Bergen at Radio City, and another Palace vaudeville unit at the RKO-Orpheum. Also, Lena Horne will be winding up a fortnight at Club Carnival.

be winding up a fortnight at Club Carnival.

The competition for live-entertainment patronage is expected to prove "the life of trade" instead of holding down the takings for the offerings individually. Local amusement biz believes that the array of attractions will attract many transients from the surrounding territory to Minneapolis during the 10-day period and that additional interest in shows will be stimulated locally to the advantage of all, the only question being whether amusement purchasing power will be equal to the occasion.

Up until a little more than a month ago the town hadn't had a combination stage-screen show in over a year. Now, by mid-September, it will have had five of them. And legitimate stage shows here are only intermittent.

Too-Quick Rise May Hurt

the RKO Proctor, Newark, debuts its first full weck in that house in years. Adams opener was advanced because of change in films. Proctor's lineup so far includes Proske's Tigers, Ben Yost Vikings, Pat Henning, Fred Sanborn, Doris Patts and Mrs. Waterfall, and Peggy Taylor Trio. Adams so far has lined up Roberts Sisters and White, and Benson & Mann. It will be the first time since revival of the Palace shows that RKO has encountered simultaneous opposition. In towns where there is competition, shows are spaced so that there are never two vauders in the same town. Although the Parapetition, snows are spaced so that there are never two vauders in the same town. Although the Para-mount, Syracuse, a Schine house, is playing eight-acters as is RKO, both of them aren't playing at the same time.

same time.

RKO exces stress that the opposition isn't their prime worry.

Major fear is that a string of poor shows will give the policy a bad name and may consequently kill off hopes of further expansion when the supply of acts has ex-

country.

RKO currently feels that it has the advantage over other houses because of the Palace name and the string of 14 weeks that it now offers plus others that will come up shortly. Circuit is still mulling expansion. With that in its favor, chain thinks it can successfully compete with other houses in both price and quality of the bills.

The RKO road shows comprise acts that have first played the N. Y. Palace. Booking of the Broadway showcase is a pre-requisite before the additional road time is granted. This is dramatically opposite the standard practice of former years when a performer had to go out on the road for as many as 40 weeks before he was considered for the Stem showing.

Expand Interstate Vaude

Expand Interstate Vaude
Dailas. Aug. 30.
Vaude business on the Interstate time, which recently revived vaudeville with a "Palace" policy unit, has been sufficiently encouraging to expand the route of the unit now playing the circuit. Opening date, at the Majestic, Dallas, Aug. 18, for a full week, is reported as strongest house has had in some time. As a result of that stand operators of other circuits are buying this unit after Interstate route is completed.
Additions to the route now include a one-day stand in Pine Bluffs, Ark., 'Oct. 1, and a full week at the Malco theatre, Memphis, Oct. 2. Show is currently in Houston and will continue to San Antonio, starting there Sept. 1; Austin, Sept. 8, for four days; Beaumont, Sept. 13, for two days; Ft. The old-folks are now reduced to staying on the sidelines or dancing with couples within their own age limits. Occasionally, a belle will get into a young circle. If the males are considerate of her advanced years, she can last out the round, but she slows the session up for the others.

are considerate of her advanced years, she can last out the round, but she slows the session up for the others.

While the a.k.'s are somewhat resentful of the juvenile invasion from the city, operators are extremely grateful. The rustic retreats have never had such tremendous business. In former years, even with a good Saturday night, it didn't pay the boniface to hire a three-piece band. Today, the Saturday nights pack the spot with overflow buying drinks at the bar and taking them outside. If seating space is essential, the drinkers can sip in their cars.

Also in the bonifaces' favor is the fact that weather is virtually immaterial. Since these hinterland hot spots are in isolated places, customers come by car.

Situation is most evident in the Adirondacks in the Lake George, N. Y., area. Within 15 or 20 miles of that resort there's a plenitude of square dance emporia and all of them are doing capacity business with most of the patronage consisting of metropolitan vacationers. Urbanites who find the new type reels too dangerous get a terrific kick just from watching.

Since the spots must draw on the same crowd within the area, it's profitable to hire musicians for Fridays and Saturdays only. Take on those nights is sufficient to support the spot on the slow nights that follow.

K.F Latches on to Callers

K-F Latches on to Callers

Joining the trend of commercial outfits towards showmanship in sparking sales. Kaiser-Frazer is latching on to the square dance craze as a peg for introducing its 1950 auto models. In several key city tests, the company's sponsorship of outdoor country hoofing for the public has already paid off with huge crowds and heavy newspaper publicity.

A mammoth square dance under K-F auspices was held last week on Boston's esplanade with 25,000 in attendance. Company brought in a corn-pone band, with a caller, and arranged for the appearance of several top square dance units to lead the crowds. Company also held competitions among the hick hoofers in various Boston localities. Jack Goldstein, former pub-ad director for David O. Selznick, handled the promotion.

Jack Goldstein, former pub-ad director for David O. Selznick, handled the promotion.

Kaiser-Frazer will spread the square dance bally into a number of other cities, including St. Louis, Seattle, Plitsburgh and Newark under the overall supervision of Les Kaufman, former publicity director for Republic and Universal. Other angles, such as beauty contests, public service safety demonstrations and free rides for hospitalized vets to ball games, are aboleng worked, but the square dance pitch has proved to be the most effective publicity-getter to date.

Goldstein, in fact, is prepping a square dance unit of eight hoofers plus a caller for a vaude tour. He's currently dickering with Schwartz, RKO theatre vice-prexy, for an appearance at the Palace, N.Y., and other RKO vaude houses.

The trio, Ettare De Grascio, John Lauletta and Ernest DiBiase, all of South Philadelphia, were accused of smashing mirrors and other furnishings in the Tabu, following alleged unsuccessful attempts to get money from proprietors Stanley Schwartz and Irving Perper.

Similar rowdy incidents in at least three other mid-city bars were charged against the three by police. Thomas' knack of mixing everyday experiences, human frailties and underdog stories with bits of nostalgia — all leading to bellylaughs—had seatholders begging for more after 55-minute solo stint. Parody to "South Pacific," backed by Walter Popp at keyboard and called "North Atlantic," exhibits clever songs, stories and twists, particularly his "Bali Hai" takeoff, "Al' Va'i." Guy's definitely got the touch when it comes to story-telling, timing and an endless reservoir of fresh material.

rch, Panchito's Rhumba Band; Orch, Panchito \$3.50 minimum.

Jon and Sondra Steele have been around the cafes for years, and they're an entertaining husband-wife harmonizing team for a summer booking at the Versailles. They're not in the usual chi-chi idiom for the eastside nitery, which caters considerably to the European colony with its bookings, but then again neither are the summer patrons at the Versailles distinctly in the same category. Which makes them a big click with the visitors from out-of-town. Jon Steele is a planist-singer, with his mate supplying the personality at the mike. They do pops and novelties, with their best being "Dry Bones" rather than "My Happiness." by which they're probably best known through their litt disk of that name.

They're the only act on the bill, being backed excellently by the Bob Grant band.

Bop City, N. Y.

Louis Armstrong Orch (6) with Velma Middleton; George Shear-ing Orch (5), The Treniers (6); \$1.50 minimum; 98c. general admission.

Bearding the bopophiles in their own den, Louis Armstrong is knocking over the flatted-fifth iraces and firmly planting the banner of New Orleans over Bop City. Armstrong, has come back to Broadway in top form with a fine supporting combo to reassert jain its classic, hot, four-to-the-bar torm. Even the confirmed bop addicts, who consider ragtime to be prehistoric, don't cavil at paying tribute to the wham jazz man. The phenomenal standup biz at this bop emporium, despite the witting temperatures since Thursday night's (25) preem, is additional evidence of Satchmo's supremacy. No other attraction at Bop City has come close to packing this spot so solidly and steadily in all sectors from the ringside tables to the leftfield bleachers, where the juves are massed standing to the wall.

Armstrong is currently being backed by a topnotch group of sidemen, most of whom also have a legendary aura around them. The combo comprises Jack Teagarden on trombone, Earl "Father" Hines on piano. Barney Bigard on clarinet, Cozy Cole on drums, and a standout young bass, Avreil Shaw. Velma Middleton is the fenume vocalist and does a firstrate job on a repertory of bluesylindigo numbers.

Each of the sidemen also takes long solo licks in a rotating sequence, all delivering superlatively. Armstrong's trumpeting, after spanning nearly four decades of jazz history, still pours out with incomparable drive and melodic inventiveness that surpasses mere virtuoso technique. Talent-packed bill goes over strongly, headed by Janet Blair and the Blackburn Twins.

Miss Blair and the Blackburns, in closing slot, have the boys exhibit their terping and vocaling in their mirror bit of precision dancing before bringing on Miss Blair. Gowned in a flaming red, sequined dress, Miss Blair pipes "Comme Cl, Comme Ca," with dramatic comedy gab about Charles Boyer interspersed. Trio combine their song and dance efforts in "Fine Romance," a clever twist on "Baby, It's Cold Outside," and encore with "Our Father Played the Palace." Latter needs polishing but is good showcase for their fresh appeal and versatility. Act's debut in the hotel circuit rated kudos from ringsiders, and they deserved them.

The De Diego "front" which the Fair committee won't sanction comprises a surrealistic nural that De Diego himself painted, and it depicts practically nude women in a whitish haze and with greenish heads which the Minneapolis Morning Tribune, giving the story a front-page play, said "might be the heads of cows, horses or dragons—no one seemed sure." On Fair committee orders, De Diego covered his mural with uncensorable maroon-and-yellow striped canvas. Customers came to see three items: Frank Bergen's midway, "World of Mirth": George Hamid's boff grandstand show, and Tommy Dorsey's orchestra. Those items sold the CCE and maintained it while it ran.

Thirty-two rides and 22 shows made up "World of Mirth."

New items in the Bergen outfit included a well-equipped children's section with a miniature roiler coaster. New on the midway was Nat Mercys "Vanities," plus some new faces in "Doc" Kahn's motorcade. Last year's "world's largest horse" faced directly across the lane a tent with "world's smallest horses," new to the "W. of M." Bergen has also replaced former neon lighting on fronts and rides with what he claims are cheaper, easier-to-handle fluorescents.

Midway got plenty newspaper space locally, mainly through the organization of Richmond Cox, Spartanburg, W. Va., army captain and former reporter, doing Bergen's flacking.

Ted Weems Orch (13) with
Russ Carter & Elmo Tanner, Bob
Crosby with Virginia Maxey, 3
Stooges, Penny Edwards; "Africa
Screams" (UA).

This stage-screen presentation, aimost ail down the line, seems aimost all down the line, seems made to order for the youngster trade, what with its abundance of slapstick and other comedy. And the enthusiastic Juvenile trade, much in evidence among the near-capacity audience for the first of four shows at 1:50 p.m. on opening day, a hot Friday, surely whooped it up noisily with high-voltage whistling, as well as other approval demonstrations. But the presentation still also holds plenty of adult appeal by reason of its diverse and quality entertainment. Bob Crosby, the 3 Stooges and Ted Weems top the bill.

Tuneful swing, for the most part, emanates from the four brass, four saxes and four rhythm comprising the Weems lineup. Crosby, working through the entire show, shares the emeecing with Weems, and both handle their assignments expertly. The band sets a lively mood with its opener, "Rose Room," after which its good-looking vocalist, Russ Carter, does well enough by "Ball Hai."

Crosby sings of various famous brothers, including his own clan, in a clever ditty, "B.O.F.B." Then animated Penny Edwards, a looker, like others in this and most other shows these days, also taps the rich "South Baseline" in the season.

Then animated Penny Edwards, a looker, ilke others in this and most other shows these days, also taps the rlch "South Pacific" till with the muchheard but always welcome "Wonderful Guy" to fine results. Follows with a vigorous comedic rendition of "Sheboygan" and concludes by offering a bit of first-rate dancing.

After some tomfoolery with Crosby, Glenn West, from the band, lands laughs with his distinctive comedy vocalizing, offering a stammering number and a highly original interpretation of "Cecelia." Billy Blair, rotund bass viol player, steps off the platform to generate considerable mirth, too, as he pantomimes and gyrates through "Ding, Dong Daddy" and "Who Threw the Whiskey in the Well?" Still among the tops in his line.

The Palace blli is made up largely of performers who have headly of performers who have head-lined at competing Broadway vaudfilmers and as such is one of the most talent-laden layouts it's had in a long time. The bill plays smoothly despite an array plays smoothly despite an array of seeming conflictions. Majority of the acts are of the dance variety, or use terping as part of the turn, but diverse choreo work doesn't intrude upon each other.

The standards on the bill include Hal Sherman, Helene and Howard and Chris Cross with Penny the Horse, renamed from Pansy the Horse, also a w.k. item on the variety circuits.

on the variety circuits.

Sherman has a fetching comedy turn, with a winning line of gab and dance impressions. Satire of a sallor tangoing with a moll is his most laugh-provoking bit and provides a solid base for applause. Helene and Howard, in the next-to-ciosing slot, hit top returns with their comedy Lallroom work. Their act has been exhibited virtually at every Broadway vauder but they've rarety looked better since the Palace is able to impart the added dimension of intimacy. Chris Cross. similarly a familiar

the added dimension of intimacy. Chris Cross, similarly a familiar figure on the Stem, has an excellent ventriloquy turn, probably better dressed than the average because of the variety of dolls used. One is a life-sized Mae Westy dame, another is a regulation dummy, and the third is a hand-puppet. Cross does well, but might do better if he puts some volume into his volce. Penny the Horse, with two men in a horse hide and paced by a looker, put on an amusing turn. The comedy is good and customers are rewarded with a steady laugh-stream.

York Palace troupe followed the general pattern established by the return of vaudeville in other cities. Nostaigia hit ail audiences right where they had been waiting to be hit for many years. The oldsters applauded the acts with high satisfaction and youngsters ogied appropriately. The bili, essentially the same one as opened in New York, is a strong one.

Berk and Hallow, pair of tap dancers who threw in a few acrobatics, are expert, if just a little too cute for the opener. The Chords met with mixed reception in their vocai takeoffs of some of the top dance bands.

Everyone went for Fanny and Kitty Watson, vet troupers whose patter is fast and funny, if corny, and their songs go over weil, too. A lot of veteran vaudeville-goers got that oid pleasant feeling to see Fanny still using that characteristic gesture with which she seems to gather the audience to her with one sweep of her arm.

Bob Hammond and his cockstees

Bob Hammond and his cockatoos

Bob Hammond and his cockaloos put on a smoothly coordinated act which has just the right number of comedy touches. Mack, Russ & Owen throw themselves about with abandon to put on a strenuous act of acrobatics made different by the peppy midget.

The interrupted patter of Waliy Brown is amusing. After a slow start, Brown has the audience with hilm right through his song on the high cost of romance in old age. Dollnoff and the three Raya Sisters put forth an engaging doll dance, and, with the aid of lights and Dollnoff in a black costume, exhibit some neat burlesques.

The big name on the current biti 's film composer David Rose, leading an orch of 40 pieces dominated, of course, by a big string section. That's his trademark, of course—plenty of strings. And this orch has no less than 22 of 'em, including a girl harpist.

It is an average bill for playing values, with Eileen Barton clicking with her songstering, Renald and Rudy dittoing in their slow-motion acrobatics with their bodles on-so-beautiful, and Jay Marshall contributing a fair comedy turn. Plus which there is Rose and the orch for the major running time, the show being cut to around 45 minutes because of the pleture's length (114 mins).

the picture's length (114 mins.). The big fault with this orch seems to be that the men don't seem to have played together enough. And that bandstand! It's so crowded that the fiddlers seem to be playing each others' windpipes. The sum total is that there's hardly anything exciting in the band's presentation, which does the inevitable Rose compositions for their closers, namely, "Holiday For Strings."

Renald and Rudy have been around the Broadway showcases, and they're clicko, as ever, with their pyramiding and assorted acros. They're especially esthetic for an act of its kind, because of their s.a. for the dames, in view of their stripped-to-the-waist manner of working.

Miss Barton has an unassuming style, in comparison to most of the current-day pop singers with their overdone affectations. She has the voice, too, and the customers liked her.

Marshall is standard with his droll comedy, namely the assorted objects that he twists into shape from a pleated gadget. He tops off the turn with a ventriloquial bit with a doll that he fashlons with his fist. It's cute, but the talk is familiar.

Featured acts: Wayne and Gibert Shepard, Tiny Hutton, Vahan Khorigian, Nadine Jansen, the Pepperettes (3), Ernie Caunerota, Halyard Patterson, Ralph Sigwald, Tommy Check, Pierce Knoz, Scotty Doggett, Johnny Tulucci: the Heidt-Steppers (11), including Jeannine Meister, Gloria Moore, Shirley Schmidt, Jana Ekelund, Beverly Esterbrook, Wiletta Smith, Don Sky, Nino Tempo, Russ Buddy, Sonny Berry, Don Spruance; featured dancers, Jeanne Harvey, Eddie Krieg, Harold Peck, featured sidemen, Vic Galente, Charles Brosen, Abe Aaron, Don Wilson, Stan Fletcher, Bill Richmond, Stan Plog, Leo Neibaur, Ollie Mitchell, Howard Price, Cappy Lewis, Eddie Freeman.

ken Murray's "Blackouts," after seven-year stand here, is succeeded by Horace Heidt's amateur layout, recruited mostly from his cross-country radio tour, is unashamedly for the yokel trade. Booked in for a three-week warmup for the road, this unit's next stops are Yuma and Houston.

There are probably sufficient customers around who enjoy the spectacle of a young lady in an evening gown playing "Star Dust" on the trumpet and accompanying herself on the piano at the same time. This brass-keyboard wizard is Nadine Jansen. Others are Nino Tempo, who plays "Jealousy" on the clarinet and tap dances; Diana Dixon. "The Bird Girl." who whistles "My Symphony of the Birds," Ralph Sigwald, fine for radio but definitely not a sight act, who pipes "Some Enchanted Evening." The Lord's Prayer" and "Because;" and Halyard Patterson, who keyboards Bach to boogie standing up, dancing, and with one leg crossed over his playing arm, after which Heidt does a takeoff on him.

Heidt is on stage most of the time as emece. He engenders a folksy atmosphere at the outset with a "Shake Hands with Your Neighbor" routine, and birthday and anniversary greetings to customers who are having 'em. There's also a "Hellzapoppin" layout before intermission, in which cast brings payees on stage for first-half square dance finale. Family air is further encouraged through Mrs. Adeline Heidt's appearance with her spouse to sing and dance in the production number, "Boy Meets Girl."

pearance with her spouse to sing and dance in the production number, "Boy Meets Girl."

Acts are sandwiched by similar numbers, in which most of talent participates. Heidt-steppers, six boys and six girls, are all talented terpsters but their routines are strictly from "Good News." Twelve men in band, paced by planist Vic Valente, are snotted onstage throughout the show. They provide good backing. Other acts are Vahan Khorigian, rubberfaced comic, who takes off on Frankie Laine; the Pepperettes, lively girl trio who spark "I Didn't Know the Gin Was Loaded" and "Pussy Cat Song." Tinv Hutton, singer, who does "Waitin' for the Robert E. Lee" and "She's Too Fat for Me." Johnny Tolucci, who mimies Gene Krupa. Slam Stewart, Harry James and other musical satellites. Henry Lerov, who plays "Parade of the Wooden Soldiers" and other standards with spoons: Scotty Dowgett, trumpet and banjo, "The Shelk of Araby": Pierce Knox. blind xylophonist, "Nola" and "Hungarian Rhapsody:" Russ Budd, tapster imitator of Ray Bolger and Bill Robinson; Harold Peck, eccentric dancer, and Tommy Check, 10-year-old drummer, tapster and maestro, whose forte is "I Got Rhythm"

Typical, perhans, of the entire 21-act layout is the last-act "Current News" skit, in which headings involving President and Margaret Truman. Col. Hunt, Drew Pearson, Ingrid and Roberto, Rita and Aly, Vishinsky and Gen. MaeArthur, are invoked. The cast impersonates these figures. It's pretty grim.

Louis Basil Orch; "Top O' the
Morning" (Par).

While this bill is loaded with playing value, liberal priming in time and material would garner better audience reception. As is, show runs slightly over an hour. Youthful tap duo, the Mahoneys, register well, although male member's, solo is bit too long. Final

number, "Jealousy," gets a neat hand for fast twirls.

Lind Bros., local bistro favorites, are tops in the vocal department, but song selection is weak. "Sabre Dance" as opener is too fast, and pop "Forever and Ever" is not fitting to the bravuro style of the trio. "Ave Maria" gets sock reception, but is followed by "McNamara's Band," which seems somewhat ill-fitting. "Sorrento" gives each member a chance to display his vocal abilities. Closer, rapid-fire version of "Flight of the Bumblebee," gets the men off well. Alan Young (New Acts film and radio name, has the audience laughing from the walk-on.

Liberace uses top showmanship in his concert planoing but chatter should be kept to a minimum. Talk is more in the nitery vein and falls somewhat flat here. However, his 88'ing of Liszt's "Second Plano Concerto," score of "South Pacific" and "Slaughter on 10th Ave." get a hefty hand. Vocal rendition of "Cement Mixer" seems more like a rude interjection in this routine.

"Going Native" All-Washington Revue; "Secret Garden" (M-G).

Proving again there's plenty of talent around if it's given a chance, Loew's Capitol, in its 10th annual "family party" last week brought together a show that had even the wiseacres inquiring: are these really amateurs? Although whipped into shape in a few weeks, the revue performed in professional style, with staging, props, costumes and lighting of the highest order.

Outstanding in this year's "Going Native" is the chorus of 14 girls from local dancing schools who work with the precision and zip usually expected in top musicals. Trick lighting effects make several routines especially impressive. Response of audience was terrific at this catching.

Also toos are a trio of young males (Thomas Pence, Bernard Shur and Grover Boydston) in interpretative bits from "Faust," accompanied by two groups of the chorus in the role of sorcerers and angels. Backgrounded by excellent musical scores and fine use of lighting, this number achieves good dramatic effect.

Among the individual acts, David Field, Maryland U. student, who does comic acrobatics on his trampoline; Marion Kiotta, well-trained soprano; James Spear, magician, with very professional female assistant, and Ken Calfee, personable imitator, perform with professional ease and assurance.

Carter Barron and Allen Zee may well be proud of the work done by Joe Margolis, Kay Ford, Margaret Faber (who directed the dances), Sam Jack Kaufman (who directed the music), and the others who made "Going Native" in fished product.

Leon Troune; "The Green Promise" (RKO).

Rounding out its first month, vaude rebirth here is still paying off at the boo, with the current layout shaping up as pretty fair entertalment and enough variety to garner neat mitt action down the line.

Opening with a clean-cut sesh of tapping by Vince and Gloria Haydock, pace is continued by Carlton Emmy and his neat dog act, which goes over nicely. Antics of dogs bring yocks from kiddos and oldsters alike. Kate Murtah follows with a bright session of vocalizing, her ribbing of Hollywood being solid with stubbolders. Dick Buckley, who struts around the stage while making with the lokes, scores strongly, use of four kids from the audience in pseudoventro stint being surefire. Hatswapping turn with audience stooge gets mifty returns. Lela Moore, in a sexy dance skit, slows the pace but the Ben Yost Vikings put it back on the track with some solid vocalizing. Although stint is Hmitted to three songs, "Laugh," Old Man River," and "You Tell Me Your Dream, boys click neatly and had to beg

off.
Senator Murphy, in his first appearance here in several years, hasn't lost his ability to warm up the payees. His zany line of chater and nonsensical remarks about world problems win hefty audience reaction. Bill winds up with the St. Leon Troupe, six boys in a fast sesh of teeterboard tricks, for a strong close. Larry Flinhouse band backs up, acts capably. Nice biz at opener.

Apollo, N. Y.

Norma Miller's "Inside Harlem" with "Dud" Bascomb Orch (13). Wynonie Harris, The Orioles (5). The Briants (2), Dancing Chorus (14); "Spider" Bruce & Co.; "The Ria Fight," (Monu). (13), (5), Big Fight (Mono).

Deviating somewhat from its usual method of presentation, the Apollo has added a mixed dancing chorus this week and tagged the whole show as Norma Miller's 'Inside Harlem.'' Revue-like format is effective both entertainment and boxofficewise. At matinee caught Saturday (27), biz was hefty.

Blues-shouter Wynonie Harris supplies plenty of spark with a quartet of numbors. He maintains an infectious beat and, unlike most of his contemporary chanters, displays good enunciation.

The Orioles are a harmony quintet that's primarily built around the stentorian warbling of one member who carries the melody. Others back him up with guitar, bass and sundry vocal effects. Overall result is often exaggerated and overdone, as on the group's "Porgive and Forget." Boys, however have built up a rep on recordings and they seem to have a following, to judge by their okay reception.

lowing. to judge by their okay reception.

Made up of three rhythm, five brass and five reed, "Dud" Bascomb's outfit is an average crew that pleases in a couple of individual tunes on its own as well as backing the show competently. Bascomb himself impresses in a trumpet solo of "Embraceable You." Only ofay turn on the bill is that of the comedy acrobatic duo, the Briants. They've been doing their pantomimic routines for more than 30 years, and the pair still registers handily.

Staged by Norma Miller, "Rhapsody in Blue" is a fairly effective production number that puts some 14 guys and gals through assorted pirouettes. Lighting is a help, and the group climaxes with a series of collective lifts and spins. Same dancers also score in the finale, which has 'em in a spirited "Frankie & Johnny" number to cop well-merited returns. Comedy is turnished by house funmaker "Spider" Bruce, along with two assistants.

Essaness presentation house has brought in a band show for the first time in more than four months, with change of pace registering well in most instances. Louis Prima orch, while sound musically, goes overboard on comedy numbers with accent on the Italian idiom.

Band opens with "Mariutch" and scores heavy with hoke of "I No Wanna," with leader getting heavy laughs portraying the title role of "All Right, Louis, Drop the Gun." Femme singer, Keeley Smith, needs more appropriate gowning and should diseard her slower numbers for the faster tempoes.

Amazing Mr. Ballantine sells a line of chatter that most name comedians could well copy as he debunks the elementary magic tricks. He garners yocks as he "fails" to accomplish each routine. shy, characterization, which made him a hit on radio and screen.

From walk-on, where he pitches some fast quips at radio commercials, to end, Young has the audience chuckling. Here and there is a tinge which seems out of character, but not offensive. His yearn to portray a film lover is an hilarious bit in which he interposes a specialty song describing him as the new name, "The Flame." Donning kilts he plays the Scottish bagpipes for a few bars of "Campbells Are Coming" to walkoff to solld hand. Brought back he does a nervous youth's first public recitation about a horse, mixing the various parts of the animal for loud guffaws from the audlence. Bow should also be taken by writers Lester Lee and Jack Barnett, Zabe.

8 Mins.: Three Palace, N. Y.

Kuda Bux is preceded into his first local vaude display by a reputation made on video. This East Indian magico has cut a figure over the iconoscopes with his seeming ability to see through a maze of bandages. He's being billed as the "man with x-ray eyes" but his turn at the Palace completely neglects this phase of his accomplishments in favor of his blindfold turn would be a considerable time consumer which the Palace runoff can't afford, but there should be a small portion of his turn devoted to the x-ray work. Kuda Bux does two major feats, first being the producing of an endless number of silk kerchiefs, and the other is making a girl disappear in a booth. Both come off extremely well. Aside from the girl, he's assisted by a male commentator which adds nothing to the act.

The Tattlers, a mixed vocal
quartet, have made previous appearances at the Copacabana, N. Y.,
as well as the nearby Capitol theatre, but in each instance they'vebeen part of the production numbers. Now on their own, this
youthful and well-groomed group
appears capable of taking on assignments in nearly all media.

Vocal work has the benefit of
good arrangements and fresh and
enthusiastic approaches. They've
integrated their tunes with bits of
comedy business and altogether
make favorable impressions. However, they've concentrated a good
portion of their work in the
comedy vein, which is probably the
only department in which they
have still to pick up considerable
know-how. Satire of a radio program is overdone and impression
of a soft-shoe vaude turn just
misses its complete mark. Jose.

The terrific impact of "South Pacific," which some rival managements blame for hurting attendance at their shows, is also claimance at their shows, is also claimed to be crimping the financing of other proposed new musicals. As one disappointed producer complained last week, after an umpteenth audition had failed to raise the required capital, "One Man I was particularly counting on turned it down because he said it wasn't as good as "South Pacific.""

Although numerous announced productions are understood to be in abeyance because of insufficient in abeyance because of insufficient funds, it appears that the coin shortage is especially tough in the case of certain proposed musicals. That's to be expected, since musicals normally cost several times as much as straight plays, and are generally figured as having less chance of making a sizable profit.

What might have become one of the most spectacular financing deals ever made was considered for a time last week by Herman Levin and Oliver Smith, producers of the forthcoming musical, "Gentlemen and Oliver Smith, producers of the forthcoming musical, "Gentlemen Prefer Blondes." They had ar-ranged to charter a plane to fly them, the authors, director, chore-ographer and some of the prospecographer and some of the prospec-tive cast members to Houston for a private audition for Glen McCar-thy, the multimillionaire oilman who recently created a publicity flurry with the opening of his lav-ish Shamrock hotel in the Texas sanital

can actors playing in England, effective Oct. 1.

In an exchange of letters recently, British Equity has sought to work out a complete reciprocal agreement by which a card in either union would entitle the member to work in both countries without payment of additional dues or fees. In the meantime, the English organization has gone ahead and set the Oct. 1 deadline, after which a 5% tap will be put on U. S. thespers in that country.

As far as is known there's little prospect of modification of other phases of Equity's alien rule. Specifically, the stipulation that British players must wait six months between engagements in the U. S. is figured likely to remain intact, and there's believed sim chance that British Equity will try to have the English government's labor regulations amended to ease the employment of American players there.

3 N.Y. Weeks of 'Kegina'

Maurice Abravanel, conductor of
the Utah Symphony Orchestra, will
guest-baton for the opening and
first three weeks of "Regina," musical version of "The Little Foxes,"
which Cheryl Crawford is presenting Oct. 31 at the 46th st. theatre,
N. Y., after a road tryout.

Abravanel, whose last Broadway

in N.Y. last weekend to sit in on
final casting decisions, and beginning of rehearsals next Tuesday
(6). He'll be in N.Y. with "Regina"
until Nov. 19, then flying to Salt
Lake City for beginning of his
regular Utah Symph season. Ilis
first symph rehearsal is set for
Nov. 21, with first concert Nov. 30.

Abbott Backers Few on 'Touch'

George Abbott will have only 10 backers, including himself, for his \$100,000 production of "Touch and Go." revue by Jean and Waiter Kerr, with music by Jay Gorney. Among the investors is Anthony B. Farrell, Albany industrialist and owner of the Hellinger theatre, N.Y., with a \$10,000 slice. Incidentally, Farrell also has a \$100,000 share in, and will be associate producer of, the Theatre Guild's forthcoming musical version of "Pursult of Happiness."

sion of "Pursult of Happiness."

Other "Touch and Go" limited partners include Howard S. Culiman, \$6,000; Abbott's daughter Judith Clark, \$20,000; his nephew Carl Fisher, \$10,000; his brother Burwell M. Abbott, \$12,000; his sister Isabel Juergens, \$6,000; the producer himself, \$21,000, and his secretary. Celia Linder, \$10,000. The partnership agreement provides for a possible overcall of 30%.

SHUBERT GUARANTEES 'NIGHT IN SPAIN' PAY

After a row last week between Daniel Cordoba, producer "Night in Spain" (formerly "Cabalgata") and the American Guild of Musical Artists, Lee Shubert has stepped in to guarantee expenses for the show. Understood there was a dispute about salary pay-ments, with the union taking a \$3,200 bond posted by Cordoba, plus \$400 of boxoffice receipts, to

Central office to handie mail or-ders for ail Broadway shows has been suggested as a possible way to take care of the growing volume of such business. It's figured that a full-time agency, with a staff trained for the work, could do the job more efficiently and econom-ically than the present system of each theatre and producer's office filling orders for its own show. The theatre, it's pointed out, has

filling orders for its own show.

The theatre, it's pointed out, has always operated on a cash basis and is not equipped to take care of mail orders. As a result, the volume of mail orders for a prospective hit frequently swamps a boxoffice staff. The extra employees hired on such occasions are generally inexperienced and apt to be incompetent, so there are aimost certain to be delays and errors.

More important than the cost in-

errors.

More important than the cost involved in such situations is the inconvenience and resentment that may ensue. In the case of "Miss Liberty," for instance, the complaints from disappointed and embittered mail order patrons were so numerous that John M. Murtagh, New York City Commissioner of Investigation, questioned the theatre staff and the producers about it. Drama editors of nearly all New York dailies received letters of protest, some of which were printed.

printed.

Situations of that sort presumably hurt not just the shows directly involved, but tend to allenate theatre patrons generally. In job has been suggested. Its staff would be expert and, to insure against dishonesty, the individuals put under bond.

Of Ultimate Benefit

The idea would be that display ads for shows, including both the advance ones designed to puil mail orders and the subsequent plugs using critical quotes, etc., could carry a line specifying that orders be sent to a regular office, the address of which would be given. Admittedly, the public would take a while to become conditioned to the new setup, but then it might prove superior for patrons and management ailke.

Even if many orders were still addressed to the theatre or the producer's office, as before, they could be taken to the central office for handling. The central office, with a regular system and staff, should be able to keep abreast of the mail (Continued on page 58)

Revision on 'Best Play' Choice Will Be Sought At N.Y. Critics' Meeting

Revision of the N. Y. Drama Critics Circle rules governing the selection of the "best play" each season will probably be sought at the group's next meeting. John Chapman, N. Y. News critic, indi-cated in his column Sunday (28) cated in his column Sunday (2s) that he would sponsor a motion to that effect, and he implied that George Jean Nathan, of the Journal-American, and Brooks Atkinson of the Times, might support the proposal. Other members are also understood to favor change.

Channan suggests that the rule

understood to favor change.
Chapman suggests that the rule should not specify that the "best" play be of American authorship. He would make the award open to ail plays, regardless of the nationality of the author. Apparently, although he doesn't say so explicitly, he would do away with the "best foreign play" classification entirely. The critic broached the subject in writing about the reopening at the Royale, N. Y., last week of "Madwoman of Chaillot," French import, which received the

week of "Madwoman of Chaillot," French import, which received the "best foreign play" citation.

According to Chapman, a motion to eliminate the U. S. authorship requirement in the "best play" selection was presented two or three years ago by Nathan and Atkinson. It looked like a cinch for approval, he reports, but was "unaccountably" voted down in an official meeting.

'Roberts' to Wind Up 54-Week Chi Stay With Near-Record All-Time Gross

The Thomas Heggen-Joshua Logan comedy of Navy life, "Mr. Roberts," winds up lits 54-week run at the Erlanger theatre Sept. 17, a stones-throw away from shattering atones-throw away from shattering the all-time gross record of any legiter in Chi's theatrical history. As is, the production will have grossed more than any vehicle, including inusicals, in the amount of weeks it played. While six other legiters passed "Roberts" in length of stay here, its \$1,339,919.43 take was topped only by the "Good Might Ladies" gross of \$1,413,900 the latter holding the run record with its 100 weeks here.

Chances are "Roberts" could

with its 100 weeks here.

Chances are "Roberts" could have easily captured the gross lead if it didn't have to vacate the Erlanger to make room for "Death of a Salesman," which opens Sept. 19, since its top of \$4.33 nearly doubles that of the \$2.57 "Ladles." Then, too, "Ladles," with its appeal of bawdiness and semi-nudity and sreeching s.a. exploitation campaign, had the lush war years of 1941-'43 to capitalize on, while "Roberts" maintained its profitable weekly take consistently in view of upped prices, recessive economic conditions and tightened purse strings.

conditions and tightened purse strings.

Lowest weekly gross of "Roberts" hit around \$16,000 in May, but for the most part stayed near capacity. Average gross per week hit around \$24,400; weekly capacity is \$28,700. Other long-runners like "Ladies" did a top of \$17,500 weekly, pulling out at the same figure. "Life With Father," which had snagged the record with 66 weeks in the 1940-'41 season, until "Ladies," pulled out at a lean \$13,000, while "Voice of the Turtle," after 67 weeks in 1944-'45, vacated at \$17,000 with a \$3.60 top. "Maid In the Ozarks," a 62-weeker in the 1942-'43 season, pulled out at a weak \$6,000 with a top of \$2.75.

St. 75.
Contrary to the expected rule, "Mr. Roberts" did not get extra heavy play from conventions as did "Ladies," but the Heggen-Logan play remained intact despite cast changes, while it's doubtful that "Ladies" could have survived without Buddy Ebsen and Skeets Gallagher. John Forsythe and Jackie Cooper took over leads June 1, with Richard Carlson and Murray Hamilton bowing out. Hamilton is currently appearing in the Broadway production.

Purchasers are John Wildberg and Joe Kaufman, who expect to stage show on Broadway late next year with practically an all-American cast, although they would have liked Flora Robson, currently starring in the London production. But Miss Robson will not be available till practically the end of next year, and then she will want a holiday.

W. and K. have, however, arranged for Charles Hickman, who produced the play in London, to stage it in New York. Understood price for Broadway and film rights is \$75,000 against 12½% of gross, plus 20% of the profits.

Although substantial offers have been made for the film rights, from practically every major Hollywood film company, no deal will be entertained till after the Broadway production. American owners are seriously considering producing the film in Hollywood themselves after its New York run, with Kaufman using his Hollywood experience in directing.

'Wisteria' Waits On 'House Party'

Whether or not the Theatre Guild decides to bring its "House Party" tryout to Broadway this fall may determine whether Joshua Logan produces his "The Wisteria Tree" this season. Logan adapted the play from Chekhov's "The Cherry, Orchard" as a vehicle for Helen Hayes. However, she is starring in "Good Housekeeping" in summer theatres and is committed for it if the Guild goes through with plans to bring it to town.

through with plans to bring it to town.

Apparently there was some misunderstanding between Logan and Miss Hayes, as he went ahead with the adaptation of the Russian classic in the belief that she would be available to appear in it. He was aware of her plans to do "Good Housekeeping" in summer stock, but thought there were no Broadway prospects for the William Mc-Cleery play.

Although the Guild has financed "Good Housekeeping" as part of a four-play package at a total budget of \$200,000, the McCleery comedy-drama has not been well received by strawhat audiences. So another play may be substituted for it by the Guild. In that case, Miss Hayes would presumably be available for "Wisteria." If so, Logan would schedule it for the fall, as his first solo production. He would also do the stagling.

Shubert Proposal Stalls ATAM Talks

Proposal by Lee Shubert that the Assn. of Theatrical Press Agents & Managers become an open union, has stalled the organization's negotiations with the League of N. Y. Theatres. ATAM officials have flatly refused to consider the move, which they claim would wreck the union. Opening the rolls to new members would aggravate the already serious unemployment in the organization, they argue.

Although the open-shop move was not settled at yesterday's (Tues.) ATAM-League meeting, members of the latter group's board are understood to be trying to persuade Shubert to drop his demand.

any strong Broadway potential. Not another "Oklahoma!" nor anywhere big enough for its title, but a bright musical with a lot of easy-to-take assets including the latest lyrics of Johnny Mercer.

But it was a different story in Act II. The story foundered and the score added little that was fresh. By the late finish—the running time at this catch was two hours and 25 minutes—"Texas. major material renovation has been accomplished.

John Whedon and Sam Moore, radio writers "Great Glidersleeve," currently "Hogan's Daughter") in their first legit collaboration, have an attractive idea in the campaign of a Texas back-country windbag for re-election to the State Senate against his daughter's war hero sweetheart. The role of the Lone Star soapboxer is, of course, a natural for Kenny Delmar, and he troupes through for all the part has. But the introduction of a Life mag-like publisher plotting a rebirth of the Republican party with the Texan as his White House stooge, changes the mood from comedy to a bad brand of travesty. The turns of the romantic plot are telegraphed far ahead, even to the kid sister bringing the lovers together.

Mercer, a lyricist whose thinking is big enough for the state of Texas, brings forth one of his largest numbers in "The Blg Movie Show in the Sky," which happens to be set in the same locale as "Riders in the same locale as "Riders in the sky" but is nevertheless a stopper, and was at performance caught when tenorized by Danny Scholl. Other noteworthy Mercer jobs are the love ballad, "A Month of Sundays," "It's Great to Be Alive." the title number paced by Delmar, and some ingenious verbal exercises. "Affable Balding Me," a poke at the Luce pubs' inverted English, and "Our Family Tree," the sauciest point in the score.

Glenville to U.S.-Europe After 'Double Bill' Stint: Has Two Plays Readying

Peter Glenville, British director who's staging the Maurice Evans production of "Double Bill," increds to divide his time between New York and London henceforth. However, he figures on confining his activities to directing rather than becoming associated in management.

than becoming associated in management.

After the Broadway opening of "Double Bill," Glenville plans to return to London to arrange the production of two plays by U. S. authors. He wants to do both in the West End first, where costs are much lower, and bring them to America later, if they seem suitable. He hasn't revealed the titles of the plays or the names of their authors, and he hasn't yet started dickering for London showings for

Paced by Gertrude Lawrence, September Tide" comes in largely because of the extraordinary illumination with which she plays the central character. She sustained it for nine months in London, there seems no doubt that she could do the same on Broadway.

Daphne DuMaurier's play has its points to begin with. The central theme is that despite the present generation's cynicism, its repudiation of moral values, its bad manners and brash iconoclasm, it can be brought back into the fold through a demonstration of love, of moral fibre, of the basic concepts of right and wrong.

The demonstrator, of course, is Miss Lawrence, as a radiant widownamed Stella Martyn. To her Cornish home above the sea comes her daughter, a bright young thing of 22 or so, and her new son-in-law, an artist nearing his 40's whose war-jaundiced eye is matched by a needle-pointed tongue. Stella, though long on gallant equanimity, is staggered to learn her daughter and son-in-law had lived together some time before their marriage, and appalled at their matter-of-factness as bride and groom.

There presently develops a large hole in the artist's cynical armor and Stella, the eternal romantic (and not too much his senior in years), unwittingly puts her finger in it. The result is an exceedingly ardent romance between mother and son-in-law. The solution to this situation, which occasionally has the atmosphere of Portia facting in a brilliant scene involving, again unwittingly, Stella's son.

The factor that lifts this not-too-excessively British romance within hailing distance of distinction and gives it its American passport, is the dialog. Even in the lusher moments of romance it remains balanced, poised, telling, while in the crips exchanges between, for example, the artist and Stella's perennial suitor, it has wit and surprise. Still it is, from the outset, Miss Lawrence's play. She makes Stella a hypnotic character; it is hard to take eyes off her. While it is clear to everyone that she overdoes the inflection, the gesture, the pause, it is all p authors, and he hasn't yet started dickering for London showings for them.

Although Glenville has staged numerous shows in London.
"Double Bill" will be his first Broadway assignment. He has full authority for the job, as the contracts of the author, Terence Rattigan, give him final say on casting, production details and performance. Glenville staged the original production of the Rattigan pieces in London. Incidentally, the author will come to the U. S. to attend the "Double Bill" tryout in Princeton and the Broadway opening.

Ten-day engagement of "Brigadoon" at the 1,500-seat Metropolitan, scaled from \$4,50 for or-chestra, hit close to fine \$45,000, getting \$29,000 of it last week.

Attendance for most Broadway shows eased slightly last week from the heetic pace of the previous week. But conditions were still much better than during the hot spell of July and early August. Little change in the present pace is due until after Labor Day, when the traditional climb begins. Although receipts for individual shows ebbed a bit last week, the reopening of "Anne of the Thousand Days" and "Madwoman of Chaillot" increased the list to 15 entries and boosted the total gross for all houses. Next opening, excluding "Blackouts," the Ken Murray vaude show, will be the return of Mae West in "Diamond Lil," due Sept. 7 at the Plymouth. No closings are scheduled for the next few weeks.

Dramatic highlight of the current Festival, the first new play in 10 years by poet-dramatist T. S. Eliot, emerges as provocative but overiong and a confusing intellectual crossword puzzle. Serious theatre enthusiasts, especially those congenial to Eliot's philosophy, will be talking about it for a long time to come. But probably no two would agree as to what it means. West End production chances look promising, but N. Y. success looks doubtful.

doubtful.

Playwright has written in more realistic and colloquial terms than in either of his two previous plays ("Murder in the Cathedral" and "Familly Reunlon"). For the first time a chorus is missing. The verse is more felt than heard—in internal rhythms of language and heightened imagery. Though labeled a comedy, play is closer to being a psychological problem piece or drawing room tragedy, with marked resemblance to Philip Barry's "Hotei Universe."

Jean Giraudoux's rich satire on modern politics, business and the general art of living resumed trade at the Royale, N. A few replacements have in no way weakened the play or its punch, so that this allegorical study of the struggle of the peaceful little people against the wicked big shots of the world remains a fascinating evening.

the world remains a fascinating evening.

Martita Hunt continues to give a virtuoso performance as Countess Aurelia, the Madwoman who sets the world right. If possible, she's grown in the part, self-assured, wacky and absolutely captivating. Her lengthy dissertation on her way of spending the day is still a brilliant bit, and the meeting with her two mad cronles in her celiar is still the evening's comedic high-spot. John Carradine, as the ragpicker, leads the support, and scores a bullseye with his mock-defense of the capitalists. Estelle Winwood, as Mme. Constance; Leora Dana, as the waitress; Nydia Westman, as Mile. Gabrielle, stand out in a uniformly good cast. Show drew an enthusiastic reception in this town which is extremely critical from legit angles. Score still rests easily on the ears, even after a couple of seasons. Dance routines come through terrifically, novel choreography getting upper crust rendition by a fleet group. Excellent vocal ensembles also get a substantial hand. Harry Stockwell and Marilyn Day have taken on the top romantic spots and both are well received. Stockwell has been around for some time but for Miss Day, it's her most important role to date. She fills the bill with appeal to spare. Curtis Cooksey, also new to this cast, does a good job as the stuffy southern Senator.

Joe Yule again does the Finian role in good shape, and other repeaters who score are Charles J. Davis, Carmen Guterez, Eddie Bruce, Berenice Hall and Maude Simmons.

"Clutterbuck," giving its American premiere at Elitch stock theatre here to SRO crowds, likewise packs the house with laughs, especially when it gets rolling after a dragging start. Running about two hours and a half, with two intermissions, "Clutterbuck" could stand some judicious trimming which should be done before play can go Broadway. It rolls out sex in heavy doses in such manner that the audience eats it up. It will go over in N. Y. without any trouble.

Cast is small, being three couples and a waiter, with the man carrying the title role being on stage once in each act and not saying a word, but carrying a load of potentialities. Starting rather slowly, the action gets going after long dialog which sets the stage, bringing the audience up to date in the before-marriage sex life of the two couples who carry most of the show.

show. The two wives each spent a spell with the same man prior to marriage. Then, to give the play a seemling surfeit of sex, it's revealed that the two husbands each lived for a time with the same woman, and to top it off the man and the woman were later married, and are on board the crulse with the two couples. The nien are never enlightened as to the pre-marital dawdling, nor do the wives receive any inkling of their mates' misdoings. However, the women teli each other of their conquests, as do the men.

each other of their conquests, as do the men.

In the title role of "Ciutterbuck." Peter Hobbs walks across stage three times, but with dynamite in his step. The five with the principal parts, all meaty, carry themselves well. Their diction is tops, getting everything out of the roles. Ruth Matteson, as Jane Pugh, has the popular part and holds it up throu ghout. Claire Carleton brought in to be the ingenue, snaps the action when she comes on in the second act in a revealing bathing suit, and panies the housewhen, after getting one of her former paramours to do her back with suntan lotion, she asks the other, with his wife there, to do her legs, and plops one of them in his lap. In a few words, "Ciutterbuck" is sex in a triple dose, and then tripled. As one of Miss Carleton's lines goes, "You can't blame a tom-cat for being a tomeat."

Direction by Norris Houghton, who is slated to go to New York with the play, is invigorating. Two settings by Alvin Colt are excellent, with the hotel scene the winner.

Whether intentional or not the fact that "You Got a Regatta" confines itself to a running time of approximately 75 minutes is advantageous. This brevity allows little time for the development of a hackneyed plot and is responsible for the show traveling at a fast and pieasant pace. As a Broadway entry, the musical is too short and too thread-are to warrant production, but as summer theatre fare tion, but as summer theatre fare it's ok.

Cv Coleman and Larry Steiner, in the music and lyric department, respectively, show promise. Coleman, a nitery planist and composer, has turned out a listenable score, while Steiner shines In spots with some clever wordage. Show sports 12 numbers, leaving little time to the story of a boy and girl who compete in a regatta. Boy wins, girl contests decision. Girl's widowed mother and boy's wifeless father, affected by similar situation years ago when they were in love, realize their mistake and, not wanting the same thing to happen to their children, manage to straighten out the whole affair.

Patricia John Canty in the ingenue roie gives a pert performance and offers a cute rendition of "Daddy Why?" questioning the whys and wherefores of sex. Chris Hamilton, as the youth and Lou Frizzell, as his father, are okay, with latter showing good voice in his balladeering of "Strange How Love Can Last." Paulette San Marchi's comic antics are good for some laughs, and Helen Donaldson does nicely as the mother.

Best showmanship display accompanies the tune, "My Father Called Her Bingo," done in the vaudeville idiom, complete with cane, derby and strut. As the opening and closing number, "All For The Glory," captures the feeling of the show. Musleal accompaniment is adequately supplied by duopianists Paquita Anderson and Edward Hein.

with the current lovalty investigations of government employees.

An astute reportorial job. "Sure

has some hard-hitting sconences,
as when some FBI eyes show the

cover to further their own selfish ends.

Story, tautly compressed into a 24-hour span, relates the investigation of a middle-echelon State bept, employee. As an idealistic youth, he had joined the Reds for a brief period in 1938. This, together with his criticism of some governmental policies, his distaste for bureaucratic red tape, and his other non-conformist attitudes, is used as the basis for his dismissal. Miller's implication is that loyalty investigations inevitably trap the innocent and deny Uncle Sam benefit of talented public servants. Despite some sketchy characterizations and superficial political analysis, "Sure Thing" is a tome, punchily-written novel.

SCULLY'S SCRAPBOOK

..... By Frank Scully

Murray Hill, Aug. 29.

Clattering across the continent toward Times Square is Ken Murray 'm'Blackout." Far from being the reserves rushed eastward to support the Palace while Mike Todd plans to open with plushler acts at the Winter Garden, Murray and his carload of corn are set for a two-time killing on their own. In fact, his style of vaude might well outlive all others.

others.

Murray will give New York just about what he has been giving Hollywood since the critics looked at his wares and ordered him locked up for six weeks and then released. That was 'way back in June, 1942. He will feature the same variotous acts, moving them along so fast that vice cops can't spell out sees before he has swung to the acrobats and the animal acts. Even George Burton and his beautiful performing birds will be there to add an air of bucolic innocence to the bawdy merripent. merriment.

Ashes On a Windy Day

Ashes On a Windy Day

Somewhere between those 10 shows a week and that \$17,000 weekly gross he must draw at the Ziegfeld, Murray will shake the ashes of his ever-present eigar in front of CBS' TV cameras and trust that the kinoscopic offset which old pals in Hollywood have to view will not be too hard to see.

In fact, if it hadn't been for one of the juiclest plums ever dangled before anybody in show biz, it is doubtful if Murray would have lett those Hollywood pals till carried on their shoulders to Forest Lawn. Two years ago he told me he couldn't imagine a happier guy than himself. He had everything he had ever wanted—his own show, a packed house every night and lots of time to play golf. But when Bill Paley of CBS offered him a straight three-year deal for an hour a week at a minimum of \$20,000 a program and a layoff guarantee of \$3,750 every week pending the signing of a sponsor. Murray felt he simply couldn't say no.

Figures Don't Lie, But Figurers?

On closing, "Blackouts" had run up a record of 3,943 consecutive performances in one house. Dick Hunt, who opened and closed the show, long ago filed a claim for the all-time long-run record of the American theatre. This is a tricky claim because Hunt based it on the fact that "The Drunkard," which has been running 15 years in one house, is a revival and, besides, serves beer and sandwiches, which makes it, in his opinion, a cross between a burlesque house and a night-club. The only legit contender. Hunt holds, was the New York production of "Life With Father," and "Father" folded after 3,209 performances, or 635 showings short of where "Blackouts" ended its Hollywood run.

ances, or 655 snowings short of where "Blackouts" ended its Hoffwood run.

Elsa Lancaster and the Yale Puppeteers at the Turnabout is left now to fight it out with "The Drunkard" for the Hollywood long-rup record. This melange has been playing to capacity for eight years and, hort of some irresistible offer to Miss Lanchester to quit Hollywood's seth as has come to Murray, it is doubtful if the Turnabout show will stop for another eight years. Ditto "The Drunkard."

Of the original cast only Murray remains for the N. Y. opening the day after Labor Day. Marie Wilson, who opened with Murray, dropped out two weeks before "Blackouts" completed its Hollywood run, and will be replaced in New York by Pat Williams. Also in that original cast were Billy Gilbert, Gene Austin, Roy Davis, Park & Clifford, Nicholas Brothers, Helen Gardner Foursome, Betty Atkinson and Vivien Marshall. Of these all are gone.

The Elderlovelies, too, have been a long time with the show and contribute a nostalgic touch that is possibly more characteristic of Broadway than it is of Hollywood. Toots Shor and other crumbums from the days when Ward's sold a loaf of bread for 5c, will now be able to see what happened to vaude when all the time they thought it was dead. The Ken Murray N. Y. is going to see will not look anything like the character whose smoke has been getting in their eyes for so many years. The export job has a crew haircut with a cowlick instead of a part, and rarely, if ever, wears a hat. Whether he will dare go bareheaded around Times Square depends on whether the warm weather holds out all winter.

vears. The export job has a crew hoircut with a cowlick instead of a part, and rarely, if ever, wears a hat. Whether he will dare go bareheaded around Times Square depends on whether the warm weather holds out all winter.

The chances are you will not see him light a cigar either. He quit smoking some time ago but still carries one for a prop. People whose imaginations are awful fast on the draw have frequently sworn they inhaled smoke arising from his blue gags. But actually what happened was that somebody left a door of El Capitan open and the smog which passed for fresh air around Hollywood came into the theatre and fouled up the air-conditioning.

Murray's D. A. R. Guys

Barring his el ropo routine, the rest is as authentic Murray as Murray Hill. Incidentally, friends of the key comic claim he is descended from the gal who entertained the British at her Manhattan manse while Washington's army scrammed across the Hudson to New Jersey and so lived to fight another day. If so, I suspect the present-day master of emece is using the same gags Mrs. Murray used in 1776, dirtied, of course, by the wear and tear of time.

Old-timers will miss Marie Wilson dreadfully. A trouper always on time and perfect in her timing, she ran up 2.332 consecutive performances in one house. Has any other pal played 10 shows a week, week in and week out, for four and a half years without taking a day off?

In the early days she and Murray were in and out of every skit. In latter years, however, she has done less and less and, if possible, shown more and more. But in the last "Blackouts" she stopped stripping and returned to the plunging neckline. In cleavage she has been the successor to the split neckline. Number of technical developments and explanatory papers are expected to stem from the convention.

Film engineers and research technicians point out that TV has already come to them for advice on lighting, special effects, etc., in current black-and-white broadcasting. CBS-TV, for example, is generally accredited with being the first network to initiate low-key lighting, rear screen projection, etc. Those developments were the work of George Stoctzel, one-time etc. Those developments were the work of George Stoctzel, one-time chief cameraman for indic produc-er Louis de Rochemont, and John DeMott, who had 10 years' expe-rience with Paramount's special ef-fects department in Hollywood be-fore joining CBS.

fore joining CBS. Film researchers claim that most refinements in color photography during the last several decades were either developed by their industry or traced directly to their needs. As a result that made it is needs. As a result, they said, if color video becomes a commercial reality, broadcasters will be forced to turn again to them. Thus, they aver, the two industries will be linked together more closely than film ever.

La Boheme, Hallandale. which may be the sole cafe in the Jr area with a connecting casino, hasn't signed any acts as yet, although it's figured that Danny Thomas may return. The nearby Colonial Inn, owned by Harold Minsky, will return to the non-name "burlesque", policy which was successful last year.

The majority of Florida operators aren't optimistic regarding the ability of the nitery market to support names costing \$12,500 or more. They regard the possible end of the Copa City-Beachcomber competition as one of the best breaks in years, and if they hold off buying, talent agencies may get panicky enough to sell some of their top headliners at prices far below salaries of last year.
